The World's Best Bonds

Some unusual values may be obtained in European Government and Municipal Bonds, giving high yields, and a very large speculative return through advance of exchange. These bonds are legal investments for Savings Banks, Trust Companies and Trustees in the countries of issue.

STRENGTH SUCCESS — The Sign of Service

Illinois Trust & Savings Bank

La Salle at Jackson - - - Chicago

Capital and Surplus - - $15,000,000

Pays Interest on Time Deposits, Current and Reserve Accounts. Deals in Foreign Exchange. Transacts a General Trust Business.

Has on hand at all times a variety of excellent securities. Buys and sells Government, Municipal and Corporation Bonds.

Financial

Multiple Currency Bonds

A characteristic example of a multiple currency bond is

The Government of the Kingdom of Norway 3½%

Tri-Currency External Railway Loan of 1904-1905.

An investor in these bonds is afforded an exceptional opportunity each interest date for he may present his coupons for collection in Sterling—to-day at a discount of 14%; in Norwegian Kroner—to-day at a discount of 40%; in French Francs—to-day at a discount of 58%.

Due to this feature, multiple currency bonds are finding great favor with the American Investors. Our December circular completely describes the above bonds and contains a table showing the possible profit that can be derived from such an investment.

Inquiries are invited.

Good Security Salesmen

are wanted by many firms at this time. We are constantly receiving letters from good firms asking us to recommend good salesmen to them.

More Trained Men Needed

These firms want men who have had the best type of training—those who are taking the Babson Course in Investments and Security Selling.

The *Babson Course in Investments and Security Selling* is the Standard Course used by scores of well known firms for training their salesmen.

This Course gives a man a training in selling securities which takes the place of years of experience, saves costly hard knocks and reduces Lost Sales to a minimum.

Our leaflet "What the Investor Likes in a Bond Salesman" together with an outline of this Special Course will be sent on request.

Simply Ask for Booklet 60M3

Notices

BETHLEHEM STEEL CORPORATION

Secured Serial Seven Per Cent. Gold Notes, Series D.

NOTICE OF REDEMPTION.

To each and every holder of the Secured Serial Seven Per Cent. Gold Notes, Series D, of Bethlehem Steel Corporation, issued under the Trust Indenture, dated July 15 1918, between Bethlehem Steel Corporation, Bethlehem Steel Company and Bankers Trust Company, as Trustee.

NOTICE IS HEREBY GIVEN that Bethlehem Steel Corporation has elected to exercise its right to redeem, and will redeem and pay on January 16, 1922, all of its Secured Serial Seven Per Cent Gold Notes of Series D then outstanding; that interest on said Notes of Series D will cease on said redemption date, January 16, 1922; that the holders of said Notes of Series D are required on said redemption date to present them for redemption and payment at the office of Bankers Trust Company, No. 16 Wall Street, in the Borough of Manhattan, in the City of New York; and that on presentation and surrender thereof with coupons maturing on July 15, 1922 at said office as aforesaid said Notes of Series D will be redeemed and paid at 100% of the principal amount thereof and interest accrued to said redemption date.

CONVERSION PRIVILEGE.

In accordance with the provisions of said Trust Indenture the right to exchange said Notes of Series D for Consolidated Mortgage Thirty-Year Sinking Fund Six per Cent Gold Bonds, Series A, of said Corporation, due August 1, 1948, now pledged under said Trust Indenture, will continue up to said redemption date, January 16, 1922. The holder of any one or more of said Notes of Series D upon the surrender thereof at said office of Bankers Trust Company on or before said date, will be entitled to receive in exchange therefor one or more bonds of said Series A of such aggregate principal amount (which shall be $1,000 or a multiple thereof) that such bonds, taken at a price to yield six and one-half per cent per annum (computed according to the tables of bond values specified in said Trust Indenture), will equal the principal amount of the Notes so surrendered for exchange, with a cash adjustment of accrued interest, and with a payment in cash by said Corporation of that part of the principal amount of the Notes for which bonds cannot be delivered upon any such exchange. Application will be made for the listing of said bonds, Series A, upon the New York Stock Exchange.

Dated, New York, November 23, 1921.

BETHLEHEM STEEL CORPORATION,
by W. F. HARTMANN, Treasurer.

NOTICE OF REDEMPTION

THE UNITED GAS IMPROVEMENT COMPANY

Philadelphia, Pa., December 30, 1921.

TO THE HOLDERS OF THE $7,500,000 EIGHT Per Cent Two Year Coupon Gold Notes of THE UNITED GAS IMPROVEMENT COMPANY, dated February 1, 1921, issued under Trust Agreement between The United Gas Improvement Company and Bankers Trust Company, Trustee, bearing like date:

Notice is hereby given that pursuant to the terms of the Trust Agreement between The United Gas Improvement Company and Bankers Trust Company, Trustee, dated February 1, 1921, The United Gas Improvement Company will pay off and redeem on February 1, 1922, at 102% of par and accrued interest, all of its then outstanding Eight Per Cent Two Year Coupon Gold Notes, out of a total authorized amount of $7,500,000, dated February 1, 1921, issued under said Trust Agreement: that interest will cease to be payable on the Notes hereby called for redemption, from and after February 1, 1922; that the holders of said Notes are required on February 1, 1922, to present them for redemption and payment at the office of Bankers Trust Company, Trustee as aforesaid, 16 Wall Street, New York City, and that on presentation and surrender of said Notes, with all unpaid coupons attached thereto, at said office as aforesaid, payment will be made to the holders of said Notes at the redemption price above stated.

THE UNITED GAS IMPROVEMENT COMPANY.
By S. T. Bodine, President.

Referring to the foregoing notice, noteholders are reminded of the requirement of the Federal Income Tax Law that notes presented for payment having the February 1, 1922, coupon attached must be accompanied by an ownership certificate relating to said coupon.

THE UNITED GAS IMPROVEMENT COMPANY.
By S. T. Bodine, President.

Dividends

THE ALLIANCE REALTY COMPANY

Dec. 29, 1921.

The Board of Directors have this day declared a dividend of two per cent (2%) and an extra dividend of one-half per cent (½%) on the outstanding capital stock of the company, payable January 17, 1922, to stockholders of record at the close of business January 9, 1922. The declaration of the above dividends makes a total of eight per cent declared for the year 1921.

Howard W. Smith,
Secretary.

THE MEXICAN EAGLE OIL COMPANY, LIMITED.
(Cia. Mexicana de Petroleo "El Aguila," S.A.)

A final dividend of 19% for the year ended June 30th, 1921, equivalent to 94.53 cents per share, has been declared and will be paid by the American Exchange National Bank, 128 Broadway, New York, on and after December 31st, 1921, on presentation and verification of Preference Share Coupon No. 25 and–or Coupon No. 18 detached from *definitive* warrants for Ordinary Shares:

Coupon No. 18 detached from *provisional* warrants for Ordinary Shares is not valid for the above dividend.

HERBERT J. CARR,
Attorney-in-fact.

New York, December 27th, 1921.

PACIFIC GAS AND ELECTRIC CO.
CASH DIVIDEND NO. 24
AND
ADDITIONAL STOCK DIVIDEND
ON COMMON STOCK

The regular quarterly dividend of $1.25 per share upon the Common Capital Stock of this company, will be paid on January 16, 1922, to shareholders of record at close of business December 31, 1921.

The Board of Directors also declared an additional dividend on the Common Stock of $2.00 per share, payable to stockholders of record at the close of business December 31, 1921, in common stock at par issuable when approved by the Railroad Commission of the State of California.

The Transfer Books will not be closed. Checks for the cash dividend of $1.25 per share will be mailed from the office of the company in time to reach stockholders on the day they are payable. The stock dividend of $2.00 per share will be distributed to stockholders as soon as the necessary details for the issuance thereof have been completed.

A. F. HOCKENBEAMER,
Vice-President and Treasurer.

San Francisco, California.

WEST PENN TRACTION AND WATER POWER COMPANY.

At a meeting of the Board of Directors of West Penn Traction and Water Power Company held in New York December 21st, 1921, the usual quarterly dividend of one and one-half per cent (1½%) upon the preferred stock was declared payable by check February 15th, 1922, to stockholders of record January 16th, 1922.

The Board also declared a dividend of one and one-quarter per cent (1¼%) on account of dividends in arrears accumulated upon its preferred stock prior to 1917, such dividend to be payable by check February 15th, 1922, to stockholders of record at the close of business January 16th, 1922.

C. C. McBRIDE,
Treasurer.

ATLANTIC COAST LINE RAILROAD CO.

Interest of five per centum for fiscal year ending December 31st, 1921, will be paid upon the Income Bonds, dated December 12th, 1887, of Brunswick and Western Railroad Company, upon presentation of such bonds at office of Safe Deposit and Trust Company of Baltimore, No. 13 South Street, Baltimore, Maryland, and upon proper receipt therefor being endorsed upon each bond.

H. L. BORDEN,
Vice-President.

WESTERN POWER CORPORATION.

The Board of Directors have declared a quarterly dividend of one and one-half (1½%) per cent on the Preferred Stock, payable January 16th, 1922, to stockholders of record at the close of business January 3rd, 1922.

H. P. WILSON, Secretary.

The Peoples Gas Light and Coke Co.
(of Chicago)

BANKERS BUILDING BOSTON

The Whole Range of Investment Service

ANY time that you want to make an offer for the purchase or sale of bank acceptances, bear in mind that we will be glad to receive your offer. We are always ready to quote you the most favorable rate on our own acceptances, when available, or if you prefer we can procure acceptances of other large banks and trust companies.

In the matter of longer time investments we can offer a wide range of highest grade securities through our bond department, which not only participates in the best syndicated issues, but handles securities of its own origination as well.

Feel free to call upon us either for services of our credit department in checking up paper, or our bond department for quotations for purchase or sale of long or short time securities.

Capital and Surplus $33,000,000

The Union Trust Company

Cleveland

Financial

THE BRITISH OVERSEAS BANK

LIMITED

Established 1919.

Report presented to the Second Annual General Meeting of Shareholders, held in the Cannon Street Hotel, London, E. C., on FRIDAY, 16th December, 1921.

The GOVERNING COUNCIL submits to the Shareholders the Balance Sheet of the Bank, as at 31st October, 1921, and Profit and Loss Account together with copy of the Auditor's Certificate.

The profit after allowing for rebate of interest and providing for all bad and doubtful debts, Income Tax and other Taxation for the year ended 31st October, 1921, amounts to £102,326 2s. 10d., to which has to be added the sum of £35,200 7s. 4d., being the balance available from last account, after payment of Income and Corporation Profits Taxes for the previous year, making a total of		£137,526 10 2
Interim Dividend on "A" Ordinary Shares at the rate of six per cent per annum for the half-year ended 30th April, 1921, and Income Tax thereon		30,000 0 0
Leaving a Balance of		£107,526 10 2
which the Governing Council recommends should be dealt with as follows:—		
In payment of a Dividend on the "A" Ordinary shares at the rate of six per cent per annum (less Income Tax) for the half-year ended 31st October, 1921, which together with Income Tax thereon amounts to	£30,000 0 0	
To Reserve Fund against Shareholding Interests in Foreign Banks	£10,000 0 0	
To Reduction of Premises Account	£10,000 0 0	
Leaving a Net Balance to be carried forward to next year of	£57,526 10 2	
		£107,526 10 2

The Governing Council has now been able to conform to the usual banking practice of deducting all Taxation charges before declaring the Profits for the year. The balance of £57,526 10s. 2d. is, therefore, not subject, as was the case last year, to any deductions of this character.

The Governing Council has pleasure in reporting that notwithstanding political and commercial difficulties the Anglo-Polish Bank, Limited, had a satisfactory initial year. The Bank is issuing 50,000 additional shares amounting to P.M. 25,000,000, and the Bank Zjednoczonych Ziem Polskich (Bank of United Lands of Poland), with which close relations have been established, is taking a large participation in this issue.

In the latter part of the financial year, close relations were established with the Dorpater Bank at Dorpat, in which a small shareholding participation has been taken, and an important increase of its activities in Esthonia is anticipated.

In accordance with the Articles of Association, Sir Harry McGowan, K.B.E., and Mr. John Sampson, C.B.E., retire by rotation from the Governing Council, and being eligible, offer themselves for re-election.

The retirement of Mr. A. Pilling, one of the Bank's Auditors, on account of his withdrawal from professional practice, is to be reported with regret. It will be necessary for the Meeting to appoint Auditors. Messrs. A. W. Tait, C.B.E., and A. S. Macharg, the retiring Auditors, are eligible for re-election and offer themselves for re-appointment.

By Order of the Governing Council.

ANGUS McPHAIL, F. H. HOPE SIMPSON, *Managers.*

The services of this Department are at the call of the Bank's clients.

The most recent information on political, commercial and financial conditions in all parts of the World is received and classified, and its bearing on individual transactions studied.

Information on credit and standing of companies, firms and individuals at home and abroad supplied at the request of Customers.

$3,500,000

Cuyamel Fruit Company

First Mortgage 20-Year 7½% Sinking Fund Gold Bonds

Authorized $5,000,000 **To be presently issued $3,500,000**

Dated December 1, 1921 **Due December 1, 1941**

Callable as a whole on any interest date on 30 days' previous notice at 105 and interest; callable for the sinking fund at 107½ and interest to and including December 1, 1926; at 105 and interest from June 1, 1927 to and including December 1, 1931, and at 102½ and interest thereafter. Principal and semi-annual interest (June 1 and December 1) payable at the office of A. G. Becker & Co. in Chicago or New York, or at the office of the Trustee, New Orleans. Coupon bonds in denominations of $100, $500 and $1,000, interchangeable. Registerable as to principal only. Interest payable without deduction for Normal Federal Income Tax not to exceed 2%.

Joint and several obligation of the Company and Cortes Development Company. Guaranteed, principal and interest, by Samuel Zemurray (President and Founder of Cuyamel Fruit Company) by endorsement.

HIBERNIA BANK & TRUST COMPANY, NEW ORLEANS, TRUSTEE

For information regarding these bonds we refer to the accompanying letter of Mr. Samuel Zemurray, President of the Cuyamel Fruit Company, which states that:

Business. The Cuyamel Fruit Company, an American corporation, is engaged in the cultivation, purchase, transportation and marketing of bananas. The Company was incorporated in 1911 and together with its predecessor company has been engaged in this business since 1905. It is fully equipped for conducting its business, owning farms, railway and tram lines, steamships, wharves, etc., and employs about 2,000 people.

Security. 1. These bonds will be secured by property of the Company consisting of 53,049 acres of land, buildings, live stock, steamships, railroads, tramways, rolling stock, telephone, electric light and water supply equipment, valued by Messrs. Ford, Bacon & Davis, Engineers, as of October 1, 1921, in excess of $8,250,000 after depreciation.

As to all the above property, other than the steamships, these bonds will be secured, in the opinion of counsel, by a direct First Mortgage, and as to the steamships, by pledge and voting control of all the shares of stock of the Cuyamel Steamship Co. holding title to these ships, and also by pledge of its demand notes, delivered to the Fruit Company in payment for these ships.

2. The bonds will also be the joint and several obligation of the Company and Cortes Development Company, a Honduras corporation, all the stock of which is held by Trustees for the benefit of the stockholders of Cuyamel Fruit Company. This company owns valuable lands and other properties and has a net worth of $2,569,998. It has no liability other than its obligation on these bonds.

3. Personal guaranty of Samuel Zemurray.

Assets. The balance sheet as of November 30, 1921, after giving effect to this financing, shows tangible assets of $13,790,249, after deducting current liabilities and reserves, or 3.9 times the amount of this bond issue. The financial position of the companies is indicated by current assets of $4,317,230 and current liabilities of only $435,656, or a ratio of over 9 to 1.

Earnings. The net earnings of the companies available for interest, depreciation, Federal Taxes, etc., for 11 months ending November 30, 1921, were $2,275,447, or at the rate of about nine times the annual interest requirements on these $3,500,000 bonds. Average annual net earnings for the past five years ended December 31, 1920, after interest and taxes, but before depreciation, were $1,195,866. After depreciation, interest and taxes they were $718,085, or about 2¾ times the maximum interest requirements on these $3,500,000 bonds.

Sinking Fund. The mortgage provides for a sinking fund to retire annually by purchase or redemption not less than 5% and not more than 15% of the greatest amount of bonds at any time outstanding.

Purpose of Issue. The proceeds of the sale of these bonds will be used to retire $850,000 of the Company's 6% Marine Equipment Notes and to pay for capital expenditures already made.

Bonds are offered for delivery when, as and if issued and received by us, and subject to the approval of counsel. Pending delivery of definitive bonds, it is expected that Trustee's interim receipts will be ready for delivery on or about January 16, 1922.

APPLICATION WILL BE MADE IN DUE COURSE TO LIST THESE BONDS ON THE NEW YORK STOCK EXCHANGE

This Company, in its present corporate form or through predecessor companies, has been continuously engaged in the electric light and power, gas, and street railway business in the City of San Antonio, Texas, for a period of twenty-one (21) years, serving a present estimated population of 180,000.

These Bonds will, in the opinion of counsel, be secured by a direct lien on all the property owned by the Company, valued at approximately $13,500,000, or hereafter acquired—a first lien on property valued at approximately $3,500,000 and a lien on the balance of the property subject to $1,968,000 (closed mortgage) prior lien bonds.

The value of the physical property of the Company is conservatively estimated to be over two times the aggregate amount of outstanding bonds including the present issue. Since the organization of the Company in 1917, $1,944,269 has been put back into the property out of earnings.

For the twelve months ended November 30, 1921, gross earnings amounted to $4,497,932.95 and net earnings to $982,-036.80, as compared with annual interest charges on the outstanding bonded debt, including this issue, of $326,400. For the past five years net earnings have averaged $774,668.

The management of the Company is under the direction of the AMERICAN LIGHT & TRACTION COMPANY, which is in the hands of the same men who have conducted its operations since organization.

WE RECOMMEND THESE BONDS FOR INVESTMENT

These Bonds are offered for delivery when, as and if issued and received by us, subject to approval of counsel. It is expected that temporary bonds will be ready for delivery on or about January 16, 1922. All statements herein are official or are based on information which we regard as reliable, and while we do not guarantee them, they are the data on which we have acted in the purchase of this security.

International Paper Company

SERIES "B"

First and Refunding 5% Sinking Fund Mortgage Bonds

(Closed Issue)

Dated January 1, 1917 — Maturing January 1, 1947

Coupon bonds in denomination of $1,000 registerable as to principal only. Interest payable January 1 and July 1 without deduction for normal Federal Income Tax up to 2%. Interest payable at the office of Bankers Trust Company, New York. Redeemable at the option of the Company, in whole or in part, upon fifteen days' published notice, on any interest date at 102½ and accrued interest. An annual sinking fund of one per cent of the total amount of bonds issued under the mortgage, payable May 1 and November 1, buys bonds at not exceeding 102½ and accrued interest or draws bonds by lot for redemption at that price.

	Series "A"	Series "B"	Total
Authorized and Issued . .	$7,500,000	$12,500,000	$20,000,000
Retired by Sinking Fund .	604,000		604,000
Outstanding	$6,896,000	$12,500,000	$19,396,000

Series A and B bonds are identical, except that Series A bonds are convertible into 6% preferred stock at par prior to July 1, 1922.

BANKERS TRUST COMPANY, NEW YORK, TRUSTEE

A letter from Philip T. Dodge, President of the Company, is summarized as follows:

BUSINESS AND PROPERTIES—The International Paper Company, organized in 1898, is the largest manufacturer of paper in the world, its production during 1920 exceeding 500,000 tons. Fixed assets are carried in the consolidated accounts of the Company at the very conservative valuation of approximately $61,000,000, after depreciation charges during the last ten years of more than $14,500,000.

SECURITY—Subject to two small mortgages of subsidiary companies aggregating only $275,000, the First and Refunding Mortgage bonds are secured, in effect, by about $60,000,000 book value of fixed assets, either through direct first mortgage or by pledge under the mortgage of all of the capital stock, except directors' qualifying shares, of certain of the subsidiary companies. With the issuance of these bonds, the First and Refunding Mortgage is closed, and the mortgage provides in effect that no prior lien or charge shall be created against the properties of the Company; or against the properties of its subsidiaries, the stocks of which are pledged, unless such lien or charge shall be pledged under the mortgage.

PURPOSE OF ISSUE—Proceeds from sale of these bonds will be applied to reduce current indebtedness.

FINANCIAL—The average annual earnings applicable to interest for the ten years ending December 31, 1921, (1921 partly estimated) were $4,895,000 or about five times the annual interest requirements on all bonds now outstanding, including the bonds to be presently issued. These earnings were before Federal taxes but after depreciation charges averaging $1,459,000 per annum.

After giving effect to the proceeds of this financing, the net current assets of the Company as of November 30, 1921, amounting to over $28,500,000, are alone largely in excess of the Company's total bonded indebtedness of $19,671,000.

EQUITY—On November 30, 1921, the Company had outstanding $24,883,058 par value of Preferred stock and $19,899,764 par value of Common stock, which at current prices show a market equity junior tothese bonds of over $27,000,000.

All legal details are subject to approval of Rushmore, Bisbee & Stern, of New York, for the Bankers, and Stetson, Jennings and Russell, of New York, for the Company. The bonds are offered for delivery when, as and if issued and received and subject to approval of counsel. Application will be made to list these bonds on the New York Stock Exchange. It is expected that interim receipts, or temporary or definitive bonds, will be ready for delivery on or about January 10, 1922.

* Partly estimated. a Covers only 4 days in 1921 (on account of Monday holiday), against 5 days in 1920. b In 1920 Saturday was New Year's day and a holiday.

The full details of the week covered by the above will be given next Saturday. We cannot furnish them to day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

Detailed figures for the week ending Dec. 24 show:

STATE AND CITY SECTION.

A new number of our "State and City Section," revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now printed in two parts, Part One containing the New England, Central and Middle States, having been issued last June, while Part Two, embracing the rest of the country, appears to-day. The change is due to the fact that with the growth and multiplication of the municipalities of the United States the demand for additional space has become too heavy to satisfy within the limits of a single number.

THE FINANCIAL SITUATION.

The Supreme Court decision on December 19, in what is known as the "Hardwood" or the "Open Prices" case, raises the question whether, in fact and morals, a system of interchange of prices and market data by competitors constitutes a conspiracy to maintain high prices, or is really an arrangement whereby competition is made intelligent and thus more genuine.

The case before the Court was an appeal by the American Hardwood Manufacturers' Association from an injunction granted on April 20 1920 by the Federal District Court in Western Tennessee, restraining the defendants from further dissemination of information under their "plan" and ordering abandonment of all "efforts whatever having the purpose or tendency to enhance or maintain prices." The decision sustaining this action of the lower court was read by Justice Clarke, and was by six to three, Justices McKenna, Holmes and Brandeis dissenting.

As sketched by the majority opinion, the history of the case is that the Association was formed, in the last month of 1918, by union of two similar associations, from one of which it received a department of activity designated the "Open Competition Plan," referred to in the decision as the "Plan." The complaint of course alleged a purpose to restrict competition and maintain prices, while the answer disclaimed such a purpose and denied that such effect was produced. The committee that evolved the "Plan" explained it thus:

"The purpose of the plan is to disseminate among members accurate knowledge of production and market conditions, so that each member may gauge the market intelligently instead of guessing at it; to make competition open and above-board instead of secret and concealed; to substitute, in estimating market conditions, frank and full statements of our competitors for the frequently misleading and colored statements of the buyer."

The explanation added that the intent was to "furnish information to enable each member to intelligently make prices and to intelligently govern his production," and cited the obvious fact that the buyer's chief concern is to see that he pays no higher price than is paid by the competitors against whom he must sell in market and the chief concern of the seller is to get as much as anybody gets; by making prices known to each other, it was urged, they will gradually tend to harmonize with market conditions, thereby aiding both buyers and sellers. Two later statements contained the following:

"The Open Competition Plan is a central clearing house for information on prices, trade statistics, and practices. By keeping its members fully and quickly informed of what the others have done the work of the plan results in a certain uniformity of trade practice. There is no agreement to follow the practice of others, although members do follow their most intelligent competitors, if they know what those competitors have been actually doing. . . . Competition, blind, vicious, unreasonable, may stimulate trade to abnormal activity; but such a condition is no more sound than that medieval spirit some still cling to of taking a club and going out and knocking the other fellow and taking away his bone."

Nobody will deny that competition must be either intelligent or the opposite, and surely nobody will deny that an unintelligent and cut-throat competition is a public injury; this has been shown in the insurance field, and also in the field of transportation; for one instance, many years ago, the cut-throat fare between this city and Boston via the Sound was for a short time as low as fifty cents.

The Court had to pass upon two questions: one of fact, whether this plan did have the effect of restraining competition; the other, whether such was its natural and inevitable effect, even if not also its intent. Justice Clarke seems to have no doubt of the latter, for he cites the fact that while participation was optional, 365 of the 400 members of the Association, operating 465 mills, were members of the "Plan" when the suit was commenced, and he finds evidence of the importance and strength of the Association in the admitted fact that while the defendants operated only 5% of the number of hardwood mills in the country their product was a third of the total. Upon the question whether this plan did operate injuriously to competition he remarks that "there is very little dispute as to the facts." The facts referred to in this remark appear to be his citation of the organization and routine practices of the "Plan." Thus, it required of each member six reports; it had an inspection service; a half-dozen reports were periodically sent to each member; monthly meetings were required to be held, and so on, this detailed schedule being stated by Justice Clarke at considerable length. He lays emphasis on the warnings sent out against over-production, and particularly on one market letter wherein shortage of present stocks and the prospect of higher prices were stressed. The record shows, said he, that in the early part of 1919 the lumber market was inactive, then becoming stronger and continuing active with prices high to the end of that year; he clearly ascribes this change to the operation of the plan he is condemning, yet the defendants urge it as only a coincidence, submitting a great number of affidavits which ascribe the rise to natural trade and weather conditions.

Upon the character of this plan Justice Clarke is emphatic. "Genuine competitors," he says, "do not make daily, weekly and monthly reports of the minutest details of their business to their rivals, as these defendants did." To this the reply might be that they make no pretense of altruism, yet could conceivably make such reports, and make them honestly, if in their sober judgment that would be good business policy. But Justice Clarke is very sure about it, for he adds that "this is not the conduct of competitors but is so clearly that of men united in an agreement, express or implied, to act together and pursue a common purpose under a common guide, that if it did not stand confessed a combina-

tion to restrict production and increase prices in inter-State commerce and therefore as a direct restraint upon such commerce, *as we have seen that it is*, that conclusion must inevitably have been inferred from the facts which are proved." He thus not only calls "confessed" a purpose which is distinctly denied but assumes as a proved effect what may have been only a coincidence, and he adds the opinion that "the plan is essentially simply an extension of the gentlemen's agreement of former days, skillfully devised to evade the law."

His citation of the Northern Securities case seems rather to weaken than support his position. For while the Court had, up to the date of that decision, construed the Sherman Act "as forbidding any combination which by its necessary operation destroys or restricts free competition," it certainly did go much too far in translating the words "necessary operation" into the language of everyday conduct; it treated the possession of power to do wrong as practically equivalent to wrongdoing and therefore unlawful. Without going into that case now, we may remark that, as the "Chronicle" pointed out at the time, if power to do wrong is unlawful everybody should have his members shackled, lest he misuse them, and even healthy existence must stand condemned, since free agency necessarily carries the power to choose and do wrong acts. None of the present dissentients, Justice McKenna, Holmes and Brandeis, is a man to whom any especial tenderness towards corporations would be attributed, and the last-named not only refuses to believe that 365 hardwood dealers could successfully seek to restrain trade or influence prices among the 9,000 mills east of the line from Minnesota to Texas, but says of the Sherman Act that it "certainly does not command that competition shall be pursued blindly, that business rivals shall remain ignorant of trade facts, or be denied aid in weighing their significance. . . . It was neither the aim of the 'Plan' nor the practice under it to restrain competition in any way; its purpose was to make rational competition possible by supplying data not otherwise available and without which most of those engaged in the trade would be unable to trade intelligently." He also says that "there is nothing in the Sherman Act which should limit freedom of discussion among traders."

Is it "the necessary operation" of such an intelligence exchange to narrow and hinder open competition, or to further and strengthen it? In 1912, Mr. Arthur Jerome Eddy, author of "The Law of Combinations," published a work called "The New Competition," in which he contended that just as the Stock Exchange wholesomely acts on and stabilizes the market, so collecting and publishing all pertinent information would stabilize and improve all practices in the commercial world, tending to "eliminate secret rebates, discounts, favors and unfair discriminations between purchasers." The Open Price, he said, "is a direct aid to the enforcement of those laws [anti-trust] inasmuch as it records daily all price variations." Quite recently also, Secretary Hoover, in an address given here, said that although many students of trade combinations are much exercised over open-price associations, every one of those which he had investigated "originated from the rightful desire to secure accurate and complete information on the volume of production, on stocks, on consumption, and on prices." He went so far as to add this:

"The associations can be suspected of acting against the public interest only when they use this information for the benefit of the few and to the exclusion of the many. The general publication of such information will go far in the cure of such wrong; in fact, it is a far surer cure than threats of jail. You cannot catch an economic force with a policeman. You can only maintain economic right by public understanding, and by public understanding of economic facts you can maintain public confidence and destroy economic evil."

Perhaps the Supreme Court has been true to non-progressiveness, but it seems to grasp mistakenly at a shadow and miss the substance. The trend as well as the clear necessity of the time is greater freedom of business movement and contract, and the minority, with Justice Brandeis as spokesman, comes nearer than the majority to interpreting the much misused Sherman Act by the necessary Rule of Reason.

In contrast with the stand taken in this case, the reader may re-examine the recent and exceedingly well-reasoned decision of Judge Carpenter in the Federal District Court in Chicago ["Chronicle," Nov. 26 1921, p. 2256] in the American Linseed Oil case. The fact of uniformity of prices between dealers, said he, "does not necessarily indicate" the existence of any price agreement among them—another way of stating the known fact that there is such a thing as a "market" price, the consensus of many sellers and buyers. Moreover, the Supreme Court had previously said (in the Steel case) that uniformity of prices does not prove conspiracy. There almost seems a lacking of full agreement in the views of the Court upon "conspiracies," as expressed on various occasions; and Judge Carpenter's opinion is so sound and practical that one might almost wonder whether Justice Clarke has read it carefully.

The dividend record of the Fall River cotton manufacturing establishments for the year 1921, involving a distribution to stockholders the smallest in any year since 1916, may be said to depict in considerable measure the conditions existing in the country's leading textile manufacturing centre, although failing fully to disclose the change that has taken place in little more than a twelve-month interval. It will be recalled that following unexampled activity at an unusually heavy margin of profit in 1919, the demand for cotton goods continued extremely urgent in the first half of 1920, notwithstanding the abnormally high cost of the raw material and a wage scale the highest in our history, and manufacturers were enabled to dispose of production on a basis of prices that permitted a further increase in the already abnormal rates of dividend distribution. In fact, the corporations advanced the rates for the first quarter to a level that gave an average for all of 7%, and for the second quarter of a little over 7¾%. Nor did this latter prove to be the zenith, the payments to shareholders for the third period of the year averaging no less than 10.73%. But this latter was in no sense a correct indication of the then existing situation in the industry. On the contrary, demand for goods had already begun to show contraction before this quarter had far advanced and prices to ease, and these developments naturally foreshadowed a reduced return on the capital invested. But with surplus accounts unusually distended by the phenomenally

heavy earnings of the preceding year or more, it was considered good policy to give the shareholders the benefit thereof; and, in consequence, the amount paid out in the third quarter of 1920 exceeded by over a million dollars that distributed in the preceding period, establishing a new high record, and a greater total than had accrued to stockholders in almost all full years prior to 1917. The dividend declarations for the final quarter of 1920, much less than half those of the third, furnished a better indication of the situation at Fall River, although at that there was evidence at hand to clearly prove that to a considerable extent the distribution was from accumulated funds and not from current earnings.

Passing now to 1921, we find its dividend history, so far as Fall River is concerned, a story of a steadily diminishing average rate, and that rate at no time based upon the current earnings of the mills. Evidence to that effect has been quite conclusive throughout the year, the more favorable of the reports indicating that some of the establishments have about held their own as between cost of production and prices received. Confirming this really unsatisfactory outcome we note that annual statements of the corporations, recently issued, almost without exception fail to report any increase in net surplus, or quick assets, and in a number of cases large losses are shown. For the first quarter of the year the average dividend declared was only about 2½%, in the second quarter it was down to a point a little under 2%, for the next three months there was a further small fractional drop, and now for the final quarter the average is 1.74%. For this latest period four corporations have made no provision for any return to shareholders, and in seven instances the former customary rates have been reduced. Finally, the aggregate already distributed or to be paid out in the fourth quarter of 1921 is only $673,075 (or, as just stated, 1.74%, on the capital involved) the smallest amount of any three months' period since the second quarter of 1916, and comparing with $1,520,725 in the like quarter of 1920, and $1,739,838 in 1919. For the twelve months of 1921, therefore, the stockholders in the thirty-seven corporations included in our compilation are benefiting to the extent of only $3,117,375, or an average of 8.05% on the capital (a fair return, however, if it could be considered as coming entirely from earnings), this contrasting with the phenomenal amount of $10,084,048, or 29.45%, in 1920, $4,833,010, or 14.55%, in 1919, and $6,048,286, or 18.27%, in 1918. The most meagre return for a twelve-month period was in 1898—2.41%. In view of the recent decision to continue existing wage schedules at the mills unchanged, it is evident that, notwithstanding all developments of the year clearly prove the necessity of reducing costs of production, manufacturers are averse to scaling wages further, except as a last desperate measure.

Through the Associated Press several of the prominent political leaders of Europe gave expressions of opinion relative to the Washington Conference on the Limitation of Armaments, that were in the nature of Christmas greetings to the American people. President Ebert of Germany said in part: "In the present hour of their struggle for national existence, the German people warmly welcome every gain recorded in the progress toward world betterment, and on this Christmas morning they permit themselves to express to the American people and their distinguished Executive their heartfelt wishes for a successful consummation of their noble endeavors in behalf of peace on earth and reconciliation among nations."

Premier Briand of France sent the following message: "It is a pleasure for me to send at Christmas my best wishes to the great American nation. In particular I express, through the Associated Press, my most ardent hopes for the realization of the American ideals for peace. France, which has suffered so much from the war, will always work to maintain peace in the world. She thinks, as the American people well understand, that her own security is an essential condition for that peace."

Tommaso Tittoni, President of the Italian Senate, said: "The conference at Washington has regulated in a very satisfactory way one great international problem, that of the Pacific and the Far East. Assuring good relations between America, England and Japan, it has made a precious contribution to the cause of peace. On this President Harding can truly felicitate himself for his noble initiative. There remain intact all the difficult international problems of Europe, especially those of economic reconstruction. They are too obscure now to make prognostications, or to manifest hope. A little more light will come when we know the results of the conference at Cannes."

Viscount James Bryce, former British Ambassador to the United States, sent the following greeting: "I rejoice in the progress made by the Washington conference and in the concurrence of the American and British delegates in this momentous step forward along the path to peace and good-will among the nations."

Sir James Craig, the Ulster Premier, in behalf of Northern Ireland, said: "On behalf of Great Britain's youngest offspring, I gladly express Ulster's complete confidence in Mr. Balfour [head of the British delegation at the Washington conference] and his colleagues in their endeavors to secure permanent good-will among the nations. This effort in the United States to promote universal trust and freedom from war sanctifies the American soil and emphasizes the greatness of her people. Ulster will rejoice with the world if there radiate from Washington this Christmas season the tidings of international peace, which will in the hearts of all of us add yet another star to the folds of Old Glory."

It will be recalled that shortly before he sailed for New York to attend the Washington Conference on the Limitation of Armaments, Premier Briand of France found it necessary to get a vote of confidence in the Chamber of Deputies on his foreign policies. While the cable advices from Paris did not disclose any particularly hostile doings by his political opponents during his absence, apparently he encountered such an attitude soon after his return. A dispatch from the French capital to the New York "Times" a week ago this morning contained the following: "Premier Briand is not going to be allowed any respite by the Chamber of Deputies in which to mature, without their approval, the plans for the reorganization of Europe, or collecting the German debt, which were outlined in London. To-day [last week Friday] M. Klotz, former Minister of Finance and collaborator with Clemenceau in framing the

treaty, intimated to the Premier and the President of the Chamber that he intended to interpellate the former to-day [last week Friday] on the French position with regard to reparations. Not content with giving this formal notice, he called at the Ministry of Foreign Affairs and asked that precedence should be given to his interpellation. The Premier replied that he could not accept discussion before the meeting of the Supreme Council at Cannes, but Klotz refused to accept this ruling, and will to-morrow try to get the Chamber to vote for an immediate debate on the question against the wishes of the Government. As Klotz will be the mouthpiece of Tardieu, Mandel, and the whole Clemencist Party, there is every likelihood of a hot debate and division, which may force M. Briand to the adoption of a program less liberal than the one which he is credited with having fixed on in agreement with Lloyd George."

A Paris dispatch on Sunday made it clear that Premier Briand had been able to maintain his stand in the Chamber. It said that "by the frank declaration that Mr. Lloyd George was planning no reduction of France's claims to reparation and that the greatest harmony existed between the two Governments, Premier Briand this afternoon managed to postpone all debate on the joint Allied policy till after the meeting of the Supreme Council at Cannes." M. Briand was said to have stated to his opponents that "France was in no danger of losing any of her rights and that no sacrifice would be proposed at Cannes." It was added that "he began by declaring that the alliance between France and England was as complete and close as possible. In his conversations with Lloyd George, the latter had constantly recognized the special position of France and had never asked for the least sacrifice." He further asserted that "the meeting at Cannes was necessary, because certain matters had been raised and discussed which interested other Allies. No decision and no publicity were possible. The Chamber, however, should be assured that at Cannes there would be no suggestion of abandoning any of the guarantees France had. In the schemes which had been examined for obtaining the greatest possible payment from Germany there was no suggestion of changing the Treaty of Versailles, or modifying the amount and nature of payments."

According to a cablegram from Paris Monday morning, "Premier Briand spent most of his Christmas Day studying and drafting the reply which he will send to the French delegation in Washington as the answer of France to Secretary Hughes's proposal for the reduction of the submarine power of various nations according to a fixed schedule. During the morning he consulted Gabriel Guist-Hau, the Minister of Marine, and other naval experts; but his real advisers were a number of representatives in the Chamber and Senate, whom he summoned in the course of the day. They unanimously advised a negative reply by France, and, although the actual terms of M. Briand's dispatch are being kept secret until it has reached Washington, it is certain that it amounts to a rejection of the Hughes compromise scheme. The reasons for this attitude are to be found entirely in internal politics, and the Nationalist opinion of a Parliament elected by the people in 1919. From the point of view of the majority in this Parliament, the Washington conference has gone wrong for France from the beginning." After studying the latest note of Secretary of State Hughes, the French Prime Minister decided to call a meeting of his Cabinet for Tuesday to consider his reply. It was stated in a Paris dispatch that morning that he and his advisers had decided to ask the Washington conference to postpone a settlement of the submarine discussion "till another conference." Dispatches from Washington Tuesday afternoon stated that "President Harding expects a general call for a conference of many more nations than are included in the present conference, to be arranged before adjournment of this conference, it was made plain at the White House to-day. Such a conference will not in any way be contingent on any agreement in regard to auixiliary naval craft reached here, but will be held entirely on its merits, in the hope of furthering the spirit of naval limitations." The New York "Times" correspondent added that "after examining the situation the Government concluded that it would be impossible in the face of public opinion to accept the Hughes compromise figures, and in view of the attitude of Japan and Italy they would have support in their refusal."

Through dispatches from Paris Tuesday it became known also that "in order to avoid the possibility of governmental defeat on the eve of the Cannes conference, Philippe Berthelot, Secretary-General of the Ministry of Foreign Affairs, who recently accompanied Premier Briand to the Washington conference, has resigned his office." The further explanation was offered that "his letter of resignation was written after the debate in the Chamber on the affairs of the Industrial Bank of China, in which his name and reputation were involved. During the debate it became obvious that the Government could not continue to support this valuable functionary without risk of defeat, and Berthelot has himself taken advantage of the interval before the debate is resumed to-morrow in which to resign and relieve his chief of having either to defend him at the peril of being defeated, or to denounce him and accept, or appear to accept, as true the accusations made against him on Saturday and in the press during the last year."

The Cabinet met at 8:30 a.m. Tuesday. According to the "Excelsior," it "unreservedly approved the attitude of the French delegation in Washington in standing firmly by the figure of 90,000 tons." After the Cabinet meeting the Premier made a vigorous defense of his policies in the Chamber of Deputies. During the day, in the course of a discussion of the marine section of the budget, a resolution was adopted, the final clause of which follows: "One cannot conceive, therefore, that France's efforts in this direction should be obstructed or limited. It is a question of national independence and of the right of legitimate defense that is at stake." The Chamber also gave the Premier a vote of confidence—361 to 238—on his policy with respect to the Industrial Bank of China. Attention was called to the fact that "the minority was the largest that has yet been rolled up against Briand since he took office, shortly after the election of Millerand to the Presidency." The opinion was expressed also that "the resignation yesterday of Philippe Berthelot, General Secretary of the Foreign Office—the highest place in that branch of the Government—doubtless saved Briand an overwhelming defeat in to-night's vote."

At rather frequent intervals since last spring dispatches from various European centres have con-

tained reports that the leaders of the Soviet Government in Russia were modifying its fundamental principles materially. This was even said to have been admitted by Lenin and his chief associates. At a meeting in Moscow a week ago yesterday of the All-Russian Communist Conference, "held to prepare the party's program in the Ninth All-Russian Soviet Congress scheduled to open to-night [last Friday], the resolution introduced by M. Kameneff was adopted. It stipulated that the chief purpose of the party was to unite the workers and peasants in order to get the markets under control and perpetuate the nationalization of foreign trade, industry, land and transportation." It was added that "Leo Kameneff, President of the Moscow Soviet, and M. Bagdanoff, chairman of the Soviet Economic Council, were the chief speakers in favor of the new program, which was opposed by M. Larin, noted Bolshevik economist, on the ground that industrial trusts might be formed by consolidations of industries allowed in the new program. He argued that this course would mean too much autonomy in business enterprises and might become difficult to handle." In view of the extremely radical ideas with respect to capitalistic enterprises with which the Soviet traders originally began, the following is extremely interesting and significant: "The speakers supporting the new economic policy, based largely on capitalistic principles, were somewhat apologetic for their argument, and explained carefully that it was only a temporary measure. M. Bagdanoff, head of the Economic Council, explained that the industries had developed less in 1921 than in the previous year; hence the necessity of adopting a different policy. He said pig iron had fallen to 3% of pre-war production; that cotton textiles had fallen to 7%, and that most of the important manufactures do not attain 25% of the pre-war figures. He said coal and iron production had declined because of the food shortage. M. Bagdonoff urged that the Government keep the industries from being scattered and consolidate them as a basis on which the proletarian force may be built. He estimated that the value of Russian manufactures next year would be 900,000,000 gold rubles."

In a dispatch from Washington last Saturday morning statements were made confirmatory of the latest press advices from Moscow. It was said that "abandonment of socialism in Russia is predicted by recent changes in the economic policy of the Soviet Government, according to a review of the situation in that country on the basis of statements in the Soviet controlled press, issued by the Commerce Department. A new economic policy, the Department said, is being evolved by the Bolshevist leaders, lightening the restrictions of communism and aiming at the partial establishment of private trade and industry and at increasing the incentive to production." According to the Washington dispatch, "the main features of this new policy, the Department reported, include the partial restoration of freedom of trade in agricultural products, abandonment of the practice of unrestricted requisition of labor, and the substitution of a fixed labor tax, abandonment of uniform wages for employees of the same grade in enterprises operated by the State, and the substitution of compensation, according to the service rendered; leasing to private individuals of certain industrial establishments hitherto controlled by the State, and enterprises still operated by the State are to adopt commercial principles, paying private producers and other State enterprises market value for materials and selling their products at market value."

Another hopeful sign along the same line was found in a cablegram from Berlin, which said in part: "Communism after the Moscow pattern as a meeting-point for the world proletariat, has been abandoned by the German Communist Party, which has just voted to ask the Third [Moscow] Internationale to try to bring about co-operation with the non-Communist labor organizations for a greatly moderated program. While this is attributed in part to the dwindling prestige of the Communist Party in Germany, and an attempt by it to retain its following, it is also regarded as a consequence of the action by the Russian Soviet leaders in reintroducing cabalistic methods in Russia." The correspondent further outlined the situation as follows: "One of the surest results of the new economic policy in Russia, it is predicted here, will be the collapse of the Communist [Third] Internationale, and, therefore, of the Bolshevist campaign for a world revolution. For, without a continuation of the Communist experiment by Russia herself, the chief motive power back of the Third Internationale would vanish. The annihilation of the radical labor movement in Germany is attributed here to Moscow's tactics. This began when the Independent Socialists were driven out of the Third Internationale because they refused to give the Moscow leaders the right to dictate the German policy. The effect of this action was the establishment here of an outright Moscow party which, although strong in numbers, greatly declined until last spring, when, on orders from Moscow the March uprising was instigated. This ended in the blowing up of a few public buildings and fighting at scattered points and a moral defeat, which left the German Communist Party in two groups. The German Communist Party is now trying to regain its hold on the labor movement in this country, and suggests the departure from Communism and the organization of a world labor union. It has evolved a program containing six points, as follows: Cancellation of international war debts: the prevention of armaments; the prevention of imperialistic measures which it asserts are forced by France, such as the occupation of the Ruhr Basin and the starvation of Austria; recognition of the Soviet Government of Russia; the granting of credits for the relief of hunger in and the reconstruction of Russia, and an international agreement for an eight-hour working day. The party wants all internationales, including those of Amsterdam and London, invited to unite on this basis."

There have been fresh reports again this week of possible recognition of the Soviet Government of Russia comparatively soon by Great Britain and also of the renewal of trade relations between the United States and Russia. At Tuesday's interview with Washington newspaper correspondents, President Harding was said to have expressed the opinion that substantial progress was being made toward the taking of such a step officially.

In a long cablegram a special European correspondent of the New York "Times" gave an interesting picture of sessions of the All-Russian Soviet Congress that have been held in Moscow this week. In part he said: "The delegates are happy, excited and passionately intent on everything that happens. Roughly dressed, they are mostly simple-faced and

simple-minded, but here and there one sees a cunning or cultured face. Their ages vary from 25 to 35. Nearly all have come a long distance to enjoy this proof of the victory of the revolution, this direct participation in the affairs of a mighty nation. So much, at any rate, they have gained, and to them and doubtless to the majority of those they represent it is a gain indeed. For liberty is a matter less of fact than of imagination and emotion. But from the first moment the Congress opened there was not a shadow of doubt that the Government machine had been oiled to millimeter precision. The proceedings go with a smoothness that means efficient work in caucus and perfect discipline. Lenin is not an absolute dictator, because he must get the agreement of the Communist Party to his policy. Generally he does get it, but the limitation still remains. Once that agreement is secured, the rest is merely a matter of arrangement. The Congress just sets the seal of its approval upon the decisions."

The Associated Press correspondent cabled that "the Ninth All-Russian Soviet Congress has approved of the new Soviet conomic policy as outlined before that gathering by Premier Nikolai Lenin. This approval was given by accepting Premier Lenin's address, which was presented as the report of the Council of Commissars on the domestic and foreign policies of the Soviet Government. In his address Lenin sharply criticized the labor unions, which he said desired to direct industries without showing the necessary ability." He added that "although the Congress accepted the new policy, this acceptance was given grudgingly by a large faction of the Communists who dislike the Government's change to capitalistic methods. One reason why the Communists accepted it at all, it was pointed out in some quarters, was because they had no alternative plan to offer. Although these delegates detest the terms 'money,' 'capitalism' and 'trusts,' they grudgingly accepted their leaders' apologies that the economic change was only temporary and necessary for the ultimate construction of a real Communistic Government."

On last Monday, December 26, Foreign Minister Della Torretta, of Italy, and M. Vorovsky, the Soviet representative in that country, signed an agreement for the resumption of trade relations between the two countries. In an Associated Press dispatch from Rome it was claimed that "the agreement is merely temporary and provides for the resumption of trade between the two countries pending negotiations for a general economic treaty." It was added that "the agreement contains reciprocal clauses regarding imports and exports, the entrance and exit of the ships of both nations at each other's ports, and provides for the abstention from propaganda. It does away with all trade barriers except as to importation into Italy of alcoholic liquors from Russia. In addition, it stipulates for the immediate repatriation of all Italians in Russia desiring to return home. Both parties agree mutually to refrain from all forms of blockade and boycott, and agree not to hamper postal and telegraphic communications and not to obstruct Italians trading in Russia. Soviet Russia agrees not to requisition Italian goods, and agrees not to demand from Italy funds from property belonging to the old Russian regime."

According to a cablegram from Riga, made public here Thursday morning, a delegate of the All-Russian Soviet Congress by the name of Ovsienko has made a report to the Congress, in which he asserted that "at Ramikovesky the perishing people are eating the bodies of their dead. It is dangerous to bury the famine victims in the presence of the people, and guards must be kept over them until they are in a state that makes eating impossible." His report added that "Dr. Fridtjof Nansen, High Commissioner of the International Committee of Russian Relief, even though a hardened explorer, returned to Moscow sickened by the scenes he witnessed in the stricken districts." Ovsienko asserted also that "children are being taken to the steppes and left there to die; that mothers, maddened by their experiences, cut the throats of their babies."

In what was characterized as a "fiery speech" before the All-Russian Congress on Thursday, Minister of War Trotzky was quoted as having asserted that "the Soviet army and navy, now totaling 1,595,000 men, must not be reduced, but, on the contrary, must increase training and be prepared for war next spring and summer in the event that outside foes carry out their plans to attack Soviet Russia."

So far as official action by the Dail Eireann is concerned, the Irish question is in abeyance until that body reassembles on Jan. 3. This fact, however, has not stopped informal discussion. The prevailing opinion in Ireland appears to have been that the failure to act definitely last week favors the supporters of the agreement entered into by Sinn Fein delegates and representatives of the British Cabinet. A statement from Premier Lloyd George was issued at 10 Downing Street, his official residence, on Wednesday, in which it was emphatically declared that "the Government had gone to the utmost limit in the Irish treaty and that it was impossible to reopen the discussion." The statement added that "the delay in ratification in Ireland was holding up the working of the Cabinet committee appointed to arrange the evacuation of the British forces in Ireland, settle the terms of amnesty and transfer executive responsibility to the Irish Provisional Government."

In a cablegram from Dublin yesterday morning it was asserted that "strong pressure has been exerted upon President De Valera to accept the treaty, but according to information from authoritative sources he is unbending in his determination to fight ratification to the bitter end."

It became known Wednesday morning that the Reparations Commission had decided to hold a special meeting on Thursday "to hear Dr. Fischer, Chairman of the German War Debt Commission, and other German officials who have come from Berlin for oral discussions with the commission concerning Germany's reparations obligations." It was thought then that the German representatives might offer to pay the January and February reparations installments "under certain conditions." In an Associated Press cablegram from Berlin Thursday morning it was stated that "the Wirth Government continues secretive respecting the present status of the reparations negotiations, but it outwardly shows satisfaction and permits the inference that the Allies are reversing their previous attitude on some of the fundamentals involved in the reparations problem. Cabinet officials express pleasure that Germany is accorded the privilege of

sitting with the Reparations Commission and discussing the question of her war penalties in a business-like fashion, instead of exchanging formal notes. Chancellor Wirth and his colleagues believe that their optimism respecting the prospects of an early overhauling of the reparation program is fully warranted, on the strength of confidential reports brought from London by Dr. Rathenau. Furthermore, they view the present trip to Paris as an indication that the French are prepared for an objective discussion of Germany's defense of her default." In a cablegram from Paris Wednesday evening the correspondent of the New York "Tribune" said that "Germany will re-enter international affairs on terms of friendly collaboration with the Allies for the first time to-morrow, when her representatives sit with the most powerful and influential financiers and industrial magnates of the Old World in a preliminary conference, whose object is to set war-muddled Europe back on her feet. The meeting, which is about to begin in Paris, is the first step in the program of harmony recently worked out in London by Premiers Lloyd George and Briand. The primary object of this conclave of capitalists is the rebuilding of Central Europe and Russia through the creation of a commercial and financial consortium shared by French and British capital, with the participation of financiers of Italy and Belgium, and possibly, later, of America. France agreed to-day to the admission of Germany to such a consortium on condition that half the German benefits be turned over for reparations. British assent to this is already assured."

The Allied Reparations Commission held its first session at 4:30 o'clock Thursday afternoon. Dr. Fischer, Chairman of the German War Debt Commission, was present, and was understood to have given an explanation of Germany's financial status. It was stated also in a Paris dispatch that he indicated Germany's readiness to deal directly with the approaching Cannes conference relative to reparations. Further sessions were held yesterday. The Paris correspondent of the New York "Tribune" asserted in a cablegram yesterday morning that "the Reparations Commission informed Germany to-day [Thursday] that she must pay the Jan. 15 installment of the reparations without delay or she would be considered to have violated the treaty. The notification was given through Dr. Fischer, chairman of the German War Debt Commission, who is in Paris conferring with the Allied representatives."

Word came from Paris Wednesday morning that Premier Briand had "invited the British, American, Italian, Japanese and Belgian Governments to be represented at the International Financial and Economic Conference, to be held at Cannes Jan. 6." Announcement was made in a cablegram from London the same morning that Ambassador Harvey would attend as an "official observer." It was added that "the Ambassador incurs no responsibility for the policy decided upon by the Supreme Council, and is under no obligation to take part in the discussions, but it is understood that, with the full concurrence of the members of the Supreme Council, the American representative has not hesitated to express fully the American point of view on questions in which American interests are involved. His participation in the debates depends entirely on the nature of the subjects before the Council. On those of purely European importance he has nothing to do but listen. On others, which affect the United States, his exposition of the American views is welcomed."

For many months the European cable advices have contained practically nothing relative to industrial, economic, financial or political conditions in Italy. Those who had given the matter consideration had hoped that "no news was good news." The announcement Thursday morning of the closing of the doors of the Banca Italiana di Sconto came as a surprise. It seems that its condition had been known in Rome for some days. In order to avert more serious trouble, it was said that the Government decided to grant the institution a moratorium. The Rome correspondent of the Philadelphia "Public Ledger" cabled that "reports concerning the precariousness of the general banking situation in Italy are exaggerated." He added that "I believe the trouble, though considerable, has been circumscribed within controllable limits."

Announcement was made also of the closing of the branches of the bank throughout Italy. Some of the dispatches from the Italian capital stated that the moratorium applied only to the Banca Italiana di Sconto, as already stated. That it is more general in scope is indicated by the following statement of the situation by the Associated Press representative: "A decree has been promulgated establishing a partial moratorium by again bringing into force clauses of the commercial code, which recently have not been enforced, relating to postponements of payment by limited and co-operative companies. Certain modifications and additions are made, however, with a view to giving the creditors greater security, and any postponements will have to be granted by the tribunals in definite cases, particularly when evidence can be produced showing that such a stay of payment is in the interest of the bulk of the creditors. The revised regulations are confined to a limited range of companies." When the foregoing became known here a run was started on the Italian Discount & Trust Co. of this city, which acted as the local agent of the central institution in Rome, and which had large deposits with it. The directors decided to suspend operations and to ask the State Superintendent of Banks to take charge.

In an Associated Press dispatch last evening the following information was given relative to the action: "The moratorium granted to the bank under the court's action is effective for one year. The court appointed Commendatore Tommaso de Angelis of Rome, who is a director of the Banca di Napoli, as referee. Meanwhile the Banca Italiana di Sconto is continuing all operations except payments, which, it is stated, will be resumed as soon as the tribunal limits the amounts which may be withdrawn daily."

There has been no change in the official discount rates at leading European centres from 5% in London, Berlin and Belgium; 5½% in Paris, Denmark and Sweden; 6% in Rome, Norway and Madrid; 4½% in Holland and 4% in Switzerland. The Bank of Bengal and the Bank of Bombay, however, have advanced their rate of discount from 6 to 7%. The 6% rate had been in effect since Dec. 16 last. In London open market discounts were firmer so that short bills advanced to 4%, as compared with 3¾% a week ago, and three months

to 3⅝%, against 3½@3⅝% last week. Call money in London likewise displayed a firmer tendency, moving up to 3½%, against 3% a week earlier. Open market discount rates in Paris and Switzerland, however, continue to be quoted at 4½% and 5%, respectively.

The Bank of England added to its gold item this week the sum of £3,215, thus bringing up total gold holdings to £128,434,359, as against £128,267,670 last year and £91,342,155 in 1919. Furthermore, note circulation was reduced £151,000, so that total reserve showed a gain of £154,000, while the proportion of reserve to liabilities advanced no less than 2%, from 14.61% a week ago to 16.61%. This compares with a ratio of 7.30% in 1920 and 9¼% the year before, and is, in fact, the highest ratio for the corresponding week of any year since 1916, when it stood at 19¾%. A gain of £1,941,000 was recorded in public deposits, but this was more than offset by a heavy reduction in other deposits, namely, £17,675,000. There was also a material lessening in the Bank's temporary loans to the Government, these showing a decline of £13,863,000. Loans on other securities fell £2,035,000. Reserves total £20,363,000. This compares with only £13,866,520 last year and £18,442,165 in 1919. Circulation amounts to £126,520,000, in comparison with £132,851,150 and £91.349,990 one and two years ago, respectively. The total of loans is shown to be £83,164,000. Last year it was £86,028,242 and £106,777,576 a year earlier. No change has been made in the Bank's official discount rate of 5%. We append herewith a tabular statement of comparisons of the principal items of the Bank of England returns:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1921. Dec. 28.	1920. Dec. 29.	1919. Dec. 31.	1918. Jan. 1.	1917. Jan. 2.
	£	£	£	£	£
Circulation	126,520,000	132,851,150	91,349,990	70,190,256	46,591,020
Public deposits	16,057,000	14,304,767	19,213,209	26,306,290	32,074,902
Other deposits	106,531,000	175,554,567	180,637,913	214,894,016	158,411,326
Govt. securities	36,960,000	107,864,798	92,469,207	124,303,744	70,833,770
Other securities	83,164,000	86,028,242	106,777,576	106,472,930	106,480,723
Reserve notes & coin	20,363,000	13,866,520	18,442,165	28,236,187	31,057,820
Coin and bullion	128,434,359	128,267,670	91,342,155	79,976,437	59,198,840
Proportion of reserve to liabilities	16.61%	7.30%	9¼%	11.70%	16.30%
Bank rate	5%	7%	5%	5%	5%

The Bank of France in its weekly statement reports a further small gain of 63,000 francs in the gold item this week. The Bank's gold holdings, therefore, now aggregate 5,524,227,900 francs, as against 5,500,268,860 francs on the corresponding date last year and with 5,578,950,293 francs the year before; of the foregoing amounts 1,948,367,056 francs were held abroad in both 1921 and 1920 and 1,978,278,416 francs in 1919. During the week increases were registered in all the various items, viz.: silver, 183,000 francs; bills discounted, 260,667,000 francs; advances, 48,713,000 francs; Treasury deposits, 12,833,000 francs; general deposits, 143,041,000 francs. Note circulation registered an expansion of 241,241,000 francs, bringing the total outstanding up to 36,467,456,000 francs. This contrasts with 37,901,598,650 francs at this time in 1920 and with 37,660,543,305 francs the year previous. On July 30 1914, just prior to the outbreak of war, the amount was only 6,683,184,785 francs. Comparisons of the various items in this week's return with the statement of last week and corresponding dates in both 1920 and 1919 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

	Changes for Week.	Status as of Dec. 29 1921.	Dec. 30 1920.	Jan. 2 1920.
Gold Holdings—	Francs.	Francs.	Francs.	Francs.
In France	Inc. 63,000	3,575,860,844	3,551,901,804	3,600,671,876
Abroad	No change	1,948,367,056	1,948,367,056	1,978,278,416
Total	Inc. 63,000	5,524,227,900	5,500,268,860	5,578,950,293
Silver	Inc. 183,000	279,765,495	266,333,452	265,702,696
Bills discounted	Inc. 260,667,000	2,505,828,298	3,308,927,949	1,654,804,411

Note circulation	Inc. 241,241,000	36,467,456,000	37,901,598,650	37,660,543,305
Treasury deposits	Inc. 12,833,000	26,014,000	56,575,424	93,666,934
General deposits	Inc. 143,041,000	2,717,193,000	3,518,470,636	3,270,513,487

The Imperial Bank of Germany in its statement, issued as of Dec. 23, again made a distinctly unfavorable showing, in that note circulation disclosed a further huge expansion of 4,427,699,000 marks. Other changes included an increase in Treasury certificates of 2,185,383,000 marks and in bills discounted of 498,482,000 marks. There was a striking decrease in deposits, viz., 2,509,486,000 marks. Notes of other banks increased 623,000 marks, other liabilities 201,909,000 marks, and investments 18,888,000 marks. Advances were reduced 20,658,000 marks, while other securities declined 532,346,000 marks. A nominal loss in gold was shown, 1,000 marks. Total coin and bullion fell 1,029,000 marks. As a result of the continued expansion in note circulation, the volume outstanding has reached the highest level ever recorded, of 107,814,975,000 marks. Last year it stood at 67,125,736,000 marks, in 1919 34,126,600,000 marks and in July of 1914 only 1,890,893,000 marks. Gold holdings continue to shrink and the total is reported as 993,695,000 marks, which compares with 1,091,557,000 marks in 1920 and 1,089,500,000 marks the year prior to that.

An analysis of the Federal Reserve Bank statement, which was issued at the close of business on Thursday, shows that for the twelve reporting banks there was a loss of slightly over $1,000,000 in gold, while at the same time the total of the bill holdings decreased $57,000,000. Total earning assets were brought down $28,000,000 and deposits $20,000,000. In contrast with the increase shown last week in Federal Reserve notes in circulation, the statement under review disclosed a contraction of $4,000,000. As to the New York bank, the same general tendencies were apparent, excepting that gold holdings increased $8,000,000. The total of bills on hand showed a contraction of $38,000,000, to $260,369,000, which contrasts with $1,014,141,000 for the same week of last year. Here a total earning assets fell, $19,000,000, and deposits $6,000,000. Federal Reserve notes registered a reduction of $3,000,000. In both the combined and local statements, small gains in the reserve ratio were shown as a result of these changes. For the whole system there was an advance of .4%, to 71.1%, and in the local institution 1.3%, to 80.8%.

Last Saturday's statement of New York Clearing House banks and trust companies was in line with general expectations and failed to show any particularly important changes. The loan item was reduced $14,255,000, while net demand deposits decreased $23,584,000, to $3,870,021,000, which is exclusive of Government deposits of $99,469,000. Net time deposits, however, increased slightly, namely, $472,000, to $218,294,000. An increase of $2,759,000 was reported in cash in own vaults by members of the Federal Reserve Bank, to $79,271,000 (not counted as reserve). Reserves in own vaults of State banks and trust companies gained $276,000,

and reserves kept in other depositories by State banks and trust companies expanded $551,000. In the reserves of member banks with the Reserve Bank a decrease of $12,470,000 was shown, and this was in part responsible for the drawing down of surplus reserves by $8,655,710 to $28,383,690, as against $37,039,400 a week ago. The figures here given for surplus are on the basis of 13% reserves for member banks of the Federal Reserve System, but do not include cash in vault amounting to $79,271,000 held by these banks on Saturday last. The bank statements will be found in more complete detail on a later page of this issue.

Probably the greater part of the business done in call money this week was at 5%, though it is true that the quotation dropped as low as 4½% and rose to 6% yesterday. While the call money market was characterized as rather irregular, it is probable that only a small volume of funds was actually loaned at the extreme rates either way. The tendency, so far as the prevailing quotation was concerned, was toward ease rather than stringency. This was true also of the time money market. Yesterday lenders were endeavoring to arrange loans for as long as six months at 5%. For two months they were asking 5¼%, but the best bid in most instances was only 5%. This development in the time money market led shrewd borrowers to believe that money will be easy for some time after the turn of the year. Although the stock market was strong in the last hour yesterday afternoon, after the announcement of the 6% call money quotation and the failure of a large Stock Exchange firm, conservative interests do not look for special activity in the stock market early in the new year. If this expectation is realized, naturally it will be a factor in the money market. On the whole there does not seem to be pronounced improvement in general business. The demand even yet from industrial and commercial lines generally appears to be more for funds with which to clear up old debts than with which to finance new business. The withdrawals of Government funds from local institutions were not large. Offerings of new securities were on a somewhat smaller scale, but several large foreign issues are under active negotiations and may be brought out early next month. In banking circles the opinion is expressed that, although at the moment the bond market is rather "toppy," the distribution of a large amount of money on Jan. 2 for interest and dividends will probably cause a further substantial demand for investment issues.

Dealing with specific rates for money, call loans this week covered a range of 4½@6%, which compares with 5@6% a week ago. On Tuesday (Monday was a holiday, Christmas Day), the high was 5%, the low 4½% and renewals at 5%. Wednesday there was an advance to 5½%, but renewals continued to be negotiated at 5%, and the minimum was 4½%. Thursday there was no range, a single rate of 5% being quoted. Call rates again stiffened slightly on Friday, so that a maximum of 6% was reached; the renewal basis, however, remained at 5%, and this was the minimum. Trading was quiet with only a light inquiry reported. The figures here given are for mixed collateral and all-industrial loans without differentiation. In time money very little business is passing and the market was largely nominal. No large trades were reported in any maturity and the range continues 5@5¼% for all periods from sixty days to six months, the same as heretofore.

Commercial paper was in fair demand but as offerings were not large, transactions attained only moderate proportions. Sixty and ninety days' endorsed bills receivable and six months' names of choice character have not been changed from 5@5¼%, with names less well known at 5¼@5½%, the same as a week ago.

Banks' and bankers' acceptances were quiet and the volume of business small. Out of town institutions figured as the principal buyers. Here, as in other branches of the money market, trading was largely of a pre-holiday character. For call loans against bankers' acceptances the posted rate of the American Acceptance Council is still 4½%. The Acceptance Council makes the discount rates on prime bankers' acceptances eligible for purchases by the Federal Reserve banks 4¼% bid and 4⅛% asked for bills running for 120 days; 4¼@4⅛% for ninety days; 4¼@4⅛% for sixty days and 4¼%@4⅛% for thirty days. Open market quotations follow:

SPOT DELIVERY.

	90 *Days.*	60 *Days.*	30 *Days.*
Prime eligible bills	4⅛@4¼	4⅛@4¼	4⅛@4¼

FOR DELIVERY WITHIN THIRTY DAYS.

Eligible member banks	4½ bid
Eligible non-member banks	4¼ bid
Ineligible bank bills	5¼ bid

There have been no changes this week in Federal Reserve Bank rates. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve Banks:

DISCOUNT RATES OF THE FEDERAL RESERVE BANKS IN EFFECT DECEMBER 30 1921.

Federal Reserve Bank of—	*Discounted bills maturing within 90 days (incl. member banks' 15-day collateral notes) secured by—*			*Bankers' acceptances purchased for member banks*	*Trade acceptances maturing within 90 days*	*Agricultural and live stock paper maturing 91 to 180 days*
	Treasury notes and certificates of indebtedness	*Liberty bonds and Victory notes*	*Otherwise secured and unsecured*			
Boston	4½	4½	4½	4½	4½	4½
New York	4½	4½	4½	4½	4½	4½
Philadelphia	4½	4½	4½	4½	4½	4½
Cleveland	5	5	5	5	5	5
Richmond	5	5	5	5	5	5
Atlanta	5	5	5	5	5	5
Chicago	5	5	5	5	5	5
St. Louis	5	5	5	5	5	5
Minneapolis	5½	5½	5½	5½	5½	5½
Kansas City	5	5	5	5	5	5
Dallas	5½	5½	5½	5½	5½	5½
San Francisco	5	5	5	5	5	5

Sterling exchange has been evidently marking time this week and trading for the most part was of practically negligible proportions. In keeping with this, price variations were comparatively insignificant, demand bills having covered a range of 2¾ cents; that is, 4 18½@4 21¼. Bankers generally continue to take a hopeful view of the exchange situation, but show a disposition to confine their commitments to strictly routine requirements, at least until after the turn of the year. Such an attitude is not surprising in view of the many developments now pending which are expected to have an important bearing on international affairs. Attention is now turning to the forthcoming Five-Power Economic Conference which is expected to take up exchange, debt-funding and other kindred problems. German reparations difficulties still exercise an adverse influence on market sentiment; though so little business is passing that the market is a nominal affair, governed to a considerable extent by speculative operations. Firm cable quotations from London,

coupled with light offerings of commercial bills, served to stabilize price levels. Approach of the New Year holidays served to still further accentuate the dulness. In the final dealings a better feeling prevailed, owing to advices from Rome that the suspension of the Italian Discount Bank might be only a temporary affair. Prices rallied perceptibly, with the close at the best of the week.

So far as can be learned little real progress has been made this week in the direction of formulating some definite scheme for the aid of foreign trade, but the financial district is astir with rumors of negotiations said to be well under way for a plan likely to be soon announced which will go far toward bringing about the much-desired improvement in our international trade relations. Present forecasts are for a further gradual rise in British currency values to come with the New Year, but this belief is based very largely upon the steady reduction of the adverse trade balance between this country and Great Britain, continued gold shipments to the United States and prospects of either Allied debt cancellation in some form or the conclusion of some satisfactory arrangement for funding these obligations into long-term credits at low interest rates. Advices from Washington late in the week that the Administration has no intention of lessening its efforts to secure passage of the foreign debt refunding bill had a good effect.

As to quotations in greater detail, sterling exchange on Saturday of a week ago was firm and fractionally higher, with demand up ½c., to 4 18½@4 18¾, cable transfers 4 19@4 19¼ and sixty days 4 16½@4 16¾; trading, however, was not active. Monday was a holiday (Christmas Day). On Tuesday, although little activity was apparent, the undertone was strong and there was an advance to 4 19¼@4 20¼ for demand, 4 19¾@4 20¾ for cable transfers and 4 17¼@4 18⅜ for sixty days; the dulness was accentuated by reason of the fact that it was a holiday in London. Weakness developed on Wednesday so that demand bills declined to 4 18¾@4 19⅞, cable transfers to 4 19¼@4 20⅜ and sixty days to 4 16¾@4 17⅞; the volume of business was not large. On Thursday the market was somewhat irregular and prices fluctuated uncertainly under very dull trading; with the close approach of the New Year holiday buyers apparently withdrew and quotations were largely nominal; the range for demand was 4 18⅞@4 19¾, for cable transfers 4 19⅜@4 20¼, and for sixty days 4 16⅞@4 17¾. Improvement was noted on Friday and demand bills moved up to the highest of the week, 4 19⅝@4 21¼, cable transfers to 4 20⅛@4 21¾ and sixty days to 4 17⅝@4 19¼. Closing quotations were 4 18⅞ for sixty days, 4 20 for demand and 4 21⅜ for cable transfers. Commercial sight bills finished at 4 20⅛, sixty days at 4 15¾, ninety days at 4 14¾, documents for payment (sixty days) at 4 16 and seven-day grain bills at 4 19½. Cotton and grain for payment closed at 4 20⅛. The week's gold movement was smaller in volume than has been the case in recent weeks. It comprised—

approximately $1,280,000 on the La Lorraine from France; $400,000 on the Olympic from England; $2,800,000 on the Carmania from England; $2,040,000 on the Frederick VIII from Sweden; $307,500 in gold bars and one box gold coin on the Nieuw Amsterdam from Holland and three boxes of gold on the Ryndam, also from Holland. Smaller miscellaneous amounts from South America and elsewhere were as follows: 39 bars of gold on the Turrialba from Colombia; $200,000 gold coin on the American Legion from Uruguay, and a number of small lots of gold and silver on the Colon from Panama. The El Rio brought $3,000 gold bars from Colombia; the Tivives 28 bars and 5 cases of gold coin, gold dust and raw platinum from Colombia, and the Olympic 12 boxes of bar gold from Southampton. A considerable volume of the precious metal is on its way, including another consignment of gold from the German Reichsbank, also gold from India.

Continental exchange followed a course closely parallel to sterling, so far as the volume of business transacted is concerned, and trading in the aggregate was unusually light. However, price movements covered a much wider range and following weakness in the early dealings, substantial gains were recorded in nearly all of the leading European currencies, which carried prices from 10 to 20 points above last week's close. This was in large measure due to the fact that London continued to send firm cable rates, that commercial bills are still in light supply and that a certain amount of short covering has been in evidence. Towards the close, realizing sales caused some weakness and a reaction set in, with losses of from 5 to 10 points, but recovered nearly all of the losses at the close. A marked falling off in demand was also noted, which was, of course, due to the approaching of the New Year holidays. Exchange on Paris was probably the firmest feature on the list, advancing, on a broader inquiry, to 8.09 for checks, though no specific reason was assigned therefor. Belgian currency ruled steady, touching at one time 7.74. Lire opened firm, but lost ground later on as a result of unfavorable financial developments in Italy, though rallying in the final dealings on more encouraging reports; the extremes for the week were 4.46½ high and 4.27½ low. It was explained that fairly large offerings coming on an unresponsive market occasioned the slump. Reichsmarks ruled strong and weak by turns, and after a decline to 0.52¾, rallied to 0.56, only to sag off later on and closed at 0.53½. Austrian kronen remained practically nominal at levels previously current. Greek exchange was strong and higher. Here, as in the case of sterling, large operators were largely out of the market, having temporarily adopted a waiting attitude in the absence of some definite decision with regard to the momentous international issues now impending. The claim is made that very few bills of any kind are coming on the market and that exchange fluctuations are therefore due mainly to speculative tactics.

The official London check rate on Paris finished at 52.45, comparing with 52.82 a week ago. Sight bills here on the French centre closed at 8.08, against 7.91½; cable transfers at 8.09, against 7.92½; commercial sight bills 8.06, against 7.89½, and commercial sixty days at 8.00, against 7.83½ last week. Antwerp francs finished at 7.73 for checks and 7.74 for cable transfers, against 7.59½@7.60½ a week earlier. Closing rates on Berlin marks were 0.53¾ for checks and 0.54¼ for cable transfers, as against 0.52¼@0.52¾ the previous week. Austrian kronen finished at 0.03½ for checks and 0.04 for cable remittances. This compares with 0.03¾ and 0.04¼ a week ago. Lire closed the week at 4.35¼ for bankers' sight and 4.36¼ for cable transfers. Exchange on Czecho-Slovakia was firm and advanced to 1.47, against 1.39. Exchange on Bucharest finished at 0.70, against 0.76; on Poland at .0350, (unchanged), and on Finland at 1.95, against 1.97

the preceding week. Greek drachma closed at 4.15 for checks and 4.20 for cable transfers. A week ago the close was 4.05 and 4.10.

In the former neutral exchanges there is practically nothing new to report. Swiss francs continue to rule strong at very close to last week's high levels. It is said that the Central European countries have lately been heavy sellers of their own exchange through Switzerland and that this accounts for the strength in Swiss currency. Dutch guilders were firmly held, as also were the Scandinavian exchanges, and the same is true of Spanish pesetas. Trading was quiet and price changes largely a reflection of movements abroad.

Bankers' sight on Amsterdam closed at 36.92, against 36.45; cable remittances 36.97, against 36.50; commercial sight bills 36.82, against 36.40; and commercial sixty days 36.46, against 36.04 a week ago. Final quotations for Swiss francs were 19.48 for bankers' sight bills and 19.53 for cable transfers. This compares with 19.45 and 19.50 the week before. Copenhagen checks closed at 20.02 and cable transfers 20.07, against 20.10 and 20.15. Checks on Sweden finished at 25.15 and cable transfers at 24.20, against 24.90 and 24.95, while checks on Norway closed at 16.05 and cable transfers at 16.10, against 15.62 and 15.67 last week. Spanish pesetas finished at 14.91 and cable transfers at 14.96. A week ago the close was 14.83 and 14.88.

CABLE BUYING RATES FIXED BY FEDERAL RESERVE BANK, DEC. 23 1921 TO DEC. 29 1921, INCLUSIVE.

Country and Monetary Unit.	Noon Buying Rate for Cable Transfers in New York Value in United States Money.

As to South American exchange the situation remains about unchanged with trading dull and featureless and prices about steady. Rumors that the Argentine Government had resumed active negotiations with New York bankers for a long term loan of $50,000,000 or more had slight effect on market sentiment, and the rate for checks on Argentina finished at 33⅜@33½ (unchanged). For Brazil the close was 12¾ for checks and 12⅞ for cable transfers, which compares with 12⅞ and 13 a week ago. Chilean exchange was firmer and advanced to 10¾, but receded and finished at 10⅝, the same as last week. Peru was still "pegged" at 3 55.

Far Eastern exchange was as follows: Hong Kong, 55@55¼, against 54½@54¾; Shanghai, 76¾@77, against 79½@80; Yokohama, 48¼@48½ (unchanged); Manila, 47½@47¾, against 47¾@48; Singapore, 49@49¼ (unchanged); Bombay, 28½@29 (unchanged), and Calcutta, 28½@28¾, against 29@29¼.

The New York Clearing House banks, in their operations with interior banking institutions, have gained $6,367,441 net in cash as a result of the currency movements for the week ending December 29. Their receipts from the interior have aggregated $7,071,823, while the shipments have reached $704,382, as per the following table:

CURRENCY RECEIPTS AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

Week ending December 29.	Into Banks.	Out of Banks.	Gain or Loss to Banks.
Banks' interior movement	$7,071,823	$704,382	Gain $6,367,441

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6, 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, Dec. 24.	Monday, Dec. 26.	Tuesday, Dec. 27.	Wednesd'y, Dec. 28.	Thursday, Dec. 29.	Friday, Dec. 30.	Aggregate for Week.
$	$	$	$	$	$	$
55,000,000	Holiday	59,200,000	46,000,000	37,400,000	44,000,000	Cr. 241,400,000

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country, in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, show nothing as to the results of the Reserve Bank's operations with the Clearing House institutions. They represent only one side of the account, as checks drawn on the Reserve Bank itself are presented directly to the bank and never go through the Clearing House.

The following table indicates the amount of bullion in the principal European banks:

a Gold holdings of the Bank of France this year are exclusive of £7,934,682 held abroad.

"LABOR, ALL LABOR, IS NOBLE AND HOLY."

At a dinner tendered to him on his fortieth anniversary as a play producer, David Belasco made a speech—a very charming and beautiful speech. Here are some of the things he said:

"Another thing I have learned in my experience in New York and it has grown to be my creed: I believe that God made us to work. I believe that He meant that we should earn our living by the sweat of our brows. But I believe that He made us to love our work so much that we might play at it; find real and profound pleasure in it, and so labor on until, tired out, we might sleep like little children at the end of each day.

"And I believe that the last sleep is only the end of another day, and there will be a to-morrow—to work again and to play again and to love again. . . .

"The curse of our times is the vast army of people who care nothing for their work—who labor solely for money. No one can do this and succeed.

"We must carry affection into our work to bring inspiration, because 'all that happens, happens again,' as Peter Grimm said.

"King Solomon said it before him: 'There is nothing new under the sun.'

"This is felt by all artists, scientists and men and women in the business world; so the best we can do is to take a fresh viewpoint of old matters."

He glorifies love—"our love is the one real thing left behind us in the work we leave." It will not escape the reader that this well known man of the stage, in speaking of the need of carrying "affection into our work to bring inspiration," couples "artists, scientists, *and men and women of the business world,*" together. There is the same motive in all. And as we read we recall two very recent confirmations: Charles Schwab, saying he has reached the point in life where money counts for very little, and Thomas Edison, taking an almost childish delight in a recent invention of his son. This apotheosis of work, of love in and through work, comes into the world, we think, like a decree of high wisdom, since it falls from the lips of one who has long ministered to its entertainment and enjoyment. The stage becomes a forum; and the players become teachers. "Nothing is wasted," he says. And every man is immortalized by the love that is in work!

These is to be an effort made to set forth the true dignity and worth of the material life. "Business" is only another name for work. It takes infinite forms; it engages all men. There is no separation between the work of the hand and brain. All is thought applied. The immaterial takes physical shape. The awakening of emotion by so artistic a means as the play, has its accessories, the dull properties. Every subtle inflection of the human voice, every moving gesture, are the result of unceasing practice—the "art that conceals art" is merely work. We pass from the mimic world of the stage into its vast and real workshop. Here there is nothing save work—save the love that speaks in and through work. Here, for all our agile speech, our boasted analysis, we cannot separate capital and labor. Work is the foundation and being of our civilization—wisdom is no more, culture is no more. We are given dominion only through work.

Production is a magic loom in which workers weave the threads. Exchange is the flying shuttle that never stops. Creative energy is thought, and love its mainspring. Things are thoughts. Ownership is the necessary attendant of creative effort. No one works with another's hands or thoughts or tools—and the uses of things are free. The common good is inseparable from the common labor. All the institutions that contribute the joy and well-being of life issue out of the commonplace of human toil—as the flower bursts from the wood. All is barter—buying and selling the mere intermediary of exchanging goods for goods. There is but one helper that asks no wage—Nature. He who saves his labor, owns it; he who wastes his substance, owns nothing. Profit is the wages of capital; wages the profit of labor. If business is an agency of modern civilization; if work is the embodiment of thought; if affection is the inspiration of creative thought, the humblest worker in the field of human effort is the helper of his kind, the herald of our highest culture.

As the generations appear and disappear they leave behind them only the momentum of the general advance. The invention of to-day is the discard of to-morrow. Wages and profits are the measures of time and circumstance. He who "does well his part" is worthy, be the part what it may. Life is a trust; wealth is an obligation. Work only, is duty. If a man sow good grain in a field, he must select the seed adapted to the soil. For every sweep of the sower's arm, for every stroke of the woodman's axe, there is a guiding thought. Waste is work without thought; he who slights his task and skimps his hours, deprives his time and place of its full accomplishment, takes more than his share from the whole. Poor or rich, a man works with his own mind and strength; he may use one more than the other, he cannot use one and not the other. The power of strength is labor, the power of thought is capital; together they constitute being.

It comes down to this—all that we have, all that we are is the result of individual efforts, competitive in fact, co-operative in truth. All the bounty of Nature that inures to our collective well-being is attained by the selection and application of the individual guided by some motive deeper than acquisition and that motive is love. The vast inter-operating machine we call "business" could not exist without the individual who is alone capable of primal work urged on by the spirit of love. He, therefore, has love, who loves his work for its own sake, for that work is the only means for the full expression of life. The family, the home, the church, the school, the State, all science, letters and art, all the myriad utensils, tools, machines, products of infinite variety, are the result of countless men and women "working in these walls of time."

Who could weave these countless lives of work into one directive source? Who could control the thought of countless millions to one end? Who could parcel out, share and share alike, the physical possessions of mankind? Who can say of a single agency, institution, accomplishment, this is the product solely of thought, this of strength? What matters it that one own for a few years more than another, if the way of work and achievement is open to all? Small segments of industry *may* perhaps be co-ordinated; small divisions of labor *may* be organized; small parts of the whole of capital may be combined; but "business" and civilization and culture are inclusive of them all—and the sublime whole is the property of each, even as the sunlight is, but only as each absorbs the spiritual essence to breathe it forth in work.

MAN AND ARMS.

By a mere coincidence, there appeared in a recent issue of a morning paper, on opposite pages, a call for the consideration of "complete disarmament," and one for an extended study of the distribution of the earth's population, with a view to the influence of this problem on future peace. It matters not that in the first instance the call is by an "International," asking socialist and labor elements of the world to work for this cause, since complete disarmament (and by this generally is meant only the retention of a domestic police force) is now very real in the thought of the world. And it is noted that in the petitions that have been forwarded in our own country to the present Conference on Limitation an interesting percentage has called for this consummation. And furthermore, the voluminous comment the Conference has called forth has not

been oblivious of the fact that "reduced" armaments are still physically capable of carrying on wars.

The relation of "world-crowding," and the phrase is not a new one, to future wars for self-existence, has not in recent discussions received much attention. As a matter of social study the control of population is a growing question; immigration and emigration, as a consequence of world-war, have become a subject of legislation by national governments; but the element of danger that lies in the present distribution of population, in the face of the fact that there are "no new lands to discover," has not received extensive comment. Consideration of the matter is suggested by the following excerpt from the statement of the biological authority above referred to: "There are about 1,750,000,000 people on the earth, authorities tell us. Inspection discovers that about 932,000,000, or 54%, of these live in the Indo-Pacific area on about 25% of the earth's land; while the remaining 46% live in the Atlantic area on about 75% of the land. Of the 932,000,000 Indo-Pacific population, about 850,000,000, or 50%, of the total world population, are confined to the eastern and southern portions of the Asiatic Continent, on about 12% of the earth's land. . . . From the density of these Asiatic populations, from the type of their culture, and from the higher standards of living and the facility of communication and travel in the whole modern world, the tendency of these peoples to overflow into all meagerly populated and cultivated lands of the Indo-Pacific area, which are similar to those they have been accustomed to for a score of centuries, is bound to be tremendous."

"Couple these facts with the further fact that all civilized peoples now have positive knowledge that there are no more vacant or heathen lands into which they can migrate, and with the still further fact that both the Orientals and the Occidentals primarily concerned are highly but differently civilized, and the momentous truth gradually takes shape in our minds that the instinct of self-preservation is here developing a problem some elements of which have never before confronted mankind." The conclusion of this authority is that unless the Washington Conference develops the beginning of this study, which "implies a carefully laid out plan of study with facilities and time for carrying it out"—"not much will have been done toward solving the Pacific question."

The sudden shifting of attention from Europe as the seat of the last world-war to the "Pacific" as the probable seat of the next world-war, has not passed without comment, including wonder and even amazement. And the thought that must press itself upon the citizen engaged in his ordinary tasks is the magnitude and complications of these problems statesmanship is now grappling with. It is true that Senator Lodge, in presenting the Four-Power treaty did not fail to mention the fact that many of the countless islands of the vast ocean are really valuable in their ability to sustain life, but his glamorous presentation, touched with the magic of the South Seas, did not enter upon the problem of "world-crowding." Senator Reed has contended all along that "complete disarmament" is a dream, is not to be thought of, since it would place the white peoples at the mercy of the greater numbers of the brown, black and yellow. The "International," we have mentioned, connects total disarmament with universal economic adjustments, as effect and cause and cause and effect. From all of which, to refer again to the common man and citizen as subject, it must certainly appear that world-governing is not only a gigantic task but a continuous one.

However, a few general truths seem to appear. One is that migrations which follow conquest by wars are more rapid and extensive than those which occur by "overflow" in times of peace. Another is that Conferences, when and as they continue, must widen the view and increase the interchange of knowledge. Again, the entrance of Japan (an island empire, an empire dating its recent sudden advance into progressive civilizations to a period beginning not much more than fifty years ago) into modern world councils is at least a phenomenon of history, and may suggest much in explanation of the shift to the Pacific. This, the debacle of Russia, and the ever-present problem of China, do constitute the Pacific an area for investigation and agreement. But the binding nature of "treaties" in comparison to the peace-progress contained in constant associations for conference cannot be wholly ignored.

In all this medley of world questions, is it dilatory to ask that some of them be left over for another generation to consider, and solve, if they can be solved? Immigration is regarded as a domestic question, and it is one yet to be dealt with in this and other countries. It *is* part of the Pacific problem. But need we continue armaments to meet its possible contingencies? Trade rivalries and restrictions *are* possible concealed causes of wars, but need we keep armaments at the cost of universal impoverishment to forcibly settle the problems they may generate? The debts of the world *are* a pall upon progress, but is the pall lifted by adding to these debts the costs of continuous increase of armaments? The world is out of joint, but can it be put into health and harmony by introducing a thousand and one new problems for Governments to try to solve? Is it true or not true that man's mind-vision is distorted, that it looks too far across the world and too far into the future?

Men say it is first necessary for economic reform to occur in European countries by their own respective efforts before these huge financial problems *can* be adjusted. Why not concentrate on this, and urge it as the consensus of world-opinion? A financial conference, yes! But not to discount the future, rather to open the way. Trade promotion, yes! But by turning from restrictions to release. Limitation of armaments, yes! And then further conferences, and more limitations. But not unending quarrels over new "treaties"!

HENRY WATTERSON AND JOURNALISM.

The death of "Marse Henry" Watterson, three days before Christmas, removes the most picturesque figure in journalism and reminds us again of the combined age and newness of our country. For Mr. Watterson, who died still lacking two months of reaching 82, was born in Washington under Van Buren as President, and among his early recollections he said that he had sat on the knee of Andrew Jackson (who died in 1845) and that John Quincy Adams, "then a little old man," used to trot him through the corridors and across the rotunda to get him books from the Congressional library. At 18, he became editor of the "Democratic Review" in

Washington and a contributor to other journals, and in the campaign of 1860 he bore an active part. He followed the fortunes of the seceding States, riding for a time with Forrest's cavalry, joining the attempt against Sherman, and incidentally editing "The Rebel," a Chattanooga daily that had a brief career.

In 1868 he was made head of the consolidated "Courier-Journal" of Louisville, with which he became so thoroughly identified that its name and his own were never separated for half a century. Having followed the secessionists while disapproving secession, he loyally accepted the result of the war. He submitted to and supported the 14th and 15th Amendments as a natural outgrowth of it; he stood by rational reconstruction; he fought the carpet-baggers; he was a leader in the movement which brought about the Greeley nomination in 1872; four years later, he went to Congress as a quasi-personal spokesman of Tilden, where he opposed the conduct which followed the election of 1876, doing this with more vigor than did Mr. Tilden himself; yet after the finding in which culminated the trick and injustice of that campaign he accepted the result for the sake of peace.

As a writer, Mr. Watterson was fearless to the point of daring, direct and pungent beyond comparison, and undoubtedly influential; as a man he had an acquaintance singularly wide and devoted. He went directly at the bull's-eye and directly "for" his opponent. His sincerity was as unmistakable and unshakable as his earnestness, and he never shaded either by the width of a single hair. He was the most picturesque figure in journalism, ready with epigrams, keeping a mint that coined phrases hot and biting; he cared for nobody, although his heart was large enough to care for everybody. He may or may not have read of and recalled that Roman Senator, who, before the final Punic war, concluded every statement of his views, on whatever subject, with "delenda est Carthago," but many of his articles on the last war ended with a passionate "to hell with the Hohenzollerns and Hapsburgs."

Mr. Watterson was the last of the quintette of "personal" journalists. Greeley, Raymond and Bennett were pioneers and founders; Dana and Watterson were successors, each of them transforming that to which he succeeded, and Watterson became so towering a figure in it that he might almost be counted even as a founder. The four journals (the "Times" probably the least such) were "personal," not so much in that sense of the word which applied much to the work of Greeley and Watterson, as in their individual characteristics and authority which penetrated everything. At one time, the "Weekly Tribune" had a constituency unlike that possessed by any journal of the present, and its country reader never failed to carefully peruse "what Horace says." Personal journalism, meaning the admitted and recognized personality of one writer, had its force, its merits, and also its defects; it was to the "Tribune" that Abraham Lincoln (whom Watterson came to admire and support) addressed at least one communication informally to the people, and the same Greeley who in 1861 reiterated the "On to Richmond" cry afterwards saw better than many did when he became a bondsman for Jefferson Davis.

Nobody can be sure that one or more names will not be added to this quintette, and yet it may be deemed very doubtful whether journalism personal in any such sense as they made it will continue. It used to be suggested, as giving greater power and a greater sense of responsibility, that important articles should be "signed." Much could be forcibly said against this, and the current movement is away from it, although the "war correspondent"—let us hope that he will lose his topic and therefore perish himself, as mankind grow out of the ages-long madness—has necessarily and properly been chiefly a "signed" contributor; on the other hand, the newspaper has grown in every respect—in scope, ubiquity, expenditure, variety—until its business today compares with that of the mid-century as the ocean liner now compares with the "Collins" liner of that day.

The newspaper "reporter" is supposed to be rather deeply tinged with cynicism, if not with skepticism and pessimism also; so far as he is such, it may be because his day's work brings him so frequently in contact with the seamy side of life, seeing people either in a state of non-receiving undress or in a pose made up for the footlights of notoriety, and, on the other hand, he finds the public so greedy for "news" which is bad, and if of "private" scandal, so much the more merchandisable that if he did not start with a contemptuous opinion of his fellow-creatures he is tempted to acquire one. Yet it may be said to his credit that if he is skeptical as to the reality of apparent genuineness he has the excuse of having grown case-hardened, and that he does hate sham, being obliged to see and expose so much of it. The journal of the day is not such as (conceivably) may exist in the Holy City of golden streets, but only a little of it is deliberately bad and venal. In an address about twenty years ago, Mr. Watterson said that "the newspaper is the history of yesterday." It is made to sell, he added, but is not a commodity like most that we call such; it may not care to publish any opinions, "but in case it does it should seek to be a keeper of the public conscience, an example and counselor, not a corner-groceryman; level of head and kindly of heart, spright and elevated, always sincere and truthful, avoiding as it would avoid pestilence and famine the character of a common scold." The requisites of the journalistic noblesse oblige could not be better stated, and if a newspaper proprietor uncovers and reprobates the sham and the unclean out in the world, his bond to be sincere and clean himself is strong; can we suppose that one who makes merchandise of the world's "yellowness" tolerates a mirror in his own private quarters? And especially now, when it almost seems as if the world were in all but mortal travail of being reborn, we may justly accept Mr. Watterson's prediction in that same address that "more and more will newspaper owners discover that integrity and cleanliness pay the best dividends." And if the question be raised whether editorial articles are as generally and carefully read and have as much influence on public opinion as formerly, we must remember that the press is necessarily a megaphone. Every man tries to shape his own course by what he learns of current events and the trend of the opinions of mankind from his newspaper; taking news from it, he cannot avoid and does not seek to avoid letting its opinions affect his own. Thus the editorial writer not only has an audience which his verbal expressions lack but gains for them a power far beyond that of a private

speaker. If he is either insincere or feeble, he will in due time be virtually deposed, losing power if not position. Nature's law is inexorable, and "cancels a sense misused." The fish in the Mammoth Cave have what appear eyes, but a touch of the scalpel discloses that they are only the outer shells of vision.

THE NEW YEAR AND THE CONFERENCE.

"To-day is yesterday returned; returned
Full-powered to cancel, expiate, raise, adorn,
And re-instate us on the rock of peace;
Let it not share its predecessor's fate,
Nor, like its elder sisters, die a fool."

To-night the Old Year, gathering up its skirts, which represent the activities of the past, with forward-looking eyes steps lightly into the New. So the members of the great Conference, having completed their main business, must now with the year face the unknown events in which Time will apply to their work the supreme test. Some already have turned homeward to prepare for the trial; the others are soon to follow; we would extend to them all, both there and here, our grateful plaudits.

We hoped much from their gathering, though we were not without fear, for failure would have been disastrous. We welcomed them with open arms, and they have given us every reason to believe that they were not disappointed in what they had been led to expect, either of America's welcome, or of our readiness to make whatever sacrifices would inaugurate peace. They brought good-will, and their prompt and generous response created the atmosphere of mutual courtesy and personal regard in which their labors advanced strenuously and effectually to their harmonious and glad conclusion. If there is much left still undone, it is only what is true of all earnest work where success opens doors for future achievement. We can apply to them today as to ourselves, Prospero's confidence that

"The charm dissolves apace,
And as the morning steals upon the night,
Melting the darkness, so the rising senses
Begin to chase the ignorant fumes that mantle
Their clearer reason. . . .
. . . Their understanding begins to swell."

We can all face thankfully the new tasks. We have been frequently reminded that physical limitation of armament, however extensive, accomplishes little apart from the moral support of the people, and indeed may become, in some lands, an inducement for hostile deception. The delegates to the Conference return to their homes pledged by all they have done, to do now all in their power to secure that support and co-operation on the part of their countrymen which is so essential. With that accomplished, the peace of the world is assured.

We can be confident that they will set themselves eagerly and understandingly to this task. Some years ago one in need of self-justification said defiantly: "If a man is a gentleman, he knows quite enough; if he is not, everything he knows is bad for him." Our friends, the delegates, have the double advantage that they as gentlemen have been here in circumstances of increased knowledge greatly to their benefit. It may be to us a matter of no small pride that even unconsciously America in her material and visible form has contributed something to this result. An English writer, describing recently a village in his native Devonshire, said: "The houses held themselves as though conscious of their setting and worthy of it; and by their human significance completed a vision that had been less without it." The impression we sought to make has certainly been deepened, and the vision of our guests enlarged by the America they have seen, some for the first time. Marshal Foch left us with tears in his eyes, and, as he said, leaving his heart behind him, himself too full for utterance. Professional soldier as he is, what he, now at home, will do, can be forecast. We are reminded that in 1905, when relations were far from amiable between France and England, and to try to improve them the officers of the French navy were invited to London, as the procession with the guests crossed Trafalgar Square the French admiral arose in his landau and removing his hat saluted the statue of Nelson. The generosity and grace of the act thrilled England and laid the foundations of the future Entente. Can we expect less from the influence of Foch and Viviani and Briand, and indeed all their colleagues, both here and when returned to their homes?

At the opening of a new year we may venture to pass in rapid review, not details of the work of the Conference awaiting adjustment, but several of the great problems pressing upon the whole world. One is, how the disastrous and revolutionary effects consequent upon the war now appearing are to be met. In one form or another they are world-wide. We have only space for direct testimony. A Russian author states it thus in that country: "We need help not so much to save our lives as to preserve the faith of a hundred million people in the existence of truth and goodness. Otherwise, our hearts will die of their burden of bitterness, and we shall perish cursing life and our fellow men. That is the most frightful thing of all—to perish thus despairingly." Other testimony comes from a least-expected source. A veteran German teacher wrote the other day: "We must always bear in mind the devastation of spirit, the catastrophic upheaval of soul the war and revolution have wrought in the most sensitive minds of our generation. It will be a slow process —finding ourselves again. But to the degree in which we do so, will beauty, liberation, humor, grace and loveliness be restored to art." Similar evidence is to be had of the horrid spawn of the war actively breeding in many lands, from India to America; and when it is remembered that the underlying task of the Conference was to do something to restore the devastation of spirit recorded, not in art, but in a thousand ways witnessed in the life of humanity, it will be seen how much remains to be done to carry its work into effect.

Another is the Race Problem, as concerning both individuals and States. The "rising tide of color" indicates the white man's burden in insistent form; and we are aware that we, at least, have not made much advance toward the solution of the problem or in freeing ourselves from the seriousness of the burden. Abroad it becomes the question: How are inferior peoples and weaker races to be guaranteed in their rights or preserved in their possessions? The "backward races" are awakening to a new understanding and appreciation of their common humanity; and the world has in hand a new series of tales of the deeds and abilities of individuals, and it is challenged to acknowledge the manhood of the races to which they belong, and their right to opportunity for the free development of their powers; and for their race, whether black or yellow, to make such contribution as it may to the progress of hu-

manity; and this acknowledgment is to be frank and unreserved. France once more is leading the way; the de Goncourt Academy has awarded the prize for the best novel of the year to a negro writing his book in Central Africa. Where else in the world to-day could this have been done? The recognition of the personality and worth of the individual, regardless of his race, will be the best foundation for securing the work of the Conference in restoring appropriated territory, as in the case of China, and in preventing further exploiting and oppressing of native peoples, of which there has been so much.

One other problem, perhaps the most important of all, is that of bringing Christianity in its life-giving power to bear upon the deeper needs of the world. The Protestant nations, with all their advantages, greatly need this if they are to be delivered from selfishness and the pride of life. The great ancient and entrenched State churches need it if they are to be freed from the fetters of their accumulated formalism and the bondage of their traditions and proud self-sufficiency. Christianity alone can fuse the rich ore of the intense theism of the Mohammedan world, and re-fashion it into worship of the worth and purpose of life as taught by Jesus. It alone can satisfy the hunger in the souls of the multitude in the East, who, caught in the restless life of to-day, have turned away from their ancestral faiths and are trying to live without faith in a divine Being. It alone can reach the pagan, with his fetich and his fear, and lift him into the light and the joy of the children of God.

Thus the religion which alone can produce and sustain the sense of moral responsibility upon which the plans for peace rest that are making the world glad to-day is that which leads the individual soul into the ways of life.

The underlying note that sounds through the changes that are everywhere appearing is one of courage and of hope. In the hour when the Old Year glides into the New we are lifted in our thought into the purer atmosphere of the world above and helped to see that the great things, truth, justice, righteousness and love, remain unchanged, and have lost nothing of their worth and power.

HANDICAPS ON ACHIEVEMENT — ADMONITION TO BUSINESS MEN.

Speaking at the annual dinner of the Maine Society, on Dec. 15, Mr. Charles Schwab said some very timely and practical things. His boyhood imagination, forty years ago, built industrial castles, but the reality since attained has gone beyond his wildest dreams; for example, a few thousand tons of steel were annually produced, forty years ago, and now the output is many millions. The explanation lies on the surface, although reaching down into the foundations; a great reward was open for individual initiative, men pushed ahead to building up industries and making profits which they put into more industries; earnings rolled up like a snowball; men who had begun to make profits made them faster and faster, and "the thing extended and extended." Then what?

Then "this far-seeing Government of ours said that money thus made does not belong to the men who make it, but to Government, and Government said it must be paid back to Government in taxes." Yet no Government can ever succeed in this way, declared Mr. Schwab; no industry can go far, and no man can make much advance, under such conditions. Nobody can go ahead now as men did in the past, and along with incentive and initiative the old-fashioned confidence which made men work comfortably and contentedly has vanished.

He could triple his own income, he said, by withdrawing from all industrial activities and putting his whole fortune into non-taxable securities, but he is not willing to do this. He rejoices that this country is called "material"; we ought to take full advantage of our natural endowment, and make this land the workshop for the world; eminent men may covet and receive commemoration by monuments of stone, but for his part he would be satisfied with rows of furnaces marking the progress of industry; he emphatically denied that craving for more wealth is the driving force of the country's big men and they would like confidence and approval from their fellow-Americans.

Of course this is all true, and it has been said before. This country grew so fast that the socialistic jealousy of wealth and the lazy assumption that inequalities of achievement mean oppression of the slowest got hold of time-serving politicians, and so began the anti-trust and the equalizing and regulating era, in which we have misused opportunity and wasted effort by trying to limit and restrain effort; having achieved great things, we became frightened and tried to put ligatures upon achievement. This was clearly in Mr. Schwab's mind, and he takes in the globe in his forecasts, for he said that business will not revive here until it revives abroad, herein agreeing with his recent emphatic declaration that he would willingly see all the industrial plants in which he is interested sunk in the Atlantic, if that were necessary to attaining disarmament and the peace spirit. But a few sentences may have been inaccurately reported, for his declaration that the ten or fifteen million tons of idle shipping in our harbors "will never be used while they are regulated by or belong to the Government, and must have competent ocntrol if they are ever to be of service," does not comport with the remark that "our representatives in Congress are afraid of the word subsidy, but I am not; the Government must install some form of subsidy, and if it does not, we may build ships until they dot the broad Atlantic and we will never have a merchant marine until men who operate them make a return on their money." But ships will move when profitable carrying calls them, and to the "Chronicle" removal of Governmental hindrance rather than the push of a subsidy seems needed. In defiance of sound principle a marine line under the dead weight of impediments, in which labor costs and excesses rank first, is very like a rail line having the same burdens, and a subsidy for either means having operating costs increased and then trying to square the case by mulcting the people in taxes. It is quite true, as Mr. Schwab says, that business will not really revive here until it revives abroad, but why not slightly change the saying that commerce follows the flag, and make it declare that the flag will follow commerce? That is, if we are to put stress on "sayings"; but what the world most needs is to scrap follies, jealousies, suspicions, fears, and wastes through idlness or otherwise, and to pull together in real hard work instead of pulling apart.

Following Mr. Schwab at the dinner came Senator Borah, who on this occasion at least spoke posi-

tively rather than negatively, and he too said some things that are deeply true and really need to sink into men's minds. We must disarm, he said, or give up civilization. Two years after the war ended, we are still moving in war psychology; in 1920 we were spending billions for military purposes. We cannot build enterprises without lightening the tax load, and we cannot lighten that until we reduce expenses. Magnificent though the beginning of the great conference (for which he has all praise for Secretary Hughes), it must be considered only a beginning in the fight for disarmament, and he would favor continuing "until the people and public opinion push disarmament until there is left only enough to be national police forces." We see a world in debt, famine gripping millions, children born under a palsy, six millions of men still under arms, every nation increasing its taxes, and industry discouraged. Treaties will not suffice, alliances will not aid, leagues break at the first rattle of artillery; most of the treaties heretofore written have disappeared, "and the path of the human family is strewn with scraps of paper, including our own."

Senator Borah said Mr. Schwab seems to think the Senate in Washington the worst seat of trouble, and he inclines to agree, "but we have times when we'd like to have in the Senate such human brain power as that of Charley Schwab." And what could be more needed now than this admonition:

"I want to say to the business men of New York and of the United States, that we shall never have better politics until you take part of the time from your business and see that better men go to the Senate of the United States. It is true that there are men of character in the Senate who believe that we have too many laws and too much supervision, and that a system is being built up which is calculated to destroy the initiative of the American citizen, the one thing which has made us the greatest of nations. *But I want to say we get little assistance from the business men of the United States.*"

It is needless to ask whether this is true, whether it is a new condition, or whether it is not at once discreditable and dangerous. Where are the most responsible and the mentally strongest of our people when tax reduction lags and even what is professedly done is half-heartedly and skimpingly done, and when spendthrift schemes (such as the still-impending bonus, for example) show that public trustees need strength from the public to keep them up to line against sinister greed? Where were our best citizens during the long course of impairing our railways? Where are they now, that they do not with unmistakable sternness demand obedience to the mandate supposed to have been given in the elections of 1920? Admit that in a democracy all noses count equally at the polls and that the wisest and best in any people are the minority; still, where are the best in respect to meeting, as man to man, the mass who are in the phalanx of the uninformed and the mass in labor unions and making them all see that no Government can boost the individual and that all who struggle to carry least to the great divisible total of industrial product and grab the most from it are pinching themselves as well as others? And are not some of our men who best know duty so engaged, at least at times, as to favor the pestilent notion that wealth and strength come by rapine and oppression?

Every one of us needs to learn (or to realize with new force) that physical law is not one whit more irrepealable or less inexorable in penalty than spiritual law and economic law. We need to gird ourselves anew for our individual duties as workers, citizens and friends, brethren both in agreement and endeavor.

THE CONFISCATION OF WEALTH.

[By Percy H. Johnston, President of the Chemical National Bank—Reprinted from the "Forum" for January 1922.]

"The power to tax is the power to destroy," said Chief Justice John Marshall. The exercising to-day of that power beyond the limits of discretion and good judgment will unquestionably spell disaster. The prosperity of the country depends upon the taxation laws in a larger measure than is generally appreciated, and it is therefore that every man, woman and child in the land is directly concerned in the provisions of the temporary tax law recently passed by Congress. Since the selfish dictates of human nature compel one to look at the proposition from the standpoint of how he himself will be affected, it will be well to analyze the continuation of high surtaxes on incomes and profits from the standpoint of the various parties interested.

Contrary to the generally accepted opinion, the rich man has less fault to find with high rates on large incomes than any other class, since all he has to do is to invest his wealth in securities which are exempt from taxation. It is not the possession of wealth that has come to be regarded in the eyes of the law-makers as criminal and therefore to be punished, but it is rather the acquiring of wealth that is judged a menace and for that reason to be abolished. The rich man realizes that being the possessor of property he should contribute more toward deferring the cost of operating the State than his less fortunate brother, but he does object to what seems to him to be confiscation by due process of law. Should his business ventures this year prove unsuccessful, he is obliged to assume the entire loss, while he is still liable for enormous taxes because of last year's profits. He is playing a game by the rules of which, if he is successful, the Government claims a large part of the profits. Should he be unsuccessful, the total loss is to be borne by him. This means that he is not justified in assuming the risks of trade and he, therefore, diverts his wealth from channels of development and production into the stagnant pools of tax-exempt securities. Thus an end is put to those enterprises of a venturesome character through which the great American wilderness has been transformed into the most fertile continent of the world.

The common birthright of every American is the incentive for endeavor and the reward for accomplishment. Incentive is the very soul of endeavor, the basis of all ambition. To impose a penalty upon success is to rob ambition of incentive and cast a blight upon enterprise and endeavor. Under monarchy rule the distinctive classes are definitely fixed. Under communistic form of government all classes are leveled into one. Under a democratic form of government, and under that form alone, is the opportunity afforded to better one's state through endeavor. Let us be not unmindful of the fact that it was the young man of limited means and unlimited ambition expressed in endeavor, who desiring the rewards of success, has become our big man of to-day. It is obviously unwise to enact legislation the result of which will be to discourage saving on the part of the man of moderate means.

To kill the goose that lays the golden egg proved ill-advised long ago. To increase the burden at the top and expect thereby to lessen the pressure at the bottom is a fallacy. To drive capital out of productive channels, and to flood the country with tax-exempt municipal, county and State bonds is to stop the wheels of industry. To console oneself in the belief that by increasing the amount of municipal work to be done will permanently relieve unemployment is to attempt to raise oneself by one's boot-straps. "Taxation according to ability to pay" is an ingredient of the promised panacea of the visionary Lenin and the volatile Trotzky.

It is the sacred duty of those entrusted with the determination of policy to be adopted in taxation to do no more

harm to production and distribution than is absolutely necessary for the support of the public credit. Prosperity of trade is just as much a factor in the tax yield as is the rate. Taxes should be adjusted to business rather than business to taxes. Consumption and not profit is the proper basis for taxation. A system of taxation under which next year's profits are mortgaged to pay this year's taxes is unsound and breeds a feeling of uncertainty. To flood the country to the point of saturation with municipal, State, and county bonds is dangerous. The present is fraught with dissatisfaction. The future is clouded by uncertainty. There is no relief in aggravating the cause. It is by results that a government or political party is judged.

It is futile to discuss details when the fault is fundamental. Under universal and equal suffrage the temptation is to produce legislation agreeable to that class which can muster the largest numerical strength. The function of Congress is to inspire rather than to reflect the thought of its constituents. However, if Congress is resolved to become a mirror, it behooves those of us who have spent years in the study of economic problems to disseminate the results of our research that men may come to see things as they are, and that the reflection may attain a truer perspective.

THE NEW CAPITAL FLOTATIONS FOR NOVEMBER AND THE ELEVEN MONTHS.

Continuing the practice begun in our issue of March 26, and kept up regularly since then, of presenting monthly compilations showing the new capital flotations in the United States, we give to-day, in tables further below, the figures for the month of November and the eleven months ending with November. As previously explained, these compilations are intended to furnish a summary of corporate, municipal and foreign Government financing as represented by the new stock and bond issues brought out each month.

The new financing during November was again of large proportions, considerably in excess of that for the month preceding, and also far ahead of that for the corresponding month last year. The aggregate of the new flotations reached $368,169,341 in November 1921, as against $288,940,317 in October 1921 and $222,478,911 in November 1920. In November 1919, on the other hand, the total was somewhat larger even than that for the present year, being $379,733,015.

This year's amount has been swollen from two sources mainly, to wit: the flotations on behalf of corporations and those on behalf of municipalities. The latter established a new high record for any month, and showed disposals in amount of no less than $117,950,261, a figure never previously reached. It is, of course, known that for many months new bond issues by municipalities have been of unusual extent. For the eleven months to Nov. 30 the new bond sales by States and municipalities fall but little short of 1,000 million dollars, the exact amount being $989,512,958, and this may be further increased somewhat by belated returns. For the 11 months of 1920 and 1919 the new municipal bond issues were, respectively, only $627,711,624 and $629,435,991.

The new financing by corporations for November this year covered a total of $212,529,080, which compares with only $147,976,794 in November 1920 but with $249,536,175 in November 1919. Five large issues make up nearly 60% of this year's total, namely the $50,000,000 New York Telephone Refunding mtge. 6s, due in 1941, offered at 97, so as to yield 6.25%; the $30,000,000 New York Edison Co. 1st lien & ref. mtge. 6½s, due in 1941, offered at 104½ and yielding 6.10%; the $20,000,000 Consolidated Gas Co. of New York one-year secured 7% notes, offered at 100⅞ to yield 6.08%; the $10,000,000 Pacific Gas & Electric 1st & ref. mtge. 6s, due in 1941, offered at 98½, yielding 6.10%; and the $12,000,000 General Motors Building Corporation 1st mtge. serial 7s, 1922-1946, offered at par, and therefore netting 7%.

The following is a three-year summary for November and the eleven months:

SUMMARY OF CORPORATE, FOREIGN GOVERNMENT AND MUNICIPAL FINANCING.

	New Capital.	*Refunding.*	*Total.*

Current Events and Discussions

OPERATION OF THE FEDERAL RESERVE BANKS DURING 1921.

The weekly return of the Federal Reserve Board at Washington, issued last Thursday, is devoted to a review of the operations of the Federal Reserve banks for the calendar year 1921 and we reproduce the same herewith:

Loan liquidation, practically continuous during the year under review, large accessions to gold reserves of gold of foreign origin, and reduction by over 25% in the volume of Federal Reserve note circulation, are the outstanding features of development in the Federal Reserve banking field during the calendar year about to close.

Changes in the condition of the Federal Reserve banks reflect mainly the industrial depression and price recession during the first part of the year and only to a small extent changes in the credit policy of the Board. The year saw a considerable reduction of Federal Reserve Bank discount rates, the abolition of graduated or progressive discount rates, which were maintained at the beginning of the year by three Reserve banks, and the final elimination of differential rates on paper secured by Government obligations. Furthermore the volume of outstanding Government securities was diminishing and easier conditions in the money market resulted in increasing proportions of the successive issues of Treasury certificates and notes being absorbed by the investing public. As a consequence, the total amount of Government paper held shows a decrease from $1,141,000,000 to $487,200,000, while the proportion of Government paper to total discounted paper held by the Federal Reserve banks on Dec. 28 was 41%, compared with almost 43% on the first Friday of the year. Of the total of Government paper held on the last Wednesday of the year, $345,400,000 or 70.9%, was secured by Liberty and other U. S. bonds, compared with $647,800,000, or 58.7% of the total held at the close of the first report week in the year; $66,700,000, or 13.7%, by Victory notes, compared with $311,200,000, or 28.2% on Jan. 7, and $49,100,000, or 10.1%; by Treasury certificates, compared with $145,500,000, or 13.1%, the Reserve banks in addition holding about the close of the year $26,000,000 of bills secured by U. S. Treasury notes.

Reserve Bank holdings of other discounted bills, which about the opening of the year totaled $1,578,100,000, show a reduction to $692,600,000 as the result of gradual liquidation during the year.

Holdings of bills purchased in open market show a continuous decline from $234,800,000 on Jan. 7 to $19,400,000 on the last Wednesday in July. This decline reflects the reduction in the supply of bankers' acceptances based on foreign trade transactions, and the larger demand for this class of paper by the commercial and savings banks, as well as corporate and individual investors, caused by the greater abundance of short-time investment funds. Since early August the Federal Reserve Bank holdings of these bills have shown some increase, while during the last month of the year there has taken place a rapid accumulation of this paper in the portfolios of the Federal Reserve banks, due to the relatively high call money rates in the New York market, and the low rates on this class of paper prevailing in the open market. The decrease in Federal Reserve bank holdings of purchased bills from $234,800,000 on Jan. 7 to $114,200,000 on Dec. 28 corresponds more or less to the reduction in the volume of outstanding bank acceptances based upon foreign trade transactions.

Interbank accommodation during the year 1921 was on a much smaller scale than during the preceding year when the credit strain was at its maximum. In 1920 the peak of interbank accommodation, reached in October, was $267,400,000, while in 1921 the peak of $100,800,000 was reached in January. Since then there has been gradual liquidation of interbank borrowings, and shortly before the close of the year all the Reserve banks were on a self-supporting basis, though differing greatly in their reserve position. The banks extending accommodation during the greater part of the year were those of Boston, New York and Cleveland, Ghile the banks accommodated during the greater part of the year were those of Richmond, Atlanta, Minneapolis and Dallas.

Only nominal changes are shown in the Federal Reserve Bank holdings of United States bonds and notes up to June 1. Substantial increases under this head shown since are due, first, to purchases of Liberty bonds heretofore pledged as collateral for loans to member banks, also to purchases by the Reserve banks of Victory and Treasury notes. Pittman certificates held on deposit with the Treasury to secure Federal Reserve Bank note circulation show a steady decrease since March, in connection with the retirement of Federal Reserve Bank notes and their replacement by silver certificates. On Dec. 28 the amount held was $119,500,000, a decrease of $139,900,000 since the first Friday in the year. Fluctuations in the holdings of other Treasury certificates during the year are due in part to the issuance by the Government of temporary certificates pending collection of tax checks and of funds from depositary institutions, also to purchases of certificates under repurchase agreements, largely by the New York Reserve Bank.

Total earning assets which stood at $3,130,000,000 on the first Friday of the year declined below $2,000,000,000 about the middle of July and on Dec. 28 totaled $1,535,900,000, or less than one-half the amount shown at the beginning of the year. Total deposits of the Reserve banks reflecting largely changes in the members' reserve account fluctuated between a maximum of $1,929,200,000 on June 15, the date of the second tax installment, and a minimum of $1,662,500,000 on Aug. 10. There was a gradual decline in deposits during the first half of the year totaling about $113,000,000. During the summer months deposits remained fairly constant, in spite of the continued liquidation of member bank loans, while in the fall a slight increase took place, the Dec. 28 total of $1,764,500,000 being about $82,000,000 below that shown in the first weekly statement of the year.

Federal Reserve note circulation shows an almost continuous decline, though much more pronounced during the first part of the year. Interruptions in the downward course shown in the July 6 and Sept. 7 statements, also in that for Dec. 21 were altogether of a temporary character, mainly to meet the holiday demand for currency. On Dec. 28 the amount in circulation totaled $2,443,500,000, a decline of $961,400,000 from the peak amount recorded on Dec. 23 1920 and $826,500,000 below the amount shown in the first weekly statement in 1921. Net liabilities of the Federal Reserve banks on Federal Reserve Bank notes in circulation declined from $213,600,000 on Jan. 7 to $84,500,000 about the end of the year, this decline closely corresponding to the decline in Pittman certificates used as cover for these notes.

Gold reserves show a steady growth during the year, from $2,059,300,000 to $2,869,600,000. This growth represents almost entirely gold imported from abroad, largely from the United Kingdom, France, Sweden, Canada and British India. Other reserve cash composed of United States notes, silver and silver certificates declined during the same period from $189,800,000 to $122,600,000.

During the year the paid-in capital of the Federal Reserve banks increased from $99,800,000 to $103,200,000 or by $3,400,000, as compared with an increase of $12,400,000 for the preceding year. The gain for the present year is due primarily to accessions of new members and to a smaller extent to increases in capitalization of existing member banks.

At the beginning of the year the reserve ratio stood at 45.4%. Owing mainly to the constant growth of cash reserves and the reduction of note circulation, the ratio has shown a practically continuous rise throughout the year reaching a high level of 73.1% on Dec. 7. Since then, owing to increased note and deposit liabilities, the ratio declined to 71.1% on the last Wednesday of the year.

BONDS TO BE RETURNED BY BRITISH TREASURY.

The British Treasury has decided to exercise the option, under Clause 3 of Scheme B for Regulation of Foreign Exchanges, of returning the following securities on March 15 1922, from which date the additional allowance will cease:

Carolina Clinchfield & Ohio Ry. First Mtge. 5% bonds, 1938.
Denver & Ohio Grande RR. Improvement Mtge. 5% Gold Bonds, 1928.
St. Louis South-Western RR. 4% First Cons. Mtge. Gold Bonds, 1932.
Argentine Government 5% Loans, as follows: (*a*) Loan of 1886-87; (*b*) Loan, 1887-88-89 (Northern Central Railway Extensions); (*c*) Railway Bonds, 1890; (*d*) Port of Capital (Buenos Aires) Bonds; (*e*) Internal Loan, 1907; (*f*) Internal Gold Loan, 1910.

DISCUSSION OF AFFAIRS OF BANQUE INDUSTRIELLE DE CHINE IN FRENCH CHAMBER—PROPOSED USE OF BOXER INDEMNITY FOR LOAN.

The affairs of the Banque Industrielle de Chine, the suspension of which was referred to by us July 2 and July 9 (in our items devoted to "Banks, Trust Companies, &c.), figured in the debates of the French Chamber of Deputies the past week; among other things brought out, it is reported that it is planned to place the Boxer indemnity at the disposal of the bank for a loan. From the Associated Press cablegrams dated Paris, Dec. 27, we quote the following:

The Chamber of Deputies to-day gave the Briand Government a new lease of life by the substantial majority of 177 at the close of a two-day debate over the failure last summer of the Industrial Bank of China.

The vote of confidence was given in a refusal to appoint a commission to investigate alleged irregularities in this connection, in addition to the pending court procedure.

At the opening to-day of the second day of this debate, with the question of the Government's responsibility for the bank's suspension of payments under consideration, Premier Briand was aggressively attacked by the Opposition, and as aggressively defended himself.

The Premier declared that a battle between different groups of banks had obstructed the measures contemplated for putting the bank in quetion on its feet again and that if the obstructions continued the measures could not be carried out.

The Premier explained the circumstances under which Philippe Berthelot, General Secretary of the Foreign Office, whose resignation yesterday was precipitated by the previous debate in the Chamber on this subject, had intervened to aid the bank, which was headed by Andre Berthelot, his brother. The Premier said he regretted deeply that M. Berthelot had seen fit to resign. He absolved M. Berthelot absolutely, but conceived that if he had seen it he probably would not have sent in the same form the telegram M. Berthelot sent to Maurice Casenave in the United States, asking him to intervene with the American banks to have the checks of the Industrial Bank of China protected.

Minister of Justice Bonnevay announced that forty-two informations had been filed against Andre Berthelot, Chairman of the Board, members of the bank's board and other officials, on various charges of irregularities, abuse of confidence and illegal dividends, but that the investigating judge had not yet finished the secret inquiry. If the tribunal found sufficient evidence to justify prosecution, the Minister added, the charges would be vigorously pressed.

Premier Briand announced his intention to introduce a bill authorizing the Government, through the agreement with China, to use the Boxer indemnity for the re-establishment of the Industrial Bank of China, with a view to preserving France's material and moral interests in the Far East.

On Dec. 26 a copyright cablegram to the New York "Herald" relative to the resignation of Philippe Berthelot, Secretary-General of the Ministry of Foreign Affairs, said:

The crash of the Banque Industrielle de Chine, which went into a receivership recently, seriously affecting French financial and political prestige in the Far East, to-day brought to an end here one of the most brilliant diplomatic careers when Philippe Berthelot, Secretary-General of the French Foreign Office, resigned. For years he has been one of the most powerful figures directing France's exterior policies as head of the permanent section of foreign affairs at the Quai d'Orsay. Although many persons believed his resignation was inevitable after the Banque de Chine revelations, nevertheless his resignation was something of a political sensation to-day and was regarded as indicating an increasing weakness of the Briand Government.

Having defended M. Berthelot several times previously in the Chamber of Deputies, against charges connected with the failure of the bank, even to the point of threatening to hand in his own resignation if criticisms of the Secretary-General of the Foreign Office continued, Premier Briand's attitude in the face of this new denoument is awaited with interest. Some of the Premier's enemies are now predicting his overthrow even before the Cannes meeting of the Allied Supreme Council, and that Raymond Poincare, formerly President of the Republic, and still a power in French politics, will succeed him as Premier.

President Millerand is understood to be ready to go any lengths to avoid a Poincare Ministry, not desiring to have the one-time President of the Republic in such relationship to him.

M. Berthelot's resignation was the result of new correspondence, made public in the Chamber of Deputies, regarding his connection with the Banque de Chine, Premier Briand being ignorant of these latest documents when he, on Saturday, defended M. Berthelot before the Chamber. Chief of these new revelations was a telegram from M. Berthelot to Maurice Casenave, French High Commissioner in New York, wherein he asked M. Casenave to obtain the support of American banks, pending negotiations with regard to forming a consortium, to the extent that the American banks accept the Banque de Chine's checks without question.

M. Berthelot took this step apparently on his own authority, but inasmuch as his brother, Andre Berthelot, was one of the administrators of the Banque de Chine, this telegram, on top of others published soon after the bank failed, gave his enemies fresh support for their charges that he has misused his position at the Foreign Office.

Regarding the taking up of the matter in the Chamber on Dec. 24 Paris press advices on that date had the following to say:

The Chamber to-day took up the discussion of the interpellation on the suspension of the Banque Industrielle de Chine and the part played by M. Berthelot, General Secretary of the Ministry of Foreign Affairs, in an effort to avoid suspension.

The Premier defended M. Berthelot warmly, declaring that the telegrams which M. Berthelot sent to China were in conformity with the Government's action in an attempt to save the bank.

M. Briand confirmed the Chinese Government's adhesion to the plans for placing the Boxer indemnity at the disposal of this bank as a loan, and said a bill enabling this operation would be introduced in the Chamber.

The discussion finally went over until Tuesday.

SUSPENSION OF PAYMENTS BY BANCA ITALIANA DI SCONTO.

Cable dispatches from Rome on Thursday (December 29) reported the closing on that day of the Banca Italiana di Sconto, one of the largest banks in Italy, shortly after a moratorium had been announced by the Italian Government designed to rescue the institution from its difficulties. All branches of the bank throughout Italy, it is said, have been closed. The bank's embarrassment is attributed largely, it is said, to the burden of financing the Ansaldo Shipbuilding Corporation. According to the dispatches, the Banca Italiana di Sconto had a paid-up capital of 315,000,000 lire, a reserve of 68,000,000 lire, and current deposits of about 3,540,000,000 lire. Guglielmo Marconi, the inventor of the wireless, it is understood, is President of the Board of Directors of the closed institution, which was formed in 1915 by the consolidation of several older Italian banks.

ANNUAL REPORT OF WAR FINANCE CORPORATION—ADVANCES AND REPAYMENTS.

The fourth annual report of the War Finance Corporation, for the year ended Nov. 30 1921, made public Dec. 22, is accompanied by tables illustrating its operations not only from the time of the revival of its activities but also since the inception of the Corporation in 1918. From one of these tables, showing the status of advances made by the

Corporation under all sections of the Act from April 5 1918 to Nov. 30 1921, it is learned that the advances under the war powers of the Corporation were $306,720,212, with repayments of $241,251,056, leaving a balance outstanding of $65,469,156; the advances under the Act of March 3 1919 and the Agricultural Credits Act of Aug. 24 1921 have been $108,438,491, the repayments in this case being $31,247,152, with a balance outstanding of $77,191,339; altogether the advances totaled $415,158,703, the repayments aggregating $272,498,208, while the total balance outstanding is $142,660,495. The table showing these figures is annexed:

Exhibit "C"—Status of Advances Made by the Corporation Under All Sections of the Act from April 5 1918 to Nov. 30 1921, Inclusive.

1. *Advances Under the War Powers of the Corporation.*

	Amounts Advanced.	Repayments.	Balance Outstanding.
To Banks, bankers and trust cos., under Sec. 7 & 8 (a)	$5,268,377 61	$5,268,377 61	(b)
To Railroads, under Section 9 (a)	204,794,520 00	160,561,310 00	44,233,210 00
To Public utilities, under Section 9 (a)	39,797,409 00	20,014,187 19	19,783,212 81
To Industrial corporations under Section 9 (a)	23,814,674 24	23,020,674 24	794,000 00
On Warehouse receipts, under Section 9 (e)	25,211,500 00	2,5211,000 00	
On Cattle, under Sec. 9(a)	7,833,740 81	7,175,007 26	658,733 55
Totals	$306,720,212 66	$241,251,056 30	$65,469,156 36

2. *Advances Under the Act of March 3 1919 and the Agricultural Credits Act of August 24 1921.*

On Exports, under Sec. 21, 22 and 24 (Par. 2)	(c)74,986,980 56	31,141,056 95	(d)43,845,923 61
For general agricultural & live stock purposes, under Sec. 24 (Par. 1)	33,451,510 13	106,095 12	33,345,415 01
Totals	$108,438,490 69	$31,247,152 07	$77,191,338 62

3. *Summary.*

Advances under the war powers of the Corporation	$306,720,212 66	$241,251,056 30	$65,469,156 36
Advances under the Act of March 3 1919 and the Agricultural Credits Act of Aug. 24 1921	108,438,490 69	31,247,152 07	77,191,338 62
	$415,158,703 35	$272,498,208 37	$142,660,494 98

(a) All advances under Sections 7, 8 and 9 were made under the war powers of the Corporation.

(b) Reduced to $26,733,210 00 since Nov. 30 1921 by repayment in full of a loan of $17,500,000.

(c) Represents advances for export purposes under the Act of March 3 1919, which added Section 21 to the original War Finance Corporation Act, and also under the Agricultural Credits Act of Aug. 24 1921, which added Sections 22 and 24 to the original Act.

(d) Reduced to $33,684,092 02 since Nov. 30 1921 by repayment in full of a loan of $10,131,110 23.

(e) Represents actual advances for agricultural and live stock purposes under the Agricultural Credits Act of Aug. 24 1921 (Section 24).

From Jan. 4 to Nov. 30 1921 the advances to assist in financing exports have aggregated $51,524,209, while the advances for agricultural purposes have been $82,023,006; of the total thus applied, $52,400,000 was advanced to co-operative associations, $72,447,606 to banking and financing institutions, and $8,699,609 to exporters. The tables showing this, follow:

Exhibit "A"—Operations of the War Finance Corporation from Jan. 4 1921 to Nov. 30 1921, Inclusive.

I. *Advances Granted to Assist in Financing Exports Under Section* 21, 22 *and* 24 (*Paragraph* 2), *to Nov.* 30 1921, *Inclusive* (a).

Commodity—	Amount.	Commodity—	Amount.
Grain	$11,500,000 00	Sheet steel	$180,000 00
Tobacco	3,591,369 77	Copper	145,600 00
Cotton	b28,422,373 21	Sugar mill machinery	359,866 36
Canned fruits	400,000 00	Agricultural machin'y	500,000 00
Dried fruits	1,250,000 00	Railroad equipment	2,925,000 00
Meat products	1,000,000 00		
Condensed milk	1,000,000 00		
Textile products	250,000 00		c$51,524,209 34

a Section 21 was added to the original War Finance Corporation Act by the Act of March 3 1919, and Sections 22 and 24 by the Agricultural Credits Act of Aug. 24 1921.

b Does not include advances aggregating $19,847,626 79 originally applied for and approved under Section 21 for export purposes, and subsequently withdrawn by the applicant and re-submitted and approved as advances for agricultural purposes under Section 24.

c Of the total amount, $38,847,739 57 represents advances approved subsequent to Aug. 24 1921.

II. *Advances Granted for "Agricultural Purposes" Under Section* 24 (*Paragraph* 1) *to Nov.* 30 1921, *Inclusive*a.

Commodity—	Amount.	Commodity—	Amount.
Grain	$15,000,000 00	Canned fruits	$300,000 00
Cotton	b22,492,426 79	General agricultural purposes	24,417,467 66
Live stock	12,553,111 60		
Sugar beets	5,010,000 00		
Rice	2,250,000 00		b$82,023,006 05

a Section 24 was added to the original War Finance Corporation Act by the Agricultural Credits Act of Aug. 24 1921.

b Includes advances aggregating $19,847,626 79 originally applied for and approved under Section 21 for export purposes, and subsequently withdrawn by the applicant and re-submitted and approved as advances for agricultural purposes under Section 24.

III. *Summary of Advances Granted for Export & Agricultural Purposes Under Section* 21, 22 & 24 *to Nov.* 30 1921, *Inclusive*a.

	Amount.
To co-operative associations	$52,400,000 00
To banking and financing institutions	72,447,606 50
To exporters	8,699,608 89
	$133,547,215 39

a Section 21 was added to the original War Finance Corporation Act by the Act of March 3 1919, Sections 22 and 24 by the Act of Aug. 24 1921.

The following table is also presented showing the status of advances made by the corporation prior to the suspension of operations in May 1920:

	Advances Outstanding Nov. 30 1920.	Repayments Since Nov. 30 1920.	Balance Outstanding Nov. 30 1921.
	$	$	$
To banks, bankers and trust co's under Sections 7 and 8	0	0	0
To railroads, under Section 9	58,828,210 00	8,595,000 00	i44,233,210 00
To public utilities, under Sec. 9	21,132,995 52	1,349,782 71	19,783,212 81
To industrial co's, under Sec. 9	948,881 30	154,881 30	794,000 00
On cattle, under Section 9	793,096 03	134,362 48	658,733 55
On exports, under Section 21	42,023,641 49	17,597,604 49	j24,426,037 00
	117,726,824 34	27,831,630 98	89,895,193 36

i Since Nov. 30 1921 a loan of $17,500,000 has been repaid in full, reducing the amount outstanding to $26,733,210. j Since Nov. 30 1921 a loan of $10,131,110 23 has been repaid in full, reducing the amount outstanding to $14,294,926 77.

This statement shows that there has been constant liquidation in the loans made by the Corporation prior to the suspension of operations in May 1920.

The statement of receipts and disbursements of the War Finance Corporation from Dec. 1 1920 to Nov. 30 1921 is submitted as follows:

Receipts from:		
Loans repaid under the following sections of the Act—		
Section 9:		
Railroads	$8,595,000 00	
Public utilities	1,350,562 18	
Industrial corporations	154,881 30	
Cattle loans	144,275 19	
		$10,244,718 67
Sections 21 and 22:		
Paragraph 1	$1,173,432 29	
Paragraph 2	24,794,342 64	
		25,967,774 93
Section 24:		
Paragraph 1	$106,095 12	
Paragraph 2	848,462 10	
		954,557 22
Total receipts on account of loans repaid		$37,167,050 82
U. S. Government obligations sold or collected:		
Liberty bonds and Victory notes	$9,231,541 61	
Treasury certificates of indebtedness	32,854,450 00	
		42,085,991 61
Interest collected on U. S. Government obligations:		
Liberty bonds and Victory notes	$539,064 38	
Treasury certificates of indebtedness	1,971,267 00	
		2,510,331 38
Interest earned on loans, collected		5,791,648 04
Interest collected but not earned		8,411 05
Sale of office furniture and equipment		820 55
Funds remitted to the Corporation through error (later refunded)		340,438 09
Reimbursement of sundry expenses		365 49
Reimbursement of expenses on account of loans (reimbursable by borrowers)		850 00
Total receipts from Dec. 1 1920 to Nov. 30 1921		$87,905,907 03
Balance due from depositaries Dec. 1 1920		374,313,493 89
Total		$462,219,400 92
Disbursements on account of:		
Advances under the following section of the Act—		
Section 9—Cattle loans		4,930 56
Sections 21 and 22:		
Paragraph 1	$6,968,791 93	
Paragraph 2	16,762,631 69	
		23,731,423 62
Section 24:		
Paragraph 1	$33,240,924 78	
Paragraph 2	4,734,342 84	
		37,975,267 62
Total disbursements on account of advances		$61,711,621 80
Disbursements on account of:		
U. S. Government obligations purchased—Liberty bonds and Victory notes		1,796,791 61
Accrued interest paid on U. S. Government obligations purchased—Liberty bonds and Victory notes		243,805 05
One-year 5% gold bonds of the War Finance Corp. redeemed		94,000 00
Interest paid on one-year 5% gold bonds		4,550 00
Refund of unearned discount on loans		22,050 03
Refund of overpayment of interest		4,452 82
Repayment of funds remitted to Corporation through error		340,438 09
Bond expense (insurance)		173 88
Expense on account of loans (reimbursable by borrowers)		6,706 52
Furniture and equipment purchased:		
Washington	$8,601 38	
Agencies outside Washington	3,202 48	
		11,803 86
Salaries and miscellaneous administrative expenses paid:		
Washington	$159,142 14	
Agencies outside Washington	38,996 82	
		198,138 96
Total disbursements from Dec. 1 1920 to Nov. 30 1921		$64,434,532 62
Balance due from Treasurer United States Nov. 30 1921		397,784,868 30
Total		$462,219,400 92

The following shows the statement of condition of War Finance Corporation at the close of business Nov. 30 1921:

Assets.

Current assets:			
Due from the Treasurer of the United States			$397,784,868 30
Loans (advances under the following provisions of the Act, outstanding):			
Section 9:			
Railroads	$44,233,210 00		
Public utilities	19,783,212 81		
Industrial corporations	794,000 00		
Cattle loans	658,733 55		
		$65,469,156 36a	
Sections 21-22, paragraphs 1 and 2 (exports)		39,870,285 23	
Section 24:			
Paragraph 1 (agricultural and livestock purposes)	$33,345,415 01		
Paragraph 2 (purchase of acceptances of Edge Law banks)	3,975,638 38		
		37,321,053 39	
			142,660,494 98
Other assets:			
Accrued interest receivable on loans		$5,218,519 79	
Expense of loans, reimbursable by borrowers		5,856 52	
			5,224,376 31
Public utilities bonds (par value $292,000)			58,400 00
Fixed assets:			
Furniture and equipment (at cost)		$19,005 98	
Less allowance for depreciation		3,024 09	
			15,981 89
Total			$545,744,121 48

Liabilities.

Capital and surplus:			
Capital stock (authorized and outstanding)			$500,000,000 00
Net earnings (surplus to Dec. 31 1920)	$37,899,019 58		
Current year's earnings to Nov. 30 1921	7,540,589 35		
			b45,439,608 93
Current liabilities:			
One-year 5% gold bonds, "series A," outstanding		$21,000 00	
Interest coupons on one-year 5% bonds, outstanding		1,550 00	
Accrued expenses payale (estimated)		15,000 00	
			37,550 00
Unearned discount on loans			266,962 55
Total			$545,744,121 48

a All loans under Section 9 were made under the war powers of the Corporation.

b All of the earnings of the Corporation constitute a reserve fund (in accordance with Section 15 of the War Finance Corporation Act), therefore no reserves are set up against contingencies.

We also take the following from the report:

Activities Revived.

Originally created as a war agency, as its name implies, the War Finance Corporation was empowered by the Congress in March 1919 to assist in the task of reconstruction and readjustment. It was authorized, in order to promote commerce with foreign nations through the extension of credits, and to aid in the transition from the conditions of war to the conditions of peace, to make advances not exceeding $1,000,000,000 to American exporters and American banking institutions for the purpose of financing the exportation of domestic products. This authority was exercised until May 1920, when the activities of the Corporation were suspended.

In the autumn of 1920, when the collapse in commodity markets became acute, the question of our exports again became a matter of general interest; and the Congress, in January 1921, adopted the following joint resolution directing that the activities of the Corporation be resumed:

"That the Secretary of the Treasury and the members of the War Finance Corporation are hereby directed to revive the activities of the War Finance Corporation, and that said Corporation be at once rehabilitated with the view of assisting in the financing of the exportation of agricultural and other products to foreign countries."

In view of the terms of the resolution, the evident intent of Congress, and conditions throughout the country, the directors of the Corporation, in resuming operations, concentrated their efforts in the beginning largely on the development of methods for the financing of exports of agricultural commodities.

Financing Cotton Exports.

As raw cotton is our greatest agricultural export product, attention was directed first to this important factor in the problem. The situation was fully canvassed and every possible means of promoting our export trade in cotton was carefully considered. The best methods of financing exports of cotton on credit were discussed at meetings held in Washington Atlanta, New Orleans, and New York, at which representative bankers and exporters were present; and a committee, consisting of the Secretary of the Treasury, the Secretary of Commerce, and the managing director of the War Finance Corporation, was appointed by the President to study the banking facilities available in the South for the financing of cotton.

It became increasingly clear, however, that the situation in Europe had changed. Sound business men there were no longer willing or anxious to buy on credit because of the risk involved in exchange fluctuations. Many of them had made large purchases on credit following the armistice and up to the latter part of 1920, and had suffered heavy losses on account of the depreciation in exchange rates. They were reluctant, therefore, to contract ahead for goods which would have to be paid for in dollars but which they would be compelled to sell in manufactured, or even raw form, in terms of European currency.

To meet this situation special action was necessary. The Corporation, as a first step, offered to make advances to finance the carrying of stocks of American cotton in foreign warehouses, and some advances were made for this purpose. But it was soon found that this did not solve the problem. It was then suggested that it would be desirable to make advances on cotton stored in America which was under contract for sale to foreigners and the Corporation agreed to render such assistance. Applications for advances of this character, however, were not filed on a sufficiently large scale to become an important factor, and a further step became necessary.

Advances to Co-operative Associations.

Early in July the Corporation agreed to make an advance of $5,000,000 to a co-operative association in Mississippi to finance the carrying of 100,000 bales of long-staple cotton until it could be exported in an orderly manner. Under the terms of this advance the association agreed that out of the cotton pledged as security fo rthe loan it would export within a year a sufficient quantity to repay the full amount of the advance—the cotton to be held in American warehouses until the time was opportune for export. The announcement of this loan stimulated considerable interest, and within a short time the Corporation authorized advances to other co-operative associations in Texas, Oklahoma and Arizona, as well as to banking institutions in the South, to assist in financing large quantities of cotton for export in a similar manner. In all these transactions care was taken to insure the use of the funds advanced by the Corporation solely for the purpose of orderly marketing, without encouraging holding for speculative purposes.

Improvement in the Cotton Situation.

In all, the Corporation agreed to finance approximately a million bales of cotton, and it was not long before there was a marked improvement in the cotton situation. But it was not merely the agreement to finance a million bales, or even the ability to do so, that changed the situation in the South. A more important factor was the general realization that if the Corporation could develop satisfactory methods of financing for 1,000,000 bales it could do so for such additional amounts as might be necessary. As soon as there was assurance that the industry would be adequately financed, buyers both at home and abroad began to resume purchases with considerable effect on the market for cotton and cotton goods. Mills which had feared that the bottom would drop out of the market, dealers who had been timid about carrying stocks of cotton, and merchants who had allowed their stocks of cotton goods to run low, soon sensed the stabilizing effect on the market and were encouraged to go ahead with their business in the normal way. The business outlook in the South was changed, and discouragement and despair gave way to confidence and hope. But the benefit of the improvement in the cotton situation extended beyond the South. The Southern States are large purchasers of the products of the North, East and West, and the increase in their buying power was naturally reflected in other producing sections and in our manufacturing and industrial centres.

It should be pointed out here that it is not within the province of the War Finance Corporation to conduct its business with the view of affecting prices. It is its duty, however, to offer adequate financing on a sound business basis; and if markets and prices are demoralized because of inadequate financing, it would be natural for prices to be affected when the financial deficiency has been met.

Other Agricultural Commodities Financed.

The activities of the War Finance Corporation under its export powers were not confined to cotton. The Corporation indicated its readiness to finance other agricultural commodities intended for export in accordance with the methods that had been devised for financing cotton, which may be summarized as follows:

(1) For prompt shipment against deferred payments.

(2) For future shipment within a reasonable time against either prompt or deferred payments, where the products are under a definite contract of sale.

(3) For prompt shipment to warehouses in foreign distributing points, to be held there for account of American exporters and bankers for marketing out of warehouses.

(4) For shipment within a definite period, the products to be held in warehouses in this country until they can be marketed abroad in an orderly manner, the applicant to give definite assurance that the agricultural products pledged as security for the advance will be exported, before the maturity of the advance, to an aggregate amount (including insurance and freight if paid by the exporter to domestic insurers and carriers) not less than the amount of the advance.

Large advances were authorized to cooperative associations on wheat, dried fruits, and canned fruits and vegetables, and to exporters or banking institutions on tobacco, condensed milk, and meat products. A limited number of applications involving the exportation of manufactured products, such as railroad equipment, copper, and sugar-mill machinery, also were approved.

Export Financing Alone Not Sufficient.

With the development of the activities of the Corporation, it was increasingly clear that export financing alone would not be sufficient to meet the needs of agriculture. On account of the changed situation in Europe and of the conditions existing in this country, we were confronted with the necessity of selling our staple agricultural products more gradually than in former years; and it became more and more apparent that provision must be made for the carrying of our commodities in larger quantities for a longer period of marketing. This is strikingly illustrated by our cotton exports. In the cotton year 1910–11, 81% of the exports for the entire year went forward in the first six months—that is, from September to February, inclusive. But in 1919–20 the exports during the same period constituted only 51% of the total. As a result, it was necessary to carry forward into the second six months of the cotton year from 1,500,000 to 2,000,000 bales which formerly would have been exported during the first six months. And what was true of cotton was found to be true of other agricultural products which enter into our export trade.

Not only was the market abroad slow but it was demonstrated, after careful inquiry, that our own merchants and manufacturers were operating on the basis of the lowest possible stocks, and were buying only to meet current demands. This naturally resulted in forcing large quantities of raw materials, which normally are carried by mills, wholesalers, jobbers, and retailers, back upon the original producers and the banks which do their financing. The producers were unable to market their products as rapidly as formerly, large numbers of them were unable to liquidate their loans, and an unusually heavy burden was imposed upon the local banking institutions, seriously straining their resources and facilities. A condition of acute distress developed in the agricultural sections of the country, and if disaster was to be averted extraordinary action was needed to meet the situation.

The Agricultural Credits Act.

After a careful study of the whole problem, certain amendments to the War Finance Corporation act were proposed, considered by the Congress, and embodied in the agicultural credits act of August 24 1921. The act broadened the powers of the Corporation, and gave it authority to make advances not only to exporters and banking institutions, but also to dealers in, and handlers of, agricultural products, including cooperative associations, for the purpose of financing the carrying of such products until they could be exported or sold for export in an orderly manner. Such advances may be made until July 1 1922, for periods not exceeding one year, but the time for payment may, in the discretion of the Corporation, be extended for periods not exceeding three years from the dates upon which the advances were originally made. The Corporation also was authorized to make advances to persons, firms, or corporations outside of the United States which purchase our agricultural products, on condition that all notes or other instruments evidencing such advances "shall be in terms payable in the United States, in

currency of the United States, and shall be secured by adequate guaranties or indorsements in the United States, or by warehouse receipts, acceptable collateral, or other instruments in writing conveying or securing marketable title to agricultural products in the United States."

Advances for Agricultural Purposes.

The Act also empowered the Corporation to make advances to "any bank, banker or trust company in the United States," or to co-operative associations of producers, which may have made advances for agricultural purposes, including the breeding, raising, fattening, and marketing of live stock, or may have discounted or rediscounted notes, drafts, bills of exchange or other negotiable instruments issued for such purposes. Such advances may be made for periods not exceeding one year, with discretion in the War Finance Corporation to renew them for periods not extending beyond three years from the dates on which the advances were originally made. In exceptional cases the Corporation was authorized to purchase from domestic banks, bankers, or trust companies paper secured by agrimade. In exceptional cases the Corporation was authorized to purchase cultural products, including live stock: and it was further authorized to purchase, sell, or otherwise deal in acceptances, adequately secured, issued by Edge law banking corporations, to assist them in promoting the exportation of agricultural and manufactured products.

The Act provided that all advances shall be made upon promissory note or notes, or other instrument or instruments, in such form as to impose on the borrower a primary and unconditional obligation to repay the advance at maturity, with interest as stipulated therein, and shall be fully and adequately secured in each instance by endorsement, guaranty, pledge, or otherwise. The aggregate amount of advances made and paper purchased and outstanding at any one time was limited to $1,000,000,000, and the Corporation was authorized to issue its bonds to the extent of three times its capital stock, or $1,500,000,000. The term "bank, banker, or trust company" was defined as including "any reputable and responsible financing institution incorporated under the laws of any State or of the United States, with resources adequate to the undertaking contemplated."

Agricultural Loan Agencies Established.

After the passage of the Act, steps were taken by the Corporation to set up the necessary machinery for its prompt and efficient administration. As the law was nationwide in its application, some time necessarily was required to perfect an organization. To facilitate the handling of applications from banking and financing institutions for advances for agricultural purposes it was decided to establish agricultural loan agencies in the important agricultural and live-stock districts. Committees composed of public-spirited bankers, business men, and others, who serve without compensation, were designated to take charge of these agencies, to receive applications, to pass upon the security offered and to make recommendations to the board of directors at Washington for review and final action. In considering applications they were authorized, whenever in their judgment such action was necessary, to call for additional information, including statements of condition of the makers or endorsers of notes, drafts, bills of exchange, or other evidence of indebtedness offered as collateral security for the advance applied for.

Helping the Farmer Through Financing Institutions.

The Corporation is not authorized under the law to deal directly with individual producers. It is reaching the farmer not only through co-operative associations, but also through their local banking institutions—the institutions with which they are accustomed to do business and which are in close touch with the conditions in their communities. By making advances to these institutions on the basis of their agricultural paper, the Corporation is accomplishing two important and necessary things; it is, first of all, enabling the banks with slow assets to carry the existing loans of their farmer customers for a longer period, thus removing the necessity for forced liquidation and relieving the financial pressure which otherwise would make it necessary for large numbers of our producers to sacrifice their products without regard to the consuming demand. It is also putting many of the banks, especially those which are in good financial condition, in funds for making new loans and for taking care of the needs of farmers and stockmen in the surrounding territory to the extent that their individual credit may warrant. In other words, the work of the Corporation is strengthening the banks with slow assets so that they can "carry on" with their old agricultural loans, and at the same time it it bringing the stronger banks into the situation and putting them in position to do new business which, without such help, they could not or would not do.

Situation Without Parallel.

The Corporation was called upon to deal with an emergency situation, resulting from the chaos and aftermath of war, that is without parallel in the history of the world. It was confronted with the task of developing, within a short time, an auxiliary banking sytem to supplement existing financial facilities during the emergency. Considering the magnitude of the task involved, it is felt that noteworthy results have been achieved.

The service rendered by the Corporation can not be measured by any mere financial statement of its operations. Entirely aside from the direct aid given by it through the exercise of its powers and the application of its funds, it is rendering a service and exerting an influence which is exceedingly helpful from the psychological point of view. Its very existence, with the large funds at its command, has tended to inspire confidence, has opened up other avenues of credit, and has facilitated the financing of transactions through the usual channels. In many cases advances authorized by the Corporation have not been consummated because the applicants, strengthened by the assurance of aid from the Corporation, have been able to obtain in other ways the credit facilities they required. In fact, the experience of the Corporation has been that wherever it has lent, or agreed to lend, a dollar, it has produced confidence to such an extent that others were willing to advance many dollars.

The results a ready obtained indicate clearly that the right methods have been adopted. Although much remains to be done, the activities of the Corporation to date have had an appreciable influence in hastening the return of more normal conditions in the marketing of agricultural commodities, and this influence is growing as the volume of business increases and the significance of the work of the Corporation, with its great resources and willingness to help, is being brought home to the financial, industrial, and agricultural world.

TACOMA (WASH.) CLEARING HOUSE TO ABANDON PUBLICATION OF BANK CLEARINGS IN FAVOR OF BANK TRANSACTIONS.

We have received from R. R. Mattison, Manager of the Tacoma (Wash.) Clearing House Association, the following advices anouncing the decision of the Association to discontinue on Jan. 1 the publication of bank clearings, and to publish thereafter instead, figures showing bank transactions only.

TACOMA CLEARING HOUSE ASSOCIATION.
Tacoma, Washington.

November 18 1921.

Wm. B. Dana Co . New York City, N. Y.:

Gentlemen:—No doubt you are aware that at a meeting of the Clearing House Section of the American Bankers Association at the annual convention held at Los Angeles in October of this year a resolution was passed recommending that beginning January 1 1922, the publication of "bank clearings" be discontinued and that figures showing "bank transactions" be thereafter given the publicity heretofore given to bank clearings.

Among those conversant with the processes giving rise to figures showing "bank clearings" it has long been recognized that such figures have but little value as an index of the actual business transacted in a community. The daily totals were easily available and in the absence of a better criterion it was natural that they should be compiled and published and perhaps just as natural that greater significance should come to be attached to them than their value justifies.

A number of years ago the Clearing House Section of the American Bankers' Association instituted a movement designed to bring about the compilation of figures which would show the totals of all checks paid by the member bank in cities having clearing houses, and while progress has been somewhat slow, there are to-day 140 cities in the country where such figures are compiled and available for statistical purposes.

These "bank transaction" figures have been compiled in Tacoma for the last ten years and provide a basis for comparison during that period as well as a far more nearly accurate indication of the actual business transacted than could be secured in any other way.

Recognizing the facts cited herein, at a meeting of this Association held Thursday, November 17th, it was ordered that beginning January 1 1922, publicity be given only to figures showing "bank transactions."

Yours respectfully,
R. R. MATTISON, *Manager.*

In our issue of Nov. 12 (page 2034), reference was made to the plans of the Baltimore Clearing House to discontinue the publication of bank clearings, while on Oct. 22 (page 1725) we alluded to the opposition of a committee of the Cleveland Chamber of Commerce to the movement initiated by the St. Louis Chamber of Commerce for the suspension of the publication of figures of bank clearings. The resolution of the American Bankers' Association, adopted at the recent convention at Los Angeles, was published in our American Bankers' Convention number and in our weekly issue of Nov. 12, page 2034.

HARTFORD CLEARING HOUSE ASSOCIATION TO DISCONTINUE PUBLICATION OF BANK CLEARINGS.

The Hartford (Conn.) Clearing House Association voted on Dec. 19 to discontinue, the first week in January, the publication of bank clearings—a practice followed for about forty-five years—and to make public instead only the figures for total debits to individual accounts. The Hartford "Courant" of Dec. 20, from which this is learned, said:

The clearings will be recorded as at present but will not be given out for publication. Total debits to individual accounts have been kept for about a year and a half, but have not been given out. Secretary Arthur C. Mason has the record.

In its issue of Dec. 21 the same paper stated:

Total debits to individual accounts far exceed the clearings and are maintained to be a much better guide for bank activities. To explain the larger figures there are two main reasons. The first is the fact that checks come direct from the Federal Reserve to the banks and do not pass through the Clearing House. Added to this is the fact that intra-bank checks, those not going to another bank, do not pass through clearings. There may be other causes to swell the total debits.

The following comparative table shows clearings and total debits to individual accounts for the days given:

	Clearings.	*Total Debits.*
Saturday, December 17	$1,568,192 47	$4,445,876 94
Monday, December 19	1,253,268 81	3,804,411 41
Total	$2,821,461 28	$8,250,288 35

Secretary Arthur C. Mason of the Hartford Clearing House Association said yesterday that it was probable that the week for scoring under the new system would begin on a Wednesday.

DES MOINES CLEARING HOUSE ASSOCIATION TO DISCONTINUE PUBLICATION OF CLEARING FIGURES.

According to the Des Moines "Register" of Dec. 15, the Clearing House Association of that city is preparing to discontinue the publication of clearings figures and to make public in lieu thereof figures showing only bank debits to individual accounts. The "Register" says:

It was announced by Mr. Capps (Secretary and Manager) that a plan is in preparation for adoption here and throughout the country whereby figures showing bank debits to individual accounts will be published instead of bank clearings to show changes in business conditions. Details, he said, are being worked out by a committee of the American Bankers' Association.

Bank clearings, Mr. Capps explained, do not accurately reflect actual business transactions, because they include only items passed from one local bank to another. Remittances to other cities are left out. Figures representing total charges to all accounts in banks, he said, afford a much more reliable index of the amount of business done. He added that the plan for publishing totals of such charges, and discontinuing publishing of clearings, is making rapid progress, and probably will soon be put in force.

Total Debits Reported.

Total debits to individual accounts in Des Moines in the twelve-month period ended Dec. 1 last, Mr. Capps said, were $2,460,977,175. This fig-

ure compares with $3,443,920,580 in the corresponding period ended Dec. 1 1920. On the showing of the debits, therefore, a greater business slump is discovered than that revealed by the comparison of the clearings. It is generally recognized, however, Mr. Capps said, that 1920 was an abnormal year not likely soon to be duplicated, and not furnishing a correct basis for comparisons. He pointed out that a comparison of the debits this year with those of 1917 ($1,595,594,000), or 1918 ($2,172,723,000), shows transactions in 1921 to have stood up very well. Even in 1919, a boom year, the debits amounted only to $2,926,668,000.

In analyzing these figures, it is necessary to bear in mind, Mr. Capps said, that the 1920 showing reflected the wild speculation and inflation of the post-armistice boom. Operations conducted on an unsound price basis, combined with much practically fictitious business to carry the debits total to a level, he said, which is not likely to be reached again for years.

L. M. Barlow of the Iowa Trust & Savings Bank has been elected President of the Clearing House, succeeding John H. Hogan, Vice-President of the Des Moines National Bank. Leland Windsor of the Central State Bank, who has been Second Vice-President of the Association, has been made First Vice-President. C. H. Stevenson, Cashier of the Bankers' Trust Co., has been elected Second Vice-President, and J. R. Capps, Cashier of the Iowa National Bank, has been re-elected Secretary and Manager.

WILMINGTON (DEL.) CLEARING HOUSE ASSOCIATION TO DISCONTINUE PUBLICATION OF FIGURES OF CLEARINGS.

The decision of the Wilmington (Del.) Clearing House Association to discontinue the reports of total clearings, weekly and monthly, and to report instead total debits, is announced in a letter which we have received from George F. Baird, General Manager of the Association, from which we quote as follows:

At the last meeting of the Wilmington Clearing House Association held Dec. 6 a communication from the Clearing House Section of the American Bankers' Association was read requesting that instead of reporting total of clearings weekly and monthly the total of charges to individual accounts be reported instead. In conformity with this request the following resolution was adopted:

"Resolved that each member bank report to the Manager the total debits in deposit accounts on day of the week to conform with Federal Reserve requirements (Thursday morning as of the close of business each Wednesday)."

CLEARING HOUSES IN PROCESS OF ORGANIZATION.

The Clearing House Section of the American Bankers' Association recently reported that clearing house associations were in the process of organization in the cities of Alton, Ill., and Hazleton, Pa. Also that a clearing house association was recently organized in Enid, Okla., and that the Seattle Clearing House Association has decided to install the clearing house system of examination and an examiner will be appointed within a very short time.

PROPOSED NEWARK (N. J.) CLEARING HOUSE ASSOCIATION.

In furtherance of a movement to establish a clearing house association in Newark, N. J., the draft of a constitution and by-laws, prepared by a committee of four, was approved by representatives of eight banking institutions on Dec. 13. The Newark "News" of Dec. 14, which is authority for this, says:

The draft, which was gotten up by Spencer S. Marsh, Vice-President and Cashier of the National Newark & Essex Banking Co.; Rufus Keisler Jr., Secretary and Treasurer of the Ironbound Trust Co.; William C. Pearson, Vice-President of the Fidelity Union Trust Co., and Elmer S. Carr, Secretary and Treasurer of the City Trust Co., will be submitted to the boards of the respective proposed member banks for their approval.

The constitution provides for nine member banks, and contains a provision also for associate member banks under certain conditions. The original member banks will be the National Newark & Essex Banking Co., National State Bank, Merchants' & Manufacturers' National Bank, North Ward National Bank, Fidelity Union Trust Co., Federal Trust Co., West Side Trust Co., Ironbound Trust Co. and the American National Bank.

At the meeting yesterday afternoon the different banking institutions were represented as follows: Fidelity Union Trust Co. by Uzal H. McCarter, its President, and Charles H. Imhoff and Mr. Pearson; State National Bank by William I. Cooper, President; Merchants' & Manufacturers' National Bank by Adrian Riker, its President; Julius S. Rippel and Arthur L. Phillips; Federal Trust Co. by Edward Maguire; West Side Trust Co. by Meyer Kussy, President; Ironbound Trust Co. by J. Harry Bacheller President, and Mr. Keisler; American National Bank by Charles Niebling, President, and the City Trust Co. by Mr. Carr.

BILL CALLING FOR REPRESENTATION OF AGRICULTURAL INTERESTS ON FEDERAL RESERVE BOARD —RENEWAL OF EX-COMPTROLLER WILLIAMS'S ALLEGATIONS.

During the discussion in the Senate on Dec. 19 of the bill making provision for an additional member of the Federal Reserve Board—the new member to be representative of agricultural interests—Senator Overman caused the insertion in the "Congressional Record" of a letter to him under date of Dec. 2 from former Comptroller of the Currency John Skelton Williams, and as such formerly ex-officio member of the Federal Reserve Board, in which Mr. Williams analyzed the report of the Federal Reserve Board, made in response to Senator Overman's resolution calling for information from the Board relative to salaries of employees of Federal Reserve banks, as well as expenditures on account of new buildings. This letter is extremely long and we do not insert it here, because it covers the same ground as that covered by Mr. Williams in his previous communications, all of which we have printed in full. Mr. Williams contends in his advices to Senator Overman that the Board's report to the Senate completely confirms all of his charges and criticisms, and proves that the extravagance and mismanagement have been really far worse than he had alleged. Senator Overman in presenting the letter to the Senate on Dec. 19 said:

Mr. President, I think the greatest piece of constructive legislation passed in a hundred years was the Federal Reserve Act. It has probably avoided many panics. It helped us to carry on the war. That bill was passed in the interest of the people.

On account of certain charges made on the floor of the Senate and in the press throughout the country of an amazing waste of money and extravagance on the part of certain Federal Reserve banks, I introduced a resolution asking the Federal Reserve Board whether those charges were true or not. Their report in reply to that resolution has come in, and I wish Senators would read it. There are some of the most amazing statements contained in it. One statement is that they have spent more than $17,000,000 for a bank building in New York—the finest, most extravagant bank building in the world, costing more than any public building in Washington; more than the Capitol in which we sit here, which cost $15,000,000. They paid the architect and engineer more than $1,000,000. They appropriated $800,000 for furniture. In the last few years they have spent $36,000,000 for public buildings in various places in the country. Besides that they have increased salaries since 1919, when everybody else was reducing salaries. In an amazing manner they have increased the salaries in the several districts in an amount in excess of $7,000,000.

Therefore, for all these reasons, I think we ought to have a farmer on that board, in the hope that he may be able to bring about certain much-needed reforms.

Let me call particular attention to some of the salaries paid in the New York banks. Six received more than $20,000, twenty received over $10,000. They have taken men from the various banks in New York, where they were getting three or four thousand a year, and have quadrupled and quintupled their salaries. They have increased salaries in New York alone $509,800.

The law requires that 40% of the net receipts of these banks should be paid in the Treasury as a franchise tax, but they came to Congress in the Sixty-sixth Congress and requested that the law be amended, permitting the Federal Reserve banks to create a maximum surplus of more than 100%. It was also stated, when the bill was before the Senate for consideration and before the House of Representatives for consideration, that the Federal Reserve System was not intended to make a cent of profit, that it was to be run entirely in the interest of the people; but they have been making so much profit, after getting the law amended so they could retain 100% surplus, that they did not know what to do with it, so they are wasting it by increasing salaries over $7,000,000 since 1919, and by erecting these extravagant, magnificent buildings, one of which cost more than any public building in Washington, more than the Capitol itself.

I ask permission to insert in the "Record" as a part of my remarks, without reading, a list of the salaries in the Federal Reserve Bank of New York and the Federal Reserve Bank of Richmond, as well as the statement showing the increase in salaries of the bank officers generally from 1919 to 1920. I offer the same thing as to every one of them. They have increased the salaries in New York $1,168,984 since 1919. In Chicago the salaries have been increased $1,408,000; in San Francisco, $945,861, and in Kansas City $595,495. I have an analysis of this report made by John Skelton Williams, a very critical analysis. There are some remarks in his letter which are of a very drastic character, which I do not exactly endorse, particularly his extreme strictures upon the Federal Reserve Board, but, nevertheless, I ask that it may be inserted in the "Record" as a part of my remarks.

Senator Heflin, in expressing himself in the Senate on the 19th inst. in favor of the proposed amendment to the Federal Reserve Act, whereby agricultural interests would have representation on the Board, referred to the charges of former Comptroller Williams, saying in part:

Mr. President, I am heartily in favor of the amendment offered by the Senator from South Carolina [Mr. Smith]. It ought to have the approval of every member in the Senate. The law now requires that two bankers shall be members of the Board. Then why should agriculture be denied one member of the Federal Reserve Board. During several months past we have felt the need of a farmer on that Board. For months and months prior to 1920, before a change came over the spirit of the dreams of the Federal Reserve Board, the Board functioned properly, and I wish to say a word of praise for it from the time it was appointed up to 1920. In 1920, however, it failed to function properly; it ceased to be of value to honest banking business in America, and, consciously or unconsciously, became the obedient servant of Wall Street.

Prior to 1920 the Federal Reserve banking system had exhibited such marvelous strength and had rendered such valuable service that it was generally recognized as the greatest banking institution ever established in the United States.

The business-disturbing and panic-breeding institutions of the country feared and hated it as the lords of the Philistines feared and hated Samson, and in season and out they have tried to deprive it of its power and usefulness. As Samson's strength resided in his hair, the directing force and governing power of the Federal Reserve banking system resided in the Federal Reserve Board located here in Washington. So long as that Board had an eye single to the business needs of the whole country and demanded that those needs be served with the money and credits necessary to keep the body of business strong, all was well in the banking and currency business of the United States, but in an evil hour in 1920 the Delilah of Wall Street took the Federal Reserve Board, the head of the Federal Reserve banking system, into her lap, and she caused a spell to be thrown upon it while it slept, and when it awoke it did not see or feel as it did before. Just as the lords of the Philistines captured Samson and rendered him harmless to them and impotent to serve his own people, the money lords of Wall Street captivated and hypnotized the Federal Reserve Board, and while rendering it useless to the business needs of the people they made it subservient to themselves.

The conduct of the Federal Reserve Board for several months past has been miserable, inexcusable and indefensible. It has been criticised and condemned by farmers, merchants and bankers, and others all over the country, and its conduct will go down in the history of this decade as a crime against agriculture, commerce and honest banking in the United States.

Mr. President, if the bankers of the United States—I mean the country bankers in small towns, the bankers in large towns, and the bankers in many of the cities—knew that this tyrannical Federal Reserve Board would not know what they had said against its conduct, they would draw an indictment against the Federal Reserve Board that would bristle with the complaints, indignations and grievances of the honest bankers of the country. To-day the Federal Reserve Board holds its foot upon the neck of the grain industry, the cattle industry, and the cotton industry and other industries of the United States, while Wall Street and Chicago look on and applaud. I am in favor of putting in the law this provision now before the Senate which requires the President to appoint a practical farmer as a member of the Federal Reserve Board as soon as another vacancy occurs. The business of agriculture is entitled to this recognition. We demand it. Justice and fair play justify us in demanding it.

When the cattle industry and the cotton industry and the grain industry are in distress and need financial aid and have to call on the Federal Reserve banking system, we want a real farmer on the Federal Reserve Board to look after those interests.

Mr. President, in an article contributed to the "Paradox," a paper published in the State of Texas, I believe, John Skelton Williams, formerly Comptroller of the Currency, and a man of great ability and of unimpeachable integrity, one who has rendered great service to his country by giving the inside workings of the Federal Reserve Board, says:

Official reports show that the Federal Reserve Bank of New York was loaning to two banking institutions in New York City, both conspicuous for their speculative operations, more money than all 12 of the Federal Reserve banks were ever loaning at any one time on agricultural and live stock paper in all the 48 States of the Union.

Mr. President, I read that for the purpose of proving that I am correct in saying that this Board has become the subservient tool of Wall Street, and that it does not function properly now. It does not meet the needs of the American people. There can be no sound defense of that Board's deflation conduct, and I do not know why the President continues to hold it in power.

Mr. President, every now and then the Governor of the Reserve Board goes out and makes a speech, and undertakes to explain the actions of the Board to the people. He says we do not understand this system, that the Board is not responsible, that it is the member bank, that it is the Reserve Bank, that it is somebody down the line. In response to a question of Congressman Byrnes of South Carolina, Governor Harding admitted before the Joint Committee on Agriculture of the Senate and the House a year ago this December that no bulletin or order of the general policy of any Reserve bank was printed and circulated unless and until it had the approval of the Federal Reserve Board. And that is true. They can not dodge responsibility for the conduct of this system. They control it.

We saw that the Federal Reserve Banking System was being maladministered, and Southern Democrats and Western Republicans got together with a few Northern Democrats and one or two Northern Republicans, and we passed a bill reviving the War Finance Corporation. It looked as if it would do some good, and it has done some good. It seems that the Federal Reserve Board got jealous of the War Finance Corporation, fearing that the cotton farmers would obtain money through it, and that the price of cotton would advance to where it would pay the cost of production and give the farmer a little profit. The other day the Federal Reserve Board gave out an estimate of the cotton crop and broke the price $5 a bale on the day it did it.

Mr. President, what right had the Federal Reserve Board to give out an estimate of the cotton crop? Have we not an Agricultural Department for that purpose? Have we not the Bureau of Census to take statistics at the cotton gin? What authority has this Board to give out an estimate of the crop? It did it and estimated it above what the Agriculture Department estimated it. Was it trying to affect the market injuriously? That is what it did. It broke the price of cotton about $5 a bale. It appears that the Board was trying to break the price. Does President Harding indorse that sort of thing?

Mr. President, I mentioned here the other day what I desire to repeat, that out in the Northwest oats are selling for about 17 to 20 cents a bushel. I ordered a saucer of oatmeal this morning and it cost me 15 cents. I ate just a small saucerful.

A Senator sitting near me reminds me that in some places in this city they charge 30 cents for a saucer of oatmeal. Yet the farmer of the West, spending 65 to 67 cents a bushel in producing oats, is driven into the market place by the policy of the Federal Reserve Board, and made to dump all of his produce upon a dead market, where he sells it at less than it cost to produce it, for only 17 cents a bushel. It is some job to carry a bushel of oats on your shoulder, it is a pretty good load, and yet at my breakfast this morning a little saucer full of oatmeal cost me 15 cents. That is the proof of what we are getting under the Republican Administration. "And by their fruit ye shall know them."

The cotton industry of the South is prostrate to-day, and cotton is selling below the cost of production; yet the Federal Reserve Board officers sit back and fan themselves in their comfort and put up a marble temple, a banking institution, in one city costing nearly $30,000,000. What right had they to raise the discount rate from 3 to 7% and accumulate that money—take it away from the poor, struggling industries of the country and hold it, and then dish it out to build a marble banking temple in New York, with its bronze doors costing $25,000 each, and increasing the salaries of that Bank's officials?

I will give you another result of this Board's deadly deflation policy. The Board sent out word to the banks not to lend money on cotton produced in 1919. What do you think of that? Suppose I had a Liberty bond that I bought in 1919, and wanted to borrow money on it. Could anybody tell me not to borrow money on it unless it was bought in 1920 or 1921? Suppose I had a note, well secured, given by a party responsible in every way, and I extended the note and carried it from 1919, and wanted to borrow money at the bank and put it up as collateral; if it was good, would anybody refuse to lend me the money because the note was originally made in 1919? He could not if he had any sense of decency and honesty about him. What right had this Board to say to the farmers of the South, "You can not borrow money on cotton made in 1919"? There was not much, at best, of the 1919 cotton crop left in the South.

Mr. President, in order to show how ridiculous that position is, suppose a man had a hundred bales of strict middling cotton, white like the snow, whiter than the grades produced in 1920 or 1921, if you please, and he had it stored in a warehouse, nothing had harmed it, it was perfectly dry, and he could not sell it for a price that would cover the cost of production and give him a profit, he held it, and then he goes to a bank in 1921 and says, "I have a hundred bales of cotton, whiter than that cotton you are buying to-day and lending money on, whiter than that you loaned money on last year." They say, "When did you make that cotton?" He says, "I made it in 1919." They answer, "Then, under the policy of the Federal Reserve Board, you can not borrow on it."

Why was that policy inaugurated? To drive these farmers into the market place and make them sell their cotton and dump it on the market, regardless of the price. When they did it, they murdered the cotton industry in the South.

Mr. President, I have said all that I care to say at this time. This is such a serious question I do not intend to let any opportunity pass without bringing it to the attention of the Congress, the President, and the country. I hope that some time he will wake up to a full realization of just what is going on as a result of the destructive policy of the Federal Reserve Board. I do not know who is advising the President, but I know that the President must take the responsibility. He must bear it. We are entitled to lay it at his door. Speeches have been made in this body time and time again, and some in the other branch of Congress, in criticism of the Board. Nobody has ever defended the conduct of this Board; nobody can defend it. Of course, I suppose there will be some of the friends of the Board who will indorse its policy, and they will, of course, be conscientious in their views, but they do not know the situation. I am sure if they did they would join with us in criticising and condemning the conduct of the Board.

INSURANCE SECURITIES TO BE VALUED ON NEW BASIS.

In its issue of Dec. 20, the "Wall Street Journal" printed the following:

The Committee on Valuation of Securities of the National Convention of Insurance Commissioners has adopted a resolution which provides some modifications of the rule heretofore observed by companies, societies and associations in arriving at the market values of securities for annual statements

Securities acquired prior to January 1 1921, other than Liberty and Victory Loan bonds, shall be carried at the mean values to be shown in the 1922 edition of the securities valuations booklet.

In preparing the Book of Security Valuations, which will be ready for distribution early in January, values shall be obtained by adding to the values set forth in the last publication of the convention, the market values as of November 1 1921, and dividing the sum by two. United States Liberty and Victory Loan bonds when acquired by subscription from the Government shall be carried at not less than par, and those purchased otherwise shall be carried at the purchase price. If any company exchanges any of its securities or real estate for Liberty or Victory Loan bonds, the bonds shall be valued according to the market quotation on date of said transaction. Any securities acquired during the calendar year 1921 shall not be carried at above the actual market value as of December 31 1921, and values for the annual statement for the year ending December 31 1922, shall be the actual market quotations as of that date except in the cases of Liberty and Victory Loan bonds given above.

Value of Liberty Bonds.

In arriving at a value for Liberty and Victory Loan bonds, when such securities are acquired otherwise than through original subscription, they shall be carried at the purchase price or the market value on December 31 1921, which is greater, and when real estate or other securities are exchanged for Liberty or Victory Loan bonds the bonds shall be carried at the market quotation on the date of the transaction, or at the actual market value on December 31 1921, whichever is greater. Actual December 31 1921, market quotations for United States Liberty and Victory Loan bonds will be given in the securities valuation book.

All securities acquired on and after January 1 1921, shall be carried at actual market quotations as of December 31 1921.

Exchange Quotations.

Actual market quotations as of December 31 1921, except in the case of Liberty and Victory Loan bonds, will not be contained in the securities valuation booklet. They should be obtained from Stock Exchange quotations, the New York quotations being used if the security is listed thereon, otherwise quotation from the exchange where the security is most extensively dealt in. The rate should be based upon the best price obtaining on December 31 1921, taken to the nearest one-tenth of 1%. In case there are no sales in listed securities on December 31 1921, the price obtaining in case of a sale, if any, at date nearest December 31 1921, should be used as a basis provided date of sale is not more than ten days prior to or subsequent to December 31 1921.

Valuations used in auditing statement of insurance companies for 1920 were prepared by adding to values set forth in last publication of the National Convention of Insurance Commissioners the market values as of November 1 1920, and dividing the sum by two; except that Liberty and Victory Loan bonds when acquired by subscription from the Government were carried at not less than par, and those purchased otherwise were carried at purchase price. If any company exchanged any of its securities or real estate for Liberty or Victory Loan bonds, such bonds were valued according to the market value of said Liberty or Victory bond on the date of said transaction, and in no case was the value of any security to be fixed at less than the market value as of December 31 1920.

POSTMASTER GENERAL HAYS EMPHASIZES ATTRACTIVENESS OF NEW TREASURY SAVINGS CERTIFICATES.

Postmaster General Will H. Hays, in a message addressed to Postmasters and Postal employees last week, called upon them to inform the public as to the attractiveness of the New Issue of Treasury Savings Certificates which the Government placed on sale, December 15th. As compared with previous ssues Mr. Hays points out that the new certificates possess important advantages for the investor and expresses the hope that the loyal and earnest service of Postmasters, so often proved in response to previous calls, will be the means of bringing these advantages home to the purchasing public.

Mr. Hays states that:

"Until further notice the selling price of the new certificates will be $20, $80 and $800, respectively, for the three denominations. These prices are flat and will not change from month to month, as in the case of previous issues. The certificates will mature five years from the date of issue in every case.

"Payment before maturity will be made by the Treasury Department (not at or through post offices) at a rate specified for every month in tables printed on the certificates.

"The legal limit has been raised from $1,000 to $5,000, effective November 23 1921. It is not lawful for any person at any one time to hold certificates of any annual series to an aggregate amount exceeding $5,000 maturity value. The certificates issued within a given calendar year will constitute one series, and certificates of the new issue sold in December, 1921, will be considered as of the 1921 series. Thus, a person who does not already hold war savings certificates of the 1921 series may buy $5,000 maturity value of the new issue in December, 1921, and $5,000 additional in 1922.

"The sale of $1 Treasury savings stamp will continue as a convenience for the saving of small amounts."

Government officials are emphasizing the fact that Treasury Savings Certificates in denominations of $20, $80 and $800 make excellent Christmas presents. They carry with them not only the greetings of the season, but the promise of prosperity and financial independence in years to come.

NEW ISSUE OF TREASURY SAVINGS CERTIFICATES—DISCONTINUANCE OF THRIFT STAMPS.

Announcement regarding the issuance of a new series of Treasury savings certificates, beginning December 15, in denominations of $25, $100 and $1,000 (maturity value) was made by Secretary of the Treasury, Mellon, on December 13. The new certificates will mature in five years from the date of issue, instead of at a uniform maturity date, and if held to maturity will yield interest at about 4½% per annum. They are offered at flat issue prices, instead of prices which increase from month to month, the prices being $20 for the $25 certificate; $80 for the $100 certificate and $800 for the $1,000 certificate. In the event that the certificates are redeemed before maturity interest at the rate of about 3½% will be paid. Treasury Savings Stamps in denomination of $1 will be continued on sale, but the 25-cent thrift stamps and the $5 war savings stamps will be discontinued effective, December 31 1921; the thrift stamps outstanding will be accepted at face value for the new Treasury savings securities, or will be redeemed at face value in cash at postoffices. Secretary Mellon, in his announcement, says:

The main reliance for the accumulation of small savings for investment in Treasury savings certificates will henceforth be postal savings deposits, and now that special provision has been made for the conversion of these deposits, the Government has a unified and effective savings system with the 10-cent postal savings stamp and the $25, $100 and $1,000 Treasury savings certificates.

Secretary Mellon points our that the limit of holdings of Treasury savings certificates has been increased by the Act of Congress, approved Nov. 23 1921, from $1,000 to $5,000, "and it is now possible therefore to hold Treasury (war) savings certificates of any one series up to an aggregate maturity value not exceeding $5,000." The following is Secretary Mellon's announcement:

"The Treasury Department offers for sale to the public, beginning Dec. 15 1921, a new issue of Treasury savings certificates in denominations of $25, $100 and $1,000 (maturity value).

The new certificates are issued on a discount basis, as in the past, but are offered for sale at flat issue prices instead of at prices which increase from month to month. The prices for the new issue, until further notice, will be as follows: $20 for the $25 certificate, $80 for the $100 certificate, and $800 for the $1,000 certificate.

"The certificates mature five years from the date of issue in each case, instead of at a uniform maturity date, and if held to maturity yield interest at the rate of about 4½% per annum, compounded semi-annually. The certificates are redeemable before maturity at the redemption values stated on the backs of the certificates upon presentation and surrender to the Treasury Department, Washington, and in that event yield interest at the rate of about 3½% per annum, compounded semi-annually.

The $25 certificates bear the portrait head of Theodore Roosevelt, the $100 certificate that of Washington, and the $1,000 certificate that of Lincoln. The new certificates are issued only in registered form, in order to afford protection against loss and theft, and will be recorded on the books of the Treasury Department in Washington.

"The name and address of the owner and the date of issue will be inscribed on each certificate by the issuing agent at the time of issue. The terms of the certificates have been much simplified as compared with previous issues, and the offering is on a basis which should prove particularly attractive to small investors.

"The limit of holdings has been increased by the act of Congress approved Nov. 23 1921, from $1,000 to $5,000, and it is now possible, therefore, to hold Treasury (war) savings certificates of any one series up to an aggregate maturity value not exceeding $5,000. This change makes the certificate attractive for the investment of trust funds and the surplus funds of labor, fraternal, church and similar organizations which seek an investment of intermediate length with absolute safety and a satisfactory income return.

"The new certificates are on sale at about 4,000 Post Offices throughout the country, beginning Dec. 15 1921, and may also be obtained at the Federal Reserve banks and such banks and other agencies as may qualify for the purpose.

"Treasury savings stamps in the $1 denomination, non-interest bearing, will continue on sale at post offices and other agencies until further notice, as a convenience to those who wish to accumulate the purchase price of the new certificates through stamps.

"The new offering means that postal savings and Treasury savings activities have now been co-ordinated into one peace-time savings program under which the Post Office Department and the Treasury will join to advance postal savings for the deposit of savings and Treasury savings certificates for investment.

"The consolidation of postal savings and Treasury savings facilities into a single Government savings system preserves and improves the best features of each. The plan is designed to stimulate the accumulation of savings by accepting deposits in amounts of $1 or more through the postal savings banks which are being conducted in the post offices, and to encourage investment by offering Treasury savings certificates on more attractive terms, in convenient denominations, both for direct sale and on conversion of postal savings deposits.

"In order that Government savings facilities may be available throughout the country the Post Office Department is now extending postal savings to many additional post offices, and the new issue of Treasury savings certificates has already been distributed to several thousand post offices. The sale will be gradually extended to other post offices as the demand broadens.

"Postal savings deposits may be exchanged at postal savings offices for Treasury savings certificates, and interest will be allowed on deposits withdrawn for this purpose at the current postal savings rate for each full month up to the first day of the month in which the exchange is made.

"The small war-time Treasury securities, comprising the 25-cent thrift stamp and the $5 war savings stamp, are accordingly being discontinued, effective Dec. 31 1921, but the thrift stamps outstanding will be accepted at face value for the new Treasury savings securities, or will be redeemed at face value in cash at post offices. The main reliance for the accumulation of small savings for investment in Treasury savings certificates will henceforth be postal savings deposits, and, now that special provision has been made for the conversion of these deposits, the Government has a unified and effective savings system, with the 10-cent postal savings stamp, postal savdeposits from $1 upward, and $1 Treasury savings stamp and the $25, $100 and $1,000 Treasury savings certificates.

"In undertaking this movement for peace time savings the Government looks forward with confidence to the renewed co-operation of all helpful agencies. There can be no question about the need for savings nor of this country's capacity to save. By offering a uniform and comprehensive means of accumulating and investing money, the Government hopes to furnish an incentive for saving, to encourage saving and investment in Government securities, and at the same time to stimulate savings activities generally.

"An active response to the Government's savings movement should accomplish three main objects: it will aid the Government in the current financing of its requirements; it will make for greater national prosperity, and it will in crease the personal happiness and individual welfare of those who save.

"In its savings activities in the past the Government has received the hearty support of many agencies and organizations interested in savings, including the American Federation of Labor, industries and other employees, teachers, bankers, Postmasters and public officials throughout the country. With their continued co-operation the unified Government savings program will be assured of success."

COMMUNIQUES ON DEBATE OF SUBMARINE QUESTION AT ARMAMENT CONFERENCE—FAILURE OF FRANCE TO ACCEDE TO REDUCTION.

The submarine question, taken up last week at the Washington Conference on Limitation of Armaments, continued to engross its attention the present week, but the efforts to reach an agreement for the limitation of submarine and auxiliary ship tonnage have been unavailing with the refusal of France to accept a limitation below that of 330,000 tons for auxiliary craft and 90,000 tons for submarines. It had been proposed that France should limit its submarine tonnage to 31,500 tons. The acceptance of the reduction of the capital ship tonnage of France to 175,000 tons was made known to Secretary of State Hughes in a letter from Premier Briand which we published in our issue of a week ago, page 2673. Following the statement made in behalf of France by Minister Sarraut, at the joint session on Dec. 28 of the Committee on Limitation of Armament and the Sub-Committee on Naval Limitation that France could accept no limitation as to submarines below 90,000 tons, Secretary of State Hughes stated that "it was a definite statement made after a careful deliberation, and he assumed that it should be accepted as the final expression of the attitude of the French Government in regard to the limitation of naval armament," Secretary Hughes "confessed that he was disappointed with the statement concerning submarine and auxiliary craft," and stated that "the suggestion that France should have 90,000 tons of submarine would, on any basis of a practical ratio, involve the assumption that Great Britain and the United States should greatly increase their submarine tonnage." This, he added, "could hardly be called a limitation or reduction." Secretary Hughes stated that "he did not desire at this time and in view of the existing situation to discuss details, but he wished to say that an agreement for the expansion of armament was not under consideration. The Conference was called to consider the limitation of armament. He left it for the committee to decide in the light of the very definite statement of the French Government what was practicable to be done." Statements expressing regret that it was not possible to come to an arrangement concerning auxiliary boats and submarines were also made at Wednesday's meeting by Senator Schanzer in behalf of Italy, Vice-Minister Hanihara, representing Japan and A. J. Balfour of Great Britain. The latter in his remarks stated that it was certain that when the French program was carried out "the French quota of submarines would exceed that of any other power in the world." Public notice, he said, "had now been given in the most formal manner that this great fleet was to be built on the shores nearest to Britain, and it would necessarily be a very great menace to her." Following the failure to reach agreement on the submarine question, a resolution was submitted by Senator Root at the afternoon session on the 28th, intended to make more effective the rules governing the operations of

submarines for the protection of lives of neutrals and non-combatants. This resolution we shall give next week. Debate on the submarine issue was begun on December 22, with the presentation by Lord Lee of Great Britain of a plea for the abolition of the submarine. Brief reference to that day's deliberations was made by us last week (page 2673), and publication of the communique covering that day's bedate, we are obliged to defer another week on account of pressure of other matter.

On Dec. 23 the issue was further considered, Admiral de Bon of France, Arthur J. Balfour, of the British group, and Senator Schanzer of Italy being the only participants. The official communique showed that no action had been taken, although Admiral de Bon declared the conference could not "reasonably" limit submarine construction at all; but that if it did "90,000 tons is the absolute minimum for all the navies which may want to have a submarine force." Mr. Balfour reiterated arguments already advanced by Lord Lee for total abolishment of submarines, but admitted that "the British Empire has no hopes of getting any important support in the course of this conference." Senator Schanzer insisted that the conference was "confronted by a substantially technical difference of opinion" as to the defensive value of submarines. The Italian delegation felt that the problem should be "examined subsequently in a wider conference," he said, before any action toward abolishment of underwater craft could be undertaken. Details of the debate on Dec. 23 on the submarine question as given in the communique, issued at the close of the session that day, will be published by us another week.

The meeting of the 24th was likewise unproductive of results, Japan declining to accept the reduction of her submarines to 31,500 tons, and the French delegates deferring their decision pending advices from Paris. Following the shelving of the proposals by Great Britain that submarines be abolished, Secretary Hughes, in behalf of the United States, at the morning session on the 24th, indicated the willingness of the United States to agree to a compromise plan on submarines, saying:

The American delegation was entirely willing to accept, instead of 90,400 tons proposed as the maximum limit for the United States, 60,000 tons, thus scrapping 35,000 tons of the existing submarine tonnage, on the basis that Great Britain should also accept 60,000 tons as the maximum limit of submarines and scrap 22,464 tons—her present amount of submarine tonnage being 82,464 tons, according to the American figures.

Then, in a desire to take whatever action was possible to meet the views entertained by the other delegations, the Chairman suggested that if the United States and Great Britain each reduced the maximum limit of their submarine tonnage to 60,000 tons, France, Japan and Italy should retain the tonnage they have—in other words, maintain the status quo as regards submarine tonnage.

He, Mr. Hughes, made the suggestion in order to show that so far as the American Government was concerned it was not in favor of anything that savored of expansion. This was a conference on limitation.

In reply to an inquiry by Lord Lee, the Chairman said that he understood that the present submarine tonnage of Japan was 31,452 tons; that of France according to the figures given the other day, was 31,391 tons and that of Italy somewhat less, about 21,000 tons.

There were two joint meetings of the Committee of the Limitation of Armament and the sub-committee on Naval Limitation, on Dec. 24, and Communiques relative to both the morning and afternoon session were issued, both of which we expect to give the coming week. Following the adjournment on the 24th, there was no meeting until Dec. 27.

Regarding the deliberations on the 27th inst. the Associated Press dispatches from Washington said:

Naval experts of the special subcommittee suggested by Arthur J. Balfour to determine a standard practice for the conference in calculating naval tonnage gave preliminary consideration to their subject today, with the possibility that different rules of displacement measurement for surface craft and submarines might be proposed.

An instance of possible misunderstandings which the establishment of standard practice in tonnage measurement would avoid arose during the first consideration by the Naval Committee of the submarine problem. The delegation put French existing submarine tonnage at about 28,000 tons, while the American group placed it at more than 42,000 tons. It was learned today that the American calculation was based on figures obtained from the French, and based by them on submerged tonnage, but believed bythe American to be in terms of surface displacement. The whole proportion of submarine tonnage was upset by that item, as all other navies were calculated in the American list on surface displacement.

The Communique of Dec. 28, embodying the French declination to limit its submarine tonnage below 90,000 tons, and Secretary Hughes's statement indicating regret at the inability to reach agreement on the submarine issue, is annexed.

Minister Sarraut of France.

At the last meeting of the committee and as the outcome of the examanination of the submarine question, a proposal was made to fix for each of the nations represented in the conference the submarine tonnage that they might possess. Instead of the 90,000 tons required by France, it was proposed that this tonnage should be limited as far as she is concerned to 31,500 tons.

Confronted by such a considerable reduction of the figures which had been given as the minimum of what France considered necessary for herself in future, the French delegation was obliged to refer the matter to its Government.

At a meeting of the Cabinet and of the Supreme Council of National Defense, the situation was examined and discussed with the most earnest desire to do whatever would seem possible to further the aim of the conference and assist in reaching results.

This deliberate intention has been carried out in the resolution passed at the meeting as regards capital ships.

As a token of the good-will of France, it has been resolved to accept the reduction to 175,000 tons of her tonnage of capital ships, although it seems nearly impossible with such reduced tonnage to constitute a naval force composed of ships such as those which it is contemplated to build, and one normally organized, according to the tactical principles in force in every fleet.

The conditions of application of the agreement as regards capital ships will be easy of settlement by taking into account such qualifications as it may be useful to introduce in carrying out the naval holiday through the liberty of laying down, beginning in 1927, ships intended to replace, within the limits of the admitted tonnage, French ships as they reached their twentieth year of existence.

It will be likewise easy to settle the question still outstanding of the duration of the agreement as to limitation of capital ship tonnage.

After examining, on the other hand, the composition of the forces needed by France in auxiliary craft and submarines, which are specially intended for the protection of the territory and its communications, the Cabinet and the Supreme Council of National Defense have reached the conclusion that it is impossible to accept a limitation below that of 330,000 tons for auxilliary craft and 90,000 tons for submarines, without imperiling the vital interests of the country and its colonies and the safety of their naval life.

The French delegation has been instructed to consent to no concession on the above figures.

To sum up, France accepts, as regards capital ships, the sacrifice which she must face in order to meet the views of the conference, and which represents an important reduction of her normal sea power. She limits the program of the future constitution of her fleet to 330,000 tons for auxiliary craft and to 90,000 tons for submarines.

While regretting that she cannot possibly, under the present circumstances, entirely carry out the reductions and limitation contemplated in the American proposal, she at least feels quite certain that she is taking an important share in the work of the conference by reducing the French naval power in capital ships, a weapon specifically offensive and particularly costly, and by accepting a limitation for craft of other categories.

Secretary Hughes.

The Chairman said that the Committee had heard the statement on behalf of the French Government. It was a definitive statement, made after careful deliberation, and he assumed that it should be accepted as the final expression of the attitude of the French Government in regard to the limitation of naval armament. He was greatly gratified at the willingness of the French Government to limit the tonnage of their capital ships to 175,000 tons. He felt that the importance of this statement should not in any way be minimized.

Capital ships were the chief weapon of offense. If the conference could succeed, as it was now evident that it would, in reducing in a fairly satisfactory manner armament as represented in capital ships, it would have done much to relieve the burden of taxation and would aid in establishing a better basis for a lasting peace. He wished to repeat that he was highly gratified and appreciated the manner in which the problem had been aphowever, certain reservations with respect to replacements and the duration of the agreement. These matters must receive further consideratkon and be the subject of continued negotiations.

He confessed that he was disappointed with the statement concerning submarines and auxiliary craft, if submarines were to be available for distinctly defensive purposes in connection with the movements of fleets, it would seem that they should bear some definite proportion to the fighting fleets; that is, if they were to be used in connection with the laying of mines, scouting, &c.—the necessities inherent in large defensive preparations—they should bear some relation to the operations of the fleet as a whole. The suggestion that France should have 90,000 tons of submarines would, on any basis of a practicable ratio, involve the assumption that Great Britain and the United States should greatly increase their submarine tonnage.

This could hardly be called a limitation or reduction. Furthermore, if a large number of submarines were to be provided, then cruisers and destroyers, the natural enemies of submarines, would have to be provided in numbers adequate to deal with the situation created by a large submarine fleet. It was a serious question whether there was hope of accomplishing anything like limitation in regard to submarines and auxiliary craft. He understood that the attitude of the French Government was that, regardless of the requirements of other nations, 90,000 tons of submarines was deemed to be the minimum essential for France.

If this was so, the suggestion of 330,000 tons of auxiliary vessels for France would have its bearings on what was considered necessary for the other nations and might make it difficult to arrive at an agreement limiting submarines and auxiliary craft. He did not desire at this time and in view of the existing situation to discuss details, but he wished to say that an agreement for the expansion of armament was not under consideration. The conference was called to consider the limitation of armament. He left it for the committee to decide in the light of the very definite statement of the French Government what was practicable to be done.

In onclusion, he wished to say that in expressing his disappointment in regard to submarines, he did not wish in any way to detract from the importance of the definite acceptance by France of the program for capital ships. This was a matter of the first importance and he could assure his French colleagues that their attitude was cordially and sincerely appreciated.

Arthur J. Balfour of Great Britain.

Mr. Balfour admitted, as the Chairman had justly pointed out, that there was a side to the statement just made by their French colleagues which profoundly disappointed him. The French position with regard to disarmament on land they already knew. What was their position with regard to disarmament on sea?

They were prepared, and he rejoiced that they were prepared, to accept the ratio which gave them 175,000 tons of capital ships. He was glad that the French Government had accepted that all-important part of the American program and he agreed that if nothing else was done by the conference in reference to naval disarmament the scheme already in sight with regard to the limitation of capital ships did immensely relieve the burden of armament upon an overburdened world. He did not feel himself that the sacrifice on the part of France was in itself of an overwhelming character, even as regards capital ships, for he thought that if the naval strength of a nation was to be estimated in relation to the naval strnegth of other nations, it would be found that the rlative strength of France under the arrangement already accepted as regards capital ships would be increased. He did not begrudge her that incease; he rejoiced in it.

But when he turned from the matter of capital ships to the matter of other craft he confessed that a very different picture met the eye. The French

proposed to increase the number of submarines threefold. If they carried out that intention it was evident that they would not only be equal to the other two greatest naval powers, America and Britain, in point of tonnage, but that they would have a very much larger proportion of submarines of a newer type than either of them. He understood the submarine was still in process of development; it was still adding to its powers of offense, and each new model was an improvement on the capacity of its predecessors for commerce destruction.

Thus it was certain that when that program was carried out, the French quota of submarines would exceed that of any other power in the world. It had further to be noted that their French colleagues accompanied their views of the necessity of submarines with the announcement that they intended greatly to increase the tonnage of their auxiliary craft. It must be acknowledged that this constituted a somewhat singular contribution to the labors of a conference called for the diminution of armament. Considered in conjunction with refusal of the French delegation to discuss land armament, this position must cause anxiety and disappointment to those who had come to the conference with high-hopes regarding the limitation of naval armaments. Furthermore, it had to be observed that the pleasure derived from the agreement with regard to the limitation of capital ships was subject to a qualification.

He understood that the French intended to begin replacing ships in 1927. This seemed to be a serious interference with the principle for a ten-year naval holiday, but that was only small part of the anxiety and disappointment which the French program had created in his mind. They had now come forward with a great building program of submarines and auxiliary craft. He was perfectly unable to conceive how that could be regarded as a defensive policy.

If submarines were to be used as a strictly military weapon, in the manner contemplated by the American Advisory Committee, how came it that a fleet of capital ships limited to 175,000 tons required 90,000 tons of submarines to scout for it and protect it? And if 90,000 tons of submarines were really required for a fleet of 175,000 tons of capital ships, how many submarines would American and Britain require to build to assist their fleets of 500,000 tons? It was perfectly obvious that the proposed 90,000 tons of submarines were intended to destroy commerce. They could not be intended for any other purpose.

It therefore appeared that at a moment when we were all assembled to discuss the limitation of armaments we were asked to agree to their increase and that a country which did not desire to be among the first three naval powers in the world proposed nevertheless to build instruments of illegitimate warfare to an extent equal in numbers and superior in efficiency to those legitimately equired by any other fleet in the world. We should therefore have the melancholy spectacle of a conference called for the limitation of armament resulting in a vast increase in the very weapon which the most civilized elements in all civilized countries condemned. For the moment we need say no more. The whole of this controversy would again come up before the public conference. For this occasion he reserved himself.

He must, however, dwell shortly on the effect which the French declaration of naval policy must inevitably produce upon British opinion. It was perfectly clear that if at our very gates a fleet of 90,000 tons of submarines, 60,000 of which were to be of the newest type, was to be constructed, no limitation of any kind of auxiliary vessels capable of dealing with submarines could be admitted by the Government which he represented. Public notice had now been given in the most formal manner that this great fleet was to be built on the shores nearest to Britain, and it would necessarily be a very great menace to her. He had no doubt if the occasion ever arose that Britain would be equal to it, but it was on condition that we reserves the full right of Britain to build any auxiliary craft which she considered necessary to deal with the situation.

Senator Schanzer of Italy.

We do not dispute the importance of an accord with respect to capital ships, but we cannot do more than to express our deep regret that it is not possible to arrive at an arrangement concerning auxiliary boats and submarines.

In the absence of an agreement concerning the limitation of the latter naval forces, it is but natural that each nation should retain full liberty of action. At the same time, it is impossible not to realize that the absence of such an agreement will give new impetus to the competition of naval armament respecting auxiliary craft and submarines which can only have a most unfortunate effect on the finances of the countries interested. It is not our intention to discuss what France considers necessary for her national security, but we will not attempt to hide that the naval program announced by France is one which gives us serious preoccupations from the point of view of the economic sacrifices that may follow for Italy as well as from the point of view of the political consequences which it might produce. This is all the more true because the solution of the land armament problem has been deferred.

Secretary Hughes.

The Chairman said he gathered from what had been said that it was not deemed practicable to reach an agreement on the basis suggested by his French colleagues, and that it was apparent that other Powers desired freedom of action with regard to the construction of auxiliary craft which would be built to deal with submarines.

He assumed that Mr. Balfour, in referring to the entire liberty of action of Great Britain in this respect, did not intend to include capital ships nor did he understand that it was intended to build, under the guise of auxiliary ships, vessels which might possibly come within the category of capital ships. He desired to present for the consideration of the committee the suggestion that, if it was not possible to reach a satisfactory agreement for the limitation of total tonnage of auxiliary craft, some arrangement might perhaps be made defining the tonnage limit of individual ships. He therefore desired to propose the adoption of the following resolution:

"No ship of war other than the capital ships or aircraft carrier hereafter built shall exceed a total tonnage displacement of 10,000 tons, and no guns shall be carried by any such ship with a calibre in excess of 8 inches."

Vice-Minister Hanihara of Japan.

I desire to be permitted to say just a few words in order to avoid possible misunderstandings as to Japan's attitude with regard to the question of naval limitation.

We believe that by the agreement that has been reached at this conference as to the ratio of capital ships, a great step forward has been made toward the attainment of the high aim of the conference, thereby relieving the Powers oncerned of the heavy burden of costly armament. At the same time, we think it a misfortune if we fail to come to an agreement as regards the limitation of auxiliary combatant craft. Our position is not to claim freedom for building auxiliary combatant craft, but to support in the main the tonnage provided in this respect in the original American proposal of Nov. 12, in order that an agreement may be reached as between the Powers concerned on this basis, and that full and final success of the conference may thus be assured.

Minister Sarraut of France.

The decisions of the French Government which I have had the honor of imparting to the conference have just given rise to certain observations which I cannot allow to go unanswered. If this reply was not immediate, this was because I wished first to hear the remarks of each delegation regarding my statement.

To tell the truth, gentlemen, I am not here to make comment on the orders of my Government, which possess an authority and value which suffice in themselves; the decisions which I have just communicated to you have been carefully considered by the highest authorities representing national sovereignty in my country. I have received them respectfully from their hands and have brought them just as they stand to the conference.

It is my duty, however, and I perform this duty in the perfectly friendly spirit which has never ceased to animate the French delegation to take up the allegations which have just been made, certain ones of which I find wholly inacceptable.

Certain delegations, while testifying to their satisfaction in seeing France accept the reduced proportion of capital ships which has been determined for her, have expressed a real disappointment on learning that the French Government was unable to make similar sacrifices as regard other classes of vessels. Allow me to say that this disappointment, if it really exists, will call forth a similar feeling in my own country when it is learned there how the amount of tonnage allotted to France has been authoritatively determined without taking any account of her manifest needs and of the absolute necessities of her defense for the security and safeguarding of which no country is justified in trusting to the good offices of its neighbors.

It is this idea, this conception of the true needs and interests of France and of her colonies, which has inspired the decisions of the French Government; it is this idea which is both the measure and the limit of their demand; and it is in no way influenced by any comparison with what our neighbors are doing or by any anxiety to measure our naval force against theirs.

Herein lies the profound difference between our points of view and those of others. We have not apportioned out needs and our demands by carefully examining the consequences to the French Navy of the increase of the naval power of certain neighboring countries with whom we cherish, under the happiest of conditions, relations of friendship, co-operation and alliance. We are not guided by any fear of what their strength may be, precisely because they are friends. Great Britain, with her 525,000 tons of capital ships, will possess a fleet of great vessels stronger than the corresponding fleets of France and Italy put together.

So be it; we ourselves do not take offense. We are not the lease in the world haunted by this eventuality, no more than we are apprehensive of the fact that the fleets of the other friendly nations, the United States and Japan, will be considerably increased in comparison with our fleet.

Why, then, they say, is a submarine fleet such as is demanded by France a necessity for her? Do we quibble over the needs of the others? Do we call into question their possible intentions? Do we suspect them? Assuredly we shall not do so. It is not only the right but the duty of each country to assure its safety by its own means and it is perfectly possible to consider this problem without being haunted by the idea of a possible aggression on the part of a neighbor. That others should apply to us such a method of reasoning while we do not think of applying it to them, we cannot permit in any way. This would be still more painful to us, would appear to us more especially inadmissible at this table around which weare gathered in a spirit of the most cordial co-operation, at the very moment when, in bringing the answer of France in the matter of capital ships, we are furnishing the most positive proof of the effective participation of our country in the success of the great ideals of peace aimed at by this conference.

If our answer is not the same as for the capital ships in regard to the other categories of vessels, it is because the tonnages which we have indicated correspond to material needs of defence, to necessities of protection which must no longer be denied, for we shall not cease to affirm them strongly. We have no desire to destroy merchant vessels, as Mr. Balfour has said; we have formally declared the contrary here, and this declaration was echoed not later than yesterday in the debates which took place in the French Senate. But France has coast lines which she must defend; she has also, and above all, a great colonial domain, second in importance only to that of Great Britain, which is distributed all over the seas, and concerning which we also may have, I presume, our anxiety as to its defence, its police and its surveillance.

We have the duty of safeguarding the communications of these colonies with the mother country, and I have already said here that in case of war the safety of transportation of our troops overseas to the mother country would be among the first of our obligations. This is not a mere theory. Have we not in the last war seen a belligerent transform merchant ships into auxiliary cruisers or into privateers to torpedo our transports; and has not this been done against all the Allied navies? And should it cause surprise here to see the Minister of Colonies of France take account of colonial considerations, and call to mind that our colonial empire, though some would seem to be ignorant of it, really exists and that its needs, as well as its interests, must be strongly affirmed, defended, protected, especially in the matter of safe communications with the mother country?

I reiterate that the French delegation is bound by formal instructions from its Government. This is a fact of which it reminds you anew. It cannot deviate from them. I wish to repeat again that it is impossiblefor me to hear it said, without protesting, without asserting the contrary, that there was an inevitable and necessary correlation between what we are obliged to do and what our neighbors would then deem themselves obliged to do.

Nor do we admit that there is an indispensable and logical correlation between the proportion of a country's naval force in capital ships and the proportion of its auxiliary craft and submarines. That is an abstract rule which you thought you ought to lay down here. But we have shown why we could not recognize it. We are guided by our needs, duly stated, proved, legitimatized.

It is this rule, and no other thought, which dominates our feelings on the submarine question. We object to having it believed or to having it said that the creation by France of a defensive weapon involving a certain tonnage of submarines could be considered as a menace to any of her friends.

If such a thought were to weigh all too heavily on our deliberations, if I found myself obliged to defend my country here against such a suspicion, this would indeed result in eliminating the hopefulness and the enthusiasm with which I have so far collaborated in the work of relieving the burden of armaments, in accord with the desire of France as clearly manifested by the sacrifice to which she has consented in the matter of capital ships.

But, to tell the truth, I am not likely to be discouraged in this matter. The work is too fine and too generously humanitarian to permit our efforts and our good-will to grow weary. They will remain faithful to the end to the noble project aimed at by this conference.

Arthur J. Balfour of Great Britain.

Mr. Balfour assured M. Sarraut that he was the last man in the world whom he (Mr. Balfour) would suspect of hostile intentions toward his country, but the speech which M. Sarraut had just delivered was sufficient

to show that he had not really understood the way in which Britain regarded the question now under consideration.

Mr. Balfour begged him to consider one or two elementary facts without which he would not understand the position taken up by the British Empire delegation. While it was almost unthinkable that their respective countries could be on anything but the most cordial terms, one must not overlook the teaching of history. Britain had had many conflicts with France, though happily in the distant past.

Britain had always been superior in naval armament and always inferior in land forces. Never in the history of France had she had to fear the power of Great Britain to strike a blow at her heart. In the nature of things, that must be so. No inferior military power had ever yet been able to invade or seriously imperil a superior military Power merely because she had more ships.

Suppose the almost inconceivable happened and close allies became enemies, it was perfectly clear that in that case no British superiority of capital ships would imperil the life of France for an hour. To be fair, he must admit that it might conceivably imperil some remote islands belonging to France; but France with her land armament, would remain secure in the face of superior sea power.

Now compare the position of France in the face of a superior British surface fleet with the position of Britain in the face of France with the largest submarine fleet in the world. She could use that fleet, if she chose, for commerce destruction, and it was difficult to believe that in time of stress she would not so use it. If Britain were unarmed against submarines, it was evident that France, using that felonious weapon, could destroy her very existence.

Therefore, it was quite impossible for Britain to treat the submarine fleet with the serene and friendly philosophy shown by M. Sarraut inconnection with the British fleet of capital ships. M. Sarraut talked of the absolute necessity for France of possessing a fleet of 90,000 tons of submarines For what purpose? Not to co-operate with a fleet of 175,000 tons of capital ships. It was altogether out of proportion. What did he want the 90,000 tons of submarines for? According to him, it was not for commerce destruction, it was for the protection of France's lines of communication.

There was no doubt that submarines were powerful for the destruction of lines of communication, but they were powerless to protect them. Mr. Sarraut would not obtain security for his lines of communication by those means. For those purposes they were useless, or nearly useless. They were powerful weapons for one purpose, and for one purpose only, namely, the destruction of commerce; and it was not unreasonable that Great Britain, when threatened by the establishment within a few miles of her coasts of a vast fleet of submarines which were of no use except to destroy commerce, to say candidly that she could not look with indifference upon the situation that would be thus created.

He regretted that he had been compelled to insist upon an aspect of the question which he would gladly have left undealt with. He did not yield to M. Sarraut in his conviction that the good feeling existing between this own country and their great ally across the Channel would remain unshaken through all the changes which time might bring.

With regard to the resolution which had been proposed by the Chairman, he (Mr. Balfour) desired to intimate that Lord Lee would address the committee on that subject.

Lord Lee, of Fareham.

Lord Lee said he would pass to the resolution which the Chairman had proposed a few minutes before, and which he hoped would be regarded by his colleagues as non-controversial. It was, indeed, a necessary corollary of the agreement to limit capital ships that there should also be a limitation on the size of other classes of ships. Otherwise it would be possible to build so-called light cruisers which would be capital ships in disguise, and which would impose upon the world a fresh competition of armament which would be as costly as that which had preceded it.

He understood there had been a certain amount of conversation between the naval experts of the countries represented at the conference, and he was led to suppose that there was an agreement that 10,000 legend tons—or whatever kind of tons were agreed upon—would be a reasonable maximum size for all ships other than capital ships or aircraft carriers. He thought also that there was a general agreement regarding the limitation of guns to 8 inches. So far as Britain was concerned, she had no gun in excess of 7½ inches.

He understood France had a gun of an approximately similar size, namely, 7.6. That seemed a reasonable figure to fix, but if for any strong reason it was desired to fix 8 inches, Britain would not oppose any serious objection to that size. He thought it was essential that the limitation of armament should apply also to the aircraft carrier; otherwise, while prohibiting capital ships, one might have what would be in effect a capital ship with the addition of flying appliances.

He did not want to discuss, on this occasion, the matter of the limitation of tonnage of the aircraft carrier, but he thought the resolution should be amended to read as follows:

"No ship of war other than a capital ship or aircraft carrier hereafter built shall exceed a total tonnage displacement of 10,000 tons, and no gun shall be carried by any such ship other than a capital ship, with a calibre in excess of 8 inches."

The Chairman (Mr. Hughes) stated that the American Government had no objection to the amendment proposed by Lord Lee.

The meeting was then adjourned until 3:30 p. m. Dec. 28 1921.

The communique relative to the afternoon session contained the Root resolution for more effective rules governing the operation of submarines, to which we shall refer another week.

PRESIDENT HARDING SAYS FOUR-POWER TREATY IS NOT ALLIANCE—RESERVATIONS—PROGRESS TOWARD PEACE.

President Harding in a statement issued at Washington on Dec. 23 to newspaper men declined to comment on "disputes which attempt to magnify the differing constructions on the Four-Power Treaty"; he asserted, however, that "no alliance or entanglement is thought of, none will be negotiated." Last week (page 2672) we published a previous statement by the President regarding the inclusion of the homeland of Japan in the term "insular possessions and insular dominions" in the treaty, the parties to which are the United States, Great Britain, France and Japan. His statement to the newspaper men on Dec. 23 follows:

The President will offer no comment on the disputes which attempt to magnify the differing constructions on the Four-Power Treaty. To him these are unimportant. The big things aimed at are understandings for peace and an agreement to meet and discuss the preservation of peace whenever it is threatened.

No alliance or entanglement is thought of, none will be negotiated. It would be better to rejoice over things accomplished than to dwell on differing views which can be of no great consequence.

The President is unwilling that the unjustified charge that the United States delegates are withholding information shall go unchallenged. He had full confidence, else he had not chosen them, and he has full confidence now and is more than gratified over their efforts, because they are working out the greatest contribution to peace and good-will which has ever marked the Christmas time in all the Christian era.

It is one thing to talk about the ideals of peace, but the bigger thing is to seek the actuality. This the Conference is doing, in harmony with an overwhelming American sentiment and world sentiment, too, and in full accord with cherished American traditions.

The Associated Press in Washington dispatches, December 23, reported President Harding as making the following statement in replying to the question "Do you feel that the world has made great progress in the direction of peace and good-will?"

"I think I made a reply to a similar question at the last interveiw. I do think so. I believe it with all my heart. I do not say that with the thought of arrogating to the United States of America any greater part of the contribution than that which has been made by other nations of like importance and like civilization. But it seems to me that in 1921, as we have come to know more fully the aftermath of the war, as we have come to appraise the unspeakable cost of it all, there is a new conviction in the hearts of men that that sort of appeal—the appeal to arms—to settle the international questions is a futile thing, and that we are unworthy of our position and unworthy of the blessings which fall to a righteous civilization if we do not find some means for a righteous adjustment without appeal to slaughter and waste and all the distresses that attend.

"I think that conviction has rooted itself throughout the world, and there must come some helpful, progressive expression of it. I think that expression is being given at this conference. I have no thought to preach on this subject to-day, but make your own applications, please.

"When men sit about the conference table and look each other in the face and look upon the problems deliberately, without passion, they find the way to come to an agreement. And after all, there has never been a conflict in the world that has not been settled in the end in that way. You have a war; you destroy thousands or millions of men and measureless treasure, and then you gather about a table and settle it.

"I have a feeling that mankind has become wise enough to sit down before the war and try to settle it. And that is the object of the Four Power Treaty. That is why I say the small lack of agreement in construing it is not significant.

"Why, if there was a menace of peace in Japan what objection could there be for the United States to sit down with her friend in the Orient and with the other great Powers and discuss how the matter could be adjusted? If some one had done that when Austria was threatening Serbia there would have been no European war.

"The whole purpose of this conference is to provide some means where just, thoughtful, righteous peoples, who are not seeking to seize something which does not belong to them, can live peaceably together and eliminate causes of conflict. This is in the American heart, and it is in the British heart, and it is in the Japanese heart, in the French heart, in the Italian heart—it is everywhere in the world.

"If this present day civilization cannot take advantage of this new realization, of that emphasized conviction, I would not give much for the civilization of the future. But there is a new spirit seeking and impelling peace, and it must add to our Christmas happiness."

It is also learned from the New York "Commercial," of Dec. 24, that in an unprepared reply to a question regarding the League of Nations, President Harding said:

"I do not think that the League has anything to do with the Four-Power Treaty or with anything else that is transpiring at this conference, except, of course, that the League of Nations was manifestly inspired and organized to promote peace, and this conference is aimed in the same direction. There is no connection between the League of Nations and the aims of this conference except in the imagination."

President Harding, it was said at the White House, on Dec. 23, will not object if the Senate attaches reservations to the four-power Pacific treaty provided the Senate considers them necessary, but he does not himself consider that there is need for them at this time.

NEW CHINESE CABINET—STATEMENT BY CHINESE DELEGATION ON UNIFICATION OF COUNTRY.

The Chinese delegates to the Washington Conference on Limitation of Armaments took occasion on Dec. 19 to issue the following statement relative to inquiries coming to it as to recent news from China:

In reply to inquiries concerning recent news from China, it has been said by members of the Chinese delegation that the proceedings at the Washington conference have emphasized the desire throughout China to unify the country.

It is the belief that the unification of the country is the sine qua non for an independent nation. Without the strong central Government supported by the various strong parties in the country, it is impossible to avail ourselves of all the advantages to be derived from the principles adopted at the Washington conference.

The Central Government, as well as the strong men like General Chang Tso-Ling of Manchuria, General Tsao Kun of Tientsin and General Wu-Pai-Fu of Central China, and Dr. Sun-Yat-Sen of South China, have been fully convinced of the necessity to co-operate and to work together. General Chang Tso-Ling in Manchuria naturally considers his region most likely to be affected by the decisions of the Washington conference.

The Japanese delegation has delayed and postponed the deliberations with regard to China, and they are determinedly holding on to the privileges in Shantung. There is this feeling that the interests of Manchuria might be bartered away, since the Japanese refuse to scrap the twenty-one demands affecting the future of those provinces.

It must be recalled that the twenty-one demands were presented with an ultimatum; that since they affect the territorial and administrative autonomy of the Chinese Government, unless the twenty-one demands are can-

celed the principles adopted by the Washington conference amount to nothing more than scraps of paper.

In an earnest attempt to get the co-operation of all the leaders in China, General Chang Tso-Lin desires to unite all the forces of the country. There is a very strong likelihood that the other leaders, especially General Wu-Pei-Fu, who is popular and powerful in Central China, will rally to the call of patriotism. History is in the making and we do not know the final results, but this we do know, that all the men in China, both high and low, are thinking about unification very seriously.

A few men of the Cabinet might be changed and even the President might think of retiring, but his retirement is only an indication of the general desire to sacrifice personal glory for national unity and welfare. In China public opinion runs so high that unless a leader gets the full support of the public, he cannot control the reins of the Government for any length of time. In this movement in China, one can easily see that the leaders are actuated by patriotic motives and they are willing to yield their positions to some acknowledged leader who has the support of the people.

The Chinese delegation at the Washington conference has the continued support of the people, and so, whatever happens in China, it will represent China in truth.

At the same time the New York "Times" printed the following advices from Washington relative to expected developments growing out of the resignation on the 19th inst. of Premier Chin Yun-Peng and his Cabinet:

Far-reaching developments are expected to follow the resignation of the entire Chinese Cabinet as a result of the arrival at Peking of General Chang Tso-Lin, the Manchurian war lord, who has embarked on an ambitious plan for the financial rehabilitation and political unification of China. Some of these developments may be indicated as follows:

First—The resignation at an early date of Hsu Shih Chang, who has been President of the Chinese Republic at Peking since 1917.

Second—The selection of a new President, probably the restoration of Li Yuan Hung, former President, in office in place of Hsu.

Third—The selection of a strong man to serve as Premier, one who will enjoy the respect of foreign financial interests and who would work for the financial rehabilitation of China, as well as the unification of the North and South China Governments.

Fourth—Development of a program for the financial regeneration of China and for national unification.

Fifth—The acceptance by the new regime of the proposed international consortium for China, with the participation in it of a Chinese banking group which is being formed among Chinese bankers, who within the last three weeks have declared in favor of an international consortium with Chinese participation as the only practical means for lifting China from its present state of virtual bankruptcy.

Sixth—Adoption of policies calculated to strengthen the hands of the Chinese delegation in the Washington conference through plans now being formulated in Peking, with a view to consolidation of the various Chinese factions and rehabilitation of finances, which are in such a miserable state that the Government is not only unable to pay the salaries of employees of the Government in Peking, but has also been delinquent in paying the expenses of the delegation in Washington. Part of the expenses of the Chinese delegation here, in fact, have been paid by General Chang Tso-Lin, and some of the delegates who have independent personal means are for the present meeting their own expenses.

Seventh—It is even possible that the Chinese Government under the Manchurian war lord's plan of restoration may seek a loan from the international consortium, with the Chinese banking group participating, to cover the purchase from the Japanese of the Kiao-Chau-Tsinan Railway in accordance with the terms of sale of that road to be arranged in the "direct conversations" in progress here between the Chinese and Japanese delegates.

Former Government a "Shell."

The State Department and the Chinese Legation have been advised of the resignation of every member of the Peking Government's Cabinet.

These advices show that General Chang Tso-Lin, the super-Tuchun or Inspector-General of the three Manchurian provinces of China, with headquarters at Mukden, arrived in Peking on Dec. 13, and that there have been important developments in the Chinese capital in the last six days.

It has been known here for some time that the Government at Peking has been a mere "shell," that it has been greatly embarrassed financially and that it was destined to fall the moment General Chang Tso-Lin, the most powerful of the three super-tuchuns, carried forward plans he is understood to have been formulating for endeavoring to restore unity in China.

The extent to which the Manchurian chief's plans succeed will depend somewhat on the degree of support he receives from Tsao Kun, super-tuchun, or Military Inspector-General of the Chili group of five provinces which includes Peking, and Wu-Pei Fu, the super-tuchun, or Inspector-General, of the provinces of Hupeh and Hunan, who is a follower of Tsao-Kun. The reins of power in North China, in reality, are to-day in the hands of these three super-tuchuns. The most respected one is declared to be Wu-Pei Fu, and if he is persuaded to support the new movement led by General Chang Tso-Lin, there will be important developments in the situation at Peking.

General Chang Tso-Lin, who was recently the host at Peking of Lord Northcliffe, owner of the London "Times," is a remarkable man in many respects. He was originally a Hunhutsu bandit in Manchuria, and has been called the "Pancho Villa" of China. Starting as a bandit, he has become the Chinese war lord of Manchuria, and is a man of considerable wealth. While he is a power among the Manchus, and has been accused by many Chinese as being pro-Japanese, it is admitted, even among men attached to the Chinese delegation in Washington, that this allegation is not justified.

Delegates Here Are Anxious.

Members of the Chinese delegation now here are on the anxious bench as to developments in Peking. They quite realize the power of General Chang Tso-Lin for good or evil in the situation. It is known that they will be strongly in support of General Chang if they come to the conclusion, based on coming developments, that he is whole-hearted and thoroughly sincere in his plan for the restoration of China. If he carries out this plan and wins the support of General Tsao-Kun and General Wu Pei-Fu, the Chinese delegation here, which has been much depressed by the crossfire they have been facing from various elements at home, will feel greatly bolstered.

The Chinese delegation here will not be surprised if at any moment the cables bring them announcement of a new Premier. Half a dozen probable appointees to the Premiership are under consideration. It is considered most probable that the new Premier may be Liang Shih Yo, who has held many offices, had been twice in the Ministry of Finance, is wealthy and one of the strongest of the Chinese financiers. He was formerly at the head of the old Chinese Communications System that controlled railways, post-offices and telegraphs in China.

Another man considered as having a chance for the Premiership is Chin Chi Chien, a prominent politician, a personal representative of the present President of China, but who has been in disfavor in a popular way, partly because of his services in Paris, where he was sent to negotiate certain railway deals, also because on his return to China from Paris he stopped off at Tokio, where he conferred with certain Japanese officials. Still another possible selection is Dr. W. W. Yen, Chinese Minister of Foreign Affairs, who was nominated to head the Chinese delegation to the Washington conference, but who decided to remain in Peking and direct the delegation's work from the Chinese capital.

If the President resigns, as is expected, there would be a peculiar situation respecting his office. There is no Parliament sitting in Peking. Fourteen articles of the Chinese constitution only were adopted by a convention, which was then dissolved, and without a Parliament there is nobody to legally elect a President. It has been alleged that President Hsu has been holding his office illegally and it is contended in Chinese circles here that if Hsu should resign, the only way to obtain a "legal" President would be to restore Li Yuen Hung, former President, who was legally elected into office. It is considered probable that General Chang and the other super-tuchuns may ask him to serve.

As understood here, the plans of General Chang are not expected to seriously affect the work of the Chinese delegation at Washington, but there is no doubt that they will have to regard Chang as dictator if his plans succeed. General Chang is pro-American and has been impressed with Western ideas. He has been pro-Japanese to the extent that this was necessary, it is asserted, to care for his money and other material interests in Manchuria.

In reporting the appointment of the new Premier, the Associated Press stated in Peking advices Dec. 20:

Liang Shih-yi has been named as Premier of the Chinese Cabinet to succeed Chin Yun-peng, who with all his Ministers resigned on Sunday. The fall of the Cabinet followed arrival here of General Chang Tsao-Lin, Governor of Manchuria, who is now engaged in forming a coalition Government in which all the reactionary parties are participating. It is charged that Chin Yun-peng was guilty of speculations and the sale of offices.

The new Premier is credited with having inspired the attempt by Yuan Shi-kai to create himself emperor in 1915 and under his auspices many of the officials of the Government overthrown last summer are now participating in the Councils of State. Among those in General Chang's following are Wang Chan-yuen, former Military Governor of Hupeh, and Chang Chin-yao, former Governor of Hunan Province, which post he held at the time of the murder of Rev. W. A. Reimert, an American missionary, in June 1920, and following which the American Legation demanded that he be held responsible for the crime. The legation is said to be preparing a protest against his presence in Peking at the present time.

Another of the men taking part in the movement is General Cheng Hsun, who headed the unsuccessful Manchu restoration in 1917.

As to the further efforts to reorganize the Cabinet, the Associated Press reported the following from Peking Dec. 22:

Three posts, besides the Premiership, have so far been allotted in the new Coalition Cabinet, the formation of which is proceeding under the direction of General Chang Tsao-lin, Governor of Manchuria, whose arrival here recently was followed by the fall of the Chin Yun-peng Ministry. The selection of Liang Shih-yi as Premier was announced Tuesday, and to-day it developed that Yeh Kung-cho had been picked for Minister of Communications, Shang Hu as Minister of Finance, and Yen Hui-ching as Minister of Foreign Affairs.

General Chang Tsao-lin, the creator of the coalition, is quoted by supporters as declaring in an interview:

"The militarists have up to this time been warranted in ignoring and defying the Government, because that Government was unreliable and dishonest. I do not believe that a Constitutional Government of the Occidental type is suited to China, ten years of experiment resulting in chaos. China must evolve a democracy suited to the native temperament and tradition. Therefore the only possible means of regeneration is through reform by the united efforts of strong men."

This statement is being ridiculed in some quarters, which declare that Chang Tsao-lin, although absolute master in Manchuria, has not been effecting reforms, has not promoted democracy, nor suppressed the outlaws, and is maintaining a huge army.

Still later advices (Associated Press) regarding plans to frame a new constitution came from Peking on Dec. 28 as follows:

A united China under a strong Government, with incidental solution of the country's financial problems, is possible as the result of the recent Cabinet change, General Chang Tsao-lin declares in an interview published here. General Chang, who is Military Governor of Manchuria, took a leading part in forming the new Government under Premier Liang Shih-yi, which succeeded that of Chin Yung-peng on Dec. 18. His statement is challenged by the foreign press in Peking, which makes charges against some of the new officials.

"Government by an Occidental constitution was a failure," General Chang said. "Therefore we propose to assemble Parliament to frame a new constitution suited to the temperament of the people. United hitherto was impossible because officialdom was corrupt and lacking the confidence of the provinces.

"Unscrupulous officials having been eliminated, financial reforms are easy, since the Government's normal income is 300,000,000 taels and normal expenditure for administrative expenses total 100,000,000 taels."

The native press says General Chang is preparing a campaign for the re-election next year of President Hsu Shih-chang, with himself as Vice-President. The newspapers declare that former Premier Chin Yung-peng conspired with General Tsao Kun, former Military Governor of Chihli, to oust Hsu from the Presidency, and that General Chang was summoned to Peking by the President, and thereupon executed the coup by which Premier Chin was unseated.

General Chang has denied reports that he is engaged in direct negotiations at present with Sun Yat Sen, head of the Souhtern Government, but these reports still persist.

The entire Chinese press is exhorting the delegation at Washington to insist that the conference discuss the twenty-one Japanese demands on China and the Shantung question.

On Dec. 27 the composition of the new Chinese Cabinet, which assumed office Dec. 25, was reported to the State Department as follows:

Premier, Liang Shih-Yi; Minister of Foreign Affairs, W. W. Yen; Minister of Finance, Chang Hu; Minister of War, Pao Kwei-Ching; Minister

of the Navy, Li Ting-Hsin; Minister of Communications, Yeh Kung-Cho; Minister of Justice, Wang Chung-Hai; Minister of Commerce, Chi Yao-Shan; Minister of the Interior, Kao Ling-wei; Minister of Education, Huang Yen-Pei.

SOUTH CHINA AND THE CONFERENCE ON LIMITATION OF ARMAMENTS.

The relation of South China to the Washington Conference on Limitation of Armaments was discussed by E. K. Moy, Director of the China Trade Bureau of New York, at the National Council for the Limitation of Armaments on Dec. 29, according to a Washington dispatch to the New York "Times," which quotes Mr. Moy as saying:

The Canton Government, which grew out of a Parliament of the people of China when it was dissolved by President Li, is the only legal Government in China. The difference between it and the Peking Government is the difference between a democracy and an autocracy and between right and wrong. So long as the Powers continue to espouse the wrong, the problems of the Far East cannot be settled.

SECRETARY OF AGRICULTURE WALLACE ON NEED OF DEVELOPMENT OF WISE AGRICULTURAL POLICY.

"The Turn of the Tide in Agriculture" was the subject of an address by Henry C. Wallace, Secretary of Agriculture, before the Chamber of Commerce at Boston on Dec. 19, who in declaring that "we have come to the time when team work is needed," added that "there must be sympathy, understanding and co-operation between agriculture, industry and business." Secretary Wallace asserted that "we are passing through the most severe agricultural depression we have ever experienced," the trouble being now, he said, "that whereas prices of farm products, speaking generally, are lower than before the war, prices of the things the farmer must pay for, including transportation, wages, taxes and the loan of money, remain near the war levels." This condition, according to Secretary Wallace, "is undermining agriculture, the base of the pyramid which represents our national life, and justifies the use of the most vigorous measures to cure it." He referred to the efforts at relief by Congressional action, and expressed surprise that such legislation should be looked upon by any one as class legislation, when "its primary purpose is to maintain agricultural production that the people may be fed." Among other things Secretary Wallace said: "The industrial East may feel the need of a sympathetic and thoroughly efficient agriculture sooner than is now realized. The billions of dollars which we have loaned to Europe must be paid not in gold, but in goods which compete with our own manufactures and which are produced at a cost far below our own. To meet such competition our own people must have the cheapest possible food." Secretary Wallace proposed certain things that ought to be done to foster our agriculture, declaring, first of all, that "in the administration of our credit machinery, whether by Government agencies or otherwise, the effect on agriculture must be given more consideration than in the past." We quote the following from Secretary Wallace's address:

We are having much the same experience that Great Britain went through following the Napoleonic wars. At the beginning of those wars Great Britain was an agricultural country in transition to becoming primarily a manufacturing and commercial nation. Nearly half the population was engaged in agriculture and the British farmers produced most of the agricultural products consumed in the country. During these wars the British farmers prospered. Following them there came just such an agricultural depression as has come to us and it continued for many years during which the United Kingdom definitely determined to become an industrial nation, dependent upon her colonies and upon foreign countries for the major part of her food supply.

During the next twenty years, either consciously or unconsciously, the United States will adopt fairly definite policies as to industry and agriculture. We are approaching that period which comes in the life of every nation when we must determine whether we shall strive for a well-rounded self-sustaining national life in which there shall be a fair balance between industry and agriculture or whether, as have so many nations in the past, we shall sacrifice our agriculture for the building of cities and expect our food to be produced not by independent farmers but by men and women of the peasant type.

Dispassionate consideration of this larger problem is made harder now because our agriculture is in very bad state, much worse than is fully realized especially here in the East. There seems to be a tendency to regard the complaints and appeals which are being voiced by the farmers and the people who speak in their behalf as simply the recurrence of grumblings which have been heard from farmers in past periods of depression. Now the truth is that we are passing through the most severe agricultural depression we have ever experienced. It is not simply a case of low prices for farm products. We have seen lower prices in times past. The trouble now is that whereas prices of farm products, speaking generally, are lower than before the war, prices of the things the farmer must pay for, including transportation, wages, taxes and the loan of money, remain near the war levels. Hence the purchasing power of the major farm crops is lower than at any time in our history. This condition is undermining agriculture, the base of the pyramid which represents our national life, and justified the use of the most vigorous measures to cure it.

Our first task is to bring agriculture through this critical period with the least possible damage. Senators and Congressmen from the surplus producing States appreciate the gravity of the situation, as indeed, do hundreds of thousands of business men who have dealings with the farmer directly or indirectly. It is quite natural, therefore, that there should be consideration of legislative measures which might afford relief, and all the more so because Government cannot be absolved wholly from responsibility for some of the difficulties under which the farmer is laboring. As is always the case in periods of financial depression well meaning people whose understanding of economic forces is not all that might be hoped for, come forward with ill considered plans. Such have had scant consideration. Efforts at relief by Congressional action have been directed along three general lines, first improved credit facilities; second, permissive legislation which will encourage the farmer himself to improve methods of marketing farm crops; third, assurance of free, open and competitive markets for crops and live stock through the exercise of reasonable Government supervision over market agencies.

That anyone should be disposed to regard such legislation as of the nature of class legislation intended to or having the effect of benefiting one group at the expense of other groups, is surprising. It is not in any sense class legislation. Its primary purpose is to maintain agricultural production that the people may be fed. To do this it is imperative that the farmer be helped to tide over this period of financial stress without being compelled to sacrifice his land, his live stock or his farming equipment. That is even more important to the consuming public than to the farmer, both because of the need of food at reasonable prices and because the purchasing power of the farmer must be restored if we are to have a prosperous industrial life and find work again for the millions of unemployed. Surely the logic of such reasoning should not be questioned in industrial States, where in times past a much more involved line of reasoning to secure legislative action has been used very effectively. If those who have been charged with promoting unwise class or group legislation for the benefit of agriculture should desire to retort in kind they could find ready at hand many examples of unquestionable class legislation enacted on behalf of relatively small groups. The fact that 40% of our people live in the open country and not only furnish the food for the nation but constitute the largest home market for our manufactures should ever be kept in mind. 40% of the whole is somewhat more than a "group."

Turning now to the future. When we emerge from this period of economic disorder and confusion both at home and abroad we shall find ourselves at the beginning of a new era in our national life. We have grown rapidly and without conscious plan in a large way, either industrial or agricultural. The past one hundred years have been years of exploitation and promotion. We have used our natural resources, including the stored up fertility of our soil, without due thought of the future. We have gloried in the individual initiative of our people. That was all very well, if not altogether wise, during the years of development, but from this time forward a different policy must be followed if we are to grow into a symmetrical nation with a prosperous agricultural, industrial and commercial life, and with such standards of living for the individual and family as we have long considered necessary to the development of a worthy citizenship. In short, we have come to the time when teamwork is needed, yes imperative. There must be sympathy, understanding and co-operation between agriculture, industry and business. They are dependent upon one another. They are alike necessary to a well rounded national life. They must work together for the good of all.

The industrial East may feel the need of a sympathetic and thoroughly efficient agriculture sooner than is now realized. The billions of dollars which we have loaned to Europe must be paid not in gold but in goods which compete with our own manufactures and which are produced at a cost far below our own. To meet such competition our own people must have the cheapest possible food. The farmer's place in industrial enterprise thus becomes increasingly important.

The paradox of our present large food surplus, notwithstanding we are fast ceasing to become a food exporting nation. The startling rapidity of our industrial growth points to the approaching need of a materially increasing production. Enlarged production may be brought about in two ways. There are still large areas of land which may be brought under the plow—not easily or cheaply but as need may require and prices justify. And larger yields may be had from the lands already under cultivation by the practice of more intensive methods. In either case the consumer cannot hope to buy food as cheaply in the future as in the past, unless there be large reductions in the costs of producing that food, and when I say costs of production I mean also costs of marketing, for production and marketing are inseparable. In its own interest, therefore, and for its own benefit, the consuming public must aid in making available to the farmer every facility and business device which may help him in reducing production costs.

Without meaning that they shall be all inclusive I venture to suggest certain things that ought to be done to foster our agriculture, not for the selfish benefit of the farmer but for the benefit of all the people. In some cases legislative action will be required. In others administration by Government and State agencies. In still others co-operation both between the farmers themselves and between farmers and other groups.

First, in the administration of our credit machinery whether by Government agencies or otherwise the effect on agriculture must be given more consideration than in the past.

Second, credit for productive and improvement purposes must be made available to the farmer on terms which the seasonal character of agricultural production makes necessary.

Third, improvement in marketing methods through the organization of co-operative associations should be permitted and encouraged.

Fourth, farm products should be transported at the lowest possible costs consistent with the maintenance and satisfactory operation of the transporting agency.

Fifth, the collection of statistical information as to production and consumption of agricultural products at home and abroad should be greatly extended, and made more generally available. Also, so far as can be done safely, such information should be interpreted with a view to bringing about a better balanced and therefore more stable production of crops and live stock.

Sixth, the extension of cultivated land should not be encouraged until careful survey has made plain the practicability of establishing a profitable farming or live stock enterprise. There should be a decided tightening up of our policies of land settlement, including those dealing with reclamation projects.

Seventh, painstaking study of the costs of production and marketing of farm crops is a necessary preliminary to the reduction of such costs. This study should be made all along the line from the farm to the consumer's table.

Eighth, a better understanding of the forces which influence prices is very much to be desired and is necessary to the intelligent adjustment of production to the needs of consumption.

Ninth, a reasonable margin of safety for our own people requires a rate of production which in good years will result in a surplus. The prompt disposition of such surplus is a condition of maintained production, and to this end there should be systematic and constant study of foreign markets.

Tenth, heretofore large production has been without regard to the possible exhaustion of the fertility of the soil, which is our greatest national material

asset. A system of land tenure which leads to an involuntary conspiracy between landlord and tenant to impoverish the soil is a public menace. Tenancy of itself is not necessarily an evil, but the inevitable and logical result of high land values. Our task is to promote a system of tenure which will protect the public interest without doing injustice to either landlord or tenant.

Eleventh, Federal supervision of such institutions as public stock yards and market agencies, grain exchanges, and the like, is not only expedient but very necessary to the efficient and impartial functioning of such institutions, and should result in benefit alike to the agencies themselves, the farmers who furnish the raw material and the consuming public.

In the foregoing I have not dealt with all matters which should be dealt with in considering what needs to be done to promote intelligent, efficient and continued agricultural production, but have mentioned only matters which should have immediate attention as a necessary preliminary to the development of a wise agricultural policy. This is not in any sense an appeal for legislation or administration for the benefit of a class or group. It is simply an appeal for more intelligent recognition of the incontrovertible fact that national welfare depends upon a sound agriculture.

CASH TENANT FARMS RETURN 3½%—2% ANNUAL INCREASE IN PRICE LARGELY MAKES UP FOR LOW RENT RETURN.

A gross return of 3.54% on the valuation of land and improvements was received by farm owners renting their land to cash tenants in 1919. according to a study of the relation of cash rental to farm land valuations just completed by the United States Department of Agriculture. In announcing this, the Department on Dec. 26 said:

The new Census schedules of 158,000 farms, or about one-third of all the farms rented for cash, were examined. These farms had an average value of $16,950, or $153 67 per acre, and the average rent per acre was $5 45. The gross rent in a single year was about one-twenty-eighth of the valuation.

This investigation was made by C. O. Chambers, of the Division of Land Economics, to discover a basis for making scientific appraisals of farm land values, and to learn the ratio of cash rent to land value. The investigator points out that the decline in the prices of farm products this year may result in a lower rate of return until land prices have declined to the same extent as rents.

The low rate of return from rents in 1919 was offset to some extent, the investigator points out, by the increase in average acre value of farm land, which, for the United States, has been at the rate of 2% compounded annually since 1850. This advance in land prices, from which deductions should be made for improvements, was, nevertheless, sufficient to justify owners holding lands with small cash rents.

Some striking variations are found in studying the returns from different sections of the country. Cash-tenant farms in selected north-central counties show an average return of 2.89%; Pacific counties, 4.26%; New England and Middle Atlantic counties, 4.49%; Mountain counties, 6.34%; and Southern counties, 7.26%. States showing the highest averages were Arkansas, 10.66%; Mississippi, 10.04%; Arizona, 8.37%; while those showing the lowest were North Dakota, 2.17%; South Dakota, 2.52%; and Nebraska, 2.59%.

On the whole, it appears that American farm property has been capitalized at a moderate rate compared to the rates investors receive on Government bonds, farm mortgage loans, and good securities in general. In many sections the only justification for the low rate of return on farm property appears to have been the expectation of further advances in land prices.

The low rent returns in certain sections probably tend to promote farm tenancy, since tenants are not likely to buy land at $153 per acre which they can rent at an annual cost of only $5 45 per acre, which is less than the mortgage rate. This may account in part for the large proportion of land operated by tenants in sections of the country where the cash return is comparatively low.

The investigator discovered significant variations in rent returns for different groups of tenants. White tenants paid a lower cash rent than negroes, Japanese, Chinese or Indians in the same regions. Negroes paid rents two-fifths higher than white tenants on farms of the same value. This may be accounted for, however, by differences in the kinds of farms which they operate.

New and one-year-old contracts returned cash rentals about one-sixth higher than those that run for longer than one year. The contracts which were over one year old showed returns of 3.67% as compared with 4.35% on new ones. This may be explained to some extent by the fact that one-year contracts are especially common in high rent localities.

The survey also showed that tenants related to their landlords paid only 2.76% in rental, while those unrelated paid 3.43%. This difference might be due either to over-valued farms or to reduced rents because of kinship.

The economists of the Department of Agriculture are endeavoring to reach a basis for scientific appraisals of American farm lands. They find that there is no apparent constant relation between rent and value. The best land in the country returns a high rental as well as high valuations. The speculative motive of holding lands for advance in prices is undoubtedly an important factor in leading landlords to accept low rental income. The appeal of ownership of a farm home appears to be another important consideration.

The importance of land valuation lies in its application in cases where new raw land is being brought into use by drainage, irrigation, or clearing. Whenever rental returns are small as compared with returns on other reasonably safe investments, it may be possible that expenditures for improvements on raw land will not yield an adequate return.

Scientific appraisal of farm lands is needed for both taxation and loan purposes. The mere selling value prevailing in a community is regarded as an unsound basis for appraising by these investigators. Scientific appraising, they say, must give proper attention not only to selling value but to the rate of return received from renting the property or otherwise ascertaining its use value.

ATTORNEY-GENERAL DAUGHERTY ORDERS NATION-WIDE INVESTIGATION OF RETAIL PRICES.

Following the decision of the Supreme Court in the case of the American Hardwood Association, declaring the open competition plan illegal, Attorney-General Daugherty announced on Dec. 22 that he had laid plans for a country-wide investigation of retail prices of food, fuel, shoes and clothing. Retail prices of these commodities in many localities, he said, were entirely too high, and the profits derived by some retail merchants were "unconscionable." Mr. Daugherty issued orders to William J. Burns, director of the Bureau of Investigation of the Department of Justice, to begin immediately the collection of price statistics, by assigning a number of men to different localities, who would work simultaneously. He ordered Mr. Burns to have prepared schedules showing the variations in different localities and the retail prices of shoes, clothing, fuel and food, and at the same time to collect reports of the wholesale prices of corn, wheat, beef and meats of all kinds, in order that comparisons might be made between wholesale and retail prices.

Organizations of retailers in different parts of the country were blamed by Mr. Daugherty for high prices. These associations, he said, were formed "by smart men who sold a scheme to defeat the laws of the country by perfecting an organization for fixing prices which concealed its real purpose under a declaration of a desire to help competition." The Department, he said, intends to "get these smart fellows," while at the same time recognizing that many innocent merchants had been imposed upon by them. Mr. Daugherty declared himself as unqualifiedly in favor of trade organizations which confined their operations to improving their services to the public, but he asserted they would not be allowed to fix prices or apportion territory among their members, thus stifling competition. Action to remedy price conditions, Mr. Daugherty said, would be taken through several channels. In the main, he said, the situation was a local one and the States would be asked to do as much as they could to solve it with Federal co-operation. Secretary Hoover, he added, would be invited to join with the Justice Department in its effort to lower prices, while it was believed that the publication of the comparative wholesale and retail prices would do much to remedy high prices by conveying to the housewives of the country accurate knowledge of actual conditions.

In line with his announcement of the 22nd, Mr. Daugherty on Dec. 27 sent a letter to all State Attorney-Generals, urging close co-operation between State and Federal law-enforcement officers, suggesting that the separate States call conferences between Federal and County District Attorney to attain this object.

Violations of the food and fuel supply laws should be prosecuted without duplication of Federal and State effort, Mr. Daugherty declared, and that while the Department of Justice did not seek to evade any of its responsibilities, it was his opinion that the initiative for the enforcement of these laws lay with the State authorities. The majority of cases of retail profiteering, the Attorney-General held, were intra-State matters and rested with individual States for correction. The letter addressed by Attorney-General Daugherty to the Attorney-General of each State reads:

My Dear Mr. Attorney-General:

The Department of Justice of the United States is very desirous of lending its aid to bring about a complete and effective working system with all law enforcement officers, and especially with the legal branches of the several States of the Union. This co-operation will not only insure a reduction in expenditures, but also a more prompt enforcement of existing law, as well as a uniformity in proceedings, sentences and fines.

This will all make for a better understanding among the people. It will also afford an opportunity for the several States, without duplication with the Federal Government, to enforce the laws which should be enforced by State authorities and leave for the Federal Government such duties as devolve upon it.

The two principal offenses which I now have in mind are those against the liquor and the food and fuel supply laws. There is no disposition on the part of the Federal Government, as represented by the Department of Justice, to evade any responsibility in respect to its duties, but the States, I believe, should first enforce their laws in regard to the violations, and the Federal Government, promptly co-operating with the States, should enforce the laws which should be enforced by the Federal Government.

There are substantial duplications in many of these laws, as you are well aware, and a better understanding between the State authorities and the Federal authorities will prove most beneficial to both in the enforcement of the prohibition and the food and fuel laws pertaining to prices. This co-ordination of powers will aid especially municipal authorities, Chambers of Commerce and State authorities in their respective efforts to reach violations for extortion in the prices now maintained.

As many of these infractions are intra-State cases, there will arise doubtful questions whether a violation of the law in the matter of fixing prices by certain local retailers is one over which the Federal Government has jurisdiction. With this subject in mind and the object in view, as stated, to bring about the most harmonious, as well as coherent, working arrangement between State officials and those charged with the Federal enforcement, I respectfully suggest that you as the chief executive law officer of your State, call a conference of the prosecuting attorneys of the several counties of your State, for the purpose of discussing plans to bring about the object desired. In so doing I would be pleased to have you invite the United States attorneys located in your State to attend in order that they, too, may co-operate with you and all become better acquainted

and become more familiar with the respective duties devolving upon each of us.

I suggest the advisability, if it is in accord with your judgment that such a conference be held, that it be called as early in the new year as your duties will permit. In the achievement of this most necessary objective, I am quite confident I can depend upon you and the law-prosecuting branches of the several counties of your State, and I personally assure you that the Department of Justice and all its agencies will contribute to the extent that their assistance may be required or requested. I shall be glad to hear from you. I am sending a similar communication to each of the Attorney-Generals of the several States.

Wishing you the compliments of the season, I am yours sincerely,

H. M. DAUGHERTY,
Attorney-General.

Attorney-General Daugherty's statement that prices were too high brought forth from the National Association of Retail Clothiers the reply that "this statement is not true, and anyone cognizant of the facts will admit its untruth." The following wire was sent by the clothiers' body to the Attorney-General:

There appeared throughout the country, in the daily newspapers of Dec. 22 and of Dec. 23, a statement purporting to come from you in which you are reported to have said that retailers' profits were unconscionable and their prices too high, that retailers in many parts of the country have organizations which tend to keep prices high, and that there is not a doubt in the world that all over the country retailers have an understanding. You are reported to have added that you were going to undertake an investigation.

We speak for 6,000 leading retail clothing merchants, members of the National Association of Retail Clothiers, who distribute 60% of the men's wearing apparel in the United States. Speaking for them we resent your statement that retail clothiers' profits are unconscionable and their prices too high. This statement is not true, and anyone cognizant of the facts will admit its untruth. The retail clothing merchants have made every possible effort to reduce prices. They have taken huge inventory losses and are constantly taking further such losses. In general, clothing to-day is being sold at retail at a much smaller percentage of profit than ever before.

A Congressional Joint Commission of Agricultural Inquiry is at the present time examining among other things into retail clothing distribution costs and mark-ups. At the request of this commission, made after a voluntary offer on the part of our association, the association sent out questionnaires covering the information desired to a representative group of over 1,500 retail clothiers in all parts of the country, members and non-members of the association. Over 300 of the leading retail clothiers from all parts of the country have so far sent in information in response; this information is, however, not as yet fully summarized. Additional questionnaires are being returned daily. The information asked for and given is the actual record taken from the firms' books covering each year from 1913 to date.

The questionnaires already received show that despite every effort on the part of the retail clothier to cut down his costs and expenses, in general expenses are to-day a greater percentage of the volume of business done than ever before and what is more, show no signs of decreasing. Thus, among other things, rents, taxes, rates of advertising, wages, freight charges and cost of alterations have consistently either increased or remained stable, and show little sign of decreasing. A decreasing volume of business has only served to increase the percentage which these operating expenses bear to the amount of business done. The questionnaires already received show that the vast majority of retail clothiers are making a smaller percentage of profit on volume of business than ever before. This information and any other which we now have or which we may subsequently obtain are available to your department.

Our association will voluntarily co-operate with you in any way you desire in any investigation you see fit to make. The retail clothing business, as well as other businesses, is to-day in a precarious condition. It is a serious thing to destroy the public's confidence without making even an effort to get the facts. It was just such misstatements based upon misinformation, or, in most cases, upon no information, which brought about the present serious situation in the retail clothing business and in retail business generally.

We feel that it is not too much to ask that a man in your position make his investigation first and obtain his press publicity later, rather than attack the problem in the inverse order. We are willing to rest on the facts. You can obtain the facts. We believe that it is your duty as a public officer not to make charges in advance of obtaining such facts. W speak also for the National Association of Retail Clothiers, of which we are the principal executives. Speaking for the association, we resent, as applied to that organization, your statement that retailers have organizations which tend to keep prices high and that retailers all over the country have an understanding.

The clear implication of your words is to charge a conspiracy of retail clothiers, among others, through their trade association. This statement is also untrue, and any person cognizant of the facts will admit its untruth. Our association has never countenanced anything even tending toward a restraint of trade or toward stifling competition. We have never directly or indirectly aided or abetted unfair competition or unfair trade practices. We have, on the contrary, done everything in our power to aid in bringing prices down and in bettering the conduct of the retail clothing business. Our files and our records are open to your department at any time.

We court an investigation, but we ask that, in all fairness, you refrain from announcing the results of your investigation at least until you have made an investigation. It is un-American to convict without a hearing; it is doubly so to convict without even the pretense of an examination into the facts."

1921 *WORLD COTTON CROP*, 15,593,000 *BALES—U. S. DEPARTMENT OF AGRICULTURE REPORTS SMALLEST WORLD PRODUCTION SINCE* 1900.

World production of commercial cotton for 1921-22 is placed at 15,593,000 bales by the U. S. Department of Agriculture in a report issued on Dec. 21. This is reported the smallest crop since 1900, when the Department of Agriculture began publishing world figures, and compares with 20,650,000 bales in 1920, and with a ten-year average of 20,773,000 bales of 500 pounds gross weight based on Census figures of the total world commercial crop. The Department of Agriculture statement then continues as follows:

Two of the most important countries from a commercial standpoint, the United States and Egypt, which furnish the principal supply of cotton for American and European spindles, have this year what would be considered under normal consuming conditions, crop disasters. These countries, with estimates of 8,340,000 and 684,000 bales, respectively, will produce only 61.4% of their total production last year, or 5,667,000 bales less than was produced in 1920. The cotton crop in China, South America, Mexico, and other countries, while not so important commercially, is smaller than usual. Russia, which immediately before the war produced around 1,500,000 bales annually, has practically ceased to grow cotton.

Reduced consumption occasioned by the inability of Russia, Turkey and many other countries in Europe and throughout the world to buy cotton cloth since the war, forced the closing down of spinning and weaving establishments in the principal manufacturing countries last year. This in turn curtailed the demand for raw cotton, and prices were forced down in the United States below the cost of production. Confronted with a large carry-over, American farmers last spring voluntarily reduced their cotton acreage, and furthermore, the yield was doubtless reduced because comparatively little fertilizer was used and because of boll-weevil ravages over practically the entire belt. Over much of the American cotton belt unfavorable weather prevailed during the growing season, and the condition of the crop was seriously affected. In Egypt much the same conditions prevailed. There was a heavy carryover, and cotton at planting time was selling below the cost of production. The Egyptian Government by decree prohibited the planting of more than one-third of the acreage held by owners and lessees to cotton, the season was late, less fertilizer was used, and the pink bool-worm, which hibernated in the vast quantities of cotton carried over in the seed, did more damage than in recent years.

New Cotton-Growing Areas.

Because of the recent gradual reduced production in those countries known for years as dependable commercial cotton-growing areas, much interest has recently been taken, especially by the British, in opening up new cotton-growing districts in different parts of the world. The British cotton-growing corporation has spent millions of pounds sterling in experiments and subsidies in Central and Southern Africa, Australia and other parts of the empire during the past fifteen years. The corporation recently obtained a royal charter, which means the backing of the British Government, and is now preparing to spend around $5,000,000 annually in an effort to grow at least a part of the cotton consumed in the Manchester mills. This money will be spent very largely in Africa, outside of Egypt, in Australia and in the West Indies, where Sea Island cotton growing is being encouraged. It is realized by the English spinners that Egypt and India have probably reached their maximum production, and the money spent in those countries will be mainly for the purpose of improving the quality of the staple. In the Egyptian Sudan construction on the large irrigation project at the confluence of the Blue and White Nile is being held in abeyance at the present time on account of political conditions.

While it is generally conceded that millions of acres of land in Africa outside of Egypt, and millions more in Australia, could doubtless be made to produce good cotton, the efforts of the English spinners to grow their own cotton up to now, it is admitted, have been practically a failure. From the vast expenditure of money in the past twenty years, the largest annual production in experimental regions up to date has totaled less than 150,000 bales, which is only a little more than the average annual production of several of the largest cotton-producing counties in the United States.

The total production in the British Empire (outside of Egypt and India) the present year will be less than 150,000 bales. Before cotton can be grown profitably on a competitive scale in Africa the natives must be disposed to work regularly, which is a hard proposition in any tropical country; transportation and marketing problems must be solved, and some irrigation projects completed or extended. The French are planning also to encourage cotton production in the French Sudan and their other African possessions.

Mesopotamia, which, following the war, was looked upon by the English as a possible source of supply for considerable quantities of cotton, has been abandoned as a cotton-producing area, at least for the present, because of the expense attached to the necessary irrigation projects, and the unstable political conditions in that country.

The Australian Government is very ambitious to establish cotton growing as one of its imperial assets. Cotton was first planted in Australia following the American Civil War; average production at that time amounting to about 200 pounds of lint cotton per acre on an area of 14,000 acres. Later, because of the slump in price, cotton growing there was practically abandoned. Recently in Queensland and some other States interest in cotton growing has developed, and the British Cotton Growing Association has guaranteed the Australians 1s. 6d., or about 36 cents a pound at the normal rate of exchange, for all cotton delivered in Liverpool. Production is estimated at about 4,000 bales this year. The Commonwealth and the State Governments have made available the sum of 5,000,000 pounds sterling for extending irrigation projects on the Murray River and its tributaries, and up-to-date ginning plants are being installed. The efforts at present are confined largely to growing the longer stapled varieties. American Pima and other long lint varieties from this country have been introduced, it being feared that imported Egyptian seed may harbor the pink boll worm.

Cotton Growing in South America.

Most South American countries produce some cotton. Brazil, with an annual crop of approximately 500,000 bales, and Peru, with 150,000 bales, are the leading producing countries in South America. Production is increasing in Argentina, which grew 26,000 bales this year.

Cotton was cultivated in South America by the Indians several centuries before the Spaniards conquered the country. There are two main varieties grown. The native tree, or perennial, cotton grows wild, but when cultivated is planted at intervals of from 5 to 15 years. Left alone the plants will grow 15 to 20 feet high, but it is pruned annually, the crop being picked from the new growth each year. Tree cotton grows in nearly all parts of tropical South America. The seed of the cotton planted annually came originally from America and Egypt, and is generally badly mixed. The best staple comes from Peru, where better care is taken in preparing the cotton for export. There are millions of acres of land in South America suitable for cotton growing, but there has been little advancement in recent years. The Governments of Argentina and Brazil are now encouraging the production of cotton on a larger scale, and South America, in a few years, may annually export cotton in larger quantities than at present.

East Indian Cotton Production.

India produces more cotton annually than any country in the world outside the United States. Average annual production for the past eleven years was about 3,600,000 bales of 500 pounds, grown on a little more than 22,000,000 acres. A small portion of the cotton acreage is under irrigation, but the greater part of the crop is planted following the annual monsoons,

receiving usually but little moisture afterwards. Cotton is picked every month in the year in some parts of India, but the yield per acre is very small, averaging about 80 pounds of lint annually. Cotton has been grown in India for thousands of years, and numerous insect pests, including the pink boll worm, which probably originated in that country, take a heavy annual toll. The boll weevil, prevalent in most cotton producing areas in the Western Hemisphere, has never appeared in any country in the Eastern Hemisphere.

By far the major portion of the Indian cotton crop is very short staple, averaging from ⅜ to ¾ inches in length, the bulk of the crop being about ½ inches. More than 95% of the American crop has a staple ⅞ inches and longer. Indian cotton does not compete with the best American or Egyptian growth in the cotton mills of either Europe or America. Only about 50,000 bales of Indian cotton is consumed by American and English spindles annually, while 81,105 bales of American cotton was received in Bombay last year.

Indian cotton mills consume about 50% of the annual production of that country. Of the cotton exported about 70% goes to Japan and China.

Cotton Production in China.

The total production of cotton in China is problematical. The Ministry of Agriculture of the Republic estimates the average production for the three years 1909-11 as 4,181,300 bales. Much of the cotton produced is manufactured in a primitive way for local consumption on hand-looms in the homes, and is not regarded as commercial cotton. An estimate from the Chinese Cotton Mill Owners' Association gave as the area planted to cotton in 1920 4,300,000 acres, and the production 1,868,000 bales of 500 pounds gross weight. This is probably the cotton acreage grown for commercial purposes. Most of the Chinese commercial cotton contains very short lint, similar in staple to the Indian crop, and is manufactured in the Chinese cotton mills, that portion of the crop exported going principally to Japan.

Recently Chinese mill owners have been experimenting with longer lint varieties, having imported considerable quantities of seed from the United States. China imports comparatively little cotton, although some American cotton finds its way to the Chinese mills.

Cotton in Russia.

The only considerable amount of Asiatic cotton which will compare favorably with the American product is that grown in Russia, a large portion of which before the war was equal to the average Texas product. Russia developed rapidly as a cotton-producing country before the World War. In 1890 production was only 137,000 bales of 500 pounds. In 1912 this had increased to 1,343,000 bales. During and following the war cotton production gave way to other crops and the yield this year is estimated at about 50,000 bales. It is stated that there is ample cotton-growing land in Russia to produce approximately 3,500,000 bales of cotton annually under normal conditions. As in Egypt, all cotton in Russia is grown under irrigation, and to increase the pre-war production materially, additional irrigation works would be necessary.

Japan and Korea together produce upwards of 100,000 bales of cotton annually, which is absorbed in the Japanese cotton mills.

The following table shows the annual world production of cotton for the years 1914, 1919 and 1920, and estimates for 1921:

COTTON PRODUCTION IN PRINCIPAL COTTON-GROWING COUNTRIES (BALES 478 POUNDS NET).

Country—	1914. (Bales.)	1919. (Bales.)	1920. (Bales)	1921. (Bales)a
United States	16,135,000	11,421,000	13,440,000	8,340,000
Mexico	130,000	362,000	205,000	165,000
Brazil	460,000	560,000	431,000	560,000
Peru	107,000	172,000	157,000	b146,000
Argentina	4,000	15,000	16,000	26,000
British India	4,167,000	4,637,000	2,845,000	c3,623,000
Japan and Korea	38,000	94,000	105,000	120,000
China	784,000	1,150,000	1,868,000	1,650,000
Russia	1,309,000	440,000	90,000	50,000
British Africa	54,000	60,000	81,000	75,000
Egypt	1,337,000	1,154,000	1,251,000	684,000
Australia	----------	1,000	1,000	4,000
All others	150,000	155,000	160,000	150,000
Total	24,675,000	20,221,000	20,650,000	15,593,000

a Estimates based on the best information available at this time. Figures subject to modification from later reports.

b Estimate received by cable, Dec. 10 1921.

c Third official forecast, Dec. 15 1921, received by cable from the Indian Government, by the Bureau of Markets and Crop Estimates, Dec. 21 1921.

U. S. SUPREME COURT HOLDS "OPEN COMPETITION PLAN" OF AMERICAN HARDWOOD MANUFACTURERS' ASSOCIATION ILLEGAL.

A decision of far-reaching importance on the subject of the so-called "open competition plan" by which members of trade associations have operated to standardize and interchange terms of bidding and prices was handed down by the U. S. Supreme Court on Dec. 19, when it declared the policy of the American Hardwood Manufacturers' Association was in restraint of trade and a violation of the Sherman anti-trust law. Associate Justice Clark, who delivered the decision of the Court, held that the plan was a revival of the old "gentlemen's agreement" plan. Dissenting opinions were delivered by Justice Holmes and Justice Brandies, with Justice McKenna concurring with them, in which it was held that the open competition plan was not an effort to create a monopoly, was not in restraint of trade and was not illegal. Press dispatches of Dec. 19 from Washington had the following to say with regard to the Court's decision:

The case was brought to the Supreme Court by the American Column & Lumber Co., a member of the American Hardwood Manufacturers' Association. The association was prosecuted by the Government in the Federal Court at Memphis, and a permanent injunction was obtained against continuance of the practices of filing by hardwood concerns of reports of business operations with a central organization, such reports being open to all other members of the organization.

Under the open competition plan the Southern manufacturers of hardwood lumber formed an organization, known as the American Hardwood Manufacturers' Association. The members of this organization exchanged full reports of sales, prices, orders and stocks of lumber on hand. This exchange of information was done through the central organization. In connection with such interchange of information the central organization got out literature encouraging purchases of lumber with warnings that prices would drop, but were likely to go higher on account of shortage of lumber, exhaustion of stocks and other causes.

The Government contended that the plan and practices of the organization of hardwood manufacturers constituted a conspiracy to maintain prices in violation of the Sherman law, and that a monopoly in Southern hardwoods had been encompassed effectually under the scheme. A large number of individual manufacturers of hardwood were joined with the American Column & Lumber Co. in the attack on the decision of the Tennessee Federal Court.

The opinion of the court was delivered by Justice Clarke, who described the organization of the association's statistical bureau, explaining in detail its methods for both obtaining and disseminating information concerning the trade and asserting that it was a clear combination to restrict production and to increase prices. Concerted action among the members was obtained, he stated, not only by the distribution of reports issued under the open competition plan, but by frequent meetings and questionnaires.

The meetings of the members resulted in concerted action. Justice Clarke stated, to raise prices regardless of conditions, and the plan was termed by him "misleading and a misnomer" and "an old evil in a new dress and a new name." He added that instead of a plan to promote open competition it operated to restrict competition. It was futile, he said, to argue that the plan was merely to furnish information which could not be otherwise obtained. The secretary of the association, through an expert statistician, he asserted, utilized replies to questionnaires and other inforamtion furnished by the members of the association as the basis for bulletins and advices. These replies, he said, also were utilized in predicting and promoting advances in prices, by withholding of products from the market, awaiting higher prices.

Quoting correcpondence between members of the association and the manager of statistics, the Court said: "These quotations are sufficient to show beyond discussion that the purpose of the organization, and especially of the frequent meetings, was to bring about a concerted effort to raise prices, regardless of cost or merit, and so was unlawful, and that the members were soon entirely satisfied that the Plan was 'carrying out the purpose for which it was intended.'" The text of the decision as printed in the Journal of Commerce Dec. 27 in large part follows:

The unincorporated "American Hardwood Manufacturers' Association" was formed in December, 1918,. by the consolidation of two similar associations, from one of which it took over a department of activity designated the "Open Competition Plan," and hereinafter referred to as the "Plan."

Participation in the "Plan" was optional with the members of the association, but at the time this suit was commenced of its 400 members 365, operating 465 mills, were members of the "Plan." The importance and strength of the association is shown by the admission in the joint answer that while the defendants operated only 5% of the number of mills engaged in hardwood manufacture in the country, they produce one-third of the total production of the United States. The places of business of the corporations and partnerships members of the "Plan" were located in many States from New York to Texas, but chiefly in the hardwood producing territory of the Southwest. The defendants are the members of the "Plan," their personal representatives, and F. R. Gadd, its "Manager of Statistics."

Called Conspiracy.

The bill alleged in substance that the "Plan" constituted a combination and conspiracy to restrain interstate commerce in hardwood lumber by restricting competition and maintaining and increasing prices in violation of the anti-trust act of 1890 (26 Stat., 209).

The answer denied that the "Plan" had any such purpose and effect as charged, and averred that it promoted competition, especially among its own members.

A temporary injunction, granted by the District Court, restricting the activities of the Plan in specified respects by consent of the parties, was made permanent and a direct appeal brings the case here for review.

The activities which we shall see were comprehended within the "Open Competition Plan" (which is sometimes called "The New Competition") have come to be widely adopted in our country, and as this is the first time the legality of them has been before this court for decision, some detail of statement with respect to them is necessary.

There is very little dispute as to the facts. The testimony of the Government consists of various documents and excerpts from others, obtained from the files of the Plan, and the testimony of the defendants consists of like documents and excerpts from other documents, also from the same files, supplemented by affidavits of a number of persons, members and nonmembers, chiefly to the point that the confessedly great increases of prices during 1919 were due to natural trade and weather conditions and not to the influence of the Plan.

Plan of Committee.

The record shows that the "Plan" was evolved by a committee, which, in recommending its adoption, said:

"The purpose of the plan is to disseminate among members accurate knowledge of production and market conditions so that each member may gauge the market intelligently instead of guessing at it, to make competition open and above board instead of secret and concealed; to substitute, in estimating market conditions, frank and full statements of our competitors for the frequently misleading and colored statements of the buyer."

After stating that the purpose was not to restrict competition or to control prices but to "furnish information to enable each member to intelligently make prices and to intelligently govern his production," the committee continues:

"The chief concern of the buyer, as we all know, is to see that the price he pays is no higher than that of his competitors, against whom he must sell his Product in the market. The chief concern of the seller is to get as much as anybody else for his lumber; in other words, to get what is termed the top of the market for the quality he offers. By making prices known to each other they will gradually tend toward a standard in harmony with market conditions, a situation advantageous to both buyer and seller.

Not long after the consolidation, a further explanation of the objects and purposes of the plan was made in an appeal to members to join it, in which it is said:

"The theoretical proposition at the basis of the Open Competition plan is that,

"Knowledge regarding prices actually made is all that is necessary to keep prices at reasonably stable and normal levels.

"The Open Competition plan is a central clearing house for information on prices, trade statistics and practices. By keeping all members fully and quickly informed of what the others have done, the work of the plan results in a certain uniformity of trade practice. There is no agreement to follow the practice of others, although members do follow their most intelligent competitors, if they know what these competitors have been actually doing.

"The monthly meetings held in various sections of the country each month have improved the human relations existing between the members before the organization of this plan."

Appeal to Members.

And in another later, and somewhat similar appeal, sent to all the members, this is found:

"Competition, blind, vicious, unreasoning, may stimulate trade to abnormal activity but such condition is no more sound than that medieval spirit some still cling to of taking a club and going out and knocking the other fellow and taking away his bone.

"The keynote to modern business success is mutual confidence and co-operation. Co-operative Competition, not Cutthroat Competition. Co-operation is a matter of business because it pays, because it enables you to get the best price for your product, because you come into closer personal contact with the market.

"Co-operation will only replace undesirable competition as you devlop a co-operaive spirit. For the first time in the history of the industry, the hardwood manufacturers are organized into one compact, comprehensive body, equipped to serve the whole trade in a thorough and efficient manner. . . . More members mean more power to do more good for the industry. With co-operation of this kind we will very soon have enlisted in our efforts practically every producing interest, and you know what that means."

Thus, the "Plan" proposed a system of co-operation among the members, consisting of the interchange of reports of sales, prices, production and practices, and in meetings of members for discussion, for the avowed purposes of substituting "Co-operative competition" for "Cutthroat competition," of keeping "Prices at reasonably stable and normal levels," and of improving the "human relations" among the members. But the purpose to agree upon prices or production was always disclaimed.

Coming now to the fully worked out paper plan as adopted.

It required each member to make six reports to the secretary, viz:

1. A daily report of all sales actually made, with the name and address of the purchaser, the kind, grade and quality of lumber sold and all special agreements of every kind, verbal or written with respect thereto. "The reports to be exact copies of orders taken."

2. A daily shipping report, with exact copies of the invoices, all special agreements as to terms, grade, etc. The classification shall be the same as with sales.

3. A monthly production report, showing the production of the member reporting during the previous month, with the grades and thickness classified as prescribed in the "Plan."

4. A monthly stock report by each member, showing the stock on hand on the first day of the month, sold and unsold, green and dry, with the total of each kind, grade and thickness.

5. Price-lists. Members must file at the beginning of each month price-lists showing prices f. o. b. shipping point, which shall be stated. New prices must be filed with the association as soon as made.

6. Inspection reports. These reports are to be made to the association by a service of its own, established for the purpose of checking up grades of the various members and the "Plan" provides for a chief inspector and sufficient assistants to inspect the stocks of all members from time to time.

Inspection Service.

The declared purpose of the inspection service is not to change any member's grading except with his consent, but to furnish each member a basis on which he can compare his prices with those of other members, thereby making all members' reports more intelligible and accurate.

All of these reports by members are subject to complete audit by representatives of the association. Any member who fails to report shall not receive the reports of the secretary, and failure to report for twelve days in six months shall cause the member failing to be dropped from membership.

Plainly it would be very difficult to devise a more minute disclosure of everything connected with one's business than is here provided for by this "Plan" and very certainly only the most attractive prospect could induce any man to make it to his rivals and competitors.

But since such voluminous disclosures to the secretary would be valueless unless communicated to the members in a condensed and interpreted form, provision is made for this, as follows:

The secretary is required to send to each member:

1. A monthly summary showing the production of each member for the previous month, "subdivided as to grade, kind, thickness," etc.

2. A weekly report, not later than Saturday, of all sales, to and including the preceding Tuesday, giving each sale and the price, and the name of the purchaser.

3. On Tuesday of each week the secretary must send to each member a report of each shipment by each member, complete up to the evening of the preceding Thursday.

4. He must send a monthly report, showing the individual stock on hand of each member and a summary of all stocks, green and dry, sold and unsold. This report is very aptly referred to by the managing statistician as a monthly inventory of the stock of each member.

5. Not later than the 10th of each month the secretary shall send a summary of the price lists furnished by members, showing the prices asked by each and any changes made therein must be immediately transmitted to all the members.

6. A market report letter shall be sent to each member of the association (whether participating in the plan or not) pointing "out changes in conditions both in the producing and consuming sections, giving a comparison of production and sales and in general an analysis of the market conditions."

7. Meetings shall be held once a month at Cincinnati "or at points to be agreed upon by the members." "It is intended that the regular meetings shall afford opportunity for the discussion of all subjects of interest to the members."

"The 'Plan' also requires the selection of a man to take charge of the gathering and dissemination of data, with necessary assistants," and the defendant F. R. Gadd was selected and given the title of "Manager of Statistics."

Interchange of Reports.

This extensive interchange of reports, supplemented as it was by monthly meetings at which an opportunity was afforded for discussion "of all subjects of interest to the members," very certainly constituted an organization through which agreements, actual or implied, could readily be arrived at and maintained, if the members desired to make them.

Such, in outline, was the paper plan adopted by the association, but elaborate though it was, in practice, three important additions were made to it.

First of all, the Southwestern territory for meeting purposes was divided into four districts, and instead of the monthly meeting provided for in the "Plan," "in order that members could more conveniently attend," the record shows that forty-nine of these meetings were held between January 31 1919, and February 19 1920—approximately one for each week in some part of the territory.

Second. Before each of these meetings a questionnaire was sent out to the members, and from the replies received, supplementing the other reports, the statistician compiled an estimate of the condition of the market, actual and prospective, which was distributed to the members attending each meeting, and was mailed to those not present. There were eleven questions on this list of which the most important were:

"4th. What was your total production of hardwood during the last month? What do you estimate your production will probably be for the next two months?

"10th. Do you expect to shut down within the next few months on account of shortage of logs or for any other reason? If so, please state how long you will be idle?

"11th. What is your veiw of market conditions for the next few months and what is the general outlook for business? State the reasons for your conclusion."

Past Transactions.

The plan on paper provided only for reports of past transactions and much is made of this in the record and in argument—that reporting to one another past transactions cannot fix prices for the future. But each of these three questions plainly invited an estimate and discussion of future market conditions by each member, and a co-ordination of them by an expert analyst could readily evolve an attractive basis for co-operative, even if unexpressed, "harmony" with respect to future prices.

Third. The plan provided for a monthly "market report letter" to go to all members of the association. In practice this market report letter was prepared by F. R. Gadd, manager of statistics, but his review of the market and forecast for the future were contained, almost from the beginning, not only in these market letters but also in the weekly sales reports, so that they were sent out to all of the members nineteen times between February 1 and December 6 1919, and they were discussed at all but one or two of the forty-nine meetings which were held. All the activities of the "plan" plainly culminated in the counsels contained in these letters and reports.

This elaborate plan for the interchange of reports does not simply supply to each member the amount of stock held, the sales made and the prices received by every other member of the group, thereby furnishing the data for judging the market on the basis of supply and demand and current prices. It goes much farther. It not only furnishes such information with respect to stock, sales and prices, but also reports, giving the views of each member as to "market conditions for the next few months;" what the production of each will be for the next "two months;" frequent analyses of the reports by an expert, with, we shall see, significant suggestions as to both future prices and production; and opportunities for future meetings for the interchange of views, which the record shows were very important. It is plain that the only element lacking in this scheme to make it a familiar type of the competition suppressing organization is a definite agreement as to production and prices. But this is supplied: by the disposition of men "to follow their most intelligent competitors," especially when powerful; by the inherent disposition to make all the money possible, joined with the steady cultivation of the value of "harmony" of action; and by the system of reports, which makes the discovery of price reductions inevitable and immediate. The sanctions of the plan obviously are financial interest, intimate personal contact and business honor, all operating under the restraint of exposure of what would be deemed bad faith and of trade punishment by powerful rivals.

The principles of law by which we must judge of the legality of the scheme of doing business thus provided for, as it was worked out in practice, are clearly settled by the anti-trust statute and the decisions of this Court interpreting it.

Provisions of Act.

The applicable provision of the Act (26 Stat., Chap. 647, 209) reads:

"Section 1. Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States . . . is hereby declared to be illegal."

Obviously the organization of the defendants constitutes a combination and confessedly they are engaged in a large way in the transportation and sale of lumber in interstate commerce so that there remains for decision only the question whether the system of doing business adopted resulted in that direct and undue restraint of interstate commerce which is condemned by this anti-trust statute.

It has been repeatedly held by this court that the purpose of the statute is to maintain free competition in interstate commerce and that any concerted action by any combination of men or corporations to cause, or which in fact does cause, direct and undue restraint of competition in such commerce falls within the condemnation of the act and is unlawful.

In Northern Securities Company vs. United States, 193 U. S. 197, 337, it is declared that:

"In all the prior cases in this Court the Anti-Trust Act has been construed as forbidding any combination which by its necessary operation destroys or restricts free competition among those engaged in interstate commerce; in other words, that to destroy or restrict free competition in interstate commerce was to restrain such commerce."

In the United States vs. Union Pacific Railroad Company, 226 U. S. 61, 87, decided in 1912, long prior to the forming of their combination by the defendants, the law was condensed into this expression:

"To preserve from undue restraint the free action of competition in interstate commerce was the purpose which controlled Congress in enacting this statute, and the courts should construe the law with a view to effecting the object of this enactment."

And in Eastern States Retail Lumber Dealers' Association vs. The United States, 234 U. S. 600, 609, it was said:

"It (the Sherman Act) broadly condemns all combinations and conspiracies which restrain the free and natural flow of trade in the channels of interstate commerce."

And again on p. 613:

"The argument that the course pursued is necessary to the protection of the retail trade and promotive of the public welfare in providing retail facilities is answered by the fact that Congress, with the right to control the field of interstate commerce, has so legislated as to prevent resort to practices which unduly restrain competition or unduly obstruct the free flow of such commerce, and private choice of means must yield to the national authority thus exerted."

Rule of Law.

With this rule of law and the details of the "Plan," in mind, we come to consider what the record shows as to the purpose of this combination and as to its effect upon interstate commerce.

We have seen that the plan provided for the selection of a man to have charge of the gathering and dissemination of the data, which were to be contained in the various reports, and that the defendant F. R. Gadd was

selected for this purpose, with the title of "Manager of Statistics." Mr Gadd was a man of large experience in the lumber business, competent and aggressive, and the record makes it clear that he was in complete and responsible charge of all the activities of this "Open Competition Plan." He compiled the summaries of daily, weekly and monthly reports, and wrote the monthly market letter and the market comment in the weekly sales reports, which were distributed to the members. Some disposition appears in the argument, but not in the evidence, to suggest that Gadd exceeded his authority at times, but no objection appears to have been taken at the time to any of his conduct, and the "Secretary-Manager" says in his affidavit that his office adjoins that of Gadd and that "he (Gadd) and affiant have frequent conferences and discussions relating to their work, and that affiant is familiar with the activities and method of the Open Competition Plan."

It is plain that as the "Plan" was the "clearing house" of the members, "for information on prices, trade statistics, and practices," so Gadd was the "clearing house" of the "Plan," and that what he said and did, acquiesced in by the members as it was, must be accepted as the authoritive expression of the combination.

The record shows that the lumber market was inactve in the months of January and February and the first part of March of 1919. It grew better ate in March and progressively stronger until in July, when it became very active, with prices high, and so continued until the end of the year we are considering.

In the first quarter of the year the problem was to maintain the war prices then prevailing rather than to advance them, and although the minutes of the various meetings were kept in barest outline, we find that beginning within one month of the consolidation of the two associations the members of the "Plan" began actively to co-operate, through the meetings, to suppress competition by restricting production. This is very clearly shown by the excerpts following from the minutes of meetings and from the market letters and sales reports distributed at them.

Thus, at the meeting held at Cincinnati on January 21 1919, in the discussion of business conditions, the chairman said:

"If there is no increase in production, particularly in oak, there is going to be good business." . . . "No man is safe in increasing production. If he does he will be in bad shape as the demand won't come."

Again, at the meeting held on May 9, at Memphis, in the discussion of market conditions, appears this paragraph:

"Reference was made to members who contemplate running day and night and it was stated that the lumber industry had seen these unusual market conditions before and that we ought to be very sure that the market is capable of taking care of night and day lumber."

Warning of May 9.

This warning of May 9 against producing too much lumber was followed, on May 17, by a sales report sent out by the Manager of Statistics to all members, which was headed, "Stop, Look and Listen." After saying that the hardwood market had assumed a decidedly better tone, with a tendency in quotations upward, with the demand on the increase and with stocks below normal, the writer continues:

"The lumbermen have gone through several lean years, but we are confronted with the possibility of killing the goose that laid the golden egg. Overproduction will spell disaster, as it should always be borne in mind that the maximum productive capacity of the sawmills of the country is much in excess of any demand the country has ever known."

He then quotes from an editorial in the "Southern Lumberman," in which, among other things, it is said:

"The danger which we see lurking in the future for the lumber industry is overproduction. When the demand for lumber is good and the prices are good it is a strong temptation to the saw-mill men to put night shifts at the mill and an extra logging crew in the woods and keep turning out lumber twenty-four hours in the day. The desire to cash in while the cashing is good is natural and easy to understand, but every sawmill man who contemplates putting on a night shift should stop long enough to reflect on the past history of the lumber business. If he does indulge in such reflection the chances are he will give up any ideas he may have along that line. Overproduction has always been the curse of the lumber industry in America. It has caused more trouble and hardship than any other one factor. It would be criminal folly therefore for the lumber manufacturers to indulge themselves in any such form of commercial suicide."

Adding that the lumbermen have within their grasp an era of prosperity for some time to come, the writer continues:

"They can either reach forward to seize their opportunity or they can cast it aside by the policy of overproduction. Which shall it be? It is up to the sawmill men themselves to decide."

The managing statistician of the association significantly adds:

"Are we guilty? If so, the warning is timely."

Again, a week later, at a meeting at Shreveport, La., in the discussion of market conditions, one of the members declared that in his opinion it was "suicidal to run a mill night and day; that the pine mills had done it, but he hoped they (we) would profit by their past experience and not do it this year."

Much more of like purport appears in the minutes of the meetings throughout the year, but this is sufficient to convincingly show that one of the prime purposes of the meetings, held in every part of the lumber district, and of the various reports, was to induce members to co-operate in restricting production, thereby keeping the supply low and the prices high, and that whenever there was any suggestion of running the mills to an extent which would bring up the supply to a point which might affect prices the advice against operations which might lead to such result was put in the strongest possible terms. The co-operation is palpable and avowed, its purpose is clear, and we shall see that it was completely realized.

Next, the record shows clearly that the members of the combination were not satisfied to secure, each for himself, the price which might be obtainable even as the result of co-operative restriction of production, but that throughout the year the assiduously cultivated, through the letters of Gadd, speaking for them all, and through the discussions at the meetings, the general conviction that higher and higher prices were obtainable and a disposition on the part of all to demand them. The intention to create such a common purpose is too clear to be doubted, evidenced as it is by the following excerpts from much of like character in the testimony:

March 8 Report.

As thus, in the stock report of March 8 1919, after pointing out that the stock at the mills was only about three-fourths normal and that the production in the Memphis group of manufacturers was only 56% of normal, the letter of the Manager of Statistics continues:

"There has been a long drawn out and desperate effort to break the hardwood market by withdrawal of demand; but, be it said to the eternal credit of the hardwood producers, they have maintained a stout heart and stiff backbone, with the result that there has been exhibited a strength in the market which has been little short of remarkable in the face of the light demand and the vigorous efforts which have been steadily made to hammer down prices. . . .

"With this known information before him it is difficult to see how any intelligent hardwood manufacturer can entertain any hesitation as to the proper course for him to pursue in selling his lumber."

And it may be added that it is not difficult to see what this "proper course to pursue" was intended to be.

Again, three weeks later, in the market letter of March 29, after stating that the stocks had further decreased from the previous month, with a production not to exceed 50% of normal the Manager of Statistics of the "Plan" adds:

"Naturally the situation ought to have an important bearing on the plans of every hardwood lumberman. If the facts were better understood, offers of business now at shaded prices would get scant consideration and there would not only be no good reason to cut prices, but there would be every reason why they should be held at reasonable profit making levels. . . . All conditions indicate a firm market for the balance of the year, with prices moving upward."

Market Letter.

Another, a month later, in the market letter of April 26, this influential agent of the association, after pointing out that stocks were less than 75% of normal, that production was about 60% of normal and that the demand was far in excess of the supply, adds:

"If ever there was a time when rich rewards awaited the producer of hardwood lumber, now is that time. There are glorious opportunities ahead . . . Supply and demand must necessarily govern prices. The demand is with us, the supply inadequate, therefore values must increase, as our competition in hardwood is only among ourselves."

Again, in another month, May 24, in his sales report, the Manager of Statistics, after stating that production during the month of April was 65% of normal and that a careful estimate indicated that there would be no material increase in May and June, says:

"If anyone tells you that lumber prices are coming down call their attention to the following: Curtailed production of mills; stocks below normal; necessity on the part of lumber operators of obtaining a price level that will enable them to make a reasonable profit."

And he concludes with:

"The tendency of the market is upward and will undoubtedly continue to advance so long as sales and production bear their present relation to each other."

Again, on September 20, in his market letter, he says:

"It has been rumored that a certain class of buyers, believing that the price of lumber was too high and that the temporary inactivity in the export market offered the opportune moment, have agreed to confine purchases to actual immediate requirements during the next sixty days. This is not going to worry the manufacturers very much; in fact, it will give them a much needed breathing spell and an opportunity to accumulate a supply of dry stocks which, in our opinion, is the same as gold dollars in the bank." . .

"Those who have been looking for lower prices overlook the very important factors; that production continues below normal . . . that unsold stocks at mills are 70% below normal; that the export demand has just started. . . ."

And he concludes:

"With these conditions prevailing there is nothing in the situation that should encourage anyone to hope for a drop in quotations."

Various Meetings.

To this we must add that constantly throughout the minutes of the various meetings there is shown discussion of the stock and production reports in which the shortage of supply was continually emphasized, with the implication, not disguised, that higher prices must result. Men in general are so easily persuaded to do that which will obviously prove profitable that this reiterated opinion from the analyst of their association, with all obtainable data before him, that higher prices were justified and could easily be obtained, must inevitably have resulted, as it did result, in concert of action in demanding them.

But not only does the record thus show a peristant purpose to encourage members to unite in pressing for higher and higher prices, without regard to cost, but there are many admissions by members, not only that this was the purpose of the "Plan," but that it was fully realized.

Within four months of the consolidation, on April 23 1919, the Manager of Statistics wrote to members asking each to write him his experience with the "Plan" and any incidents showing benefits derived from it.

The replies to this letter are significant confessions. One writes:

"All who have access to your reports bring their prices to the top."

Another:

"There seems to be a friendly rivalry among members to see who can get the best prices, whereas, under the old plan it was cutthroat competition."

Another:

"It has kept us in touch closely with the market and in many instances has made us one or more dollars per thousand feet on the lumber sold and we believe the plan is going to be very successful in carrying out the purposes for which it was intended."

Another:

"From the first report we received under this plan we were enabled to increase our price $6 per thousand on a special item of oak. We had just taken a small order at what we thought a satisfactory price, but discovered immediately that others were getting more money. Since then we have booked orders for a number of these special items at the increase of $6 per thousand."

Another:

"Since we became members we have been selling our lumber at several dollars per M more than formerly and we are perfectly satisfied with the plan."

And another:

"We have always left these meetings feeling that we did not get money enough for our lumber and that we ought to try to do better."

There was one discordant reply, saying:

"The Open Competition Plan has been absoluteyl accurate, but instead of stabilizing the market, it has caused a runaway market."—This on May 29, within six months of the forming of the combination.

Quotations Sufficient.

These quotations are sufficient to show beyond discussion that the purpose of the organization, and specially of the frequent meetings, was to bring about a concerted effort to raise prices, regardless of cost or merit, and so was unlawful, and that the members were soon entirely satisfied that the Plan was "carrying out the purpose for which it was intended."

As to the price conditions during the year. Without going into detail, the record shows that the prices of the grades of hardwood in most general use were increased to an unprecedented extent during the year. Thus the increases in prices of varieties of oak range from 33.3% to 296% during the year; of gum, 60 to 343%, and of ash from 55 to 181%. While it is true that 1919 was a year of high and increasing prices generally and that wet weather may have restricted production to some extent, we cannot but agree with the members of the "Plan" themselves, as we have quoted them, and with the District Court in the conclusion that the united action of this large and influential membership of dealers contributed greatly to this extraordinary price increase.

Such close co-operation between many persons, firms and corporations, controlling a large volume of interstate commerce as provided for in this "Plan," is plainly in theory, as it proved to be in fact, inconsistent with that free and unrestricted trade which the statute contemplates shall be maintained, and that the persons conducting the association fully realized this is apparent from their protesting so often as they did in many of their confidential communications appearing in this record that their purposes were not unlawful, that they sought only to supplant cut-throat competition with what in their own judgment would be "fair and reasonable competition," and to obtain, not make, fair prices and by their repeated insistence that the Sherman law, "designed to prevent the restraint of trade, is itself one of the greatest restrainers of trade and should be repealed."

To call the activities of the defendants, as they are proved in this record, an "Open Competition Plan" of action is plainly a misleading misnomer.

Genuine Competitors.

Genuine competitors do not make daily, weekly and monthly reports of the minutest details of their business to their rivals, as the defendants did; they do not contract as was done here to submit their books to the discretionary audit and their stocks to the discretionary inspection of their rivals for the purpose of successfully competing with them, and they do not submit the details of their business to the analysis of an expert jointly employed and obtain from him a "harmonized" estimate of the market as it is and as, in his specially and confidentially informed judgment, it promises to be. This is not the conduct of competitors, but is so clearly that of men united in an agreement, express or implied, to act together and pursue a common purpose under a common guide that if it did not stand confessed a combination to restrict production and increase prices in interstate commerce and as, therefore, a direct restraint upon that commerce, as we have seen that it is, that conclusion must inevitably have been inferred from the facts which are proved. To pronounce such abnormal conduct on the part of 365 natural competitors, controlling one-third of the trade of the country in an article of prime necessity a "new form of competition" and not an old form of combination in restraint of trade, as it so plainly is, would be for this court to confess itself blinded by words and forms to realities which men in general very plainly see and understand and condemn as an old evil in a new dress and with a new name.

The "plan" is, essentially, simply an expansion of the gentleman's agreement of former days, skillfully devised to evade the law. To call it open competition because the meetings were nominally open to the public, or because some voluminous reports were transmitted to the Department of Justice, or because no specific agreement to restrict trade or fix prices is proved, cannot conceal the fact that the funadmental purpose of the "plan" was to procure "harmonious" individual action among a large number of naturally competing dealers with respect to the volume of production and prices, without having any specific agreement with respect to them, and to rely for maintenance of concerted action in both respects not upon fines and forfeitures as in earlier days, but upon what experience has shown to be the more potent and dependable restraints of business honor and social penalties, cautiously reinforced by many and elaborate reports, which would promptly expose to his associates any disposition in any member to deviate from the tacit understanding that all were to act together under the subtle direction of a single interpreter of their common purposes, as evidenced in the minute reports of what they had done and in their expressed purposes as to what they intended to do.

In the presence of this record it is futile to argue that the purpose of the "plan" was simply to furnish those engaged in this industry with widely scattered units, the equivalent of such information as is contained in the newspapers and Government publications with respect to the market for commodities sold on boards of trade or stock exchanges. One distinguishing and sufficient difference is that the published reports go to both seller and buyer, but these reports go the the seller only; and another is that there is no skilled interpreter of the published reports, such as we have in this case, to insistently recommend harmony of action likely to prove profitable in proportion as it is unitedly pursued.

Convinced, as we are, that the purpose and effect of the activities of the "Open Competition Plan," here under discussion were to restrict competition and thereby restrain interstate commerce in the manufacture and sale of hardwood lumber by concerted action in curtailing production and in increasing prices, we agree with the district court that it constituted a combination and conspiracy in restraint of interstate commerce within the meaning of the anti trust act of 1890 (26 Stat. 209) and the decree of that court must be affirmed.

In his dissenting opinion Justice Brandeis said:

"There are more than 9,000 hardwood lumber mills in that part of the United States which lies east of a line extending from Minnesota to Texas. Of these, 365 concerns, each separate and independent, are members of an association by means of which they co-operate under the so-called 'open competition plan.' The question presented for our decision is whether the 'open competition plan' either inherently or as practiced by these concerns violates the Sherman law. The plan provides for co-operation in collecting and distributing information concerning the business of members and generally in regard to the trade. That in adopting the plan the members formed a combination in trade is clear. Co-operation implies combination. And this combination confessedly relates to interstate trade. It is also clear that a plan for co-operation, although itself innocent, may be made an instrument by which illegal restraint is practiced. The plan is not inherently a restraint of trade, and the record in this case is barren of evidence to support a finding that it has been used, or was intended to be used, as an instrument to restrain trade.

In the case before us there was clearly no coercion. There is no claim that a monopoly was sought or created. There is no claim that a division of territory was planned or secured. There is no claim that uniform prices were established or desired. There is no claim that by agreement, force or fraud any producer, dealer or consumer was to be or has in fact been controlled or coerced.

It is claimed that the purpose of the open competition plan was to lessen competition. Competition among members was contemplated and was in vigorous operation. The Sherman law does not prohibit every lessening of competition. It is lawful to regulate competition in some degree. But it was neither the aim of the plan nor the practice under it to regulate competition in any way. Its purpose was to make national Competition possible by supplying data not otherwise available and without which most of those engaged in the trade would be unable to trade intelligently.

It is insisted there was a purpose to curtail production. No evidence of any such purpose was introduced. It was urged there was a concerted effort to enhance prices. There was at no time uniformity in prices.

The co-operation which is incident to this plan does not suppress competition. On the contrary, it tends to promote all the competition which is desirable. May not these hardwood lumber concerns, frustrated in their efforts to rationalize competition, be led to enter the inviting field of consolidation? And, if they do, may not another huge trust with highly centralized control over vast resources, natural, manufacturing and financial, become so powerful as to dominate competitors, wholesalers, retailers, consumers, employees and, in large measure, the community?

Samuel Untermyer, counsel to the Lockwood State Legislative Committee, commenting on decision, said:

"There are hundreds of these criminal conspiracies involving thousands of merchants operating in combinations all over the country, stifling competition and adding to the cost of living in almost every line," said Mr. Untermyer.

"New ones are being organized almost daily. This decision clears the way for the conviction of hundreds of firms and corporations in the building industry that are already under indictment or on our list, of which the members of the Cement Trust are the chief offenders. The decision will be a great aid in cleaning up the situation."

It was said that nearly fifty "open competition" associations had been attacked before the Lockwood Committee.

INTERLOCKING DIRECTORS AND OFFICERS AS VIEWED BY I.-S. COMMERCE COMMISSION.

The Inter-State Commerce Act, as amended by the Transportation Act of 1920, contains a provision (paragraph 12, Section 20a) that "after Dec. 31 1921 it shall be unlawful for any person to hold the position of officer or director of more than one carrier" unless such holding shall have been authorized by order of the Inter-State Commerce Commission upon due showing that "neither public nor private interests will be adversely affected thereby." A fine of not less than $1,000 nor more than $10,000, or imprisonment for from one to three years, or both fine and imprisonment, were made the penalty for the violation of this provision.

Early in November the Commission sent out the necessary application blanks to be filled in not only by the directors and executives of the various roads, but also by numerous other officials such as general attorneys, freight and passenger traffic managers, chief engineers, general superintendents, purchasing agents, &c., who might be held to fall within the application of the law. The decision reached by the Commission respecting these applications have been watched for with considerable interest, and it is gratifying to learn from the numerous returns coming to hand a disposition to construe the law with reasonable liberality, notwithstanding the remarkable range of officials held to come under its control.

We note that the following well-known men are allowed to continue in the positions named with the companies indicated, to say nothing of other smaller railroads more or less numerous which are either subsidiaries or closely allied with the same, or of relatively insignificant importance. In general it will be noted "the interlocking" in these instances affect properties that are quite diverse as to their position, traffic and territory served:

Examples of Directors and Officers Whose Official Affiliations Are Undisturbed by the Commission.

Thomas De Witt Cuyler.—May retain the positions of director of—
Pennsylvania RR. and allied cos. — New York New Haven & Hartf. RR.
Atchison Topeka & Santa Fe Ry. — New York Ontario & Western Ry.

Henry W. de Forest.—May retain the positions of—
Vice-President, director and member of Executive Committee, Southern Pacific Co. and allied companies.
Director and member of Executive Committee, Illinois Central RR. and allied companies.
Member of the Board of Managers, Delaware & Hudson Co.

Charles Hayden.—May retain the positions of—
Director, Pere Marquette Railway Co.
Director, Chairman of board of directors and Chairman of Exec. Comm.:
Minneapolis & St. Louis RR. Co.
Chicago Rock Island & Pacific Ry. Co.

J. Horace Harding.—May remain as director of—
Southern Pacific Co. — New York New Haven & Hartf. RR.
Wabash Railway — New York Ontario & Western Ry.

Robert S. Lovett.—May retain these positions—
Director—New York Central and allied railroad companies.
Illinois Central and allied railroad companies.
Director and Chairman of Executive Committee—
The Chicago & Alton RR. Co., Union Pacific RR. Co.

Charles A. Peabody.—May retain the positions of—
Chairman of Executive Committee and Director—
Illinois Central RR.
Vice-President and director—
Delaware & Hudson Company.
Pittsburgh Fort Wayne & Chicago Railway Co.
Director—
Baltimore & Ohio RR.
Union Pacific RR. and allied companies.

Allan C. Rearick.—May retain these positions—
Director and Counsel—Chesapeake & Ohio Ry., Hocking Valley Ry., etc.
Director—
Missouri Kansas & Texas Railway Co.
Chicago Rock Island & Pacific Railway Co.

James Speyer.—May retain the positions of—
Director and member of Finance Committee—
Chicago Rock Island & Pacific Railway Co.
Baltimore & Ohio Railroad Co.

On the other hand, the following officials are found to have been holding objectionably interlocking positions, and must relinquish some of their activities. In these cases, however, where several competing roads are involved, the Commission

gives the incumbent the option of deciding which of his official positions respecting these roads he wishes to retain. Thus we observe:

Examples of Directors and Officials Who Give Up One or More Positions.

Frank H. Alfred—(*a*) May retain his position as President, director and General Manager, Pere Marquette Ry. Co. and subsidiaries;
(*b*) But must resign as director of Pennsylvania-Detroit RR. (Pennsylvania RR. System).

George F. Baker—(*a*) May retain his position as Chairman, Central Railroad of New Jersey;
(*b*) But can remain as director and executive officer of only one of the following:
New York Central and sub. cos.; Erie and subsidiaries,
Del. Lack. & W., incl. sub. cos.; Lehigh Valley.

William Rockefeller—(*a*) May retain the position of director, Chicago Milwaukee & St. Paul Railway;
(*b*) But can remain as director and executive officer in only one of the following:
New York Central Railroad (and subsidiaries).
Delaware Lackawanna & Western Railroad (and subsidiaries).

George T. Slade—(*a*) May retain his directorship in—
Northern Pacific Ry. Co. and Southern Railway Co.
(*b*) But must resign as director of one or the other of—
Lehigh Valley (and its subsidiaries).
Erie Railroad (and its subsidiaries).

Harold S. Vanderbilt—(*a*) May retain his directorship of—
Chicago & North Western and Chicago St. Paul Minn. & Omaha.
(*b*) But may remain as director of only one of the following:
New York Central RR. (and its subsidiaries),
Delaware Lackawanna & Western RR. (and its subsidiaries).

Of course the list of changes here shown is not to be taken as complete. Presumably others equally noteworthy are yet to be made public, and presumably also there have been some resignations in anticipation of the adverse action of the Commission. Mortimer L. Schiff and Otto H. Kahn of Kuhn, Loeb & Co. a few weeks ago resigned as directors of the Union Pacific, but this was rumored at the time to be in compliance with the Clayton Anti-Trust Act, their personal holdings not including conflicting railroad interests, though possibly these may have been held to exist through the firm to which they belong, and so have brought them under the interdiction of the Commerce Act.

In November last Newman Erb and F. H. Prince, principal stockholders of Minneapolis & St. Louis, filed protest with the Commerce Commission against Charles Hayden serving as Chairman of the Board, alleging that he had no financial interest in Minneapolis & St. Louis and is also Chairman of Chicago Rock Island & Pacific Ry., which has 14 competitive points in common with Minneapolis & St. Louis. This protest, it appears, was overruled.

RAILROAD RATES—COMMISSION HEARINGS ADJOURNED TILL JAN. 11—FUTURE PROGRAM.

The first group of hearings before Commissioners Atchison, Esch, Hall and Lewis of the Inter-State Commerce Commission on the general rate question was concluded on Dec. 17. At these hearings the representatives of the railroad interests were given opportunity to submit arguments against the making of further extensive reductions in transportation rates in the immediate future, and also respecting any change in the maximum percentage of net return which should be allowed after the expiration of the two-year period referred to in the Transportation Act of 1920.

The testimony presented at these hearings has been cited in part in the "Chronicle" of Dec. 17, page 2577, and Dec. 24, p. 2683, 2684 and 2715 and 2716, the two pages last named embracing many of the elaborate tables of operations, earnings, &c., for the years 1908 to 1920, presented by the Inter-State Commerce Commission in its 35th annual report and cited at much length in his testimony by Mr. George M. Shriver, Vice-President of the B. & O. RR. (see also separate caption below). Further reports of the proceedings at the aforesaid hearings will be found in the "Railway Age" for Dec. 17, pages 1211 to 1213, 1251 to 1256, and the "Railway Review" for the same dates.

Before the adjournment on Dec. 17, the representatives of various shippers asked the railroads for a large amount of statistical information. Some of this the roads agreed to furnish, but as to a part they referred the question to the Commission.

The program for January and February will be as follows:

Jan. 11-14—Direct testimony of carriers.
Jan. 16-18—Cross examination of carriers' witnesses.
Jan. 19-20—Coal and coke.
Jan. 21-23—Ore, furnace materials and iron and steel articles.
Jan. 24-25—Sand and gravel, brick, lime, cement, gypsum and asphalt.
Jan. 26-27—Lumber and forest products.
Jan. 28—Fertilizer and materials, sulphuric acid, phosphate rock.
Jan. 30-Feb. 4—Testimony of public and shippers as to general aspects of case.
Feb. 8—Vegetable oil and soap.
Feb. 9—Grain, flour and agricultural products.
Feb. 10—Live stock and packing-house products.
Feb. 11—Petroleum and petroleum products.
Feb. 15—Canned goods and Wholesale groceries.
Feb. 16-17—Fruits and vegetables.
Feb. 18—Milk, cream and dairy products.
Feb. 20—Beverages and beverage containers, waste material.
Feb. 21-22—Other commodities.

Announcement will be made of dates for carriers' rebuttal evidence and for oral argument during the hearing.

As regards other rate matters, it is announced that the Boston & Maine RR. as well as the New York New Haven & Hartford will participate in the 10% cut in rates for agricultural products which was voluntarily adopted by the railroads outside of New England for an experimental period of six months.

The effective date of the order reducing rates approximately 16½% on grain, grain products and hay between points in the Western district has been extended by the Inter-State Commerce Commission from Dec. 27 to Jan. 7, because of the time required to prepare the new schedules.

The Commission has also deferred until April 1 the date for putting into effect the readjusted rates for the territory south of the Ohio River and in the Mississippi Valley. Some of the increased rates have been found too high and further time is needed to investigate the matter.

The Texas Railroad Commission on Dec. 20 forwarded to the Inter-State Commerce Commission at Washington a petition asking that the famous Shreveport rate order be vacated. The petition sets up the claim that the discriminatory rates on which the Shreveport case was based have long since been replaced by the Texas Commission by other rates that show no unjust discrimination, and that for this reason the Commerce Commission is without authority to prescribe intra-State rates within the State.

The State of Texas also has a suit pending in the United States Supreme Court attacking the right of the Inter-State Commerce Commission to establish local rates in Texas.

RAILROAD RATE INQUIRY—CAN THERE SAFELY BE FURTHER RATE REDUCTIONS?

On the basis of a detailed statistical presentation of the financial position of the railroads, presented Dec. 15 in the hearing before the Inter-State Commerce Commission, George M. Shriver, Vice-President of the Baltimore & Ohio RR. Co., summarized his conclusions in part as follows:

(1) It is shown that the net railway operating income of the Class I railroads of the United States for the 12 months to Sept. 30 1921 was $542,409,582, or 2.75% on the property investment.

Because of lowered rates and falling off in traffic, we have failed to earn more than one-half the anticipated 5½% and nothing towards the one-half of one per cent contemplated as a contribution towards essential additions and betterments to meet the requirements under normal traffic, and the future commercial and industrial expansion of the country; and nothing to sustain credit.

(2) Because of decreased operating income and increased charges and taxes, the net corporate income has been so diminished that some carriers have been compelled to suspend, and others to reduce, the customary dividends, while some have maintained customary dividends only by drawing upon surplus earned in previous years; consequently the surplus and margin to sustain credit has been reduced.

(3) The Eastern carriers have shown that their operating income for the 12 months to Oct. 31 1921 was $234,594,277, or 2.67% on the property investment, and fell short of meeting the fixed charges of these carriers by $70,000,000.

(4) When the operating results of this year are restated to reflect the effect of lowered rates and lowered costs to do over again the business of 1921, the estimated net operating income of the Class I railroads would be, say, $473,984,331, affording a return of about 5.40%, *but without having made any provision for many important items of maintenance which were deferred in that period.*

(5) In this situation the railroads are not in position to experiment by a lowering of rates at this time, until the processes now operating towards a pre-war level of costs have been more completely realized.

(6) A detailed statement for 30 years past indicates that freight rates are not relatively higher than the average commodity prices, and for a number of years were on a much lower basis than other commodities. The railroads did not relatively participate in the abnormal prices prevailing from 1915 to 1920, and so were less able to respond with lower rates when prices generally declined.

(7) The preliminary figures for November show again a sharp falling off in traffic, and the car movement reported so far for December indicates an even more serious decline.

This new recession in traffic is believed to be only temporary, influenced, perhaps, by the actual decrease in charges with the cancellation of the transportation tax at Jan. 1 1922, and no doubt in part pending conclusion of this hearing; the underlying conditions in the United States and the world at large appear to be improving generally.

(8) While current railroad operating costs are on a basis which affords an inadequate return, the basic elements of cost are declining, so that in the not distant future railroad transportation should regain the distinction of being the lowest priced commodity in the country, and continue, as it now is, lower than in any other country.

The elaborate statistical information which forms an integral part of Mr. Shriver's statement is in large measure reproduced in the "Chronicle" of Dec. 24, p. 2715 and 2716, as part of the report of the Inter-State Commerce Commission. Notable in this exhibit are the tables indicating for a series of years the changes in volume of traffic, earnings, expenses, dividends paid, compensation to employees freight and passenger rates, &c.

DISPOSITION OF MONEYS PAID TO U. S. BY GREAT BRITAIN UNDER ALABAMA AWARD.

The disposition of the unclaimed balance of the Alabama award, under which Great Britain paid to the United States the sum of $15,500,000, has recently been the subject of correspondence between the Librarian of the Toronto "Daily Star" and under Secretary of the U. S. Treasury, S. P. Gilbert Jr. Mr. Gilbert states that the total amount of the award "with acretions of $2,939,804 96 arising from interest earned by investment of the original sum in United States bonds on its receipt into the Treasury September 1873, to March 31 1877, when the bonds were cancelled, and amounting to the total sum of $18,439,804 96, has been paid out of the Treasury to claimants, with the exception of the sum of $9,892 99 which is held in trust for certain allottees who have not applied for their pro-rata share of a balance made available for distribution to them." We have been favored by the Treasury Department with a copy of the letter to the "Toronto Daily Star," and which we understand was published in the Oct. 17 issue of that paper; we print the same herewith:

TREASURY DEPARTMENT
Washington, D. C.

October 11 1921.

Mr. J. J. Elder,
Librarian, The Toronto Daily Star,
Toronto, Canada.

Sir:—Receipt is acknowledged of your communication of recent date addressed to the State Department and referred to this office for reply, relative to the award of the Geneva Tribunal of Arbitration, under which Great Britain was required to and did pay to the United States the sum of $15,500,000.

In reply, you are informed that the Tribunal of Arbitration did not pass on the individual claims of citizens of the United States, nor make any awards to individual claimants, but made a single award of $15,500,000 to the United States as a nation.

A "Court of Commissioners of Alabama Claims" was established by the Act of June 23, 1874, (18 Stat. 245), and re-established by the Act of June 5 1882, (22 Stat. 98), and Section 5 of the latter Act authorized judgments as follows:

> Section 5. That the first class shall be for claims directly resulting from damage done on the high seas by Confederate cruisers during the late rebellion, including vessels and cargoes attacked on the high seas, although the loss or damage occurred within four miles of the shore, excluding claims which have been proved pursuant to section eleven of said chapter four hundred and fifty-nine Act of June 23 1874, (18 Stat. 245). The second class shall be for claims for the payment of premiums for war risks, whether paid to corporations, agents, or individuals, after the sailing of any Confederate cruiser."

Of the principal of $15,500,000 received from Great Britain under the Geneva Award there was left, after the payment of judgments amounting to $8,350,000, under the Act of June 23 1874, the sum of $7,150,000.

Bonds for $9,553,800, representing said $7,150,000 and $2,403,800 accumulated interest, were cancelled March 31 1877, in accordance with the provisions of the 15th section of the Act of June 25 1874, (18 Stat. 249), and said sum of $9,553,800 was covered into the Treasury to await action by Congress authorizing payments of other claims thereon, as all the judgments under the Act of June 23 1874, has been paid.

Congress authorized additional judgments by the Act of June 5 1882, and by the later Act of June 2 1886, which provided for closing up the business of the Court of Commissioners of Alabama Claims, the balance remaining of the Geneva Award fund, aggregating $10,089,804 96, was specifically appropriated for the further and final payment of the Alabama Claims.

The total amount of the award of $15,500,000 paid by Great Britain, with accretions of $2,939,804.96 arising from interest earned by investment of the original sum in United States bonds on its receipt into the Treasury September 9 1873, to March 31 1877, when the bonds were cancelled, and amounting to the total sum of $18,439,804.96, has been paid out of the Treasury to claimants, with the exception of the sum of $9,892.99 which is held in trust for certain allottees who have not applied for their pro rata share of a balance made available for distribution to them under a decision of the Supreme Court of the United States, reported in Volume 127, United States Reports, 51.

By direction of the Secretary:

Respectfully,
(Sgd.) S. P. Gilbert, Jr.
Under Secretary.

ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

Only one share of trust company stock was sold at auction this week, and no sales of bank stocks were made either at the Stock Exchange or at auction.

Share. TRUST COMPANY.—	*Low.*	*High.*	*Close.*	*Last Previous Sale.*
1 N. Y. Life Insurance & Trust..	653	653	653	Nov. 1919— 776

Two New York Stock Exchange memberships were reported posted for transfer this week, the consideration being stated at $91,000 and $90,000, respectively. The last preceding sale was for $92,000.

A New York Curb Market membership was reported sold this week, the consideration being stated as $6,000. The last previous transaction was at $5,800.

At a meeting of the board of directors of the Metropolitan Trust Co. of the City of New York on Dec. 27, Samuel McRoberts was elected President. The following new members were added to the board:

Samuel McRoberts; Philip D. Armour, of Armour & Co.; Earl D. Babst, President American Sugar Refining Co.; Van Lear Black, President Fidelity Trust Co. of Maryland; William B. Joyce, President National Surety Co.; C. G. Smith, President Great American Insurance Co.; C. W. Watson, President The Consolidation Coal Co.

These, with others, representatives of solid and substantial interests throughout the country, have, with Mr. McRoberts, become interested in the Metropolitan Trust Co. The proposed assumption of the Presidency by Mr. McRoberts was referred to in our issue of Dec. 17. Associated with such men as Haley Fiske, President of the Metropolitan Life Insurance Co.; T. De Witt Cuyler, Ogden Mills, Joseph Walker Jr., Harold I. Pratt, and others who are already on the board, the new administration would seem to be amply backed for an active and important career. At this week's meeting the directors of the Metropolitan Trust Co. elected William H. Maxwell Jr., New York, a Vice-President. The Metropolitan Trust Co. is one of the old institutions in New York, having been chartered in 1881.

Mr. McRoberts has had a long experience as a banker. For over ten years he was Vice-President and Executive Manager of the National City Bank, and was prominently identified with the growth and activities of that institution. He has been for a long time a financial and business adviser for a number of important business enterprises, and he brings to the Metropolitan Trust Co. an experience that should have a beneficial effect upon its future. Mr. McRoberts was born in Malta Bend, Mo., in 1869. He holds the degrees of A.B., A.M. and LL.D. from Baker University, Baldwin, Kan. He later studied law at the University of Michigan, graduating in 1893. He holds the degree of LL.B. from Michigan. Leaving college, Mr. McRoberts entered the legal department of Armour & Co. Later he devoted his attention to the company's finances and he was elected Treasurer of Armour & Co. in 1904, and became General Financial Manager for the Armour family. This association continued until 1909, when he was made a Vice-President of the National City Bank of New York, and subsequently one of its executive managers. In November 1917, upon the invitation of the War Department, he obtained a leave of absence from the bank and was commissioned Major in the Reserve Corps for service in the Ordnance Department in Washington. He was promoted to be Colonel in the National Army shortly after. In December 1917 he became Chief of the Procurement Division, Ordnance Department, which directed the contracting of all ordnance material used by the Army. He was transferred in July 1918 to the A. E. F., and on Aug. 28 1918 was promoted to Brigadier-General, resigning from the service in 1919. In recognition of his service in the war the United States Government conferred upon Mr. McRoberts the Distinguished Service Medal, and the French Government made him a Chevalier of the Legion of Honor. He is a director of the American Sugar Refining Co.; the Chicago Milwaukee & St. Paul Railway Co.; the Consolidation Coal Co.; American Ice Co.; National Surety Co.; Kansas City Southern Railway Co.; Great American Insurance Co., American Alliance Insurance Co.; and other important corporations.

At a special meeting of the stockholders of the Corn Exchange Bank of this city, held on Dec. 23, the proposal to increase the capital of the institution from $7,500,000 to $8,250,000 was approved. The increase, as indicated in our issue of Dec. 3, will be effected through the issuance of 7,500 additional shares of $100 each, to be offered to the stockholders at par ($100) in proportion to the stock already held by them. The committee on securities of the New York Stock Exchange has ruled that transactions in the stock shall be ex-rights on Jan. 11 unless made for cash. The right to subscribe expires on Feb. 3.

At the annual meeting of the stockholders of the Chatham & Phenix Bank of this city, to be held on Jan. 10 1922, the proposal to increase the capital of the institution from $7,000,000 to $10,500,000 will be submitted for ratification. The contemplated increase, as stated in our issue of Dec. 10, is to be effected through the issuance of 35,000 additional shares of $100 each. Such additional shares will be issued at $150 a share, and stockholders will be offered the right to subscribe for same in proportion to their respective holdings.

At a special meeting of the stockholders of the Second National Bank of this city on Dec. 29, the proposal to merge the Second National with the National City Bank of New York was approved. The City Bank, as stated in our issue

of Nov. 26, acquired control of the majority stock of the Second National Bank on Nov. 22. The Second National Bank will complete its merger with the National City Bank at the close of business on to-day, Dec. 31. Beginning Tuesday, Jan. 3, the National City Bank Branch at Broadway and 26th Street will be consolidated with its Fifth Avenue Branch at 28th Street and Fifth Avenue, the former home of the Second National, which hereafter will be known as the Fifth Avenue Branch of the National City Bank. In connection with this consolidation, the National City Bank announces the following elections and appointments: Arthur L. Burns and Edward H. Peaslee elected Vice-Presidents; Charles W. Case and William Pabst appointed Assistant Vice-Presidents; Edward H. Webb, John H. Hoverman and Robert E. Shotwell appointed Assistant Cashiers. Mr. Burns, Mr. Peaslee and Mr. Pabst were formerly Vice-Presidents of the Second National Bank; Mr. Case was formerly Cashier of that institution, and Messrs J. H. Hoverman and Shotwell were formerly Assistant Cashiers of the same institution. The Second National Bank had a capital of $1,000,000; surplus and undivided profits of $4,714,000, and deposits over $21,371,000.

On Dec. 27 the National City Bank of New York opened on the lower floor of its 42nd Street Branch, located at 42nd Street and Madison Avenue, a new department for the handling of small accounts of from $1 up. Interest compounded semi-annually will be paid at the rate of 3½% on all balances of $5 or more. Regarding its new department the bank says:

> This department will be called the "Compound Interest Department." The laws governing the operation of banks in New York State restrict the use of the word "savings" to mutual savings banks. National banks are authorized to pay interest on deposits, but in deference to the State law, the National City Bank will not call this a savings department, or use the word "savings" in connection with its operation.

Elmore F. Higgins has been appointed a Second Vice-President of the National Bank of Commerce in New York. Mr. Higgins had been an Assistant Cashier of the bank since March 1919, having previously been Chief National Bank Examiner for the Sixth Federal Reserve District. Before entering the Government service he was Assistant Examiner for the New Orleans Clearing House Association.

George H. Houston, President of the Marlin-Rockwell Corporation, and Arthur W. Loasby, Vice-President of the Equitable Trust Co., have been elected directors of the Liberty Industrial Corporation.

James Edwin Hulshizer, formerly President of the New Jersey Title Guarantee & Trust Co. of Jersey City, N. J., died on Dec. 19. He was 52 years of age. In the latter years of his life Mr. Hulshizer was associated with the Childs Company.

At the annual meeting of the stockholders of the Beacon Trust Co. of Boston, Mass., to be held on Jan. 3 1922, the proposal to increase the capital stock of the institution from $600,000 to $1,000,000 by the issuance of four thousand shares of stock (par $100) will be submitted for approval. The new stock, which will be authorized Jan. 3, will be issued and the capital increased at once.

Featuring a real Santa Claus at its recent Christmas celebration, the Central Manufacturing District Bank of Chicago, made use of this plan of spreading Christmas joy among the children. The lobby, as a regular fireplace, decorated with savings banks and pass-books, and all the appropriate trimmings, including toys, stockings hanging from the mantleplace, and a Christmas tree. Wreaths of Southern holly hung before each teller's cage, and in each window facing the street. Laurel roping was draped about the lobby of the bank, giving it a warm and pleasing appearance. Most important of all, however, from the point of view of hundreds of children in the neighborhood was the fact that Santa himself was there to present them with candy and a toy, and greet everybody with a word of cheer.

C. C. K. Scoville, President of the Citizens' State Bank of Seneca, Kansas, and Walter E. Wilson, formerly State Bank Commissioner of Kansas, acquired controlling interest in the Farmers' National Bank of Topeka, Kansas, on Nov. 23. H. G. West, who formerly held the majority of the stock of the institution, and who was its President, resigned from that position at a meeting of the directors of the Farmers' National on Nov. 22, and Mr. Wilson was made managing officer. The Farmers' National was organized about ten years ago by J. W. Thurston and Mr. West. Mr. Thurston was its first President and Mr. West its Cashier. Later Mr. Thurston sold his interest in the institution and the former assumed the Presidency. The Farmers' National has a capital of $100,000, surplus and undivided profits of $40,000 and deposits of approximately $1,000,000. Mr. Scoville has been President of the Citizens' State Bank of Seneca since its organization in 1888. Mr. Wilson was formerly State Bank Commissioner of Kansas for four years and was also formerly connected with the Kansas Reserve State Bank and its affiliated companies. The deal for the acquiring of the majority stock of the institution was started some weeks ago and reference given to it in our issue of Oct. 22.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Dec. 15 1921:

GOLD.

The Bank of England gold reserve against its note issue is £126,613,385, as compared with £126,612,690 last week. A substantial amount of gold was on offer and was practically all taken for the U. S. A. The price to-day, 98s. 1d.—which represents a premium of only 15.6% over the Bank of England buying price—is the lowest fixed since Oct. 8 1919. Indian gold movements during October 1921 show a net import of 1.92 lacs of rupees.

The following are the figures relative to the United Kingdom movements of gold during the month of November 1921:

	Imports.	*Exports.*
France	-------	£2,628
West Africa	£66,312	1,272
China (including Hongkong)	2,415	-------
United States of America	-------	3,888,557
Central America and West Indies	1,110	-------
Rhodesia	189,606	-------
Transvaal	3,358,585	-------
British India	289,422	36,100
Straits Settlements	-------	25,819
Other countries	6,623	82,973
Total	£3,914,073	£4,037,349

The Transvaal gold output for November 1921 amounted to 704,236 fine ounces, as compared with 707,825 fine ounces for October 1921 and 633,737 fine ounces for November 1920.

CURRENCY.

The Director of the Japanese Mint, Osaka, reports that the grand total of all coins struck during the fiscal year ending March 31 1921 amounted to 436,022,087 in number and to 12,780,649.07 yen face value, an increase over last year of 6,660,335.15 yen in nickel coin, and 949,647.595 yen in bronze coin. Gold and silver coins were not struck at all, which is significant.

SILVER.

Business has been active throughout the week. The Indian bazaars bought with freedom on several days for prompt shipment. There was, however, an absence of competition, except on the part of a few bears, and the prices did not therefore harden to any extent. Supplies too from the Continent and elsewhere were unusually plentiful. China has been inactive and trade demand is at a standstill. A relaxation of Indian demand, therefore, would probably give ease to the market. We are informed from Bombay under date of the 26th ultimo that there was a better demand for the metal, but that it was mostly supplied with country bar silver, of which there was a good stock in that market. This plentiful supply of country bar silver was owing to the arrival of a large amount of silver kraans (Persian coins). Indian trade figures show a net import of silver amounting to 1.41 lacs of rupees during the month of October 1921.

The use of silver in the East for banking purposes is of great antiquity. The Berlin Museum possesses an ancient papyrus, the back bearing words which link a loan of silver with a rate of interest which would be highly attractive to a modern holder of the metal. The inscription is a draft of a due bill relating to about 850 B. C., a period far earlier than that of any previously discovered Egyptian document of like import. A priest of Amon who was manager of a royal sub-treasury lent 5 deben of silver (about 20 shillings) for one year at 100% interest. The silver, it was stated, belonged to the Treasury of Harsophes, an Egyptian god, indicating its fineness. Assayers, who take just pride in their wonderful accuracy may appreciate this suggestion of divine origin.

The "Oil, Paint & Drug Reporter," Petroleum Section, Dec. 26, has the following from its Washington correspondent:

The Bureau of Mines report of refinery statistics, compiled by H. F. Mason, for the month of October gives a total of 294 petroleum refineries in operation, with a daily capacity of 1,692,700 barrels of oil. The number of plants operating is five less than for September, with a reduction of 26,700 barrels in the daily capacity.

The daily average production of gasoline for October was 14,224,372 gallons, which is an increase of 327,000 gallons, as compared with September.

Stocks of gasoline were decreased 59,000,000 gallons during the month of October; this is the largest decrease recorded for the month of October. Stocks of gasoline on Oct. 31 1921 are 155,000,000 gallons in excess of those on Oct. 31 1920. The movement of gasoline in October, as compared with September, indicates the following. Exports increased 12,000,000 gallons; shipments to our insular possessions decreased 3,000,000 gallons; domestic consumption increased 17,000,000 gallons.

Following is a table on the production and consumption of gasoline for October.

	Gallons.		Gallons.
Stocks first of month	515,325,998	Exports	47,116,189
Production	440,955,518	Shipm'ts to insular poss'ns	858,456
Imports	2,954,326	Domestic consumption	454,991,538
Total	959,235,842	Bal. stks. end of month	456,269,659

For October the daily average production of kerosene amounted to 5,885,600 gallons, this being an increase of 751,000 gallons more than the production for September. Stocks decreased 36,600,000 gallons during the month.

During October also the daily average production of gas and fuel oils was 26,895,976 gallons. As compared with September this is an increase of 615,000 gallons. Stocks were increased by 9,000,000 gallons.

Lubricating oils for October show a daily average production of 2,450,690 gallons. Stocks of lubricating oils were decreased 13,400,000 gallons during the month.

PRODUCTION OF CRUDE OIL IN U. S. IN OCTOBER AND 11 MONTHS—STOCKS ON HAND.—The U. S. Geological Survey as of Dec. 28 reports in substance:

Daily average production of petroleum in the United States increased 110,268 bbls. during November as compared with October, according to the U. S. Geological Survey. The greatest increases were in California, owing to the termination of the strike in the oil fields, and in Texas, as a result of developments in the Mexia field. Gains in daily average production are also recorded for Wyoming, Oklahoma, Kentucky, Pennsylvania, Ohio, Tennessee and Colorado. Decreased daily average production is reported for Kansas, Louisiana, Arkansas, Illinois, Montana, West Virginia, New York and Indiana.

The number of producing oil wells completed during the month increased 151 over the number completed in October, and amounted to 903, which, however, is contrasted with 2,136 producing oil wells completed during November, 1920.

Daily average imports of petroleum increased 59,725 bbls., and 12,993,763 bbls. were imported during November. Daily average exports of crude oil increased by 4,722 bbls.

Estimated daily average consumption during November was 1,550,367 bbls., a gain of 92,173 bbls. during the month.

Total stocks increased 3,399,000 bbls. during November. This, however, was chiefly due to a gain of 2,929,000 bbls. of Mexican petroleum held in the United States by importers. Net pipe line and tank farm stocks east of California increased 328,000 bbls., but Mid-Continent stocks decreased 620,000 bbls.

c Estimated in part.

Note.—The "stocks on hand" as here shown include the pipe line and tank farm stocks, which constitute by far the greater part of the petrcleum held in storage in the U. S., but they do not include (*a*) refinery stocks, which are reported monthly by the Bureau of Mines; (*b*) stock held by producers, which number many thousand; their stocks are reported only once a year to the Geological Survey, but these ordinarily aggregate only about 3% of the total stocks.

MEXICAN OIL EXPORTS, PRODUCTION, TAXES, &c.—Oil exports from Tampico, Mexico, in November aggregated 17,571,011 bbls., contrasting with 16,749,345 bbls. in October, notwithstanding the influx of salt water into the wells in the Amatlan and Zacamixtle fields. The "Oil, Paint & Drug Reporter" of Dec. 26 has the following:

Petroleum exports for November, according to the Tampico "Tribune" of Dec. 10, were less than one million barrels below record period of January, when 18,481,136 barrels crude topped and distilled product was shipped from Tampico and terminals along the Gulf. 17,571,011 barrels were loaded in the 30-day period (November) by twenty-two companies, of which two did no exporting in October. Detailed company figures follow: [In August 1921 exports were largely stopped by tax dispute with Mexican officials.]

Oil Exports as Reported by Tampico "Tribune."

Commercial and Miscellaneous News

The Curb Market.—While Curb Market trading was fairly active this week prices continue to move irregularly, strength and weakness alternating in different parts of the list almost at the same time. With few exceptions, fluctuations were not large. A feature of the trading was the large number of sales for "cash" transactions in this manner being at prices below those done in the ordinary way. Simms Petroleum was strong and active, advancing from 11 to 12¾, the close to-day being at 12⅝. Standard Oil (Indiana), after an early advance from 87½ to 90¼, dropped to 87¼. To-day it recovered to 89⅛ and finished at 88⅛. Carib Syndicate was off from 4⅜ to 3⅝, recovering to-day to 4⅛. International Petroleum fluctuated between 16⅝ and 17¼ and ends the week at 17. Maracaibo Oil lost over a point to 21⅜. Salt Creek Producers, after loss of half a point to 12½, advanced to 13¾. Among industrials California Crushed Fruit was an active feature, selling up from 6¼ to 7¼, the close to-day being at 6⅞. Durant Motors of Indiana declined from 11¾ to 10⅛ and ends the week at 10¼. Earl Motors, in which trading was begun this week, weakened from 9¾ to 7½. Glen Alden Coal, after a decline from 43 to 42¼, sold up to 44¼ and closed to-day at 44. The bond market was featureless.

A complete record of Curb Market transactions will be found on page 2810.

Pittsburgh Stock Exchange.—Record of transactions at Pittsburgh Stock Exchange Dec. 24 to Dec. 30, both inclusive, compiled from official sales lists:

Philadelphia Banks.—The Philadelphia Clearing House statement for the week ending Dec. 24 with comparative figures for the two weeks preceding is as follows. Reserve requirements for members of the Federal Reserve system are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legal reserve. For trust companies not members of the Federal Reserve system the reserve required is 10% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

Contingent liability on bills purchased for foreign correspondents	12,036,203	12,044,117	6,076,326

Note.—In conformity with the practice of the Federal Reserve Board at Washington, method of computing ratios of reserves to liabilities was changed beginning with the return for March 18. Instead of computing reserves on the basis of *net* deposits—that is, including in the total of deposits "deferred availability items" but deducting "uncollected items"—the new method is to disregard both amounts and figure the percentages entirely on the gross amount of the deposits. For last year, however, the computations are on the old basis; that is, reserve percentages are calculated on basis of *net* deposits and Federal Reserve notes in circulation.

The Federal Reserve Banks.—Following is the weekly statement issued by the Federal Reserve Board on Dec. 29. The figures for the system as a whole are given in the following table, and in addition we present the results for seven preceding weeks, together with those of corresponding weeks of last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. The comment of the Federal Reserve Board this time consists entirely of a review of the operations of the Federal Reserve banks during the calendar year 1921, and we give it in full in our department of "Current Events and Discussions" on page 2767.

Member Banks of the Federal Reserve System.—Following is the weekly statement issued by the Federal Reserve Board giving the principal items of the resources and liabilities of the Member Banks. Definitions of the different items in the statement were given in the statement of Dec. 14 1917, published in the "Chronicle" Dec. 29 1917, page 2523.

STATEMENT SHOWING PRINCIPAL RESOURCE AND LIABILITY ITEMS OF REPORTING MEMBER BANKS IN FEDERAL RESERVE BANK AND BRANCH CITIES AND ALL OTHER REPORTING BANKS AS AT CLOSE OF BUSINESS DEC. 21 1921.

Aggregate increases of $177,000,000 in Government deposits, as against a reduction of $104,000,000 in other deposits, accompanied by an increase of $77,000,000 in loans and investments and a commensurate increase in borrowings from the Federal Reserve banks, are indicated by the Federal Reserve Board's weekly consolidated statement of condition on Dec. 21 of 808 member banks in leading cities.

Loans secured by U. S. Government obligations show an increase for the week of $7,000,000, loans secured by corporate obligations an increase of $10,000,000, while other loans and discounts, mainly of a commercial and industrial character, show a reduction of $31,000,000. For the member banks in New York City an increase of $8,000,000 in loans secured by Government obligations and reductions of $6,000,000 in loans secured by corporate obligations and of $10,000,000 in commercial loans are noted.

A further increase of $5,000,000 in the investments of the reporting institutions in U. S. bonds, mainly Liberty bonds, is shown. Holdings of Victory notes increased by $3,000,000, those of Treasury notes by $37,000,000, and those of Treasury certificates, following the Dec. 15 issue of two series of tax certificates by $36,000,000. Corresponding changes for member banks in New York City include increases of $8,000,000 in U. S. bonds, of $7,000,000 in Victory notes, of $35,000,000 in Treasury notes, and a decrease of $11,000,000 in Treasury certificates. Investments of the reporting institutions in corporate and other securities show an increase of $10,000,000 for the week, largely outside of New York City. In consequence of the changes noted, total loans and investments of the reporting institutions are shown $77,000 000 larger than the week before, the corresponding increase for the member banks in New York City being $30,000,000.

During the week the banks drew large amounts of Federal Reserve notes from their reserve banks, in order to meet the large pre-holiday demand for cash. As a consequence total accommodation of the reporting institutions at the Federal Reserve banks shows an increase for the week from $664,000,000 to $743,000,000, or from 4.5 to 5% of the banks' total loans and investments. For the New York City banks an increase from $133,000,000 to $158,000,000 in total borrowings from the local reserve bank, and from 2.8 to 3.3% in the ratio of accommodation, is noted.

The increase of $177,000,000 in Government deposits, above noted, represents largely the amount credited to Government account by the reporting banks after the allotment on Dec. 15 of the two series of newly issued tax certificates. Other demand deposits (net) show a reduction of $91,000,000 and time deposits a reduction of $13,000,000. Member banks in New York City report increases of $64,000,000 in Government deposits, of $12,000,000 in net demand deposits, and a reduction of $2,000,000 in time deposits.

Reserve balances of the reporting institutions with the Federal Reserve banks, in keeping with the large increase of borrowings from the reserve banks, show an increase of $62,000,000, while cash in vault, composed largely of Federal Reserve notes, went up $12,000,000. Corresponding changes for the New York City banks include increases of $64,000,000 in reserve balances and of $8,000,000 in cash on hand.

1. Data for all reporting member banks in each Federal Reserve District at close of business DEC. 21 1921. Three ciphers (000) omitted.

Bankers' Gazette.

Wall Street, Friday Night, Dec. 30 1921.

Railroad and Miscellaneous Stocks.—The security markets opened strong after the Christmas holiday and prices for bonds, stocks and foreign exchange moved steadily upward throughout the day on Tuesday and a part of Wednesday. This movement carried sterling above $4 20 and several bond issues, including some Liberty Loans, to new high quotations. The succeeding reaction has wiped out about half the previous advance, but a substantial list of the best known active stocks still show a net gain of from 1 to 2 points.

To-day's stock market maintained the general characteristics noted above, notwithstanding the suspension of a somewhat prominent Stock Exchange house. The latter was not a surprise to the Street and is looked upon as an event which will have a tendency to clear the atmosphere, so to speak. Call loan rates were quoted at 6% during the last hour or more, a rise which is an unusually moderate one for the season.

The following are sales made at the Stock Exchange this week of shares not represented in our detailed list on the pages which follow:

For volume of business on New York, Boston, Philadelphia and Boston exchanges, see page 2796.

State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week.

The general bond market has assumed its former activity and buoyancy. On some days of the week the transactions have aggregated over 20 million dollars, par value, and a few issues, including foreign governments and Liberty Loans, have reached new high quotations, while railways and industrials have, in many cases, recovered more than last week's decline.

Among the notably strong features are Atchison, Balt. & Ohio, Cuba Cane, Great Northern, and Friscos., several of which are more than a point higher than last week.

United States Bonds.—Sales of Government bonds at the Board are limited to the various Liberty Loan issues.

Daily Record of Liberty Loan Prices.		Dec. 24	Dec. 26	Dec. 27	Dec. 28	Dec. 29	Dec. 30

The Curb Market.—*The review of the Curb Market is given this week on page* 2789.

Foreign Exchange.—The market for sterling exchange has ruled dull but firm, without essential change. Continental exchange was somewhat irregular, but on the whole prices were well maintained.

To-day's (Friday's) actual rates for sterling exchange were 4 17⅝@4 19¼ for sixty days, 4 19⅜@4 21¼ for checks and 4 20⅛@4 21¾ for cables. Commercial on banks, sight 4 18⅛@4 20½, sixty days 4 14½@4 16⅛, ninety days 4 13½@4 15⅝ and documents for payment (sixty days) 4 14¾@4 16¾. Cotton for payment 4 18⅛@4 20½ and grain for payment 4 18⅛@4 20½.

To-day's (Friday's) actual rates for Paris bankers' francs were 7.92@8.01 for long and 7.98@8.07 for short. German bankers' marks are not yet quoted for long and short bills. Amsterdam bankers' guilders were 36.24@36.46 for long and 36.60@36.82 for short.

Exchange at Paris on London, 52.45; week's range, 51.94 high and 52.47 low.

The range for foreign exchange for the week follows:

Sterling, Actual—	*Sixty days.*	*Checks.*	*Cables.*
High for the week	4 19¼	4 21¼	4 21¾
Low for the week	4 16½	4 18½	4 19
Paris Bankers' Francs—			
High for the week	8.01	8.09	8.10
Low for the week	7.87½	7.95½	7.96½
Germany Bankers' Marks—			
High for the week	-----	00.56	00.56½
Low for the week	-----	00.52¾	00.53¼
Amsterdam Bankers' Guilders—			
High for the week	36.46	36.92	36.97
Low for the week	36.09	36.50	36.55

Domestic Exchange.—Chicago, par. St. Louis, 15@25c. per $1,000 discount. Boston, par. San Francisco, par. Montreal, $95 25 per $1,000 premium. Cincinnati, par.

Pittsburgh Stock Exchange.—*This week's record of prices and transactions on the Chicago Stock Exchange will be found on page* 2789.

New York Curb Market.—Below is a record of the transactions in the New York Curb Market from Dec. 24 to Dec. 30, both inclusive, as compiled from the official lists. As noted in our issue of July 2, the New York Curb Market Association on June 27 transferred its activities from the Broad Street curb to its new building on Trinity Place, and the Association is now issuing an official sheet which forms the basis of the compilations below:

Week ending Dec. 30— Stocks— Par.	Friday Last Sale. Price.	Week's Range of Prices. Low.	High.	Sales for Week. Shares.	Range since Jan. 1. Low.		High.

RAILROAD GROSS EARNINGS

The following table shows the gross earnings of various STEAM roads from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from Jan. 1 to and including the latest week or month. *The returns of the electric railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			Jan. 1 to Latest Date.

Note.—All the above net earnings are after deducting taxes.
a The Brooklyn City RR. is no longer part of the Brooklyn Rapid Transit System, the receiver of the Brooklyn Heights RR. Co. having, with the approval of the Court, declined to continue payment of the rental; therefore, since Oct. 18 1919, the Brooklyn City RR. has been operated by its owners.
b The Eighth Avenue and Ninth Avenue Railroad companies were formerly leased to the New York Railways Co., but these leases were terminated on July 11 1919 and Sept. 26 1919, respectively, since which date these roads have been operated separately.
— Deficit.

FINANCIAL REPORTS

Annual, &c., Reports.—The following is an index to all annual and other reports of steam railroads, street railways and miscellaneous companies published since and including Nov. 26.

This index, which is given monthly, does *not* include reports in today's "Chronicle."

Full-face figures indicate reports published at length.

Central of Georgia Railway Company.

(26th Annual Report—Year ended Dec. 31 1920.)

The remarks of Chairman Charles H. Markham, together with the income account for calendar years 1920 and 1919, will be found on subsequent pages of this issue. The usual comparative tables for 1920 and previous years, including traffic statistics and balance sheet as of Dec. 31 1920, were published in the "Chronicle" Nov. 12. See V. 113, p. 2075.

Rapid Transit in New York City.

(Operating Revenues per Passenger for Fiscal Year ended June 30 1921.)

The chief accountant of the New York Transit Commission, Frederick W. Lindars, at recent hearings of the Commission, presented various tables and graphs to show the position of the several passenger railway systems in New York City (subway, elevated and surface lines) as regards earnings, capitalization, &c.

From these exhibits (which were reproduced at considerable length in the "Electric Railway Journal" of Dec.17) we have taken the following table showing, in cents for each system for the year ended June 30 1921, the total average receipts per revenue passenger carried, and also, similarly apportioned, the deductions for operating expenses, taxes, interest, rentals, &c., and likewise the further amounts that it would be required per passenger in order to cover (*a*) interest and sinking fund on the city's investment in the properties; (*b*) the estimated amount, $9,000,000 necessary to restore free transfers, &c., viz.:

REVENUES, &C., OF RAPID TRANSIT & SURFACE RAILWAYS IN N. Y. CITY.

(Figures given are in cts. per rev. pass. and are for fiscal year end. June 30 1921.)

The lines included in the several systems are as follows:

(1) Interborough Rapid Transit Co. and Manhattan Elevated Ry.

(2) Brooklyn Rapid Transit System: Brooklyn Heights RR. Co., Bridge Operating Co., Brooklyn Queens County & Suburban RR. Co., Coney Island & Gravesend Ry. Co., Coney Island & Brooklyn Ry. Co., DeKalb Ave. & North Beach RR. Co., Nassau Electric Ry. Co., South Brooklyn Ry. Co., Prospect Park & Coney Island RR. Co., Prospect Park & South Brooklyn RR. Co., New York & Coney Island RR. Co., Brooklyn Rapid Transit Co., New York Consolidated RR. Co., New York Municipal Ry. Co., Brooklyn City RR. Co.

(3) Third Avenue Railway System: New York City Interborough Ry. Co., New York Westchester & Connecticut Traction Co., Pelham Park & City Island Ry. Co., Southern Boulevard Ry. Co., Union Railway of New York, Bronx Traction Co., Westchester Electric RR. Co., Yonkers RR. Co., Belt Line Ry. Corp., Brooklyn North RR. Co., Dry Dock East Broadway & Battery RR. Co., 42d St., Manhattanville & St. Nicholas Ave. RR. Co., Kingsbridge Ry. Co., Mid Crosstown Ry. Co., Third Ave. Ry. Co., Third Ave. Bridge Co.

(4) New York Railways System: Broadway-Seventh Ave. RR. Co., 42d & Grand St. Ferry RR. Co., Fort George & 11th Ave. RR. Co., 23d Street Ry. Co., Bleecker St. & Fulton Ferry RR., 34th St. Crosstown Ry. Co., Christopher & Tenth St. Ry. Co., Sixth Ave. RR. Co., New York Rys. Co., Eighth Ave. RR. Co., Ninth Ave. RR. Co., New York & Harlem Ry. Co.

(5) Queens County Lines: Long Island Electric Ry. Co., Manhattan & Queens Traction Co., New York & Long Island Traction Co., New York & North Shore Traction Co., New York & Queens County Ry. Co., Ocean Electric Ry. Co.

(6) Staten Island Lines: Richmond Light & RR. Co., Southfield Beach RR. Co., Staten Island Midland Ry. Co.—V. 113, p. 2406.

Toledo & Ohio Central Railway Company.

(Report for Fiscal Year ending Dec. 31 1920.)

President Alfred H. Smith, New York, says in substance:

Operations.—Federal control ended March 1 1920, but for the six months to Sept. 1 1920 the company was guaranteed under Section 209 of the Transportation Act of 1920 a railway operating income not less than one-half the amount named in its contract with the Government as annual compensation.

The rate increases ordered by the I.-S. C. Commission, effective Aug. 26 1920, were not immediately allowed by the State of Ohio as to intra-State rates, so that the full effect of the advance was not measured by the percentages for inter-State traffic.

There were 11,541,069 tons of revenue freight carried during the year, an increase of 2,702,603 tons over 1919, the principal increase being 2,310,823 tons in bituminous coal. Coal shipments were below normal in 1919. An increase of 269,854 tons in ore carried was due to the increased requirements of local furnaces in 1920.

Mail Pay.—The company received as additional mail compensation for the period Nov. 1 1916 to Dec. 31 1917 approximately $15,800, while the Railroad Administration received $42,000.

Expenses, &c.—The substantial increases in pay and the changes in working conditions during and since Federal control have created a situation which is giving the company grave concern. The condition of the equipment also at the end of Federal control has caused an unusual outlay for repairs, which are still under way.

There was a substantial increase in the cost of fuel.

Federal Accounts.—Final settlement of accounts with the Railroad Administration for the period of Federal control has not been effected but the company is actively engaged in the preparation of the data necessary for use in connection with the making of such a settlement. The settlement with the U. S. Government for the guaranty period—six months March to Aug. 1920—is progressing.

Trackage.—Operation under trackage rights over the Hocking Valley RR. from Beaumont to Eckerts, 34.12 miles, and from Eckerts to Schiller St., Columbus, 33.14 miles, was commenced on March 1 1920. The average mileage operated during the year was, therefore, 491.72 miles.

Equipment.—The financing of the cost of 750 freight-train cars and 20 locomotives allotted to the company by the Director-General is being carried out through Equipment Trust No. 52, dated Jan. 15 1920. The cost of the equipment will amount to approximately $2,863,500. Equipment trust notes of $2,146,500 have been issued under the trust.

The company is to receive from the New York Central RR., under sublease, one steel mail compartment car, estimated cost $24,014, subject to our assumption of that company's certificates covering about 75% of the same, or $18,003.

The funded debt has been reduced $333,323 through payment of Equipment Trust installments, due Jan. 1 1921.

Notes.—On its 10-year promissory note dated Dec. 23 1920, given to the N. Y. Central RR. Co., this company borrowed for additions and betterments to way and structures $214,000.

Results.—The income to the corporation, arrived at by the addition of compensation received under Federal control, the guaranteed net railway operating income under Section 209 of the Transportation Act of 1920 and the net railway operating income for the 4 months, Sept. to Dec. 1920, inclusive, was more by $919,103 than that received as compensation from the U. S. Government during the Federal control year 1919.

The increase of $19,265 in income from unfunded securities and accounts is principally due to accrual of interest on advances made to the Kanawha & Michigan Ry. Co. during the year and on amounts due from the U. S. Government.

The decrease of $54,019 in separately operated properties—loss, represents a decrease in the corporate deficit of the Zanesville & Western Ry. Co. for the year 1920.

The increase of $115,359 in interest on funded debt is due to the increase of such debts as noted elsewhere and the inclusion in this account of interest accruals on advances made by affiliated companies. In the previous year accruals of interest on the latter class of debt were included in interest on unfunded debt. The above increase, therefore, is partially offset by the decrease in the latter account for the current year of $81,997.

The surplus carried to profit and loss was $1,240,993, an increase of $1,065,967 over 1919.

Improvements.—The net increase in property investment during the year was $161,175.

COMPANY'S SUMMARY OF FINANCIAL OPERATIONS AFFECTING INCOME FOR CALENDAR YEARS 1920 AND 1919.

	Dec. 31 '20.	*Dec. 31 '19.*

American Ice Company.

(Report for Fiscal Year ending Oct. 31 1921.)

President Wesley M. Oler says in substance:

Large increase in sales, amounting to over 400,000 tons, was caused by an unusually mild winter, early spring and favorable summer, while increase

in our manufacturing capacity and refrigerated storehouses enabled us to care for demand from our competitors when supplies proved inadequate during the long-continued hot spell.

By steady investment of capital in labor-saving, fuel-saving and other economical devices, we decreased our production costs.

By building new plants, overhead per ton was reduced and profitable additional business was secured.

Increased earnings were made in spite of a reduced return in price of 20 cents per ton; thus, the public and the stockholders were both benefited by the policy of increasing earnings by reduced costs and not by increased prices.

When it is realized that 3 cents per ton in cost of production (based on last year's operations) makes for 1% on the Common stock, the policy of the management in applying a certain amount of its earnings each year to improved methods of manufacture, as well as new construction, to take care of the growing need of the great city in which we do business, has been demonstrated as wise, and we trust it meets with your approval. You will note from the annual statement that we have ample capital for our needs and are in sound financial condition.

It is our purpose to retire the entire outstanding collateral trust bonds due April 1 1922; in fact, we have already bought at the present writing all but $307,000 of them.

[The quarterly dividend on Common stock payable Oct. 25 1921 was increased from 6% to 7% per annum, and the same amount, 1¾%, will be paid Jan. 25 to holders of record Jan. 10.—Ed.]

GENERAL INVESTMENT NEWS

RAILROADS, INCLUDING ELECTRIC ROADS.

General Railroad and Electric Railways News.—The following table summarizes recent railroad and electric railway news of a more or less general character, full details concerning which are commonly published on preceding pages under the heading "Current Events and Discussions" (if not in the "Editorial Department"), either in the week the matter becomes public or shortly thereafter.

Increase in Western Grain Rates Postponed from Dec. 27 to Jan. 7 Pending Completion of Tariff.—"Fin. Am." Dec. 26, p. 2.

Expenditures for Grade Reductions Justified.—Clarks Summit-Hallstead Line of the Lackawanna RR. fully warranted by operating results (George J. Ray, Chief Engineer D. L. & W. RR.).—"Ry. Age." Dec. 24, p. 1243 to 1250.

Angus System of Electric Automatic Train Control (Attached to Locomotives).—"Ry. Review" Dec. 24, p. 863.

Practical Questions About Coal Consumption by Steam Locomotive.—Elec. engineer referring to criticisms of Super-Power report quotes mechanical engineer of 20 years' experience as stating that "4 lbs. of coal (not 2½ lbs.) per horsepower hour is very good indeed" in case of steam locomotives. "Ry. Age" Dec. 24, p. 1242.

Should Not Public Pay for Steel Cars if They Want Them?—Communication. "Ry. Age" Dec. 24, p. 1242.

Net Income of Ford's RR. (Det. Toledo & Ironton) Steadily Declines. Editorial "Ry. Age" Dec. 24, p. 1238.

Economic Speeds for Freight Operation (H. Ashton).—"Ry. Age" Dec 24, p. 1273.

Gasoline Rail Car Solving Local Passenger Problems for 2-Car Trains.—"Ry. Review" Dec. 24, p. 860.

In Manhattan.—Recommendations of Commission's Engineer, Daniel L. Turner (with map). Hearings completed for 1921. "El. Ry. Journal" Dec. 24, p. 1109, 1122 (compare "Chronicle" Dec. 24, p. 2685.)

A "Captive Aeroplane" Railway Building.—To connect Peira Cava, 4,500 feet above sea level, with Nice and Monaco, 27 miles, the aeroplane being attached to a fixed line. "Ry. Review" Dec. 24, p. 875.

I.-S. C. C. Suspends Rate Reductions, viz.: Those proposed by Ches. & Ohio Ry. and the L. & N. Ry. from mines on their lines to Southern Ry. stations in Indiana and Illinois.

Senator La Follette Fights Rail Rate Provision of Transportation Act.—"Times" Dec. 28, p. 5.

October Operating Statistics for the Several Roads with Annual Operating Revenue Above $25,000,000.—"Ry. Age" p. 1278 to 1280.

Slump in Traffic Reduces Rail Income.—Grain loadings alone continue heavy; lower rates to go into effect Jan. 1. "Post" Dec. 27, p. 12.

First Part of Rate Hearing Concluded.—Preliminary testimony for railroads on retention of rate-making provisions of Transportation Act given by Geo. M. Shriver, Benjamin Campbell, T. C. Powell, W. C. Maxwell, L. E. Wettling, Edward Chambers, C. R. Capps. Commission adjourns till Jan. 9. See "Current Events" in this issue, also V. 113, p. 2683, and "Ry. Age" Dec. 24, p. 1251 to 1256.

Some Interlocking Officers and Directors Authorized.—See "Current Events' above and "Ry. Age" Dec. 24, p. 1258.

N. Y. Central Freight Handlers Wages Cut 6c. an Hour by Contractors.—"Times" Dec. 28, p. 16.

Contract Work under Fire Before Labor Board.—Roads defend "farming out" of maintenance requirements. "Ry. Age" Dec. 24, p. 1267 to 1270.

Are Railroads Passing? (By Paul Shoup, V.-Pres. Southern Pacific Co.) "Fin. Am." Dec. 26, p. 5.

Regulation; Super-Regulation; Strangulation (by Slason Thompson, address in Chicago Dec. 19). "Ry. Review" Dec. 24, p. 870 to 872.

Farm Products 10% Rate Reduction Authorized in New England.—Bost. & Me., and N. Y. N. H. & H. adopt same.—"Fin. Am." Dec. 26, p. 2.

Express Rates to South Cut.—Southern Express Co. on or about Dec. 27 made reductions averaging 50c. per 100 lbs. on first-class rates in connection with service between Boston, Providence and the South via Norfolk.

Estimated Railway Earnings Reach $561,665,221 for Year 1921.—Income of Class 1 roads $584,000,000 better than in 1920; still short of charges; reduced deficit due to most extensive cuts in expenses ever seen by the carriers. "Times" Dec. 28, p. 24. Gross revenues in November show heavy decrease compared with 1920. "Times" Dec. 30, p. 22.

$26,000,000 Saving on Transportation Taxes for Pennsylvania RR.—Shippers and passengers on its lines will save approximately $26,000,000 annually as a result of the elimination of the tax on transportation which goes into effect on Jan. 1. This estimate, based on freight and passenger revenues this year, covers a saving to passengers of $13,000,000 and a like amount to shippers. "Times" Dec. 28, p. 22.

Way All Cleared for Jersey Vehicle Tunnel.—Bids to be opened Feb. 7 and driving of tubes to start in March; cost, complete, $28,669,000. Tubes and shafts must be ready Dec. 31 1925. "Times" Dec. 28, p. 4.

N. Y. Transit Hearings Closed for 1921—Further Hearings Early in 1922.—"El. Ry. Jour." V. 58, No. 26, p. 1122 to 1124.

Cars Loaded.—The total number of cars loaded with revenue freight during the week ending Dec. 17 was 727,003, as compared with 742,926 the previous week. This was a decrease of 75,268 cars compared with 1920 and 79,731 less than in 1919.

Changes as compared with the week before were as follows: Live stock, 33,861 cars, increase 1,702 (and 3,389 cars more than in 1920); coke, 7,145, increase 507; merchandise and miscellaneous freight, 449,547, decrease 12,194 (but 11,615 cars more than in 1920); coal, 134,842, decrease 2,994; grain and grain products, 47,383, decrease 1,297.

Total Number of Cars Loaded with Revenue Freight.

	Weeks ended			Weekly Average		Total Year
	Dec. 17.	Dec. 10.	Dec. 3.	1st Quar.	2d Quar.	to Date.
1921	727,003	742,926	747,454	693,297	744,154	41,103,821
1920	802,271	837,953	882,604	817,601	834,488	43,856,790
1919	806,734	761,940	789,286	704,035	761,511	40,521,916

Idle Cars Further Increased.—The total number of freight cars idle Dec. 15 totaled 531,337, compared with 499,648 on Dec. 8, or an increase of 31,689. Of the total Dec. 15, 371,221 were serviceable freight cars, while the remaining 160,116 were in need of repairs.

Surplus box cars Dec. 15 totaled 138,214, an increase of 8,219 compared with the total on Dec. 8, while surplus coal cars numbered 186,508, an increase of 20,445 within the same period. Stock cars totaled 17,814, an increase of 1,384.

Idle Cars on or about First of Month, on April 7 (Peak) and on Dec. 15.

Railroad Matters Covered in "Chronicle" of Dec. 24.—(a) Right of railways to contract for certain shop and maintenance work with outside firms or individuals, p. 2656. (b) Railroad rates—changes recently ordered, authorized, &c., p. 2681. (c) Railroad rules as revised for men engaged in maintenance of way, p. 2682. (d) The railroad rate inquiry. How world conditions stifle traffic, p. 2683. (e) Amendment of rate provisions of Transportation Act opposed by F. J. Lisman before Committee, p. 2683. (f) Railroad guaranty accounts must be closed Dec. 31, and claims filed by March 1, p. 2684. (g) Canadian railway rates reduced, p. 2684. (h) Transit plan for New York City surface roads would greatly reduce trolley mileage—other matters, p. 2685. (i) I.-S. C. Commission—35th annual report, p. 2715 (to be concluded). (j) China's offer to pay Japan for Kiao-Chau-Tsinanfu Railroad in Shantung, Dec. 17, p. 2569.

Abilene (Tex.) Street Ry.—*Operations Resumed.*—See American Public Service Co. below.—V. 113, p. 847.

American Railways Co.—*Earnings (Incl. Sub. Cos.).*—

Results for 11 Months ending Nov. 30 1921 & Cal. Years 1920, 1919 & 1918.

	11 Mos.'21.	Year 1920.	Year 1919.	Year 1918.
Oper. rev. (sub. cos.)	$17,128,442	$18,836,226	$16,312,231	$14,234,405
Gross income (A. R. Co.) after taxes	$1,750,977	$1,674,347	$1,753,437	$1,281,563
Deductions—Incl. A. R. Co. exp. & all int. chgs	1,268,670	1,199,494	1,129,116	989,097
Net income available for A. R. dividends	$482,307	$474,853	$624,320	$292,466

The operating revenues of the subsidiary companies for the 11 months of the current year, aggregating as above shown, $17,128,442, embrace (a) railway companies, $9,964,647 (58.2% of total); electric companies, $5,559,065 (32.5%); gas companies, $1,515,253; (8.8%); miscellaneous, $89,476 (.5%).—V. 112, p. 1739.

Aurora Elgin & Chicago RR.—*Sale Ordered, &c.*—

A Chicago dispatch Dec. 23 stated that "Federal Judge Evans has ordered the assets of the company sold at public auction to satisfy foreclosure proceedings brought by Northern Trust Co. and General Electric Co."

It is stated that preliminary steps for the segregation of the lines have been taken by the incorporation of a new company to be known as the Aurora Elgin & Fox River Electric Co., which is to operate the Fox River Valley and the Aurora and Elgin city lines. Foreclosure sale has been pending some time, and last month Federal Judge Evans directed the receiver to form a new company which could obtain new franchises for the Fox River lines.

Under the plan of incorporation, 200 shares, no par value, will be subscribed for by Joseph K. Choate, B. P. Alschuler and E. C. Faber. The new company will engage in an electric light and power business and the operation of street railways. Formation of the new company, it is reported, precludes the hopes of the Aurora & Elgin stockholders from obtaining any return on their investments.—V. 113, p. 2310.

Baltimore & Ohio RR.—*To Consolidate Divisions.*—

The company on Jan. 1 will consolidate its Indiana & Illinois Division into the St. Louis Division with headquarters at Washington. This will be done to effect economy in operation.—V. 113, p. 2310, 2306.

Boston Elevated Ry.—*Report of Possible Repeal of Public Control Act Discredited—Offering of West End Bonds.*—

The announced intention of a member of the Massachusetts State Legislature to introduce a bill repealing the Boston Elevated Public Control Act contains no threat which needs to be taken seriously. In the first place, the Public Control Act is a contract between the State on the one hand and the stockholders of the Boston Elevated Ry. and West End Street Ry. on the other. The Supreme Court of Massachusetts has upheld the validity of this contract, and unless a repeal Act is accepted by the two stockholding bodies it cannot, of course, become effective. It is believed that the proposed action is the first step in an effort to vindicate the campaign promises of Mayor-elect Curley with reference to a 5-cent fare in Boston.

It is predicted that operations for the year enaing June 30 1922 will result in a net profit over and above cost of service, including dividends, of at least $1,500,000 and possibly $2,000,000. This will make possible the setting up again of the $1,000,000 reserve fund used up in the first year of trustee operation and a substantial payment on account of the $4,000,000 which was collected from the cities and towns served by the road in order to meet the deficit after cost of service in the fiscal year ending June 30 1919.

As the Act now reads, trustees cannot reduce the basic rate of fare until the entire $4,000,000 is paid off.

So far this month revenues are only 3% lower than for the corresponding period a year ago, notwithstanding 20% of the traffic pays a 5-cent fare to-day, whereas a year ago the 5-cent fare traffic was negligible. In other words, the number of riders is actually larger to-day than a year ago, but the average fare is 9 cents to-day as against 10 cents a year ago. (Boston "News Bureau" Dec. 24.)

See West End Street Ry. below.—V. 113, p. 2718.

Boston & Worcester Street Rv.—*Bonds Extended.*—

The Mass. Department of Public Utilities has approved the extension from Jan. 1 1922 to Aug. 1 1923 of $60,000 5% mortgage bonds of Framingham Southborough & Marlborough Street Ry. at 7%.—V. 113, p. 2612.

Brazil Railway.—*Interest Payments, &c.*—
The report of the joint committee of bondholders and of the directors for the year ending Dec. 31 1920 states:
The income of the 5% International bonds amounted to $1,642,326; expenses, $696,219; balance, $946,107, from which $140,107 has been appropriated to a reserve fund, leaving $806,000; this balance will allow of a distribution of int. of 2%, namely, 8s. per bond of £20 and 7s. 11d. per bond of 500 francs, equal to £19 17s. 5d., subject, in the case of the French series to deduction of French fiscal taxes, payable in London at the Bank of Scotland on and after Nov. 30, against Coupons 23 and 24, bearing the dates of Jan. 1 and July 1 1921.
The income of the 6½% Notes amounted to $403,394, expenses $160,394, balance $243,000, out of which the joint committee has made advances of $90,051 to the Compagnie Auxiliaire de Chemins de fer au Bresil, leaving $152,949; this balance, added to the interest receivable in respect of the £2,292,000 of International bonds, which, up to the end of 1920, formed part of the collateral for the Notes, will allow of a distribution of interest at rate of 15 francs per Note, less French fiscal taxes, payable in Paris on and after Nov. 30, against Coupons 15 and 16, dated May 1 and Nov. 1 1921.
The income of the 5½% Convertible Debentures amounted to $126,347, expenses $15,343, balance $111,004; this will enable a distribution of interest of 1¾%, payable in London on and after Nov. 30 at the Bank of Scotland and Messrs. Glyn, Mills, Currie & Co., against the 14 coupons in arrears, dated Feb. 1 1915 to Aug. 1 1921, Nos. 5 to 18, inclusive.—V. 112, p. 2535.

British Columbia Electric Ry.—*Wages.*—
The Board of Conciliation has recommended a 10% cut in wages to the company and its employees. This, if accepted, will reduce the present maximum of 65 cents to 58½ cents an hour. The Board also recommends a monthly minimum of $87 50 instead of a daily minimum of six hours' pay.—V. 113, p. 1154.

Canadian Pacific Ry.—*Deb. Stock Listed.*—
The New York Stock Exchange has admitted to the list $25,000,000 4% coupon consolidated debenture stock, when issued, see offering in V. 113, p. 2718.

Cape Fear Ry., Inc., Fayetteville, N. C.—*Organized.*—
This company was recently organized in N. C. as successor to the old Cumberland Ry. & Power Co. sold at foreclosure last July (V. 113, p. 292.) Plans of the new company, it is said, call for the immediate construction of a standard gauge railway to connect the old street railway at Fayetteville with Camp Bragg, and also for an extension southward from Fayetteville to the cotton mill villages in that direction. The total track will be approximately 20 miles long. Gasoline propelled trains, it is said, will be used. L. H. Couch, Raleigh, N. C., V. Pres. & Genl Mgr.
Directors are N. A. Sinclair, President, Fayetteville; and A. G. Bradley, Sec. & Treas., Raleigh; John R. Tolar, Frank H. Stedman and A. B. McMillan, Fayetteville, and J. Kemp Johnson, of Raleigh.

Carolina Clinchfield & Ohio Ry.—$6,000,000 *U. S. Loan—To Pay* $5,000,000 *Elkhorn Notes.*—The I.-S. C. Commission Dec. 29 approved a loan of $6,000,000 to enable the company to pay off the $5,000,000 Elkhorn 1st Mtge. notes due Jan. 1 and a Government loan of $1,000,000 also due Jan. 1.

The Government loan will be secured by $1,000,000 1st Mtge. 5s and the $6,000,000 Elkhorn 1st Mtge notes which will be extended for one year, at 6%. The company has withdrawn its application to issue and sell $6,000,000 bonds.—V. 113, p. 2310, 2078.

Central RR. of New Jersey.—*Special Dividend.*—
A special dividend of 2% has been declared on the capital stock, payable Dec. 31 to holders of record Dec. 30. Special divs. at the rate of 4% p. a. (J. & D.) have been paid since Dec. 1899.—V. 113, p. 2719, 2310.

Chattahoochee & Gulf RR.—*Bonds Called.*—
Twenty-one First Mortgage bonds have been drawn for payment out of the sinking fund and will be redeemed on Jan. 1 at the Citizens' & Southern Bank of Savannah, Ga.—V. 111, p. 2519.

Chicago & Indiana Coal Ry.—*No Further Deposits.*—
The committee for the First Mortgage 5% bonds, James B. Mabon, Chairman, in a notice to holders of undeposited bonds states that the committee will accept, not later than Dec. 30 1921, additional bonds for deposit under the bondholders' protective agreement of July 20 1914, and participation in the reorganization of the Chicago & Eastern Illinois RR. Bonds should be presented to Central Union TrustCo., depositary, 80 Broadway, New York, not later than the close of business on Dec. 30 1921.—V. 112, p. 1518.

Chicago Indianapolis & Louisville Ry.—*Bonds Authorized—Arrangements Made with Bankers to Sell* $3,000,000 *Series "B" Gen. Mtge. 6s at Not Less Than* 90.—
The I.-S. C. Commission Dec. 27 authorized the company: (1) to issue $3,493,000 1st & gen. mtge. 6% gold bonds, Series B, in exchange for an equal amount of 1st & gen. mtge. 5s, Series A; (2) to sell $3,000,000 of Series B bonds; and (3) to pledge and repledge, from time to time, $493,000 of Series B bonds as collateral security for any note or notes which it may issue.
The I.-S. C. Commission previously authorized the company to pledge and repledge, from time to time, all or any part of $3,493,000 1st & gen. mtge. 5s, Series A, as collateraly security for any note or notes which it might issue. Of these bonds, $2,100,000 are pledged for a loan of $1,400,000 from the War Finance Corp.; $233,000 for a U. S. loan of $200,000, since reduced by payment to $155,000; and $1,160,000 are held unencumbered in the treasury.
The $3,493,000 1st & Gen. Mtge. 6% bonds, Series "B," proposed to be issued, will be dated Jan. 2 1922, and will mature May 1 1966. Upon such exchange, the Series A bonds are to be canceled.
The $3,000,000 of Series B bonds are to be sold to procure funds to reimburse the company's treasury for amounts heretofore appropriated from income for additions and betterments. The proceeds will be used to pay off its indebtedness to the War Finance Corp., and for other corporate purposes. The proposed Series B bonds are to be issued under the 1st & Gen. Mtge. dated May 1 1916. Arrangements have been made to sell $3,000,000 of the Series B bonds at not less than 90 and int. Should the banking house purchasing the bonds be able to resell them at an advance in excess of 3%, the company will share such excess equally with the banking house.—V. 113, p. 2503, 2184.

Chicago & North Western Ry.—*Bonds Authorized.*—
The I. S. C. Commission, Dec. 19, authorized the company to procure authentication and delivery to its treasurer of (a) $375,000 gen. mtge. gold bonds (b) $1,000,000 gen. mtge. gold bonds of 1987 and (c) $3,000,000 1st & ref. mtge. gold bonds, to be held in the treasury until the further order of the Commission.—V. 113, p. 2613, 2404.

Chicago North Shore & Milw. RR.—*Int. on Accum. Divs.*
George M. Reynolds, Samuel Insull and R. Floyd Clinch, trustees, under the participation trust agreement creating the participation shares of the Chicago North Shore & Milwaukee RR., announced that during Dec. 1921 interest will be paid by the trustees upon the dividend account credited to First and Second Preferred Participation shares upon the trustees' books for the years 1918 and 1919. The books of the trustees closed for transfer on Dec. 22 1921.
Under the terms of the participation trust agreement, dividends are payable by the trustees beginning with the year 1918 and in the event of nonpayment of dividends, the participation shares are cumulative to the extent that the dividends as set up on trustees' books bear interest at 5%. Payment is now to be made of interest on the dividend accounts for the years 1918 and 1919 as to First and Second Preferred shares.—V. 113, p. 531.

Cincinnati Traction Co.—*Modernizing Power System*—
Large saving to be effected by scrapping long obsolete generating equipment, building new substations and purchasing a portion of the energy required—three Automatic Substations included in the plan. "Electric Railway Journal, Dec. 24, p. 1099 to 1103.—V. 113, p. 2184.

Cleveland (O.) Ry.—*New Officers.*—
Paul E. Wilson has been elected Secretary and W. J. Mead Treasurer, to succeed Henry J. Davies, who held both positions.—V. 113, p. 1771.

Colorado & Southern Ry.—*Final Settlement.*—
The U. S. Railroad Administration has announced that final settlement of all claims growing out of the 26 months of Federal control has been made with the company for $1,775,000.—V. 113, p. 2405.

Coney Island & Brooklyn RR.—*Application Denied.*—
The New York Transit Commission, Dec. 23, denied the application of the receiver of the Coney Island & Brooklyn RR., and the Nassau Electric RR. to discontinue the exchange of free transfers with the Van Brunt Street & Erie Basin RR. The application was denied because the petitioners failed to prove that any financial loss had materialized by reason of issuance of transfers at these points.—V. 112, p. 743.

Cumberland (N. C.) Ry. & Power Co.—*Successor Co.*—
See Cape Fear Ry., Inc., above.—V. 113, p. 292.

Delaware Lackawanna & Western RR.—*Declares Extra Dividend of 5% in Addition to the Regular Quarterly Dividend of 3%.*—An extra dividend of 5% has been declared on the stock, in addition to the regular quarterly of 3%, both payable Jan. 20 to holders of record Jan. 7.
A quarterly dividend of 3% was paid Oct. 20 last, which was the first distribution made on the stock since the 100% stock dividend paid last July, increasing the total stock outstanding to $97,277,000, par $50.—V. 113, p. 1470.

Detroit United Ry.—*Day-to-Day Lines Taken Over.*—
The day-to-day lines of the D. U. R., approximately 29 miles, formally became the property of the city of Detroit, Dec. 22, when the company received a check for $2,300,000, the sum awarded it by the board of arbitration. The company will continue to operate over the lines, however.
Mayor Couzens has announced that negotiations to lease the company's entire city system will shortly be instituted. The city will ask a lease of the lines for not more than one year, during which time the Mayor proposes to submit to the voters a purchase proposition. The committees that worked out the plan for the joint operation of cars will handle the negotiations for the lease.—V. 113, p. 2719.

Equipment 6% Gold Notes.—*Notes Offered.*—Kidder, Peabody & Co. and Salomon Bros. & Hutzler, New York, are offering $3,030,000 Equipment 6% Gold Notes of the following companies, which they purchased from the Government at par:
The notes and offering prices are as follows:
(1) Notes due Jan. 15 1925, to yield 5.75%: $221,000 Louisville & Nashville RR., $490,000 Illinois Central RR., $126,000 Great Northern Ry.
(2) Notes due Jan. 15 1926, to yield 5.75%: $292,000 Louisville & Nashville RR., $543,000 Illinois Central RR., $184,000 Great Northern Ry.
(3) Notes due Jan. 15 1927, to yield 5.75%: $323,000 Louisville & Nashville RR., $593,000 Illinois Central RR., $258,000 Great Northern Ry.—V. 113, p. 2613, 2311.

Evanston (Ill.) Ry.—*Fare Petition Rejected.*—
The Illinois Commerce Commission has permanently suspended the petition of the company for an increase in fares from 7 to 8 cents.—V. 111, p. 792.

Fort Smith & Western Ry.—*Reorganization.*—
The I.-S. C. Commission has authorized the company to issue 62,400 shares of Common stock without par value, $1,500,000 of 1st Mtge. bonds and $3,744,000 of 2d Mtge. bonds, which securities it proposes to exchange for 1st Mtge. bonds of the Fort Smith & Western RR. (the old company), and to use the last-mentioned bonds for the purpose of acquiring at a mortgage foreclosure sale all of the property, assets and franchises of the old co.
The Commission in its decision says in part: On April 1 1904 the old company executed a 1st Mtge. for $7,500,000, of which $6,240,000 were sold and $760,000 pledged as collateral for certain obligations of the company aggregating $280,000. These are all the outstanding bonds of the old company and no interest has been paid on them since 1907.
On Oct. 9 1915 the trustee brought suit to foreclose the mortgage in the U. S. District Court for the Western District of Arkansas. The court on the same date appointed a receiver, who has since been operating the road. On Feb. 2 1921 the court ordered that the properties be sold on March 31 1921 at Fort Smith, Ark. This sale has been indefinitely postponed.
The new company is a Delaware corporation and was incorporated at the instance of the protective committee with a view to the reorganization.
Of the securities to be issued, it is proposed that the $1,500,000 1st Mtge. bonds be 20-year 7% gold coupon bonds issued under a 1st Mtge. upon all the properties to be acquired at the foreclosure sale, securing an authorized issue of $3,500,000 of bonds redeemable at 102 and int. on any int. date. It is proposed that the $3,744,000 of 2d Mtge. bonds be 20-year 6% gold coupon bonds of an authorized $10,000,000, redeemable at 102 and int. on any int. date, and the interest on which, for five years from the date of issue is to be non-cumulative and payable only if earned.
Under the terms of the foreclosure decree the applicant must assume liability in respect of such securities issued by the receiver of the old company as may be outstanding at the date of the acquisition by the applicant of the properties of the old company. The record shows that there were outstanding as of Sept. 30 1921 $348,500 of receiver's certificates, $22,643 of equipment obligations and $231,000 of short-term notes. A receiver's certificate for $156,000 is pledged as collateral to a 5-year note for that amount.—V. 112, p. 1865.

Georgia Ry. & Power Co.—*Redeems Rebate Slips.*—
In accordance with a contract between the city of College Park, Ga., and the company, by which a 5-cent fare was granted, the city with the original franchise, the railway has been compelled to make a refund of 2 cents each on 682,670 fares, amounting to $13,653.—V. 113, p. 2613.

Grand Rapids Grand Haven & Muskegon RR.—
The statement regarding reported negotiations, between the Muskegon city officials and the company, mentioned in last week's "Chronicle," affects the Muskegon Traction & Lighing Co., not the Grand Rapids RR. alone.—V. 113, p. 2720.

Great Northern Ry.—*Notes Offered.*—
See "Equipment 6% Gold Notes" above.—V. 113, p. 2613.

Gulf Mobile & Northern RR.—*Extension of Voting Trust.*
The voting trust agreement covering the Preferred and Common stock, which will expire on Jan. 1 1922, is to be extended for a further period of three years, to Jan. 1 1925. A circular to the holders of stock trust certificates says:
"Under the present management, the result of operations has been such as to induce the holders of a substantial amount of stock trust certificates to request the voting trustees to take the necessary steps to extend the agreement. It is proposed that the agreement extending the present voting trust agreement shall confer upon the voting trustees authority to vote the stock which is subject to the voting trust agreement in favor of the merger or consolidation of the Gulf Mobile & Northern RR. with the Meridian & Memphis Ry. Co. (all the capital stock of which is owned by the Gulf Mobile & Northern RR.), or in favor of the acquisition by the Gulf Mobile & Northern RR. in any lawful manner of the title to the properties of the Meridian & Memphis Ry."
The voting trustees are John W. Platten, Frederic Wm. Scott, Samuel S. Campbell, A. H. S. Post, T. Nelson Strother.

Listing—Earnings.—
The N. Y. Stock Exchange has authorized the listing on or after Jan. 1 1922 of $11,494,400 stock trust certificates for 6% Pref. stock, par $100, and $10,971,000 stock trust certificates for Common stock, par $100, extended to Jan. 1 1925, stamped and issued in respect of $11,494,400 of Pref. stock and $10,971,000 of Common stock, upon official notice of issuance in exchange for outstanding stock trust certificates.
The income account for 10 months ending Oct. 31 1921 shows: Total operating revenues, $3,409,190; total operating expenses, $3,093,175; net operating revenues, $316,014; railway tax accruals, $193,689; uncollectible railway revenues, $171; total net operating revenues, $122,154; gross income, $83,963; interest, $87,138; balance, deficit, $3,175.—V. 113, p. 1360.

Illinois Central RR.—*Notes Offered.*—
See "Equipment 6% Gold Notes" above.—V. 113, p. 2504.

Illinois Traction Co.—*New Transmission Line.*—
A 32-mile all-steel tower line has been erected to connect the Riverton and Decatur power plants. ("El. Ry. Jour." Dec. 17, p. 1071.)—V. 113, p. 1887, 2720.

Interborough Rapid Transit Co.—*Will Pay Jan. 1 Interest on 1st & Refunding 5% Bonds.*—The "Chronicle" has been officially informed that the company will pay the interest due Jan. 1 on the outstanding $161,504,000 1st & Ref. Mtge. 5% bonds.—V. 113, p. 2720.

Kansas City (Mo.) Rys.—*New President & Directors.*—
C. W. Armour has been elected President, succeeding Col. Philip J. Kealy. John G. Forrest, Herman P. Harbison and Edward P. Moriarty have been elected directors, succeeding Frank Hagerman, R. J. Dunham and Mr. Kealy.—V. 113, p. 2080.

Louisville & Nashville RR.—*Bonds Authorized.*—
The I. S. C. Commission, Dec. 17 (a) authorized the company to issue, by selling at not less than 96, and int., $12,753,000 1st & Ref. mtge. 5½% gold bonds, series A (see offering in V. 113, p. 1720) (b) granted the company authority to procure the authentication and delivery by the trustee of $15,862,000 1st & Ref. mtge. 5½% gold bonds, series A.
The authentication and delivery of an additional $15,862,000 of series A bonds is for the purpose of retiring first mortgage bonds of certain predecessor companies now held in company's treasury, viz.:

Company—	Amount.	Int. Rate.	Maturity Date.
Lewisburg & Northern RR	$8,921,000	5%	Nov. 1 1965
Kentucky & Virginia RR	3,325,000	5%	Oct. 1 1965
Birmingham & Tuscaloosa RR	767,000	5%	Oct. 1 1965
Gallatin & Scottsville Ry	309,000	4%	July 1 1931
Madisonville Hartford & Eastern RR	1,815,000	5%	Nov. 1 1936
Bay Minette & Fort Morgan RR	225,000	4%	July 1 1930
Morganfield & Atlanta RR	500,000	4%	June 1 1932

The proceeds of the $12,753,000 1st & Ref. mtge. 5½% bonds, series A, will be applied as follows: $2,237,291 thereof to the completion of certain projects now under way, and the proceeds of the sale of the remainder to reimburse the treasury for expenditures made from income for capital purposes.
The New York Stock Exchange has admitted to the list $12,753,000 1st & ref. mtge. 5% gold bonds, series "A" due April 1 2003. See offering in V. 113, p. 2720, 2080.
See "Equipment 6% Gold Notes" above.—V. 113, p. 2720.

Lufkin, Hemphill & Gulf.—*Acquired.*—
This road, extending from Bronson, Texas, to Hemphill, 11 miles, has been acquired by T. L. L. Temple and associates, who own the controlling interest in the Texas South-Eastern RR. The Lufkin Hemphill & Gulf connects with the Gulf Colorado & Santa Fe at Bronson, Tex.

Market Street Ry., San Francisco.—*Ready to Sell to City.*
A letter signed by Wm. Von Phul, Pres. and Geo. D. Willicutt, Sec., dated Sept. 17 to the Board of Supervisors of the city of San Francisco, regarding negotiations for the purchase of the properties by the city, says:
"The question of the sale of these properties to the municipality has never been formally laid before the stockholders, and it is unnecessary to say that such a step cannot be taken until a concrete and detailed plan has been worked out.
"We are therefore unable at the moment to reply categorically to the questions contained in your [the Board of Supervisors] letter respecting price and terms.
"Our stockholders of course are generally familiar with the long-maintained policy of the municipality respecting the acquisition and operation of public utilities, and many of them have discussed among themselves from time to time the application of this policy to our properties, and we know from these discussions that if the municipality desires to buy the properties it is the sentiment of the stockholders that it should have an opportunity to do so.
"We suggest to your honorable board that representatives of the municipality be appointed by you to meet with representatives of this company to discuss values and details for the possible acquisition of the properties and to formulate a plan to be first submitted to the honorable board, and, if approved by you, submitted to the stockholders of the company, and, if approved by them, in turn submitted to the voters."—V. 113, p. 2311, 1574.

Memphis Dallas & Gulf RR.—*Sale.*—
According to a dispatch from Texarkana, the Federal Court at Fort Smith, Dec. 13, signed an order authorizing the sale of the road on March 26, next. Martin Walsh, Nashville, Ark., is receiver. The main line of the road runs from Hot Springs southwest to Murfreesboro, Nashville and Ashdown, Ark., 113 miles. Company also has a detached piece of railroad running from Daleville, on the Missouri Pacific, near Arkadelphia, to Dalark, 12 miles.—V. 111, p. 1278.

Mexican Railway Co., Ltd.—*Scheme of Arrangement.*—
A circular to the holders of the 6% Perpetual Debenture Stock, the 4½% Second Debentures and the Deferred Interest Certificates states:
The scheme of arrangement approved by the debenture and deferred interest certificate holders in July, 1919, comes to an end Jan. 1, with respect to the 6% Perpetual Debenture Stock and on April 1 next with respect to the 4½% Second Debentures, but the directors regret that it is impossible to discharge in cash the liabilities in respect of the deferred interest certificates which fall due on those dates except to the extent of a payment of a percentage of the certificates representing interest on the 6% Debenture Stock.
The Mexican Government restored the line to the company in June, 1920, since which date the company has been working it, has received and is receiving compensation from the government towards satisfaction of its claim as well as a substantial revenue from the working of the railway. But the Directors feel that they cannot, consistently with retaining the necessary funds to work the line and to complete the necessary repairs and renewals as well as to discharge their current obligations, provide in cash a greater sum than is sufficient to cover 20% on the certificates representing interest on the 6% Debenture Stock.
The total liabilities for interest accrued in respect of deferred certificates will amount on Jan. 1 to £1,044,255 in respect of interest on the debenture stock and on April 1 next to £186,628 in respect of interest on 2d debentures. It is proposed to satisfy 20% of the Debenture Stock interest certificates in cash and to satisfy the sums represented by the two series of certificates by two new series of Registered Stocks to be called respectively "A" and "B."
These stocks will be payable (without interest) at dates which have been carefully considered from the point of view of the position and prospects of the company, but the directors propose in order to secure that these stocks shall be redeemed as early as possible to take power to anticipate the due dates, and also to make over to the trustees a sum equal to 75% of the net profits of each year in which such net profits exceed £25,000.—V. 113, p. 2614, 1053.

Michigan Elevated Ry.—*Application Denied.*—
The Detroit City Council has denied the petition of the company to contruct a demonstration line in Detroit for more than a year.—V. 111, p. 2423.

Michigan United Rys.—*To Oust Buses.*—
The people of Battle Creek recently voted 10 to 1 in favor of eliminating buses running on streets occupied by railway lines.—V. 113, p. 2721, 2185.

Missouri Pacific RR.—*Appeals Decision.*—
The company has appealed from the decision of Judge Rufus E. Foster, handed down last August, in which he dismissed the claim of the company for $25,000,000 against the Texas & Pacific RR., which represents about 20 years' interest on $23,700,000 Texas & Pacific income bonds (see V. 113, p. 849).—V. 113, p. 2185, 1773.

Mobile & Ohio RR.—*Dividend Payable Dec. 31.*—
The directors have declared a dividend of 4%, payable Dec. 31 to holders of record Dec. 23. A dividend of 4% has been paid every June from 1912 to 1920 incl.; but no payment was made in June of this year.—V. 113, p. 1574, 1251.

Montgomery Transit Co., Norristown, Pa.—*Petition.*—
A bill of equity was recently filed in court in Norristown, Pa., requesting the appointment of a receiver for this company.—V. 104, p. 1045.

Muskegon (Mich.) Trac. & Lighting Co.—*New Negotiations—New Proposals Made by Company.*—
See Grand Rapids, Grand Haven & Muskegan RR. above.—V. 113, p. 2721.

New Bedford & Onset Street Ry.—*Bonds Extended.*—
The (Mass.) Department of Public Utilities has approved the petition of company for permission to extend for five years $340,000 first mortgage 5% bonds, maturing Jan. 1 1922 at 6%.
The Department also granted the company permission toissue $60,000 bonds at not less than 80.—V. 113, p. 2185.

New Orleans Ry. & Light Co.—*Interest Deferred.*—
The Committee on Securities of the New York Stock Exchange has received notice that the interest due Jan. 1 1922 on the General Mortgage 4½% gold bonds, due 1935, will not be paid.—V. 113, p. 2313.

N. Y. New Haven & Hartford RR.—*Fruit Co. Shares.*—
The Massachusetts Department of Public Utilities has granted permission to the company to purchase 289 shares of the Fruit Growers Express Co. at par ($100).—V. 113, p. 27 21, 2505.

New York & Queens County Ry.—*Protective Committee.*
See Steinway Ry. below.—V. 111, p. 589.

N. Y. Westchester & Boston RR.—*Higher Fare Denied.*
Supreme Court Justice William P. Burr has denied the application of the company for a writ of mandamus to direct the new Transit Commission to render a decision in connection with its application for permission to increase rates within the N. Y. City limits from 5 to 7 cents.—V. 112, p.2183.

Norfolk & Western Ry.—*Sub. Co's Bonds to be Paid.*—
All of the outstanding Columbus Connecting & Terminal RR. Co's 1st M. 5% bonds, naturing Jan. 1 1922, will be paid on and after Jan. 3 at the Metropolitan Trust Co., 120 Broadway, N. Y. City. See advertising pages in last week's "Chronicle."—V. 113, p. 1471.

Ohio Service Co.. New Phila., Pa.—*Service Discontinued.*
By a decision handed down by the Ohio P. U. Commission the company has been granted the right to abandon its railway service between Uhrichsville and Dennison on Jan. 1. The application was based on the grounds that the line is now being operated at a loss.—V. 105, p. 2273.

Ottawa Electric Ry.—*City to Vote Again.*—
The Citizens of Ottawa will vote Jan. 2 on (a) municipal ownership and operation; (b) another contract with the city; (c) service-at-cost. The present contract between the company and the city expires in Aug. 1923. —V. 113, p. 2313.

Pittsburgh Cincinnati Chicago & St. Louis RR.—*Directors Decide to Omit Semi-Annual Dividend of 2%.*—
The directors on Dec. 28 decided that, in view of the financial results of the past year, no dividend would be declared. On June 22 the directors decided to postpone action on the regular semi-annual dividend of 2%, usually paid about July 25. Dividends of 2% each have been paid semi-annually from July 1918 to Jan. 1921, inclusive.—V. 113, p. 1983.

Republic Railway & Light Co.—*Sub. Co. Fares Reduced.*
The company's subsidiary, the Youngstown Municipal Ry., has decided to reduce fares. Unlimited passes, good only for the week designated, are being issued at $1 25. See 5-page article, with map and graphs, in the "Electric Railway Journal," Dec. 24, pages 1104 to 1108.—V.113, p. 2506.

Rio Grande Southern RR.—*Default in Interest.*—
We have been officially informed that the directors have decided not to pay the Jan. 1 interest on the $2,277,000 1st Mtge. 4% bonds, due July 1 1940.—V. 112, p. 470.

St. Louis Southwestern Ry.—*Interest Payment, &c.*—
Interest on the 2d Mtge. 4% non-cumul. income bonds will be paid Jan. 1.
The minority preferred stockholders are reported to be organizing a committee to seek the restoration of dividend payments on the 5% non-cumulative preferred stock. The company has paid no dividends since April 1914.—V. 113, p. 1575, 534, 523.

San Antonio Public Service Co.—*Bonds Offered.*—
Halsey, Stuart & Co., Lehman Brothers and Goldman, Sachs & Co., New York, are offering at 98½ and int., to yield about 6.10%, $3,800,000 1st Mtge. & Ref. 30-Year 6% gold bonds, Series "A." (See advertising pages.)
Dated Jan. 1 1922. Due Jan. 1 1952. Interest payable J. & J. in New York without deduction for any Federal normal income tax not in excess of 2%. Denom. $1,000, $500 and $100 (c*). Red., all or part, on any int. date upon 60 days' notice at 110 from Jan. 1 1932 up to and incl. Jan. 1 1942 and at 105 thereafter to maturity, plus int. Penn. 4-mill tax refundable.

Data from Letter of V.-Pres. Alanson P. Lathrop, New Mork, Dec. 27.

Company.—Incorp. in Texas July 1917 and succeeded to San Antonio Gas & Electric Co. and San Antonio Traction Co. Company does entire electric light and power, gas and street railway business in San Antonio. Population estimated 180,000.

Capitalization After This Financing—	*Authorized.*	*Outstanding*
1st M. & Ref. gold 6s, Ser. "A" (this issue)	(x)	y$3,800,000
Prior lien 5% bonds, due 1949	(closed issues)	1,968,000
Preferred stock, 8% cumulative	$2,000,000	278,100
Common stock (all owned by Am. Lt. & Tr. Co.)	5,000,000	5,000,000

x Restricted by the provisions of the mortgage. y In addition, $732,000 of this series will be held in the treasury of the company.
Purpose.—Proceeds will be used to retire $2,641,000 1st & Consol. bonds, due Sept. 1 1967, to reimburse company for construction and improvements heretofore made, to provide funds for further construction and improvements to be made in 1922, and for other corporate purposes.
Property.—Owns 2 electric stations, combined rated capacity of 21,600 k.w. A modern sub-station has recently been completed and put in operation. There are 16½ miles of high-tension transmission lines, and the distribution system of over 330 miles of pole lines affords excellent service to its 28,638 consumers. Electric sales for 12 months ended Nov. 30 1921 amounted to 36,977,849 k.w.h. The gas plant has a daily generating capacity of 6,800,000 cu. ft. The gas, which is produced by the Lowe process, is distributed to 19,870 consumers through a distribution system of 239 miles. For 12 months ended Nov. 30 1921 gas sales amounted to 853,246,600 cu. ft.
The 92 miles of track owned cover practically the entire city. Rolling stock comprises 250 cars, 183 with electric equipment and 67 trail and work cars.

Earnings 12 Months ended November 30 1921.

Gross earnings	$4,497,933
Net after oper. exp., maintenance and taxes	982,036
Annual int. on 1st & Ref. and prior lien bonds requires	326,400
Balance for reserves, dividends and surplus	$655,637

The net earnings above are derived 54% from the sale of electric light and power, 28% from gas sales and 18% from street railways.—V.113,p.2615

Sewell Valley RR.—*Bonds Authorized.*—
The I. S. C. Commission, Dec. 19, authorized the company to issue $110,000 1st mtge. 5% gold bonds to be sold not at less than 86.667 and int., for the purpose of reimbursing T. W. Paine for advances, amounting to $65,000, made by him to the company for the purchase of 25 coal cars, and for the reimbursement in part of money expended from the company's treasury in the purchase of a locomotive.—V. 89, p. 44.

Southern Ry.—*Bonds Authorized.*—
The I. S. C. Commission, Dec. 19, authorized the company to procure authentication and delivery to its treasurer of $5,225,000 Develop. & gen. mtge. 4% gold bonds, to be held in the treasury until the further order of the Commission.—V. 113, p. 2615, 2466.

Steinway Ry., L. I. City.—*Jan. 1 Interest to Be Defaulted —Protective Committee.*—

The committee named below in a notice to the holders of the 1st Mtge. 6% 30-Year Gold bonds says in substance: At the request of a number of holders of the bonds we have consented to act as a committee for their protection. The committee is reliably informed that default in the interest due Jan. 1 1922 will be made, and that there will be a default in the payment of principal and interest when the bonds become due on July 1 1922. These facts, together with the necessary reorganization of the entire street railway situation in Greater New York, and the pending hearings before the Transit Commission, have satisfied the committee that there is urgent need for united representation and protection of these securities.

The holders are requested to deposit the same, with the coupon due Jan. 1 1922 and all subsequent coupons attached, with Metropolitan Trust Co., depositary, 120 Broadway, N. Y. City.

Committee.—Harold B. Thorne (Vice-Pres. Metropolitan Trust Co.), Chairman; Frank Coenen (with Finch & Tarbell, N. Y. City); Wm. Carnegie Ewen, N. Y. City, and Henry N. Flynt, N. Y. City, with James F. McNamara, 120 Broadway, N. Y., Sec., and Loucks, Griffin, Connet & Cullen, 120 Broadway, N. Y., counsel.—V. 63, p. 557.

Texas & Pacific RR.—*Decision Appealed.*—
See Missouri Pacific RR. above, and V. 113, p. 849, 1150, 2186.

Underground Electric Railways of London.—
The London "Statist" states that at meetings to be convened in the near future the stockholders of the companies forming the Under-ground group will be invited to alter to percentage basis, upon which the profits of the undertakings are re-allocated. Under the agreement established by the Act of 1905, all surplus receipts, after allowing for operating expenses, prior charges, depreciation, reserves and items of a similar nature, are pooled. The deficits, if any, being met out of the pool, the remainder is distributed in the agreed ratio among the five members.—V. 113, p. 2186.

United Railways Investment Co.—*Stricken from the List.*
The Phila. Stock Exchange on Dec. 20 struck off the regular list $123,000 1st Lien Coll. Trust 20-year 5% bonds, due 1926 (Pittsburgh issue), purchased since Nov. 2 1921 for account of the sinking fund, leaving the amount of said bonds listed at this date $14,444,000, and making a total of $3,706,000 of said bonds held in the sinking fund as of Dec. 17 1921.—V. 113, p. 2186.

Urbana & Champaign Ry., Gas & El. Co.—*Bonds.*—
The Illinois Commerce Commission has authorized the company to sell $49,000 Consol. & Ref. Mtge. bonds.—V. 109, p. 478.

Virginian Railway.—*Equipment Notes Offered.*—Lee, Higginson & Co., Kissel, Kinnicutt & Co., and White, Weld & Co., are offering, at prices to yield 5.80% for all maturities, $869,600 Equipment 6% Gold Notes, dated Jan. 15 1920. Due $108,700 annually Jan. 15 1928-1935. Red. on any interest date at 103 and interest.

These notes are a direct obligation of the company, secured by standard equipment consisting of 20 heavy mallet locomotives with tenders. Total purchase price of this equipment was $1,639,657.—V. 113, p. 1252.

Waterloo Cedar Falls & North. Ry.—*Seeks U. S. Loan.*
The company on Dec. 24 asked the I.-S. C. Commission for a Government loan of $381,347 for ten years, to settle indebtedness of the carrier with the Railroad Administration.—V. 113, p. 962.

West End Street Railway.—*Suit against State to Recover $160,000 in Excise Taxes Dismissed—Stock Tax Thus Avoided.*
The suit of the company against the Commonwealth of Massachusetts for recovery of $160,000 in excise taxes, which it was claimed were illegally exacted, has been dismissed. This suit, if it prevail, would have resulted in West End stock being subjected to taxation at local property rates.

The following letter, which Henry F. Long, State Tax Commissioner, sent to the tax assessors throughout the State, is self-explanatory:

"Under date of Dec. 9 1921, in consequence of advices just then received from the department of the Attorney-General, I communicated to you certain information relating to the stockholders of the West End Street Ry. Just now I am in receipt of a further letter from the department of the Attorney-General in which I am advised that in the matter of the pending petition of the West End Street Ry. vs. the Commonwealth, for the recovery of a franchise tax, a final decree has been entered dismissing the petition. I am further advised that 'in view of this fact it is clear that the assessments to the stockholders . . . should not be made and that the assessments which have been made should be abated.' Under these circumstances it is clearly my duty to notify you that the petition has been dismissed, and therefore, that the franchise taxes of the West End Street Ry. will stand.

"Such taxes as have been laid by your board pursuant to the provisions of Section 75, Chapter 59, General Laws, as a result of the infomation conveyed to you in my letter of the 9th instant, and which clearly came within the limitations of Sections 59 to 70 of said Chapter 59, may be considered for abatement upon the compliance of the persons assessed with the statutory provisions governing abatements."

$2,700,000 *Bonds Offered.*—Lee, Higginson & Co., Old Colony Trust Co., Jackson & Curtis and Edmunds Brothers, Boston, are offering at 102.15, to yield 5¾%, $2,700,000 5-Year 6¼% Gold bonds. The bankers state:

Dated Feb. 1 1922, due Feb. 1 1927. Bonds are the direct obligation of the company, ranking equally with other bonds, the entire funded debt aggregating $16,879,000, and are issued to refund a like amount of bonds which mature Feb. 1 1922.

Under the provisions of an Act passed in 1911, the Boston Elevated System will be consolidated with the West End Street Ry. on June 10 1922, and the former will assume and be responsible for all the indebtedness and liabilities of the latter.

Income Account of Boston Elevated System on Basis of Consolidation.

Cal. Year—	Gross Revenue.	Net Before Rentals.	Rentals & Int.
1919	$29,404,592	$4,752,741	$4,236,781
1920	33,750,863	7,119,527	4,508,936
1921 (Dec. est.)	33,200,000	8,071,523	4,627,800

The special Act of May 1918, placing the operation of the Boston Elevated System under the control of public trustees, provided that rates of fares be fixed that will insure sufficient income to meet operating expenses, taxes, interest on indebtedness and dividends, and in the event that income, and a special reserve fund, prove insufficient to meet all charges, then the Commonwealth of Massachusetts shall pay over to the trustees the deficiency.—V. 113, p. 2615.

White Pass & Yukon Ry.—*Earnings.*—
After charging interest on Prior Lien Debenture stock and on loans, the accounts for the year ending June 30 1921, show a loss of £17,385; deducting this amount from the £54,640 brought forward, there is left a balance of £37,255. From this there has been written off £27,109 for commissions and expenses under the scheme of arrangement, and of the issue of Prior Lien Debenture stock, leaving a balance at the credit of profit and loss account of £10,146. On June 30 1920, a loss of £13,206 was shown for the year, which reduced the credit balance to £54,641. (London "Stock Exchange Weekly Official Intelligence," Dec. 12.)—V. 111, p. 2521.

Wichita Falls Ranger & Ft. Worth RR.—*Receivership.*—
Frank L. Kech of Ardmore, President of the road and executor of the Hamon estate, and J. W. Mitchell of Fort Worth, were appointed receivers by Judge James C. Wilson of the U. S. District Court of the Northern District of Texas on Dec. 26 on the application of J. W. Meaney, a creditor, who is seeking a foreclosure of a contractor's lien on the road.—V. 112, p. 1145

INDUSTRIAL AND MISCELLANEOUS.

General Industrial and Public Utility News.—The following table summarizes recent industrial and public utility news of a general character, such as is commonly treated at length on preceding pages under the caption "Current Events and Discussions" (if not in the "Editorial Department"), either concurrently or as early as practicable after the matter becomes public.

Steel & Iron Prices, Wages, Etc.

New Iron Moulders' Wage.—International Iron Moulders' Union and the Stove Foundry's National Defense Association announce an agreement for a 10% reduction on stove plates and a 5% reduction on some classes of furnace work; this for piece work. For day work, the men continue at the minimum wage of $6 per day. The employers had asked for a 20% reduction on stove plates and 30% on furnace work. "Times" Dec. 25, p. 5.

STEEL AND IRON MARKETS.—"Iron Age" Dec. 29 says:

Outlook.—"Encouraging activity in pig iron in several centres marks the end of the year. In steel, the condition is a reduced demand accounted for by deferring of deliveries until after Jan. 1. The buying of pig iron has been at the expense of prices, but so far as that goes the year-end shows an average for steel prices not merely the lowest of the year, but lower than at any time since January 1916. The new year is promising at the outset chiefly in continued activity in construction lines, and also in a sustained demand for pipe and tin plate. By Jan. 15 a definite betterment in mill operations is expected, which is nothing to be wondered at, seeing that now operations generally average not over 30%.

Prices.—"Pig iron sales in the Philadelphia district in the past two weeks have amounted to 50,000 tons, and some of the tonnage went as low as $18, furnace, although most of it was sold at $19 to $19 50. On sales of fair volume in the Chicago market, prices receded 50c. and prices of Southern iron are down 50c., or to $17, Birmingham [against $38 Dec. 28 1920]. Lower prices have also been made in the Cleveland market.

"The immediate effect of the Steel Corporation's reduction of $5 a ton on wire products in the few days since it was made, on Dec. 21, has been to stop buying. Wire makers generally have met the price. Its reduction of $3 per ton in wire rods brings the corporation price to that which has been named for some weeks by independent producers.

"Tin plate makers do not expect to stock as much product as usual in the first quarter, can companies showing a disposition to anticipate needs and prices remaining firm.

"The prices on pipe, reduced Dec. 15, are holding well, but so little business is there in steel boiler tubes that an extra 5% is allowed by several of the smaller makers. Practically all charcoal boiler-tube plants suspended operations several weeks ago.

"Reinforcing bars from new steel have sold at a price corresponding to 1.45c., Pittsburgh, and some fabricators have covered plates, shapes and bars at an equivalent of 1.425c., Pittsburgh. Rivet prices of $1 a ton below the general market have been named."

The "Iron Age" finished steel composite price is now 2.062c. per lb. The pig iron figure, $18 68, is lower than any other for the year, with the sole exception of that ($18.51½) for Aug. 9. These two figures are the lowest since September 1916.

Railroad Orders.—"Little encouragement was given to the rail makers. Not only have few new orders been entered, but specifications against existing contracts are not supplied with much freedom, and a good deal of production is being stocked. The Erie has placed 7,000 tons with two mills, and the Kansas City Southern 6,000 tons, and fresh inquiries have appeared or are promised covering 67,500 tons, of which 50,000 tons is for the Louisville & Nashville.

Foreign Business.—"In comparison with the diminished scale of shipments on domestic orders, exporting is proportionately larger. Japan is largely responsible. On the record of the first 11 months of this year 64% of the steel sheets went to Japan. That country took more rails than any other country, probably buying 50,000 tons, and was third to Mexico and India in the absorption of welded pipe. It is now actively negotiating for 16,500 tons of rails, 13,000 of these for Government railways and the remainder for an electric railroad line.

"An American company will provide some $12,000,000 worth of machinery and equipment for removing a hill in Rio de Janeiro."

Comparison of Prices to Large Buyers ("Iron Age" Dec. 29, p. 1685).

	Dec. 27 1921.	Dec. 20 1921.	Nov. 29 1921.	Dec. 28 1920.
Per Gross Ton—

Furnace coke prompt, at oven	$2.75	$2.75	$2.75	$5.50

Coal Price Production, etc.

Anthracite Workers Declare for 20% Increase—Operators Demand Decrease.—30,000 are idle in fields. Collieries are closed down or run on part time. "No demand," is alleged. "Times" Dec. 25, sec. 2, p. 1.

Not to Confer on Wages.—The Southern Ohio Coal Exchange of Columbus, Ohio, comprising 70 coal operators and operating companies in the Hocking field, in Southern Ohio, has notified John L. Lewis, President of the United Mine Workers of America, in reply to his letter of Dec. 16 suggesting a conference, that in due time they "will propose a new scale for their employees that will not include the check off and which will eliminate the inequities placed upon this district." W. D. McKinney, Secretary of the Exchange, says this is not a blow aimed at unionized labor, but it means merely the withdrawal from the "four State agreement" under which coal operators of Western Pennsylvania, Indiana, Illinois and Ohio have been negotiating wage scales. Ohio operators are bound by the agreement until April 1, and will withdraw to deal independently with their men because of economic conditions.—"Times" Dec. 28, p. 26.

The Pittsburgh Coal Producers' Association has also declined Mr. Lewis's request for a conference as to the 2-year agreement expiring April 1, declaring they see "nothing beneficial to the public or the coal industry" in such a meeting. "Times" Dec. 30, p. 32.

Pea coal retail price cut in Boston by Metropolitan Coal Co. from $13 to $10 50 a ton, is the first cut in this size since April 1, prior to which time the price was $14 25. There is no warrant, local retailers state, for expecting any reduction in other sizes of anthracite.—"Bost. N. B." Dec. 28, p. 11

WEEKLY REVIEW.—"Coal Age," N. Y., Dec. 29, says in brief:

(1) *Bituminous Coal.*—"December production of bituminous coal the lowest at this season for many years, and prices on the spot market just about what the buyer offers, mark the end of a year's coal trade that can best be epitomized in the words of the old song "soft and low."

"In the Middle West they are saying that six weeks of real winter will be required to deplete the retailer's stock of coal and bring him into the market. The largest producer of domestic coal in Illinois has closed down, or will soon do so. Nothing unusual in the summer, but very unusual in the winter.

"'Coal Age' Index of spot prices of bituminous coal gained one point this week, going from 83 to 84. Definite suspension of production in even the non-union fields and the falling off in supply of fine coal consequent on diminished call for domestic sizes have pulled the steam market part way out of the hole.

"On Nov. 1 commercial consumers had a reserve of 47,000,000 tons, but since that time production has been less than consumption. The first of the year will see the removal of the war tax on freight. Coal men see in this the re-entry of the buyer in the market, at least to the extent to which he has depleted his reserve in the last sixty days. The trade also expects that caution will prompt consumers to anticipate any labor disturbance over the new wage scale by providing additional stocks in the interim. Retailers obtained only a slight increase of business from the recent colder weather. Retail yards are jammed with high-priced coal.

"New England trading is very ragged. Receipts by water and rail are now about equal, the latter being largely railroad contract fuel. Present rail rates are too far out of line to permit competition with water-borne coals. Marine houses are scratching for business, and 75-cent freights from Hampton Roads are not unlikely. Hampton Roads dumpings for all accounts were 286,862 net tons in the week ended Dec. 22, as compared with 256,327 in the preceding week. The recent cut in bunker prices has caused a slightly better demand, but many ships still prefer to coal up on the cheaper overseas markets. The Northwest is experiencing sub-zero temperatures, bringing a rush of small domestic orders, but industrial fuels are still sluggish.

Labor.—"Miners are extremely dissatisfied over working conditions, and in more than one section are making clandestine overtures to the operators, seeking lower rates and better working time.

Anthracite Coal.—"Anthracite production is falling off for the same reason as that of bituminous coal—the warm weather and overstocked bins in retail yards. Company prices are firm but independent prices are weakening, especially on the less-favored family sizes.

"The recent spell of cold weather saved the anthracite market from going absolutely flat. Price cuts are appearing in the retail centres, in Philadel-

phia the eagerness to obtain orders causing the waiving of carrying charges. The companies are running heavily to storage and are also cutting down their working time. Independent quotations have softened further as an alternative to closing down. The steam sizes are in slightly better position, but are still extremely difficult to move.

Estimates of Production, Net Tons—U. S. Geological Survey.

Week ended—	Bituminous Coal 1921.	Bituminous Coal 1920.	Anthracite Coal 1921.	Anthracite Coal 1920.	Beehive Coke 1921.	Beehive Coke 1920.
Dec. 3.b	7,105,000	12,812,000	1,845,000	2,070,000	114,000	375,000

a Subject to revision. *b* Revised from last report.

Oil Prices, Production, etc.

Crude Oil and Refined Production, &c.—See "Trade and Traffic."

Record Production of Crude.—The American Petroleum Institute estimates that the daily average gross crude oil production in the United States for the week ended Dec. 24 was 1,380,450 bbls. [said to be a new record], as compared with 1,359,105 bbls. for the preceding week and 1,248,825 in '20 "Times" Dec. 25, sec. 2, p. 8, and series of articles in recent Boston, N. B.

Standard Oil Values Up to $3,276,027,243.—Quadrupled in the decade since the Supreme Court ordered dissolution. Dividends of $1,833,066,1[illegible]6

Standard Oil increases hours at Bayonne, N. J. to 48 hours a week. Plant to operate on full time. Heretofore the married men worked 44½ hours a week and single men 40 hours. Between 4,000 and 4,500 are employed. "Times" Dec. 25, sec. 1, p. 12.

Mexican Oil Deadlock.—Bankers and Government unable to agree on two points as to taxation. "Times" Dec. 28, p. 14. Conflicting reports are current as to possible extension of time for payments.

Gasoline Price Cut in West.—Continental Oil Co., the Standard Oil marketing concern in the Rocky Mountain territory, has reduced the price of gasoline 1½ cents a gallon to 21 cents wholesale, as a result of a similar cut by Midwest Refining Co. "Wall St. J." Dec. 27, p. 1.

Other Trade Matters, Prices, Wages, etc.

Prices.—The Federal Sugar Refining Co. Dec. 29 reduced its price for refined sugar to 4.80c. a lb., a new low record for 1921. The raw sugar market established a new record for the year on Wednesday at about 1¾c. (c.&f.) for January shipment. "Fin. Am." Dec. 30, p. 5.

Local crushers have advanced their prices for linseed oil to the basis of 69c. a barrel in car lots for January-April shipment.

N. Y. Meat Prices Drop Despite the Strike.—First prospects of shortage cause sharp advance, but big receipts bring slump. 50% cut in pork. "Times" Dec. 25, Sec. 2, p. 1.

Cadillac and Buick Cut Spring Prices.—See General Motors Corperations below and "Times" Dec. 25, sec. 2, p. 1.

Hudson Motor Car Co. Also Cuts Prices Effective Dec. 24.—Hudson coupe by $200, sedan $245, touring limousine $200. Essex touring car $100 coach $150 and sedan $100. "Times" Dec. 24, p. 19.

Prices have also been cut by the Nash, Paige, General Motors Truck and Handley-Knight Motors cos. "Wall St. Jour." Dec. 29, p. 5.

Copper Surplus Going—Resumption of Mining Proposed in January by North Butte, Davis-Daly and Tuolumne Co's in Butte Dist., Mont.—"Wall St. Journal" Dec. 30; "Times" Dec. 24, p. 15.

Ship Prices Are Lower.—Cargo vessels being sold in Engla[illegible] at prewar figures. "Times" Dec. 25, sec. 2, p. 10.

St. Louis Carpenters' District Council, representing about 3,000 craftsmen, announce rejection of 20% wage reduction. The present wage is $1.25 an hour. "Times" Dec. 25, sec. 2, p. 1.

N. Y. Hat Milliners' Wage Cut.—Dr. J. L. Magnes's decision reduces the wages of all millinery workers employed by the Ladies' Hat Manufacturers' Protective Association on a piecework basis 15%, and for week workers earning over $28, 10%. The employers originally asked for a 20% reduction. "Times" Dec. 26, p. 21; Dec. 28, p. 17.

Philadelphia Builders Agree for 1922 on Wage Scale Now in Force.—"Times, Dec. 25, sec. 8, p. 1.

Government Cuts Wages 10% in Amory at Springfield, Mass.—"Times" Dec. 25, sec. 8, p. 13.

Packing Strike Status.—Packers assert plants are at capacity, but unions put it at 12%. "Times" Dec. 25, sec. 1, p. 12.

Fourteen St. Louis Packers Announce Adoption of Open Shop.—"Times" Dec. 24, p. 12.

Striking Butchers Arraign Attorney General for Ignoring Their Profiteering Charges Against Packers.—"Times" Dec. 24, p. 12.

Factory Wages Drop 15% in N. Y. State Compared with November 1920. —"Times" Dec. 25, sec. 2, p. 1.

12,000 *Fewer Idle in N. Y. City Now Than on Oct.* 15.—Merchants' canvass shows 331,000 out of work here outside of floating element. "Times' Dec. 27,, p. 20.

Pulpwood Prices .—The "Financial Post" of Toronto, has a communication from Bury, Quebec, stating that there are thousands of cords of pulpwood being offered at that point at around $13 a cord on the car peeled, (as against the recently reported price of $20).

Strike in New York Cut Dairymen's Price from $2 52 *to* $2 42 *Net Per* 100 *Pounds for November Milk.*—151,111,025 lbs. of milk were handled; sales $6,179,078. "Times" Dec. 28, p. 80.

Untermyer's Plan Accepted by Unions.—N. Y. building trades council delegates unanimous for new agreement to settle dispute. 25,000 others approve. "Times" Dec. 28, p. 1.

Untermyer Asked to Stop Violence in N. Y. Cloak and Suit Strike.—Designers appeal to strikers' counsel to protect them. "Times" Dec. 28, p. 8.

Truckmen & Dock Workers' Strike Congests Freight at Havana.—"Times" Dec. 28, p. 4.

Motor Company Records in 1921.—"Boston N. B." Dec. 28, p. 6.

New Rich Silver Mines Opened Up In Yukon.—Ore vein in one shaft is reported as 4 feet wide at a depth of 150 feet. "Sun" Dec. 27, p. 17.

Power Shortage Causes Shutdown in N.W. Nevada.—Northwestern Nevada is experiencing the worst power shortage in its history, due to exceptionally dry winter and freezing temperatures. With suspension of mining at Virginia City and Gold Hill, elevators at a standstill throughout Reno, &c. "San Fran. N. B." Dec. 21, p. 3.

High Labor Cuts Japan's Exports.—Working folk insist on war time wage. Living costs still mount. Merchants demanding profit refuse to take readjustment loss. "Sun" Dec. 27, p. 15.

Legal Matters, Legislation, Taxation, etc.

May Modify Packers' Decree.—Beginning Jan. 12 final arguments will be started on the proposal to modify the packers' "consent" decision. "Fin. Am." Dec. 26, p. 1.

New Tax Law Aids Copper Companies.—Exemption from excess profits back to 1917 means refunds, says Eisner. "Times" Dec. 25, Sec. 2, p. 11.

Increased Duties Asked by Lace, Film and Glove Makers. "Times" Dec. 24, p. 15.

Retail Clothiers Insist Their Prices Are Not "Unconscionable." National Association of Retail Clothiers, in a letter to Attorney General Daugherty, deny his recent assertion that retail dealers' profits were unconscionable and that they have an understanding which tends to keep prices high. On behalf of 6,000 clothing dealers in their association, they insist "They have taken huge inventory losses and, in general, clothing today is being sold at retail at a much smaller percentage of profit than ever before." "Times Dec. 25, Sec. 2, p. 11.

Western New York Growers Federated Into a Central Co-operative Association.—Aim to market products under title of Western New York Fruit Growers' Co-operative Packing Association, Inc., with main quarters at Rochester. "Times" Dec. 25, Sec. 2, p. 11.

Union Plasterers Agree to Abolish Abuses as Demanded by Lockwood Committee.—"Times" Dec. 24, p. 12.

Carbon Electrode Has Undergone Astounding Evolution in Size.—Weight up to 1 ton.—A. T. Hinckley, Engineer National Carbon Company, Inc.—"Electrical World" Dec. 24, p. 1261, and 1263 to 1266.

Proposed California Power Act Denounced.—L. H. Roseberry, Vice-Pres. Security Trust & Sav. Bank, Los Angeles. "El. World" Dec. 24, p. 1292.

Colorado River Commission.—Secretary Hoover, Chairman.—To consider power and irrigation possibilities in 7 States. These are Calif., Ariz., Nev., Utah, Colo., Wyo. and Mont. "El. World" Dec. 24, p. 1292.

44 *Die,* 100 *Hurt in Southern Storm.*—Property loss a million in Eastern Arkansas, Northern Mississippi and Louisiana. "Times Dec. 25, p. 1.

Canada Opens Chippewa-Queenston Power Plant.—In progress since 1914. Cost about $65,000,000. An additional $15,000,000 will be required to complete installation of the ten-unit generating machinery. "Times" Dec. 25, Sec. 2, p. 8; Dec. 29, p. 14.

Italy Faces Crisis in Textile Business.—Heavy supplies on hand. Factories average three days a week. "Fin. Am." Dec. 24, p. 5.

Attorney-General Daugherty Asks State Aid in Fighting Retail Price War.—"Times" Dec. 28, p. 1; Dec. 29, p. 7; Dec. 30, p. 21.

Film Producers Ask Double Tariff Duty.—More protection also wanted for hard rubber goods, beeswax, gas mantles and church statuary.—"Times" Dec. 28, p. 7.

Industrial Matters Covered in "Chronicle" of Dec. 24. (a) Foreign government bond issues in 1921. List compiled by Securities Department of the American Express Co., p. 2663. (b) Advances approved by the War Finance Corporation from Dec. 15 to 21, p. 2667. (c) Pool formed to aid live stock industry ceases functioning, p. 2667.

(d) Injunction restrains out-door operations of outside curb market, p. 2672. (e) Hollister, White & Co., indictment, p. 2672. (f) J. Ellis Barker on capital's share in industry, p. 2677.

(g) Decrease in wholesale prices of commodities in November, p. 2679. (h) Decrease in retail prices of food ,p. 2679. (i) Comparison of employment and wages in selected industries in November, 1921, and 1920, p. 2679.

(j) Cuban decree dissolving sugar finance commission, p. 2680. (k) Bill to protect Brazilian coffee, p. 2680. (l) Russian relief bill signed by President Harding, p. 2681.

(m) "Has Mexico an Oil Future?" p. 2681.

Agar Packing Co., Inc., Chicago.—*Repurchases Plant.*—
The company has purchased from the William Davies Co., Inc., the block bounded by Fortieth and Forty-first Sts. and Lowe and Union Aves., Chicago, for an indicated $1,000,000, the purchasers giving a mortgage of $350,000 to Fort Dearborn Trust & Savings Bank, trustee, for 10 years at 8%. The Agar Company, then operating as the John Agar Company, sold the plant to the Davies Company in 1919 (V. 109, p. 2267) taking stock in the purchasing corporation as part payment. Now they have reorganized and bought back this plant, making payment with stock, which is valued at $1,250,000 (Chicago "Economist").

Alaska Coke & Coal Co.—*Transfer Agent.*—
The Columbia Trust Co. has been designated Transfer Agent of an issue of $2,500,000 Common stock (par $1; $2,000,000 outstanding).—V. 113, p. 1985.

Alaska Refrigerator Co.—*Bonds Offered.*—
Howe, Snow, Corrigan & Bertles, Detroit, are offering at price to yield 7¼% for any maturity $300,000 1st Mtge. 7% Serial Gold bonds dated Dec. 1 1921. Authorized, $350,000. Int. payable J. & D. at office of Michigan Trust Co., trustee. Company agrees to pay normal Federal income tax not to exceed 2%. Red. all or part on 40 days' notice at 103. Denom. $100, $500 and $1,000 (c*). Bonds mature $30,000 annually, Dec. 1 1923 to Dec. 1 1932 incl.

Company.—Established 43 years ago in Michigan City, Ind., operating there until 1890, and since that date at Muskegon Heights, where it has now manufactured refrigerators for more than 30 years.

Purpose.—For additional working capital and to reduce outstanding debt.

Earnings.—From average annual sale of $405,000 for 20 years prior to 1916, company's sales have increased to $1,500,000 for the fiscal year 1919-1920. Average net profit for past 4 years, after Federal taxes and after inventory adjustments, was 3 times the amount necessary to meet maximum interest requirements of this issue. E. B. W. Cunningham, President.

Allied Packers, Inc.—*Plan.*—
The stockholders will vote Jan. 12 on the proposed reduction in stock and on the amendment to the charter contemplated under the readjustment plan. It is expected that the new securities will be ready for delivery to the depositors under the readjustment plan about the middle of January.

The company has executed to the Central Union Trust Co., New York, as trustee, its first mortgage and deed of trust in accordance with the plan. V. 113, p. 2724, 2408.

Alliance Realty Co.—*Extra Dividend.*—
The company has declared an extra dividend of ½ of 1% on the outstanding $2,000,000 Capital stock, par $100, in addition to the usual quarterly dividend of 2%, both payable Jan. 17 to holders of record Jan. 9.

A dividend of 2% was paid in July and October last, as compared with 6% per annum (1½% quarterly) paid from 1915 to April 1921, inclusive.—V. 113, p. 296, 73.

Amalgamated Sugar Co.—*New Directors.*—
H. R. Smoot, E. B. Palmer and E. L. Burton of Salt Lake City, Utah, Arthur H. Bosworth of Denver, Colo., and G. L. Becker of Ogden, Utah, have been elected directors. These represent the Preferred stockholders. —V. 113, p. 2617.

American Brass Co.—*Offer by Anaconda Copper Mining Co. to Acquire Stock—Terms of Acquisition, Balance Sheet, etc.*
See Anaconda Copper Mining Co. below and V. 113, p. 2724.

American Glue Co.—*Quarterly Dividend of 2%.*—
The company has declared a regular quarterly dividend of 2% on the Preferred stock, payable Feb. 1 to holders of record Jan. 20. Previously the company had been paying semi-annual dividends of 4%. The stockholders on Dec. 16 approved of the change whereby dividends on the Preferred will be declared quarterly instead of semi-annually.—V. 113, p. 2724.

American Ice Co.—*Dividend—Annual Report.*—
The company has declared a quarterly dividend of 1¾% on the Common stock and the regular quarterly dividend of 1½% on the Preferred, both payable Jan. 25 to holders of record Jan. 10. In Oct. last a dividend of 1¾% was paid on the Common stock, but announcement was made at that time that this was done to bring the amount paid for 1921 up to 6%.

The company will retire the remaining $307,000 Coll. Trust bonds at or before maturity April 1 1922.

See annual report under "Financial Reports" above.—V. 113, p. 1474.

American Motors Corp. of Va.—*Creditors' Committee.*—
Creditors of this corporation with factory plant in Plainfield, N. J., have appointed R. H. Ismon of American Motor Body Co., which has a claim of $148,000; George T. Rowland of the William Harvey Rowland Co, a creditor in the amount of $66,000, and Samuel M. Hollander, Newark, counsel for the Fisk Rubber Co. of Chicopee Falls, Mass., which has a claim of $30,000 to represent them in negotiations with interests that are seeking to acquire the plant, etc. of the company. Receivers were appointed in Sept. last.—V. 113, p. 1159.

American Public Service Co.—*Sub. Co. Operations.*—
Operation of the Abilene Street Ry. system has been resumed by the company under a new agreement with the city of Abilene.—V. 113, p. 852.

American Rolling Mill Co.—*Acquisition.*—
See Ashland Iron & Mining Co. below.—V. 113, p. 2617.

American Screw Co.—*Extra Dividend of 1%.*—
An extra dividend of 1% has been declared on the capital stock in addition to the regular quarterly of 1¾%, both payable Jan. 3 ot holders of record Dec. 24. In January, 1921, an extra dividend of 6½% was paid, compared with 1½% extra in July 1920, 6½% extra in Jan. 1920 and 1½% extra in July 1919.—V. 112, p. 1401.

American Sugar Refining Co.—*Corporation Being Formed to Handle 1,000,000 Tons Unsold.*—
Earl D. Babst, Pres., Dec. 17, admitted that a corporation is being formed to take over a large part of the 1,000,000 tons of Cuban sugar remaining unsold from the crop of the past season. The corporation will be similar to the Copper Export Association which took over 400,000,000 pounds of surplus copper holdings early in the year. There will be no public offering of securities in connection with the proposed sugar corporation. (N. Y. "Times" Dec. 18).

Decision in Suit for Breach of Contract—Listing.—
President Earl D. Babst on Dec. 22 says in substance: "It has been incorrectly reported that under the decision Dec. 21 in the suit of the Franklin Sugar Refining Co. a [subsidiary of the American Sugar Refining Co.] against Samuel Howell in Common Pleas Court No. 4 at Philadelphia, the court fixed a half-way price with respect to the sugar in dispute. On the contrary, under the unanimous decision of the three judges we recovered the full amount claimed: that is the difference between the contract price of 22½c. per lb. for 150 bbls. of sugar which Mr. Howell refused to accept under a 1920 contract minus the market price of 8c. per lb. prevailing at

the time this suit was commenced. The net result is that the defendant must pay 14½c. per lb. for having breached this contract and the refining company is to retain the sugar."

The New York Stock Exchange has admitted to the list $30,000,000 15 year 6% gold bonds, due Jan. 1 1937, "when issued." See offering in V. 113, p. 2724.

American Type Founders Co.—*Subsidiary Co. Report.*—See Barnhardt Bros. & Spindler under "Financial Reports".—V. 113, p. 2717.—V. 113, p. 1981.

American Wholesale Corp.—*October Sales.*—

1921—October—1920.	Increase.	1921—10 Mos.—1920.	Decrease.
$3,461,395 $2,527,529	$933,866	$30,324,551 $33,984,294	$3,659,743

—V. 113, p. 2508, 1577.

American Woolen Co.—*Wages.*—

President William M. Wood says in substance: "It is true that just now things do not look altogether bright. We cannot foresee the future, but we at this time can see no reason for a reduction, and our directors believe we can maintain the present wages for the coming season."—V. 113, p. 2617, 1775.

American Writing Paper Co.—*Reopens Mill.*—

The company's Oakland mill has been reopened after having been closed down for a year. The mill, it is said, has orders on hand to keep it busy for some time.—V. 113, p. 1775.

Anaconda Copper Mining Co.—*Additional Data Regarding Acquisition of American Brass Co.*—In last week's "Chronicle," page 2725, we gave details from the official circular in connection with the proposed acquisition of at least a majority of the capital stock of American Brass Co. by the Anaconda Copper Mining Co. The circular to the shareholders, signed by John D. Ryan, Chairman, and Cornelius F. Kelley, Pres., further says in substance:

Principal Reasons for Acquisition of the American Brass Company.

In presenting for your information and consideration the important transaction in which your company is now engaged in undertaking to acquire not less than a majority of all outstanding stock of the American Brass Co., it is important that you should be fully advised as to the reasons which, in the judgment of the directors, make the acquisition of said stock a desirable transaction, and which have influenced the decision to authorize its purchase.

Company Has Passed Through Trying Time.—You are familiar with the status of the copper industry, and the particularly trying time through which this company, as a producer of copper and zinc, in common with all other producers, has passed during the last three years. The causes which led to the profound depression in the copper business are well understood.

Financial Stability Threatened.—The great increase in productive capacity of the country and the world, in both copper and zinc, together with the dislocation of the industry, caused by the intensive effort made during the war period to produce copper for munition purposes, brought about a situation which seriously threatened the financial stability of most of the large producers of copper and zinc, including that of your company.

Necessity of Manufacturing and Fabricating Plants Apparent.—For several years past it has been increasingly apparent to the officers that in order to place the business upon a sound foundation, it would be necessary for the company to acquire manufacturing and fabricating plants, through which the product of the company in refined copper and zinc might find an outlet to the various industries which utilize such products in their respective lines of manufacture and distribution.

Business Lacked Stabilizing Influences.—It has been a growing conviction of the officers that the large investment required to carry on the business of mining, smelting and refining copper and zinc was inadequately protected, and the business lacked a stabilizing influence so long as the producers could not reach out to the ultimate consumers of their product and take the steps which it is believed necessarily must be taken if the copper producers are to meet the competitive effort of the producers of other metals in marketing and distributing the same. The initial result of this conviction was the establishment of the wire mill at Great Falls. The results achieved have demonstrated the wisdom of this step. Since the beginning of the operations of the wire mill at Great Falls, on June 9 1918, to the end of the current year, with Dec. estimated, the wire mill has drawn into rods and copper wire a total of 166,000,000 lbs. of copper, which have been distributed at a manufacturing net profit of $850,000; the total investment having been $1,057,730, reduced to $885,000 after allowing for depreciation.

Necessity for Outlets for Production Emphasized.—When it became necessary last Feb. to take the forced steps to shut down all of the mines of this company, as did also most of the other large producers on the hemisphere, the necessity for acquiring such outlets for production was emphasized by the fact that the production of the wire mill was sold ahead for many months, so that during practically the entire period of the shutdown, it has been able to continue the manufacturing and sale of rods and wire at a substantial manufacturing profit.

Officers Undertook Intensive Study of Manufacturing and Fabricating Situation in United States.

About this time the officers undertook an intensive study of the manufacturing and fabricating situation in the United States. An enumeration of the various plants engaged in such business, their geographical position with reference to facility for distribution, capacity for using metal, and general financial condition, was closely studied. Two propositions developed from this study:

1. That there were engaged in the United States, in the business of manufacturing and fabricating copper products from raw material, about 32 concerns of sufficient importance to be taken into consideration, and that the total capacity of the plants owned by the above companies exceeded annually an output of 1,800,000,000 lbs. of copper. As this capacity was considerably more than twice as much as had ever been required by the United States in pre-war years, and probably 80% more than has been required during the comparatively busy years, in the United States, of 1919 and 1920, respectively, and moreover, as it was found that a good many of the plants were well situated for distribution, modern in construction and therefore could meet business requirements as well as plants which could be constructed, it became apparent that further building of plants would merely add to an already over-constructed mill capacity, and that an effort in this direction by your company would result in adding demoralization rather than stabilization to the situation.

2. The other proposition that became apparent was that the American Brass Co. dominated the manufacturing and fabricating situation in copper and brass.

American Brass Co.—General Statement of Affairs, &c.

This company, with a good organization, the result of a consolidation of interests which have been active in copper and brass manufacture from its beginning in the United States, and with well-constructed plants, located at Ansonia, Waterbury and Torrington, Conn., Kenosha, Wis., and Buffalo, N. Y., having a capacity equaling approximately 40% of the total copper and brass manufacturing business of the United States, and which in volume, upon a normal basis, would utilize the maximum production of copper and zinc capable of being made by this company, seemed to be in such a position of strength, that the undertaking of negotiations for the purpose of determining whether or not it was possible to secure the American Bress Co., or a control of its stock for this company, became the objective efforts of the officers of your company.

The American Brass Co. is a consolidation in 1912 of Ansonia Brass & Copper Co., Benedict & Burnham Mfg. Co., Coe Brass Mfg. Co., Waterbury Brass Co., Chicago Brass Co. and Holmes, Booth & Haydens Co. The Buffalo Copper & Brass Rolling Mills was acquired in 1917.

The company has an authorized capital of $15,000,000, par $100 each. The stock is largely held in substantial blocks by persons who have been identified with the company and its predecessors in interest for many years.

During the 20 years ending Dec. 31 1920, the brass company earned a gross profit of $78,155,255, against which was charged depreciation, &c., to yield a net profit of $53,768,329; or, expressed in dollars per share, a gross profit of $547 36, net profit $377 54, or an average per year, respectively, of $27 37 and $18 88.

Grouped in 5-year periods, earnings averaged $13 38 for the five years ending 1905; $13 65 for the five years ending 1910; $22 76 for the five years ending 1915; and $59 68 for the five years, including war period, ending Dec. 31 1920.

Having become convinced that the desirable course to pursue, in view of the above situation, was to endeavor to acquire a control of the American Brass Co., rather than to add demoralization to the situation by undertaking to become its competitor or to place this company in a position where it would be boycotted by other consumers and fabricators during the period of its attempt to build a fabricating business or through the acquisition of plants of more limited capacity, an experience which followed to some extent the entrance of this company into the wire business at Great Falls, it was decided to undertake negotiations along the foregoing line.

In addition to the plant value the company had on hand, as of Dec. 31 1920, liquid assets totaling $29,010,571.

It has been manifestly impossible to take a complete inventory and make a complete audit of the books as of a later date; but there is exhibited below a statement prepared by Price, Waterhouse & Co., showing the book condition as of Sept. 30 1921. This statement shows a total of $24,335,177 in liquid assets. The plant value, upon the basis of the offer which it proposed to make, represents $20,664,823. Good. will, patents, &c., constituting the intangible assets, are carried at only $1,000.

Direct and Indirect Advantages of Acquisition Considered.

In addition to the direct advantages and elements of value embraced in this situation, the indirect beneficial results that would inure to the benefit of the Anaconda Co. have been considered.

As an illustration, during the present year, because of the inability of the Anaconda Co. to market its copper and zinc output, the necessity was forced upon it to suspend operations, which it is estimated will cost $6,000,000.

During this same period the plants of the Brass company have been operating upon a basis which, with the quota of Anaconda Co. of the sales of the Copper Export Association, would have enabled the Anaconda Co. to have produced 20,000,000 lbs. of copper and at least 4,000,000 lbs. of zinc per month during the entire period of the shutdown, without any accumulation of metal stocks. This would have enabled your company to have avoided the necessity for closing its plants, and resulted in the saving of the above shutdown expense, and would have been a stabilizing factor to the entire copper industry.

Comparative Balance Sheet of American Brass Co.

	Dec. 31 '20	Sept. 30 '21		Dec. 31'20.	Sept. 30'21
Assets—	$	$	*Assets (Concl.)*—	$	$

x Real estate, machinery and tools at beginning of 1921, $19,420,730; expended for permanent improvements during 9 months, $2,632,406; total, $21,453,136; less charged off for depreciation, $750,000; balance, $20,703,135.

For terms of issuance of Anaconda stock, subscriptions, &c., and earnings of American Brass Co., see V. 113, p. 2725.

Ashland Iron & Mining Co.—*Sells to Am. Rolling Mill.*

A press despatch from Ashland, Ky., states that the stockholders, Dec. 21 voted to accept the offer of the American Rolling Mill Co., Middletown, O., to buy the entire holdings of the Mining company, including the Ashland Coal & Iron RR. and many acres of coal land along its line. The basis is that stockholders of the Mining company will sell its assets to the American company for 39,875 shares of common stock of the rolling mill, which when received shall be held in the corporate treasury of the Ashland company until Oct. 1 1923. Meanwhile, and ultimately, the stockholders of the Mining company are entitled to one share of par value of $25 of common stock of American Rolling Mills for two and a half shares (total par value $125) stock of the Mining company. See V. 113, p. 2617.

Associated Oil Co., California.—*Tenders.*—

The Union Trust Co. of San Francisco, trustee, will until noon Jan. 16 1921 receive bids for the sale to it of First Ref. Mtge. 5% gold bonds of 1910 at not exceeding par and int., to an amount sufficient to exhaust $922,111 now in the sinking fund.—V. 113, p. 964.

Atlantic City (N. J.) Gas Co.—*Agreement Expires.*—

J. M. Johnston, Sec. of the protective committee for the 1st mtge. 5%, dated Jan. 1 1910, has notified the holders of certificates of deposit issued by Girard Trust Co. that the first mortgage 5% bonds agreement, dated June 28 1918, has been terminated. Holders of certificates of deposit will be entitled to receive back their bonds upon surrender for cancellation of the certificates of deposit and upon payment of their proportion of the expenses incurred up to the date of the termination of the agreement.—V. 111, p. 1371.

Atlantic Gulf & West Indies S. S. Lines.—*Officers, etc.*

R. F. Hoyt has been elected 1st Vice-President and C. N. Wonacott as 2nd Vice-President and Secretary. George P. Dyer, Vice-President of the Atlantic Gulf Oil Co. has been elected a director.—V. 113, p. 1775, 1678.

Atlas Powder Co.—*Permanent Bonds Ready.*—

Temporary 15-year 7½% Conv. gold bonds, dated Aug. 1 1921, may now be exchanged for permanent engraved bonds on and after Jan. 3 1922, at the New York Trust Co., trustee, 100 Broadway, N. Y. City. (See offering in V. 113, p. 420.)—V. 113, p. 2408.

Autosales Corporation.—*Listing—Earnings.*—

The N. Y. Stock Exchange has authorized the listing on or after Dec. 31 of $111,168 additional 6% Non-cum. Partic. Pref. stock, par $50, on official notice of the issuance thereof as a 4% stock dividend, payable to holders of Pref. stock Dec. 31 to holders of record Dec. 16, making the total applied for $2,886,719. Of the amount hereby applied for, $141 75 is to be issued to provide sufficient additional shares to complete the payment of the 4½% stock dividend declared on Nov. 29 1920, in respect of which a deficiency of $141 75 existed on account of a clerical error.

The output from Nov. 1 1920 to Nov. 1 1921 is $2,147,823, and the estimate for Nov. and Dec. 1921 is $293,154, making an estimated total for the current year of $2,050,105.

Income Account Autosales Corporation, 10 Months ending Oct. 31 1921.

Gross collections	$1,756,951
Operating expenses	1,606,747
Reserve and extraordinary expenses incurred during the year	71,155
Net income	$79,050
Income credits	23,462
Net operating profit before 1921 Federal taxes	$102,511

It is estimated that Federal taxes for 1921 will amount to approximately $20,000.—V. 113, p. 2408.

Baldwin Locomotive Works.—*Shut Down—Business.*—

Most of the shops have been shut down until Jan. 3. Before sailing for Europe on Dec. 14 President Samuel M. Vauclain said company had $10,000,000 unfilled business on its books, sufficient to run plant at 30% of capacity through the first quarter of 1922—"Phila. New Bureau" Dec. 27.

The company during the present year, according to Philadelphia reports, built 964 new locomotives compared with 1,534 new locomotives last year. The company also repaired 214 locomotives this year.—V. 113, p. 2508.

Baltimore Dry Docks & Shipbuilding Co.—*Purchase.*

See Bethlehem Shipbuilding Corp., Ltd., below.—V. 113, p. 1577.

Barnet Leather Co., Inc.—*New President, &c.*—

Sylvan M. Barnet has been appointed President to succeed the late Morris S. Barnet. Sigmund Rothschild has been elected First Vice-President.—V. 113, p. 1775.

Bessemer Limestone & Cement Co.—*Capital Increased.*

The company on Dec. 21 filed a certificate with the Secretary of State at Columbus, Ohio, increasing the Common stock from $1,500,000 to $2,500,000. See also V. 113, p. 2725, 2188.

Bethlehem Motors Corp., Allentown, Pa.—*Sale.*—

Clinton E. Woods, receiver, it is stated, is developing plans for a sale of the property. It is said that an offer of $400,000 has been made for the

plant and equipment, with a creditors' committee asking not less than $750,000 for the property.—V. 112, p. 1870, 1744.

Bethlehem Shipbuilding Corp., Ltd.—*Mortgage.*—
Arrangements have been made, it is stated, whereby the company will mortgage the properties of the Baltimore Dry Docks & Shipbuilding Co., which it purchased last Sept. The purchase price of $2,750,000 is to be covered by an issue of 15-year 5½% bonds secured by mortgage on the property of the Dry Docks company and guaranteed by the Bethlehem Steel Corp. The Bethlehem Shipbuilding Corp. also provides for the $230,000 bonds now outstanding on the property of the Dry Docks Co.
The sale to the Bethlehem Shipbuilding Corp. covers the three plants of the Baltimore company known as the upper plant, the lower plant and the south plant, including all real estate, buildings, tools, equipment and inventory, and also one uncompleted 6,000-ton oil tanker steamship on the ways at the lower plant and one 10,300-ton oil tanker steamship recently launched from the south plant. (Baltimore "Sun.")—V. 113, p. 1577.

Boston Cape Cod & N. Y. Canal Co.—*Purchase.*—
Purchase by the Federal Government of Cape Cod Canal was recommended Dec. 12 by Secretaries Weeks, Denby and Hoover, who informed Congress that $11,500,000 would be a "reasonable price for the property."
Of the $11,500,000 purchase price, $5,500,000 would be in cash, with the Government assuming $6,000,000 in bonds now outstanding. Included in the purchase would be 932 acres of land owned by the Cape Cod Construction Co. Chairman Winslow of the House Commerce Committee has introduced a bill authorizing the purchase of the canal property for $11,500,000.—V. 112, p. 2752.

Brooklyn Edison Co.—*Securities Authorized.*—
The stockholders Dec. 28 authorized an increase in the capital stock from $19,000,000 to $30,000,000. The stockholders also authorized the issuance of not exceeding $10,000,000 debenture bonds to be issued in one or more series. These debentures will be convertible into capital stock of the company and their issuance will be for the purpose of reimbursing the treasury for expenditures.
Application is to be made to the Public Service Commission for authority to issue either the capital stock or the debenture bonds.—V. 113, p. 2618.

Burns Brothers.—*Stock Listed.*—
The Governing Committee of the New York Stock Exchange has admitted to the list the following securities to be traded in on a "when issued" basis: $1,292,000 new 7% cumulative prior preference stock, $3,000,000 new 7% cumulative preferred stock; 80,944 shares of new Class A common stock, without nominal or par value, and 80,940 shares of new Class B common stock, without nominal or par value.—V. 113, p. 2725.

Bush Terminal Co.—*Usual Stock Dividend.*—
The regular semi-annual cash dividend of 2½% and a stock dividend of 2½% have been declared on the outstanding Common stock, par $100, payable Jan. 15 to holders of record Jan. 6. Special dividends of 2½% each in Common stock have been paid semi-annually on the Common shares since Jan. 1916.—V. 113, p. 297.

California & Hawaiian Sugar Refin. Corp.—*Loss, &c.*
"Notwithstanding the fact that the corporation, owned by sugar plantation companies of Hawaii, boasts that its refinery at Crockett, Cal., is the "largest, most modern, best equipped and most economically operated sugar refinery in the world," official statement recently issued shows total losses in 1919 and 1920 on raw and refined sugar were approximately $13,500,000. Besides this there was a depreciation of about $1,000,000 in inventory values. It is explained that the present financial situation is due largely to action of the old company in buying raw sugar on open market, and having large stocks of raws on hand, when prices smashed." ("Wall Street Journal.")
Early this year it was reported that the California & Hawaiian Sugar Refining Corp. superseded the California-Hawaiian Sugar Refining Co., the directors of the new corporation having purchased the physical properties and assumed all assets and liabilities of the old company. The *Company* was to increase its capital from $7,500,000 to $15,000,000 March 10 last. See V. 112, p. 566.

Cambridge Electric Light Co.—*Stock Authorized.*—
The Massachusetts Department of Public Utilities has authorized the company to issue 3,000 shares of stock to be sold at $150 a share. The proceeds of the sale of 2,306 shares are to be applied to demand notes outstanding Oct. 31 1921, and accounts payable on account of construction. The proceeds of 694 shares are to be applied to payment of cost of additions to plant made subsequent to Oct. 31 last.—V. 113, p. 2315.

(J. I.) Case Threshing Machine Co.—*Resignation.*—
Frank K. Bull, Chairman of the board, has tendered his resignation, effective Dec. 31.—V. 113, p. 734.

Charlestown (Mass.) Gas & Electric Co.—*Stock.*—
The Massachusetts Department of Public Utilities has authorized the company to sell at not less than $100 a share 824 shares of stock authorized by its order dated March 18 1920. The original order stipulated that the shares be sold at not less than $82 50 a share.—V. 112, p.1147.

Chevrolet Motor Co.—*Obituary.*—
Pres. Chas. M. Begole died in Clinton, Mich., on Dec.21.—V. 10 8, p. 583

Chicago Pneumatic Tool Co.—*Earnings, &c.*—
Chairman Charles M. Schwab says in substance: "We will go through the year 1921 with a profit before dividends. While we did not fully earn our dividend, we feel justified, in view of our large surplus, to fall back on our accumulation reserve to take care of a part of our dividend requirements. As a matter of fact, only $500,000 is necessary to provide for the dividend on our only one class of stock and we have no bonds outstanding.
"Most of the business that is coming in is in the way of small orders, and it is interesting to note that railroad buying is in evidence, but not on any large scale. Our plants during November operated at from 30 to 40% higher capacity than in October, and business for the current month also shows some gains. We have our own factory in Germany as well as in Scotland, therefore are not worrying so much about foreign competition."—V. 112, p. 2753.

Choate Oil Corp.—*Defaults—Protective Committee.*—
The following protective committee has been formed to protect the interests of the $1,469,000 outstanding 5-Year 8% Sinking Fund Convertible Gold Notes, dated Jane 1 1920: Benj. West Frazier, Chairman, W. W. Watson, Jr., W. W. Hepburn, with Neilson Edwards, Sec., 723 North American Bldg., Philadelphia, and Roberts, Montgomery & McKeehan, Morris Building, Philadelphia, counsel. Redmond & Co., Broad and Sansom Sts., Philadelphia, depositary.
The corporation has defaulted in the March 15 and Sept. 15 sinking fund obligations as well as the May 1 and Nov. 1 interest on the outstanding $494,000 3-year 7% sinking fund convertible gold bonds dated Nov. 1 1919.
The Dec. 1 1921 interest on the 5-year 8% sinking fund convertible gold notes has also been defaulted.

Agreement with Noco-Mexican Oil Co. Held Up.—
Holders of the 5-Year 8% S. F. Conv. Gold Notes were notified by the committee on Sept. 12 in substance: "A contract has been made with the Noco-Mexican Oil Co. for an exchange of securities, which should result in the furnishing of considerable new money to the Choate company and provide it with capable management to tide over the present depression and give it an opportunity to work out of its present difficulties. The agreement with Noco-Mexican Oil Co. calls for the following:
"The acquisition by that company of a majority of the stock of the Choate Oil Corp. in exchange for stock of the Noco-Mexican Oil Co., which the latter company agrees to sell for the account of the Choate Oil Corp. equally with its own unissued stock upon terms, which if carried out, will net the Choate Oil Corp. $350,000; In addition, the furnishing until April 1922 of a continuing credit of $100,000 to be issued in the purchase of crude oil for refining; the purchase by Redmond & Co., with other bankers, of $110,000 of Choate 8% notes for $100,000; the extension by a substantial majority of the general creditors of their claims so as to be payable in installments over a period of one year expiring April 15 1922. The plan contemplates an exchange of all the outstanding 7% bonds for 8% notes, and the placing of a first mortgage upon the company's present fixed assets for the benefit of the issue of 8s, including those to be given in exchange for the 7s.
"The new interests have installed a management which we consider able and efficient. The Noco-Mexican Oil Co. is controlled by the same interests which control the Noco Petroleum Co. These interests have been successful and there is every indication that the management is worthy of confidence.
"This contract was dated April 2 1921, and has been acted on in part by both parties. It was owing to this arrangement that the interest on the Choate 8s, due June 1, was paid with money furnished by Noco, and unless this contract can be consummated we do not see how the company will be able to provide for the next interest due on the 8s. [The Dec. 1 interest was defaulted.]
"In view of these facts, the holders of the 7s have been co-operating for some time for their protection. They have organized a committee and are making active efforts to assist as far as possible in carrying out the provisions of the contract of the Noco company."
[We have been informed that this contract has been held up as sufficient of the 7s have not been exchanged for the 8s. The Noco company, however, we learn, performed its end of the contract.]—V. 113, p. 2725.

Citizens Gas Co. of Indianapolis.—*Preferred Stock.*—
Gavin L. Payne & Co., Indianapolis, have obtained from the company the unsold $400,000 portion of the original issue of $1,000,000 7% cumulative pref. stock and are offering it at par and div. Divs. payable Q-M.
The company controls, without competition, the entire gas business of Indianapolis.
Capitalization.—Outstanding securities, after issue of all of the preferred stock now authorized, will be as follows: Common Stock, $2,000,000; 7% Preferred Stock, $1,000,000; 1st & Ref. Bonds (5%), $2,738,500; Gen. Mtge. 7s, $1,302,000; One-Year Collateral (8%) Notes (V. 113, p. 1679). $250,000—V. 113, p. 2508.

Citizens Water Supply Co. of Newtown, L. I.—*Suit.*
Justice Blackmar, Presiding Justice of the Appellate Division, Dec. 21 issued a temporary injunction restraining the company, which furnishes water to practically all of the second Ward of Queens, from taking any action or otherwise in the collection of the increased bills which the consumers have refused to pay. This court order prevents the company from carrying out its threat to shut off the water from its consumers in Ridgewood and adjacent sections if they do not pay their bills at once. The order holds good until Jan. 7, when Justice Blackmar will hear a motion to make the injunction permanent.—V. 113, p. 1475, 631.

Coburn Bros. Cattle Co. & R. J. & W. M. Coburn, Prescott, Ariz.—*Bonds Offered.*—
Carstens & Earles, Inc., San Francisco, &c., are offering at par and int. $400,000 8% Sinking Fund First Mtge. Gold bonds dated Dec. 15 1921, due Dec. 15 1936. Int. F. & A. at offices of Carstens & Earles, Inc., and Lumbermen's Trust Co., Portland, Ore. L. L. Hillman, Pres. Carstens & Earles, Inc., and Robert E. Smith, Pres. Lumbermen's Trust Co., Portland, Ore., joint trustees.
These bonds will be secured by a first closed mortgage on approximately 850 acres of patented lands, 31,000 (estimated) head of cattle and calves, and $90,000 par value securities owned by the corporation. In addition to the patented lands owned in fee simple, the company controls, through State leases and forest reserve permits, approximately 700,000 acres of range located in the north central part of Arizona. Total value of security, $1,101,000.

Coe Stapely Co.—*Stock Fraud Charged—Receiver.*—
See under "Current Events", "Chronicle" Dec. 24, p. 2672.
Edmund S. Wolf, Bridgeport, Conn., has been appointed temporary receiver.—V. 106, p. 1347.

Columbia Graphophone Mfg. Co.—*Earnings.*—

—V. 113, p. 1578.

Computing-Tabulating-Recording Co.—*Merger Rumor*
Regarding merger rumors, reports state that officers deny that the company is to merge with American Can or National Cash Register. The company has, however, the reports state, recently purchased the entire stock of the Ticketograph Co. of Chicago, and negotiations are under way to take over several competitors.—V. 113, p. 2508.

Cornish Co. of New Jersey.—*Receivership.*—
Chancellor Walker in the Court of Chancery, Trenton, N. J., has appointed Wesley Fleming, Washington, N. J., receiver for this company, manufacturer of pianos, organs and musical instruments.

Craddock-Terry Co., Lynchburg, Va.—*Extra Dividend.*
An extra dividend of 2% has been declared on both the 1st and 2d Pref. stocks, in addition to the regular quarterly dividend of 3% on the Common stock, the regular semi-annual dividends of 3% each on the 1st and 2d Pref. stocks and of 3½% on the Pref. Class "C" stock. All dividends are payable Dec. 31.—V. 112, p. 2301, 2310.

Creamery Package Mfg. Co.—*Extra Dividend.*—
An extra dividend of 50 cents per share has been declared on the Common stock in addition to the regular quarterly of $1 per share, both payable Jan. 10 to holders of record Jan. 1. Quarterly dividends of 50 cents have been paid since April 1921.—V. 112, p. 376, 368.

Cuba Cane Sugar Corp.—*To Pay Jan. 1 Interest.*—
The company states that funds have been deposited to pay the interest due Jan. 1 on its 10-year debentures.—V. 113, p. 2619.

Cudahy Packing Co.—*Annual Report.*—

Total profit & loss, sur.	$3,552,750	$5,122,721	$9,620,575	$12,493,078

The report for the year 1920-21 says: "The dividend on the 6% Pref. and 7% Pref. stocks for the past year have not been declared and amount to $578,535."
The balance sheet of Oct. 29 1921 shows (*a*) current and working assets of $34,970,842, which includes cash of $4,533,325 and inventory of $17,177,705; (*b*) current and accrued liabilities of $19,259,872, including notes payable of $17,304,613; (*c*) 7% sink. fund 5-year gold notes due July 15 1923, $5,500,000; (*d*) 5% 1st Mtge. gold bonds, due 1946, $7,649,500.—V. 113, p. 75.

Curtiss Aeroplane & Motor Corp.—*Wins Suit.*—
Glenn H. Curtiss's suit to establish his right to a broad patent on the hydro-airplane was upheld Dec. 16 in a decision by the U. S. Circuit Court of Appeals of the Second District. The Court reversed the decision of the Eastern District Court of New York in the case of Curtiss and the Curtiss Aeroplane & Motor Corp. against Albert S. Janin and the Janin Co., Inc.—V. 112, p. 853.

Cushing Petroleum Corp.—*Sale of Collateral.*
The company having defaulted in the payment of the $120,000 installment of principal maturing Oct. 1 1921, of the 5-year Serial Collateral Trust sinking fund 6% gold debenture, dated Oct. 1 1919, and the Oct. 1 int. on the outstanding $599,600 debentures having also been defaulted, the Em-

pire Trust Co., trustee, on Jan. 5, will sell at public auction at exchange sales rooms, 30 Versey St., New York, the collateral securing these debentures, viz.: 4,000 shares (par $25) of Sapulpa Petroleum Corp.

Cuyamel Fruit Co. (New Orleans).—*Guaranteed Bonds Offered.*—A. G. Becker & Co. and Ames, Emerich & Co. Chicago and New York; Hibernia Securities Co., Inc., and Isadore Newman & Son, New Orleans and New York, are offering, at 99 and interest, yielding 7%, $3,500,000 1st Mtge. 20-Year 7½% Sinking Fund Gold Bonds. (See advertising pages.)

Dated Dec. 1 1921. Due Dec. 1 1941. Callable as a whole on any int. date on 30 days' notice at 105 and int. Callable for the sinking fund at 107½ and int. to and incl. Dec. 1 1926; at 105 and int. from June 1 1927 to and incl. Dec. 1 1931, and at 102½ and int. thereafter. Int. payable J. & D. at office of A. G. Becker & Co., in Chicago or New York, or at office of Hibernia Bank & Trust Co., New Orleans, trustee, without deduction for normal Federal income tax not to exceed 2%. Denom. $1,000, $500 and 100 (c*.) Auth., $5,000,000.

Joint and several obligation of the company and Cortes Development Co. Guar., prin. and int., by Samuel Zemurray (Pres. and founder of Cuyamel Fruit Co.), by endorsement.

Data from Letter of Samuel Zemurray, President of the Company.

Company.—Engaged in the cultivation, purchase, transportation and marketing of bananas. Was incorporated in 1911, and, together with its predecessor, has been engaged in this business since 1905. Is fully equipped for conducting its business, owning farms, railway and tram lines, steamships, wharves, &c., and employs about 2,000 people.

Security.—In addition to the above guaranty, and obligation, the bonds will be secured by property, consisting of buildings, live stock, steamships railroads, tramways, rolling stock, telephone, electric light and water-supply equipment valued as of Oct. 1 1921 in excess of $8,250,000 after depreciation. Other than steamships, bonds will be secured by a direct first mortgage, and as to the steamships, by pledge and voting control of all the shares of stock of the Cuyamel Steamship Co., holding title to these ships, and also by pledge of its demand notes, delivered to the fruit company in payment for these ships.

Earnings.—Net earnings of the companies available for interest, depreciation, Federal taxes, &c., for 11 months ending Nov. 30 1921 were $2,275,447, or about 9 times the annual interest requirements on these $3,500,000 bonds. Average annual net earnings for the past five years ended Dec. 31 1920, after interims and taxes but before depreciation, were $1,195,866, after depreciation, interest and taxes were $718,085, or about 2¾ times maximum interest requirements on the bonds.

Sinking Fund.—Mortgage provides for a sinking fund to retire annually by purchase or redemption not less than 5% and not more than 15% of the greatest amount of bonds at any time outstanding.

Purpose.—Proceeds will be used to retire $850,000 6% Marine Equipment Notes, and to pay for capital expenditures already made. (Further information should be given another week.)—See V. 110, p. 874.

Dalton Adding Machine (of Cincinnati).—*Notes Offered.*—The bankers named below are offering at 100 and int. $750,000 8% Sinking Fund 10-Year Conv. Gold Notes.

Bankers Making Offering.—Fifth-Third National Bank, W. E. Hutton & Co., Richards, Parish & Lamson and Geo. Eustis & Co., Cincinnati, O.

Dated Dec. 1 1921, due Dec. 1 1931. Denom. $1,000, $500, $100. Int. payable J. & D. at Union Savings Bank & Trust Co., Cincinnati, trustee, without deduction for Federal normal income tax up to 2%. Callable all or part, 30 days after any int. date, on or prior to Nov. 30 1925, at 107 and then 106 to Nov. 30 1926; 105 to Nov. 30 1927; 104 to Nov. 30 1928; 103 to Nov. 30 1929; 102 to Nov. 30 1930, and 101 to maturity, plus int.

Convertible.—Convertible on any int. date up to and incl. maturity, into the Common stock of the company at the ratio of 10 shares of Common stock for every $1,000 note.

Data from Letter of Pres. James L. Dalton, Cincinnati, Dec. 6.

Company.—Incorporated in Ohio in July 1914 as successor to a Missouri corporation of the same name. In 1921 company added to its former line the "New Dalton Super-model" and two new types of "Ledger Posting Machines," selling at approximately $350 to $850 each.

Purpose.—To pay bank loans and to bring into quantity production the following machines; new thirteen-column Super-Dalton, new machine for adding British currency and a new direct subtracting ledger posting machine for use in banks.

Sinking Fund.—A semi-annual sinking fund has been provided beginning June 1 1924 to retire at least $575,000 of the present 8% notes on or before maturity.

Earnings.—From Jan. 1 1917 to Oct. 31 1921 the annual net earnings, applicable to the payment of interest, averaged approximately 3 times the annual interest charge on this issue.

Capitalization after this Financing—	*Authorized.*	*Issued.*
Preferred stock	$750,000	$750,000
Common stock	9,250,000	2,604,958
8% 10-year notes (this issue)	1,000,000	750,000

—V. 112, p. 1521.

Damascus Brake Beam Co.—*Extra Dividend.*—An extra dividend of 2% was paid Dec. 22 last on the outstanding $500,000 Common stock, par $100 The regular quarterly dividend of 2% has been declared payable Jan. 19 to holders of record Jan. 13. An extra of 2% was also paid in December 1920.—V. 112, p. 66.

(William) Davies & Co., Inc.—*Sells Plant.*—See Agar Packing Co., Inc., above.—V. 113, p. 1058.

Detroit Edison Co.—*Listing—Earnings.*—The N. Y. Stock Exchange has authorized the listing on and after Jan. 3 of $5,543,800 additional Capital stock, par $100, making the total amount applied for to date $37,910,000. The proceeds of the additional stock will be used to reimburse the company in part for expenditures, extensions, &c. (For details as to rights see V. 113, p. 2508.)

Consolidated Income Account for 12 Months ended Nov. 30 1921.

Gross earnings—Electricity, $21,059,413; heat, $1,880,037; gas, $212,731; miscellaneous, $189,849	$23,342,031
Expense of operation, $14,425,228; renewal, replacement and contingent (depreciation reserve), $1,269,000; Federal income, &c., taxes, $1,483,950	17,178,178
Net earnings from operation	$6,163,853
Interest on funded debt, $3,428,272; interest on unfunded debt, $364,333; less amount charged to property account for interest on money borrowed for construction purposes, $407,064	3,385,541
Net income for year	$2,778,312
Extraordinary charges	$804,351
Dividends	2,227,438
Deficit	$253,477
Profit and loss Nov. 30 1921	$2,284,384

—V. 113, p. 2508.

Doullut & Williams Shipbldg. Co., Inc., New Orleans. The entire property, including metal and woodworking machinery, water transportation, railroad and contractors' stock and equipment, new material, lumber, supplies, miscellaneous equipment and materials; 17 steel and wood buildings and valued at $2,250,000, will be sold at public auction Jan. 11, 12, 13 and 14, at Shipyard Ft. Downan Road on Industrial Canal, New Orleans, La., by Fitzpatrick-Till Auction Co., Inc., 225 Royal St., New Orleans, La., and Smith & Jaffe, 69 West 45th St., New York City, N. Y., auctioneers.—V. 113, p. 2619.

Earn-Line SS. Co., Philadelphia.—*To Dissolve.*—The stockholders will vote Jan. 17 next on dissolving. If approved the liquidation will begin at once, in accordance with recognized business procedure. The company is solvent and its capital unimpaired. All accounts, both payable and receivable, shall be promptly liquidated.

The reason for recommending the dissolution of the company is based wholly on the fact that, in the opinion of its officers and directors, shipping conditions are so adverse in the trade routes it operates that the company cannot profitably continue them, and no early improvement in these conditions is anticipated.

Electric Vacuum Cleaner Co., Inc.—*Initial Dividend.*—An initial dividend of $2 per share has been declared on the outstanding Common stock, no par value, payable Feb 15 to holders of record Jan. 31. This company is a subsidiary of the General Electric Co.—V. 112, p. 2417.

Endicott-Johnson Corp.—*Breaks Ground for Factory.*—The company is planning a new giant shoe factory and ground has been broken at West Endicott, N. Y., near by the present factories, located at Endicott and Johnson City, New York. The plans for this factory call for a structure 4 stories high, 380 ft. long by 60 feet wide, capable of producing from 6,000 to 8,000 pairs of shoes in a full day's operation. It is understood that the plans provide for the manufacture of men's fine welt shoes.

In addition to the factory itself, provision is being made for a one-story daylight cutting room, enclosed almost entirely in glass, extending out in front the entire length of the structure. Every effort is being made to increase the company's daily production of shoes from its present figure which now stands at approximately 107,000 pairs a day.—V. 113, p. 2726.

Fensland Oil Co.—*Capital Increase.*—The stockholders Dec. 24 increased the authorized Capital stock from 225,000 shares to 500,000 shares, no par value. See V. 113, p. 2726.

Ford Motor Co., Detroit.—*Special Dividend.*—The company has declared a special dividend of 3%, payable Dec. 31 to employee investment certificate holders, making a total of 12% for this year.

Operations in the main Highland Park factory, it is stated, will be resumed Jan. 9. Instead of only a part of the force getting work at the wage schedule of $7 a day, it is proposed to operate at 24 hours a day in four shifts of six hours each at $5 a day.

No Price Changes Jan. 1.—Gaston Plaintiff, Manager of the company's New York branch, says in substance: "Our attention has been called to recent newspaper articles and rumors to the effect that there is to be a price drop on Jan. 1. As there is no foundation to such rumors and we are not contemplating any price changes, we have no hesitancy in making a public denial of the report." —V. 113, p. 2508.

Fresno City Water Corp.—*Bonds Offered.*—National City Co., San Francisco, New York, &c., are offering, at 103½ and int., to yield about 6¼%, $400,000 1st & Ref. Mtge. Gold Bonds 35-Year 6½% Series "A".

Dated Nov. 1 1921, due Nov. 1 1956. Int. payable M. & N. 1 without deduction of the normal Federal income tax of 2%. Denom. $500 and $1,000 (c*). Non-callable prior to Nov. 1 1936. Callable on or after said date upon 30 days' notice at 105 and int. Union Bank & Trust Co. of Los Angeles, trustee. A sinking fund of 2% of all bonds outstanding will be paid to the trustee annually beginning 1927. One-half of such payment may be used for additions and betterments against which no bonds may be issued. Issuance authorized by California Railroad Commission.

Data from Letter of Pres. A. C. Balch, Fresno, Calif., Dec. 15 1921.

Company.—Organized in California in 1919. Succeeded to all properties of Fresno City Water Co. organized in 1905. Supplies water to Fresno, Calif. Population approximately 65,000. Water supply is drawn from 56 deep-water wells, located at convenient points about the city. By means of electrically driven pumps the water is lifted into a steel pressure tank of 235,000 gallons capacity. Has in actual use 840,600 ft. of mains, not including service connections. Number of customers Nov. 30 1921, 13,733. Since 1905 the total number of consumers served has increased over 300%.

The stock ownership and management is closely allied to that of San Joaquin Light & Power Corp.

Purpose.—Proceeds will be used to reimburse treasury for moneys heretofore expended for additions and betterments and to provide for future improvements.

Gano Moore Coal Mining Co.—*Consolidation.*—Incorporated Dec. 9 1921 in Delaware to purchase and deal in coal and coal lands and other properties.

According to reports, the new company will have a capitalization of $6,500,000 7½% Pref. Partic. stock and $3,000,000 Common stock. The company will absorb the Gano Moore Co. and Courtright, Dimmick & Cunningham, Inc., and will purchase 7 coal mines located in southern West Virginia on the Norfolk & Western and Chesapeake & Ohio railroads. The officers of the new company will be M. R. Gano, Pres. & Chairman W. H. Cunningham, H. C. Matlack and F. D. Dimmick, V.-Pres'ts, and C. C. Gano, Secretary and Treasurer.

The new company's principal office will be at 44 Beaver St., N. Y. City, with other offices at Philadelphia, Norfolk and Newport News and foreign offices at Rio de Janeiro, Buenos Aires and London.

General Motors Corp.—*Dividend Outlook—Prices.*—The finance committee on Dec. 29 reached no decision with reference to the usual quarterly dividend of 25 cents per share usually paid Feb. 1 on

the Common stock. It is generally thought on Wall Street that the dividend will either be omitted or largely reduced. The directors will meet Jan. 4 to take action on the matter. A cash distribution of 25 cents per share was made on this issue in each of the four quarters of 1921.

Old prices (June 1 1921)	975	1,475	2,435	1,735

—V. 113, p. 2726.

Giant Portland Cement Co.—*Pref. Div. of 4%.*—A dividend of 4% has been declared on the Preferred stock, payable Jan. 16 to holders of record Dec. 30. In Jan. 1920 a dividend of 3½% was paid on the Pref.; none since.—V. 112, p. 1149.

(H. C.) Godman Co., Columbus, O.—*Capital Increase, etc.*—The company recently increased its capital stock from $2,500,000 to $4,000,000. The stock now consists of $3,100,000 common ($2,359,700 outstanding), $300,000 6% cumulative 1st Pref. (all outstanding) and $600,000 6% cumulative 2d Pref. ($500,000 outstanding), par value of all classes $100.

The directors are: F. A. Miller, Pres.; E. E. Lerch, 1st V. Pres.; F. J. Kaufman, 2d V. Pres.; J. E. Lerch, Gen. Mgr.; William Brooks, Asst. Gen'l Mgr.; H. J. Kaufman, Treas.; Charles L. Ims, Asst. Treas.; J. E. Jones, Sec.; C. S. Hutchinson, Ass't Sec., and E. S. Pettigrew.

Hackensack Water Co.—*Bonds Sold.*—White, Weld & Co., and Kean, Taylor & Co., announce that the $2,000,000 15-year 7% Gold Deb. bonds offered by them at 100 and int. have been oversubscribed. See offering in V. 113, p. 2726.

Hartford Automotive Parts Co.—*Stock Fraud Charged.*—See under "Current Events" "Chronicle" Dec. 24, p. 2672.—V. 112, p. 1872.

(George W.) Helme Co.—*To Increase Capital.*—The N. Y. Stock Exchange has been notified by the company of a proposed increase in the present authorized Common stock from $4,000,000 to $8,000,000. The entire authorized $4,000,000 Common stock and the $4,000,000 Pref. stock is now outstanding.—V. 113, p. 2509.

Hendee Manufacturing Co.—*To Sell Harley Co.*—It is stated that the company is negotiating to sell its Harley Co. plant at Springfield to prominent New York and Philadelphia railroad interests. The Pennsylvania RR. is mentioned as being the purchaser. The purchase price is stated to be $825,000, of which $100 000 cash is to be paid to the Hendee Co. immediately, and the balance, $725,000, is represented by a mortgage which the Hendee company takes back. The Hendee company owns practically all the stock of the Harley Co.—V. 113, p. 2509.

Herschell-Spillman Motor Co.—*Stock Fraud Charged.*—See under "Current Events," "Chronicle" Dec. 24, p. 2672.—V. 111, p. 2085.

(D. H.) Holmes Co., New Orleans.—*Capital Increase.*—The stockholders voted Dec. 28 to increase the capital stock from $2,750,000 to $3,000,000. The new issue of stock has been over-subscribed at $200 per share. The new stock has been in the main purchased by present stockholders. The company for several years has paid a 14% dividend. The company, which previously had been owned by the Holmes estate, was organized in 1905 with a capital stock of $2,000,000. This was increased to $2,500,000 in 1914, while in Jan. 1921 a stock dividend of 10% was declared, increasing the capital to $2,750,000.—V. 112, p. 378.

Hood Rubber Co.—*Notes Sold*—10,000 *Shares of Common Stock Being Offered.*—Hayden, Stone & Co. and Brown Bros. & Co. have sold at 97½ and int., to yield over 7.25%, $6,000,000 15-Year 7% Sinking Fund Gold Notes (see advertising pages in Chronicle Dec. 24, p. xxxi).

In addition, an issue of 10,000 shares of Common stock is being made at this time.

Dated Dec. 1 1921, due Dec. 1 1936. Int. payable J. & D. at First National Bank, Boston, trustee, or New York. Denom. $1,000. Red. on Dec. 1 1926 at 105 and int., and ½% less each year thereafter to Dec. 1 1935, incl.

[The above bonds have been listed on the Boston Stock Exchange.]

Data from Letter of Treas. F. D. Hood, Watertown, Mass., Dec. 16.

Sinking Fund.—Company will retire by purchase or call and redemption $200,000 notes for year ending Dec. 1 1926, and a like amount in each succeeding year up to and incl. Dec. 1 1935, with the right to anticipate such retirement in whole or in part.

Company.—Incorp. in Mass. in 1896. Owns and operates in Watertown, Mass., plant containing 1,458,767 sq. ft. of floor space. Products include rubber boots and shoes, vulcanized rubber canvas footwear, pneumatic tires and tubes, solid tires for trucks, and hard rubber and moulded goods. Employs about 7,500 people. Daily capacity is over 75,000 pairs of rubber footwear and 2,000 tires, besides tubes and moulded goods. Products are distributed through a subsidiary corporation (Hood Rubber Products Co., Inc., the entire $500,000 Common stock of which is owned by the Hood Rubber Co.), which has a large sales organization having 24 branches throughout the United States.

Purpose—Proceeds of notes and of 10,000 shares of Common stock being issued at this time will be used to reduce the current bank loans to about $2,500,000. Management estimates that by Dec. 31 1921 there will be a further reduction of fully $1,000,000.

Capitalization Outstanding, Hood Rubber Co. and Hood Rubber Products Co., Inc., After This Financing.

xCommon stock, [au h. 120.000 share.] 110,000 shares (without par value)	$5,500,000
7% Cumulative New Preferred stock	4,850,000
Hood Rubber Products Co., Inc., 7% Preferred stock	1,000,000
15-Year 7% Sinking Fund gold notes (this issue)	6,000,000

x The Common stock capital is about to be increased by $500,000, to be paid in cash for 10,000 additional shares of Common stock.

On Dec. 31 1920 the common stock capital and surplus of the Hood Rubber Co. were $6,900,000, all of which, except $900,000, represents accumulated earnings reinvested in the property. Over $3,000,000 have been paid out in cash dividends on the Common stock of the Hood Rubber Co., in addition to the payments of regular dividends on the Preferred stock.

Sales and Earnings for Calendar Years.

	1916.	1917.	1918.	y1919.	y1920.
Sales	$11,666,501	$18,573,765	$22,341,081	$25,441,207	$32,884,131
xNet inc.	738,043	2,027,939	1,711,613	1,377,652	2,160,166

x After depreciation and maintenance charges are deducted and before Federal taxes and interest on current bank loans. y Inter-company accounting eliminated.

For the 5 years ending Dec. 31 1920 net earnings before interest on current bank loans and Federal taxes (but after liberal charges for depreciation and maintenance, averaging over $1,000,000 yearly) averaged $1,603,083, or over 3¾ times the annual interest charge on these notes.

The fiscal year has been changed to Mar. 31, and for the 15 months ending Mar. 31 1922, it is estimated that the net income, after depreciation and maintenance charges and before Federal taxes and interest on current bank loans, should be in excess of $1,500,000. Sales for the calendar year 1921 should be about $25,000,000, notwithstanding reduction of prices during 1921.—V. 112, p. 2196.

Hudson Motor Car Co.—*Prices Reduced.*—Relative to reduction of prices announced by the Hudson and Essex Motor companies ranging from $150 to $245 per car on the Hudson and from $100 to $150 on the Essex cars, President Roy D. Chapin says: "With business down to the pre-war level of labor and material costs, manufacturers are able to get back to the fundamental principles of American merchandising basing prices to the public on volume production. Added to the steady demand that Hudson and Essex have maintained throughout the readjustment period, we have such volume of orders already booked for 1922 by our distributers and dealers in every part of the country that we are able to pass on to buyers a new mark in lowered manufacturing costs."—V. 112, p. 378.

Imperial Tobacco Co. of Canada, Ltd.—*Interim Div.*—The company has declared an interim dividend of 1½% for the current year and a final dividend of 1% for the year ended Sept. 30 last on the Ordinary shares, both payable Dec. 30.—V. 113, p. 2502.

Imperial Valley Gas Co., Redlands, Calif.—The California RR. Commission recently denied the application of the Interstate Company to issue $100,000 7% bonds and $150,000 Common stock to acquire the property formerly owned by the Imperial Valley Gas Co. on the ground that the proposed method of financing was unsound.—V. 112, p. 854.

Indiana Oil Refining Co., Columbus, Ind.—*Receiver.*—Judge John W. Donaker in Circuit Court at Columbus, Ind., Dec. 17 appointed the Peoples Savings & Trust Co., Columbus, Ind., receiver.—V. 113, p. 2727.

Indiana Power Co.—*To Increase Dividend Rate.*—The company has applied to the Indiana P. S. Commission for authority to increase the dividend rate on the $1,303,000 of unsold Preferred stock from 7% to 8%.—V. 113, p. 2509.

Industrial Service & Engineering Co.—*Trustees' Sale.*—The company having defaulted on the interest due Oct. 15 on the $500,000 5-year 8% Collateral Trust gold notes dated April 15 1921, the State Street Trust Co., Boston, Dec. 28 was to sell the entire collateral pledged as security, at the Real Estate Exchange, 8 Congress Street, Boston.

(Robert H.) Ingersoll & Bro. (Ingersoll Watches).—*Receivership—Reorganization under Way.*—Federal Judge Hand Dec. 27 appointed Edward S. H. Child receiver for this company, manufacturer of the Ingersoll "Dollar Watch."

An involuntary petition was filed by the National City Bank and Chase National Bank, each holding notes amounting to $200,000, and by Hathaway, Smith, Folds & Co., holding notes for $50,000. The petition was filed by Harry Zalkin, of Zalkin & Cohen. Mr. Zalkin said:

"We are working on a plan of reorganization which will be completed within a few days and sent out to all the creditors. The difficulties of Robert H. Ingersoll & Brother undoubtedly have been due to the money stringency, but there is every prospect that the company will be put back on a paying basis following the reorganization."

The petition says the assets consist of cash in bank, accounts receivable, notes receivable, finished merchandise, raw product, real estate, and interests in stock of other companies, the value of which is placed at $2,000,000, "exclusive of such value as may be placed upon its good-will."

Robert H. Ingersoll, Pres., and Charles H. Ingersoll, Sec., signed the following statement, which was attached to the petition:

"Robert H. Ingersoll & Brother, a joint stock association organized under the laws of New York, does hereby admit its inability to pay its debts and its willingness to be adjudged a bankrupt on that ground. Dated, Dec. 26 1921." Compare V. 112, p. 2754.

International Paper Co.—*Bonds Sold.*—Bankers Trust Co., Union Trust Co. of Pittsburgh, Blair & Co., Inc., and Halsey, Stuart & Co., Inc., have sold, at 87 and int., to yield over 6%, $12,500,000 Series "B" 1st & Ref. 5% Sinking Fund Mtge. bonds (closed issue) of 1917, due Jan. 1 1947.

Series "A" and "B" bonds are identical, except that Series "A" bonds are convertible into 6% Preferred stock at par prior to July 1 1922. Bankers Trust Co., New York, trustee. (For description of Series "A" bonds, &c., see V. 107, p. 1575.)

Data from Letter of President Philip T. Dodge, New York, Dec. 28.

Business and Properties.—Company, organized in 1898, is the largest manufacturer of paper in the world, its production during 1920 exceeding 500,000 tons. Operates 46 paper, pulp and sulphite mills, 37 of which are owned in fee, 8 owned in fee by subsidiaries the stocks of which are pledged under this mortgage, and one leased. In addition, 2 small mills are owned in fee and leased to outside interests. The mills are located in New York, Vermont, New Hampshire, Massachusetts and Maine, and one in Canada. Complementary steam and water power developments aggregate 213 500 h. p. In addition, the development of approximately 23,000 hydro-electric horse-power is approaching completion. Also, undeveloped water power sites are held in the U. S. and Canada aggregating 173,000 (est.) p. h., of which 100,000 (est.) h. p. are located in the U. S.

The company and its subsidiaries own in fee approximately 1,500,000 acres of woodland, of which 1,200,000 acres are located in New York, New Hampshire, Maine, Vermont and Michigan, and the balance in Canada, and in addition company, through its subsidiaries, holds permits to cut and use wood from 2,800,000 acres in Canada.

Security.—Subject to two small mortgages, aggregating only $275,000, these bonds are secured, in effect, by about $60,000,000 book value of fixed assets. The mortgage provides in effect that no prior lien or charge shall be created against the properties of the company or its subsidiaries, the stocks of which are pledged, unless such lien or charge shall be pledged under the mortgage. (Compare also V. 107, p. 1575.)

Sinking Fund.—The mortgage provides for an annual sinking fund of 1% of the total amount of the bonds issued under the mortgage, payable semi-annually, M. & N., to be applied to the purchase of bonds at not exceeding 102½ and int.

Purpose.—Proceeds will be applied to reduce current indebtedness.

Capitalization After This Financing—	*Authorized.*	*Outstand'g.*
Preferred stock	$25,000,000	$24,883,058
Common stock	20,000,000	19,899,764
First & Refunding Bonds, Series "A"	7,500,000	x6,896,000
do do Series "B" (this issue)	12,500,000	12,500,000
St. Maurice Lumber Co. 5s, due 1927	(closed)	75,000
Aroostook P. & P. 6s, due $50,000 each Jan. 1	(closed)	200,000

x Balance of this series has already been retired by operation of sink. fund

Earnings.—While operations for 1921 will not be satisfactory, the average annual earnings applicable to interest for the 10 years ending Dec. 31 1921 (1921 partly estimated) were $4,895,000, or about 5 times annual interest requirements on all bonds now outstanding, including this issue. These earnings were before Federal taxes but after depreciation charges averaging $1,459,000 per annum.

The unsatisfactory 1921 results are due to price readjustments for the company's product incident to the general industrial depression and to the high cost of raw materials previously contracted for, accentuated by a protracted strike, which commenced May 1 1921 and entailed a complete shutdown at all plants for several months.

Present inventory values are written down so that stocks of wood on hand and to be received under contract are at or below replacement cost, and labor and other operating costs are being brought under effective control. Under the more normal operating conditions now obtaining, it is confidently anticipated that the satisfactory margin of profit heretfoore made for a long number of years will again be realized.—V. 113, p. 1059.

Invincible Oil Corporation.—*Listing.*—The N. Y. Stock Exchange has authorized the listing of $2,799,000 10-year 8% Sinking Fund Conv. Gold Coupon bonds, due March 1 1931, which have been issued and are outstanding in the hands of the public, with authority to add $2,852,000 on official notice that they have been sold, making the total amount applied for $5,651,000 (auth., $6,000,000).

The proceeds of the sale of the bonds now outstanding were used in paying off and discharging $1,959,000 One-Year 7% notes, due March 1 1921, and $1,000,000 of an outstanding issue of $3,400,000 of Esperson & Bonner notes. The remainder of the bonds are reserved to be sold for the purpose of paying off and discharging the remainder of Esperson & Bonner notes, which on Dec. 8 amounted to $2,400,000.

The Exchange has also authorized the listing on and after Dec. 28 of temporary certificates for 630,000 shares of Capital stock, no par value, on official notice of issuance in exchange for 630,000 shares of present outstanding Capital stock, par $50, with authority to add 205,447 shares, no par value, on official notice of issuance and payment in full, making the total amount applied for 835,447 shares.—V. 113, p. 2622.

Iowa Light, Heat & Power Co.—*Bonds Offered.*—Arthur Perry & Co., Boston, and Paisly Bros. & Co., Phila.,

are offering at 98¾ and int., yielding over 7.10%, $450,000 1st Mtge. 5% 30-Year Sinking Fund gold bonds, carrying 7% consolidated coupons.

Dated Oct. 2 1916, due Oct. 1 1946. Int. payable A. & O. in Boston without deduction of normal Federal income tax up to 2%. Penna. 4-mill tax refunded. Denom. $500 and $1,000 (c*). Company covenants that bonds with the consolidated coupons shall be callable on any int. date up to and incl. Oct. 1 1936, only upon payment of 110 and int., and thereafter at ½% less in each successive year until such time as it shall be reduced to 105 and int., at which figure it shall remain until the date of maturity. International Trust Co., Boston, trustee.

7% Consolidated Coupons.—In addition to 5% int. payable on these bonds under the provisions of the First Mtge., 2% additional interest, secured by a General Mtge., will be payable on bonds of this issue as evidenced by their 7% consolidated coupons.

Sinking Fund.—The sinking fund provides that company shall deposit annually with the trustee in cash on Oct. 1 1920 to 1924 ½%; 1925 to 1932, 1%, and 1933 to 1944, 1½%, of the total amount of bonds outstanding, this fund to be used for the redemption of bonds or to pay for additional property which thereupon becomes unavailable for the issue of bonds.

Data from Letter of Pres. Lindsey Hooper, Boston, Mass., Dec. 24.

Company.—Incorp. Mar. 3 1916 in Iowa. Does without competition entire electric light and power business in Grinnell, Carroll, Storm Lake, Sheldon, Sac City, Audubon, Rockwell City and other municipalities. Also supplies heating service in the business districts of Grinnell and Carroll. In addition sells electric energy at wholesale to numerous communities. Total population served, 54,000.

—V. 113, p. 2509.

Kirby Petroleum Co.—*New Interests, etc.*—

In connection with the announcement of the acquisition of a substantial interest in the company by Eastern financial interests, an official states: "The facts are that the gentlemen mentioned (V 113, p. 2727) together with some of their associates, have purchased all the treasury stock of the company, as well as investing largely in the stock before this trade was made. There are no notes or other forms of securities issued by the company, but the cash received by them for the balance of stock in their treasury was sufficient to pay all their debts of every kind and left them with a fair amount of working capital, so that a large proportion of their earnings may be devoted to payment of dividends on the stock. There are to be no new securities offered." See V. 113, p. 2727.

(S. S.) Kresge Co.—*Listing—Earnings.*—

The N. Y. Stock Exchange has authorized the listing of $3,000,000 7% Cum. Pref. stock, par $100, and $8,000,000 additional Common stock, par $100, on official notice of issuance, making the total amount applied for $5,000,000 Pref. stock and $20,000,000 of Common stock.

Of the $8,000,000 additional Common stock applied for $5,644,998 will be issued to cover the stock dividend of 54% which has been declared payable Dec. 31 1921 to stockholders of record Dec. 16 1921; $1,000,000 will be added to the $2,000,000 of stock which has been reserved and deposited with the Equitable Trust Co., New York, trustee, for issuance in redemption of stock option warrants issued in connection with the $3,000,000 7% Serial Gold notes, dated July 1 1920, said $1,000,000 of stock to be listed on official notice from the trustee of issuance in exchange for outstanding stock option warrants, and $1,355,002 Common stock to be listed on official notice of issuance and payment in full.

The Preferred stock, the listing of which is now applied for, is the entire 30,000 shares of additional Pref. stock authorized by the stockholders Dec. 6, and which the directors have been authorized to offer for subscription and sale upon terms and at prices (not less than par) to be fixed by the directors, in such quantities and at such times as in the judgment of the directors is advisable. Stockholders, both Common and Preferred, will be given an opportunity to subscribe in proportion to their respective holdings before any of the stock is offered to the public.

Lord & Taylor, New York.—*May Pay Regular Divs. on 1st Pref. Stock—Comparative Balance Sheet—Remarkable Financial Conditions.*—In connection with the payment of the 12% div. on the 1st Pref. stock in full of the eight quarterly dividends accrued for the two years ended June 1 1916, President Samuel W. Reyburn in a letter to the 1st Pref. stockholders states that "unless something unforeseen should happen we believe that in future you will receive quarterly dividends on your 1st Pref. stock."

President Reyburn has favored the "Chronicle" with the below comparative balance sheet, and in explaining some of the items therein says: "In judging the comparative general balance sheet you probably will want to know that our volume of business in 1915 was $8,500,000 from the retail store, while in 1920 it was about $19,250,000."

President Reyburn further says:

It seems to me, in addition to the improvement shown on the item for fixtures, I should call your attention to the fact that the store has put into "selling," which you will understand is the purpose of the organization, two additional floors which are fixtured at a cost of about $400,000, and that we now have a trust fund of $137,871, which has gone into the expense account, to meet certain obligations on the lease of this property if we should desire to move at the end of the first 21-year period of the lease.

In addition to these two items, we also took a loss of $50,000 or $60,000 in cleaning up the items of investments, mortgages, securities, &c., which really have no place on a balance sheet of a business like ours.

The figures of Jan. 31 1916 are taken because that is the first balance sheet that reflected the facts after the wholesale department had been disposed of at a great sacrifice, to meet our promises to the bankers who held the gold notes, and is really the beginning of the present era in the history of this business.

To complete a 6-year period for the benefit of the directors, I estimated the net profits of December and January would bring the total from $3,424,148 up to a little over $3,600,000. I told the board that the tremendous reduction in fixtures was not made because the fixtures were not worth that cost, but simply because with the capital we had we could not afford such a big fixture account, and that we ought to charge it down to a conservative amount and thus reduce our surplus to a point where stockholders would not expect it to be distributed in dividends. Had our store been fixtured at a nominal cost, the depreciation for six years would probably have been $353,000 instead of $1,353,000, and the net profits therefore earned in that period would seem to be $3,250,000 instead of the sum of the deficit of Jan. 31 1916 and undivided profits of Nov. 30 1921 of $2,012,149.

If we continue to depreciate our fixture account at the rate of $60,000 per year for the next 15 years, when the first period in our lease expires, we will have taken off $900,000, leaving at that time a fixture account of $203,818. We estimate they would be worth a great deal more than that even should we find it desirable to move to another location. By that time, the trust fund ought to equal, if well managed, something near $1,000,000, the amount we would have to pay should we give up our lease.

Let it be said, however, that so far as we can see now, we do not expect to move. With the Grand Central and Pennsylvania terminals, and the transit problem handled as it now is; with the heavy investments in hotels, theatres and retail buildings, and Central Park so near, we feel that at last the metropolitan district has found its permanent location for the shops, hotels and theatres on Murray Hill. If we are right in such conclusion, $500,000 of the lease trust fund will be turned back to Lord & Taylor for use in its business, and the fixtures would be worth in sound value several times the amount we would then be carrying them on our books.

Comparative Balance Sheet Jan. 31 1916 and Nov. 30 1921.

Assets—	1916.	1921.	*Liabilities—*	1916.	1921.

Maine Fisheries Corp., Boothbay Harbor.—*To Reorg.*—

The affairs of this corporation, in bankruptcy since Feb. 1921, are in process of settlement, as a new corporation, composed of Massachusetts business men, all of them stockholders in the old company, have signified their intention of purchasing the properties from the trustee, Judge Cyrus R. Tupper. This syndicate has named George L. Oliver and William Boardman, New Bedford, Mass.; Dr. William D. Kinney, Osterville, Mass., and Walter S. Gierasch, Boston, to represent them as trustees, and they have already secured a 60-day option on the plant. It is expected that they will come into full possession before Mar. 1 1922. See V. 110, p. 974.

Marine Oil Co.—*Listed on Curb.*—

The Board of Governors of the New York Curb Market has approved the listing of 500,000 (authorized) shares, par $1.—V. 113, p. 2410.

Massey-Harris Co., Ltd., Toronto.—*New President, &c.*

Vincent Massey, recently Secretary, has been elected President, to succeed the late Thomas Findley. Joseph N. Shenstone has been elected chairman.—V. 112, p. 938.

Merrimac Hat Co.—*Stock Fraud Charged.*—

See "Current Events" in "Chronicle" Dec. 24, p. 2672.—V. 110, p. 2197.

Mexican Lead Co., Jersey City, N. J.—*Capital Decreased—Par Value of Common Stock Reduced from $100 to $15.*

The company has decreased its Common stock from $5,750,000 (all outstanding) to $862,500, and also has reduced the par value of the Common from $100 to $15 per share. There is also outstanding $1,250,000 7% Cumul. Pref. stock, par $100. Charles J. Peabody is Vice-President and R. E. Safford, Secretary.

Mexican Eagle Oil Co.—*Report.*—

Miami Copper Co.—*Dividends.*—

An official statement says in substance: "As the earnings accumulated since Feb. 28 1913 had been distributed prior to Jan. 1 1921, and as the earnings of the year 1921 have not been in excess of the amount authorized by the Treasury Department for depletion, all of the dividends, so paid during the year 1921, have been distributed out of earnings and profits accumulated prior to March 1 1913, paid in surplus."—V. 113, p. 189.

Mills & Gibb Corp.—*New Director.*—

W. G. Kimball, Vice-President of the Columbia Trust Co., has been elected a director.—V. 103, p. 2082.

Mobile Electric Co.—*Accumulated Dividends.*—

A dividend of 3½% (for the six months ending Jan. 31 1922) has been declared on the Preferred stock, in addition to a dividend of 2% on account of accumulations, both payable Feb. 25 to holders of record Jan. 31.

The company, it is announced, intends hereafter to pay quarterly dividends of 1¼%, with an additional 1% each quarter to apply on account accumulated dividends.—V. 113, p. 2623.

Middle States Oil Corp.—*Earnings (Incl. Sub. Cos.).*—

xConsolidated Income Account	3 *Mos. end. Sept.* 30 '21.	6 *Mos. end. June* 30 '21.
Average price of oil per barrel	$1.00	about $1.50

Dividends paid	442,428	1,990,000
Divs. paid to minority interests in Dominion Oil Co., Texas Chief Oil Co. and Ranger Texas Oil	49,798	------
Reserve, including Federal taxes	40,000	80,000
Net profit	$401,353	$1,049,281

x*Note*.—This consolidation embraces income Number Seventy-Seven Oil Co., Number One Oil Co., Ranger Texas Oil Co., Dominion Oil Co., Texas Chief Oil Co., Corona Oil Co., and includes subsidiary companies proportionate interests in earnings and expenses of Peters Oil Co., the entire capital stock of which is owned by Middle States Oil Corp.—V. 113, p. 2623.

Moline Plow Co.—*Plan Operative.*—F. O. Wetmore, Chairman of the reorganization committee, in a notice Dec. 22 to the creditors says:

At the meeting of the reorganization committee held in New York on Dec. 13, the plan of reorganization was declared operative. All of the bank creditors have accepted the plan, and it is expected that within a week the formal assents of the last of the merchandise creditors will have been received.

The last report, a few days old, shows: (1) $3,612,000 out of $4,000,000 of the Serial Notes have been deposited and others are coming in daily. (2) Of the old stock, 67,463 shares of First Preferred out of 75,000 shares, and 14,901 shares of Second Preferred out of 15,000 shares, and 13,818 shares of Common out of 18,000 shares held by stockholders other than the Willys-Overland Co., have been deposited.

The company will continue to receive further deposits of Serial Notes and of all classes of stock until further notice.

The committee expects to receive the formal assent of the Willys-Overland Co. as soon as the necessary proceedings to that end can be taken by it; but in any event the committee is advised that, in view of the wide and general acceptance which the plan has received, it is in position to carry it out, and the committee has instructed its counsel to proceed in that direction as rapidly as the required formalities permit.—V. 113, p. 2623, 2410.

Montezuma Lead Co., Jersey City, N. J.—*Capital Decreased—Par Value of Common Stock Reduced from* $100 *to* $10 *per Share.*—

The company has decreased its Common stock from $2,500,000 (all outstanding) to $250,000, and also has reduced the par value of the Common stock from $100 to $10 per share. There is also outstanding $500,000 7% Cumul. Pref. stock, par $100. Charles J. Peabody is Vice-President and R. E. Safford, Secretary.

Nashua (N. H.) Mfg. Co.—*Sales—Earnings.*—

Years ending Oct. 31—	1920-21.	1919-20.	1918-19.	1917-18.
Sales	$12,670,706	$25,833,410	$18,463,455	$20,014,082
Net profit before divs.	def.316,512	1,210,205	1,820,424	1,426,647

—V. 112, p. 2648.

Naumkeag Steam Cotton Co.—*Extra Dividend.*—

An extra dividend of 5% has been declared on the stock, together with the regular semi-annual dividend of 5%, both payable Jan.3 to holders of record Dec. 22. A like amount was paid extra in July, 1919 and in Jan. and July 1920; none since.—V. 111, p. 2527.

New Britain Machine Co.—*Temporary Chairman.*—

Charles F. Smith, Chairman of the board of the Landers, Frary & Clark Mfg. Co., New Britain, Conn., has been elected Temporary Chairman of the board of directors, to hold office during the absence of Chairman Frederick G. Platt. V. 113, p. 189.

New Jersey Water & Light Co.—*Foreclosure.*—

The Union Trust Co., Jersey City, as trustee, recently brought suit before Vice-Chancellor Lewis to foreclose a mortgage of $250,000 (due Aug. 31 1924), secured on the property and works of the company at Elberon, N. J. The company's stock, it is said, was purchased June 14 1919 by Atlantic Coast Electric Light Co., subject to the mortgage.

New York Breweries Co., Ltd.—*Dissolution.*—

The holders of the Debenture stock and Debentures and the shareholders were to vote Dec. 14 in London on agreeing to the full discharge of the principal of the Debenture stock at 75% and of the Debentures at 85%, together with interest to the date of payment, on condition that the necessary funds are provided by the realization of assets before Dec. 31 1922.—V. 109, p. 277.

New York Dock Co.—*New Vice-President.*—

D. O. Tilly has been elected Vice-President of the New York Dock Co. and New York Dock Railway Co.—V. 113, p. 1894.

North American Co.—*Listing—Earnings.*—

The N. Y. Stock Exchange has authorized the listing of $10,422,400 additional Common stock, par $50, on official notice of issuance and payment in full, making the total applied for $25,319,050. (For offering to stockholders see V. 113, p. 2510.)

Consolidated Income Account for 9 *Months ended Sept.* 30 1921.

Gross earnings	$28,545,116	Surplus Jan. 1 1921	$11,063,630
Expenses and taxes	20,219,580	Sundry net income	34,189
Net income	$8,325,536	Total surplus	$15,526,885
Other net income	253,616	Depreciation reserve	$2,524,919
Total	$8,579,152	Dividends on stock of North American Co.	1,191,732
Deduct—Int. charges	$3,436,849		
Preferred dividends	484,829	Surplus Sept. 30 1921	$11,810,234
Min. int. in Wis. group	228,410		
Balance	$4,429,065		

—V. 113, p. 2502, 2510.

North America Liquidation Co., Inc.—*To Dissolve.*—

The stockholders will vote Jan. 16 on dissolving the company forthwith. Hubert E. Rogers, Sec'y, 60 Wall St., N. Y. City.

Nukol Fuel Co., Ltd., Toronto.—*Assign Assets.*—

The company has made an assignment to N. L. Martin, chartered accountant, 73 King St., Toronto. Company was incorp. in 1919 with a capital of $1,000,000, of which $600,000 was subscribed. A bond issue of $200,000 is also outstanding.

Nyanza Mills, Woonsocket, R. I.—*Stock Increase, &c.*—

The stockholders recently increased the capital stock from $1,500,000 to $2,100,000. The $600,000 new stock was offered to stockholders and subscriptions were payable on or before Dec. 15 at Old Colony Trust Co., Boston. The company has no mortgage or funded debt outstanding.—V. 111, p. 1956.

Oklahoma Gas & Electric Co.—*Powers of Commission.*—

In Oklahoma Gas & Electric Co. vs. State Corporation Commission, the Oklahoma Supreme Court has determined (1) that the Commission may prescribe a temporary schedule of rates to be effective until it has had time to evaluate the company's property; (2) that it is not necessary for the Commission to fix a time limitation for a temporary rate order.

(3) That in fixing a rate the Commission may take into consideration former earnings and probable prospective earnings, former cost of operation and probable prospective cost of operation, with the object of so adjusting the rates as to prevent the public utility from practicing extortion on the public and yet allow it a fair and reasonable return; and (4) that the legislative power of the Commission over rates is not confined to prescribing permanent rates, but may be exercised as the exigencies of the times and changing conditions demand.—V. 112, p. 2757.

Pacific Oil Co.—*Dutch-Shell Interests Disclaim Ownership of Stock in Pacific Oil Co.*—

Avery D. Andrews, Chairman of American Subsideries, Royal Dutch-Shell Group in a reply to an enquiry last Nov. to the Federal Trade Commission, said:

"Replying to your telegram Nov. 21, received 22d, I am now authorized to state that the Dutch Shell interests, by which I mean the Royal Dutch Petroleum Co. of Holland and Shell Transport & Trading Co. of London and their subsidiary companies do not own and are not now acquiring Pacific Oil Co. stock."

The above reply is contained in the report of the Federal Trade Commission to the U. S. Senate.—V. 113, p. 2411.

Peerless Wire & Fence Co., Adrian, Mich.—*Bonds Offered.*—George H. Burr & Co., New York, are offering at 97½ and int., yielding about 7.75%, $575,000 1st (closed) Mtge. 20-Year 7½% Sinking Fund Gold Bonds, non-callable during first 10 years. A circular shows:

Dated Jan. 1 1922, due Jan. 1 1942. Denom. $1,000 and $500 (c*). Int. payable J. & J. in New York without deduction for normal Federal income tax not to exceed 2%. Callable as a whole on any int. date on and after Jan. 1 1932 at 107½ and int. during calendar year 1932, and at ½% less during each succeeding year. Penna. 4-mill tax refunded. Manufacturers' Trust Co., New York, trustee.

Sinking Fund.—A sinking fund, available semi-annually, will redeem more than 90% of the bonds by maturity; purchasing bonds during the first 10 years if obtainable at or below 107½ and int. and during the latter years redeeming by purchase or call at 107½ and int. during the calendar year 1932, and at ½% less during each succeeding year.

Assets.—Total net assets as of June 30 1921, after giving effect to this financing and to valuation of physical assets, are $1,548,998, and net current assets $925,692, or 269% and 160%, respectively, of the total amount of this issue.

Company.—Outgrowth of business established in 1897. Is one of the largest independent wire fence producers in the United States. Manufactures a complete line of farm, lawn and poultry fencing, wire corn cribs, farm gates, &c. Plants located in Adrian, Mich., and Memphis, Tenn., having a combined capacity of 60,000 tons of finished products per annum.

Earnings.—Net profits applicable to interest charges for the past 13 years have averaged $119,582, or 2.7 times interest requirements for this issue; for past 10 years $134,412, or 3 times interest requirement; and for past 5 years $174,477, or 4 times interest requirement.

Capitalization.—First Mtge. bonds (this issue), $575,000; Preferred stock, $500,000; 160,000 shares Common stock (no par value). President, W. H. Burnham.

Pennsylvania Tank Line.—*Equipment Trusts.*—

The Guaranty Trust Co. of N. Y. has been appointed Trustee under an agreement dated Dec. 15 1921, with the Pennsylvania Tank Car Co. and the Pennsylvania Tank Line securing an authorized issue of $510,000 par value 6% Car Trust Certificates due serially 1922–1929.—V. 110, p. 1856.

Peoples Gas Light & Coke Co.—*Dividends Resumed.*—A quarterly dividend of 1¼% has been declared on the outstanding $38,500,000 Capital stock, payable Jan. 15 to holders of record Jan. 7. In Aug. 1917 a dividend of 1% was paid; none since.

Dividend Record from 1897 *to Date (Per Cent).*

'97-'05.	'06.	'07-'08.	'09.	'10-'12.	'13.	'14-'15.	'16.	'17.	'18-'21.	*Jan.* '22.
6 y'ly	5	6 y'rly	6¾	7 y'rly	7¼	8 y'rly	6½	3½	None	1¼

An official statement says in substance: "This will be the first dividend to be paid by the company since Aug. 1917. The board hopes it marks restoration to its former status among reliable dividend payers.

"To an extraordinary degree the company has been victim of two adverse influences which have more or less affected all public utility companies, namely, tremendous advance in costs, especially cost of labor, material and money, on account of the war and post-war conditions, and lamentable reluctance of Governmental and regulatory bodies to recognize facts of rising costs until companies affected, and particularly Peoples Gas, were very seriously injured. Result in this case has amounted to practica confiscation of property of stockholders for more than four years."

[The company, it is reported, has $1,150,000 in cash, against $710,302 Dec. 31 1920. It has paid off $2,750,000 of $4,004,561 accounts payable Dec. 31 1920, and, it is stated, is not borrowing from banks.]—V. 113, p. 2624.

Perfection Tire & Rubber Co.—*Bond Issue.*—

The Corporation Trust Co. has been appointed trustee of an issue of $1,500,000 First Mtge. gold bonds.—V. 112, p. 1874.

Pierce-Arrow Motor Car Co.—*New President—Status.*—

M. E. Forbes, until recently Vice-President, has been elected President, succeeding Col. George W. Mixter.

Chairman Col. Charles Clifton says in substance: "Last May Col. Mixter consented to remain as President until certain special work which he had inaugurated was completed. This work having just been completed, Col. Mixter asked to be relieved of the Presidency.

"M. E. Forbes, for some time our Treasurer, and more recently our Vice-President, has been elected a director and will be the chief executive officer under the Chairman of the Board, having direct charge of all plant and commercial activities.

"The plant is now running at a fair rate of production and is employing some 3,200 men, against the low point some months ago of 1,800 men. We have a complete new line of trucks as well as the new Pierce-Arrow cars, all, we are confident, of the quality which has always marked Pierce products. The operations of the last few months indicate that this product can be manufactured with satisfactory results both to the public and to the stockholders."—V. 113, p. 1989.

Pierce Oil Corporation.—*Denies Reports of Sale of Stock.*

Chairman H. Clay Pierce denies reports that on Dec. 22 he sold a large block of Pierce Oil shares, and is also quoted as stating that he holds and intends to continue to hold all of his Pierce Oil shares.—V. 113, p. 2728.

Rand Mines, Ltd.—*Dividend.*—

The Bankers Trust Co., as depositary, has been advised of the declaration of Dividend 37, which will amount to 4s. 4½d. per "American" share, payable in London on or about Feb. 10 next. On the receipt of the proceeds of this dividend the Bankers Trust Co. will notify registered holders of "American" shares as to the date upon which the payment will be made.—V. 113, p. 2319.

Riordon Co.—*Defaults, &c.*—

The committee (V. 113, p. 2625) representing the holders of 10-Year 6% Gen. Mtge. Sinking Fund Gold bonds of Riordon Pulp & Paper Co., Ltd., in a circular to bondholders says:

"The time allowed for depositing bonds under the terms of the deposit agreement of Nov. 4 1921 has been extended to Dec. 31 1921. Up to the present time a little less than half of the outstanding bonds have been deposited.

"The interest due Dec. 1 on the 8% bonds was not paid and not only are no funds now available to pay the coupons due Jan. 1 on the Gen. Mtge. 6s, but the same is true of the interest due Dec. 31 on the underlying First Mtge. Debentures.

"Your committee believes it to be of the utmost importance for the protection of your bonds that funds be provided by the committee to prevent a default in the interest payment on the underlying First Mtge. Debentures and the risk of a resulting foreclosure of their prior lien. The amount required to pay this interest is trifling compared with the cost of protecting your securities in the event of usch a foreclosure.

"The committee can provide this money by borrowing on security of the deposited General Mortgage bonds, and the payment can be made in such a way as to secure repayment to the committee by a lien on the property ahead of the General Mtge. bonds, thus fully protecting the depositing bondholders. The committee, however, is not willing to take such action without the support, through deposit of bonds, of the holders of a very substantial majority of the outstanding General Mtge. bonds."—V. 113, p. 2512.

Rockwood & Co.—*Stock Fraud Charged.*—
See "Current Events" in "Chronicle" Dec. 24, p. 2672.—V. 110, p. 2082.

Royal Dutch Petroleum Co.—*Relation of Excessive Taxes to Dividends.*—The London "Stock Exchange Weekly Official Intelligence" has received from N. M. Rothschild & Sons a report in English of a portion of the proceedings of the extraordinary general meeting held on Dec. 14, from which the following condensed excerpts are taken:

Mr. M. Sanders.—The Gen. Mgr. informed us at shareholders' meeting Nov. 30 that in future, as in the past, the cash position will, whenever necessary, be strengthened by means of an issue of shares. In consequence of the projected tax increase in Netherlands-India, I should be glad if you would put some heart into irresolute shareholders by showing that your system is the correct one and that this system will not lead to a paper shop.

Chairman.—Our intention was to intimate that, as long as the Netherlands-Indian Government picks out an industry for a special tax, be it export duty or a special profit tax, not applicable to other industries, it can hardly be expected that shareholders should be prepared to furnish the necessary funds on the basis that, in case of loss, the entire loss has to be borne by them, whereas in case of a profit proportionate to the risk being made, the Government would have the right to appropriate as much of that profit as they may deem fit.

It is evident, alas, that nearly all over the world the idea that nobody should make much money is becoming more and more prevalent. Nobody, however, seems to be able to answer the question as to how the heavy taxes could be raised if nobody made much money. I sincerely hope that that, which has happened in Russia, viz., "destroying as much as possible and reconstructing nothing," will not be made applicable in Holland. In respect to the "paper shop," we can only state that we have paid out very much more dividends in cash than nominally issued by us in stock. In the more than 30 years' existence of our great petroleum company our production and that of our sister companies have been brought up from a few thousand tons to some ten million tons. It needs no argument to prove that this could not have been done with the original capital; the present capital, however, is only a fraction of the actual value which the so-called "paper rubbish" represents. If no further issues are found desirable, this would actually mean that [development] operations would be brought to a standstill and would necessarily result in retrorgession. The production would then gradually become insignificant, and in such an event we should not have issued any stock, but having paid out cash dividends every year of the business, would then have been reduced to very trifling dimensions.

As I observed at the last meeting, every tax imposed on our business only, and not on others, is nothing else than a capital tax. Such a tax must, therefore, also be capitalized in the year in which it is brought into effect.

We have declared an interim dividend because the company's profits outside Netherlands-India allow of such. The Bataafsche's profit, however, will naturally be considerably reduced by the capitalization of the special tax, which must obviously be booked as a loss or as a reserve for the year in which the capitalization takes place. No other choice remains unless the facts should be misrepresented to shareholders and the position painted other than it actually is.—V. 113, p. 2625.

Alteration of Articles of Association.—
At a meeting in Amsterdam Nov. 30, the shareholders adopted a new Article 31 to the articles of association, reading:

"At the proposal of the Managers and Commissaires the general meeting of shareholders may resolve that the dividend or interim dividend to be paid to shareholders be distributed to them in full or in part in shares of the company or—if the amount of the payment does not correspond to the face value of the shares or subshares—in certificates (scrip), a multiple of which entitles to one or more shares or subsdhares, all this in such manner and under such conditions as shall in each special case be provided for in the said resolution."

A circular explaining the proposed alteration says: "The drafted addition to Article 31 is destined to be applied in csaes where the results of the business justify the payment of a dividenc or interim dividend, but where for some reason or other it appears undesirable to have the payment effected in cash.

"Such case may arise if such large capital expenditures have taken place or must be financed in the near future that a diminution of the available cash should be unadvisable. It is true that in such cases the ordinary course would be an appeal to the money market by the issue of new shares, but circumstances may be of such a nature that a decision of this kind would not be warranted.

"At the present moment, for instance, the board would not feel justified to appeal to any large extent to the money market as long as the legitimate fear for the tax policy of the Dutch Indian Government with respect to the petroleum business (which fear is especially strongly felt abroad) has not been conclusively obviated. In fact, the immediate motive for the present proposal is to be found in this consideration."

(A. L.) Sayles Sons Co.—*Stock Fraud Charged.*—
See "Current Events" in "Chronicle" Dec. 24, p. 2672.—V. 113, p. 1162.

Sears, Roebuck & Co., Chicago.—*President Rosenwald Purchases Company's Real Estate for* $16,000,000—*Makes Gift of* 50,000 *Shares of Stock—President's Action Enables Company to Go Through Readjustment Period with Small Surplus—Net Loss for* 1921.—President Julius Rosenwald, according to Chicago dispatches Dec. 29, has purchased certain of the company's Chicago real estate for $16,000,000, making a first payment of $4,000,000 in cash and Liberty bonds, and making a trust deed without personal liability for the balance of the purchase price. In addition, Mr. Rosenwald has made a gift to the company of 50,000 shares of its Common stock (par $100). It is stipulated that this stock is not to be sold for less than par and that Mr. Rosenwald shall have an option for three years to repurchase the stock for cash at par.

The New York "Times" Dec. 30, regarding this transaction, further says:

"The purchase of the property provides that the company may continue to occupy it under a long-term lease. Both the lease and the deferred payment of $12,000,000, which Mr. Rosenwald is to make, run on a 7% annual interest basis. In effect, this means that, aside from the payment of interest on $4,000,000, the company will be enabled to use the property without charge.

"The gift of 50,000 shares of Common stock made by Mr. Rosenwald from his personal holdings at 60 represents a market value of about $3,000,000, but if the company later disposes of the stock at par, or Mr. Rosenwald exercises his option, it will represent a donation of $5,000,000. In any event, the gift will enable the company to reduce its capital liabilities by $5,000,000, while Mr. Rosenwald's initial payment on the property purchase will increase the company's cash assets by $4,000,000.

"The larger effect of Mr. Rosenwald's action will be that the company will be enabled to work out its financial readjustment without impairing its capital stock. It will be able to write off heavy inventory losses without scaling down the stock holdings of its stockholders, many of whom are employees. It also is expected to bring appreciably nearer the time when the company will be able to resume the payment of dividends on the Common stock, which were discontinued early this year.

"Without considering the evident drastic liquidation of inventory during the year on the basis of last year's financial statement, coupled with Mr. Rosenwald's action, the company is enabled to write down its present inventory by at least $16,000,000 without impairment of its capital stock. At the end of last year the annual statement showed a surplus of $7,564,373 and a reserve for contingencies of $3,423,749, while Mr. Rosenwald's gift of stock represents a decrease of $5,000,000 in capital liabilities."

Statement by Vice-President A. H. Loeb.

"The price which Mr. Rosenwald paid for the property reflects the value as determined by an independent appraisal which, by reason of appreciation over many years, is far in excess of book value. No expense in the transaction was incurred by the company for bonus, commission or brokerage. The company will, of course, have the use and occupancy of the property for 20 years, and no doubt for as much longer as it may desire.

"According to a forecast of the final 1921 figures, it is evident the year now ending will result in a large net loss, but by reason of Mr. Rosenwald's purchase of the property and gift of stock the company is enabled to go through this period of readjustment with its capital unimpaired and with a small surplus. The company is now operating at a profit, its condition is daily improving and the outlook is decidedly promising."

Sales.—The company reports sales for December and the year 1921 (against the corresponding period of 1920) as follows

1921—Dec.—1920.	Decrease.	1921–12 Mos.–1920.	Decrease.
$17,080,880 $19,167,458	$2,086,578	$178,014,979 $254,595,056	$76580,077

—V. 113, p. 2412.

Shell Transport & Trading Co., Ltd.—*Income Tax Status of Dividends.*—

Avery D. Andrews, Chairman of American subsidiaries, Royal Dutch group, in a letter to the holders of "American shares" representing ordinary stock of the "Shell" Transport & Trading Co., Ltd., stated in substance:

"The status under the Federal Revenue Act of 1918 of dividends upon the 'American shares' of the 'Shell' Transport & Trading Co., Ltd., in substance means that divs. received upon the 'American shares' of the 'Shell' Transport & Trading Co., Ltd., in 1920 were not subject to the U. S. normal individual income tax nor to corporation income and excess profits taxes in the hands of the holders of such shares, and that it was proper for individual holders of such shares, for the purpose of the normal Federal income tax and corporation holders of such shares, for the purpose of corporation income and excess profits taxes, to deduct the amount of divs. received upon such shares in making up their income tax returns for 1920. Where such deduction was not made for that year a claim for refund on Internal Revenue Form 46 or a claim for credit on Internal Revenue Form 47-A may be filed with the Internal Revenue Bureau for the amount of the individual normal tax, or corporation income and excess profits taxes, as the case may be, heretofore erroneously paid upon such dividends.

"The deduction referred to above is in addition to, and should not be confused with, the credit allowed in respect of the British income tax paid by the company for its shareholders, as to which full information is given to the holders of the "American shares' of the company by the Equitable Trust Co. of New York with the payment of each dividend.

"The ruling above mentioned does not, under the terms of the new revenue Act, apply to dividends received in 1921 or subsequent years."

See also Pacific Oil Co. above.—V. 113, p. 2512, 179, 191.

Shredded Wheat Co.—*Bonus of* 1%.—
A bonus of 1% has been declared on the outstanding $8,750,000 Common stock in addition to the regular quarterly dividend of 2%, both payable Jan. 2 to holders of record Dec. 21.—V. 112, p. 1031.

Skelly Oil Co.—*Bonds Offered.*—
The company, it is announced, has sold to the Union Trust Co. of Pittsburgh $3,000,000 10-year 7½% Sinking Fund 1st Mtge. bonds, maturing Dec. 1 1931. The proceeds will enable the company to clear up its floating debt and furnish additional working capital.—V. 113, p. 2729.

Southern Canada Power Co., Ltd.—*Annual Report.*—

"In the past three years 17 new industries brought into the Eastern townships of Quebec by the Southern Canada Power Co. have invested $10,000,000 of capital in the territory served by the company."—V. 113, p. 2512.

Southwestern Utilities Corp.—*Bonds Offered.*—Chandler & Co., New York and Phila., are offering at 97½ and int., yielding over 8¼%, $800,000 1st Mtge. 8% Sinking Fund gold bonds (Series "A" Convertible). Dated Nov. 1 1921; due Nov. 1 1936, but red. on any int. date on 30 days' notice at 110 and int

The corporation is engaged in the production, pipe line transportation and wholesale and retail distribution of natural gas for public utility and industrial purposes, to consumers in the communities of Independence, Cherryvale, Elk City, Sycamore and surrounding territory in Southeastern Kansas, and to the Kansas Natural Gas Co.

Average annual net earnings available for interest, Federal taxes and reserves for the 5 years ended Dec. 31 1920 were 2.57 times annual int. charges; for last three years 3.52 times; for fiscal year 1920 6.3 times. Net earnings were $118,230 for first 8 months of 1921.

The bonds will be issued for the acquisition of property and for cash which will be used for the extension and enlargement of the system and general working capital.—V. 111, p. 1758.

Sperry Flour Co.—*Bonds Authorized.*—
The stockholders Dec. 20 approved the proposed $2,500,000 2d Mtge. 5-year 8% bond issue. President John H. Rosseter has announced that the issue has been entirely underwritten by the banks and a number of large stockholders. See V. 113, p. 2626.

Standard Gas Co., Atlantic Highlands, N. J.—*Receiver's Sale.*—
Joseph E. Stricker, Special Master in Chancery, on Jan. 16, at the Court House in Freehold, N. J., will sell at public vendue all of the real estate and assets of the company which supplies gas to 20 municipalities. This company has approximately 135 miles of transmission and distribution mains and over 6,687 meters in service and approximately 7,300 services installed. Annual sales for 1921 are 125,000,000 cu. ft. Rate now in effect is $2 25 per 1,000 cu. ft., plus $3 per year annual fixed service charge.—V. 111, p. 2431.

Standard Gas & Electric Co.—*New Director.*—
C. C. Levis, of H. M. Byllesby & Co., has been elected a director.—V. 113, p. 1162.

Standard Oil Co. (Indiana).—*Stock Authorized.*—
The Indiana State Securities Commission has authorized the company to issue $40,000,000 of stock. The stockholders last June authorized an increase in the stock from $100,000,000 to $140,000,000.—V. 113, p. 1061, 1162, 1583, 2087, 2320.

Standard Underground Cable Co.—20% *Stock Div.*—
A 20% stock dividend has been declared on the outstanding $5,250,000 Capital stock, par $100, payable Jan. 25 to holders of record Jan. 14. This dividend represents "a portion of the surplus that is being invested in new buildings and plants."

An extra dividend of 3% has also been declared in addition to the regular quarterly of 3%, both payable Jan. 10 to holders of record Jan. 4. Extras of 3% have been paid quarterly since April 1920.—V. 113, p. 427.

Tide Water Oil Co.—*Listing.*—
The N. Y. Stock Exchange has authorized the listing of $12,000,000 10-Year 6½% Gold Coupon bonds, due Feb. 15 1931. (See offering in V. 112, p. 569.)

These bonds were issued for purposes as follows: (*a*) Liquidation of bank loans, $6,000,000; (*b*) liquidation of notes payable, $3,000,000; (*c*) loans to inter-companies, $1,085,000; (*d*) expenses in connection with 6½% 10-Year Gold bond issue, $509,167; (*e*) payments against tank steamship contracts, $296,000; (*f*) payments against accounts payable, $1,109,833.—V.113,p2076

Transcontinental Oil Co.—*Bond Issue Approved.*—
The stockholders Dec. 19 approved the issue of $10,000,000 1st Mtge. & Coll. Trust Sinking Fund 10-year 8% gold bonds, which is to be used to fund current debts and secure additional funds for the acquisition of new properties, as well as for betterments and additions to plants and equipment. Of the issue, approximately $5,000,000 will be purchased at par by the officers and large stockholders of the company, and $2,000,000 will be purchased by the Standard Oil Co. of California at par. The balance of $3,000,000 is to remain in the treasury, to be available for future requirements. Compare full details in V. 113, p. 2513.

Union Tank Car Co.—*Note Redemption.*—
The company has elected to redeem on Feb. 1 next $3,000,000 of its Equipment Trust 7% Gold notes, Series "A," due Aug. 1 1930, at 102½ and int.—V. 113, p. 2320.

United Gas Improvement Co.—*Notes Called.*—
All of the outstanding 2-yr. 8% gold notes, due Feb. 1 1923, have been called for payment Feb. 1 at 102 and int. at the Bankers Trust Co., 16 Wall St., N. Y. City. See advertising pages in last week's "Chronicle."—V. 113, p. 2626.

United Cigar Stores Co. of America.—*Plan to Issue $5,000,000 Preferred Stock (1921 Issue) Abandoned, Owing to Suit of Minority Stockholders.*—The plan to authorize $10,000,000 pref. stock (1921 issue), of which it was proposed to issue $5,000,000 at $103 per share, has been entirely abandoned, it was announced Dec. 29, owing to a suit started by a minority group of stockholders to prevent the stockholders from voting the new issue.

The stockholders' meeting was scheduled for Dec. 28, but a temporary injunction issued by Vice-Chancellor Stevenson in Paterson caused the meeting to be postponed to Dec. 30. At the postponed meeting announcement was formally made of the withdrawal of the plan to increase the stock and adjournment was taken. The dissenting stockholders alleged that the terms of the offering of the new issue amounted to a gift to subscribers of some of the company's assets as a bonus. This, however, was denied by the majority stockholders.

Official Announcement in Connection with Abandoning New Issue.

"The proposed issue of $5,000,000 preferred stock was with the idea of having the company very strong in cash so that it would be ready at all times for any demand for increased expansion.

"We are surprised that some holders of preferred object to our proposal for this increase, and we appreciate their motives in the matter, but our earnest intention was to do the fairest thing by these stockholders who have been out friends for many years. We worked out some very attractive plans for extending the business. These plans are large in scope but small in capital requirements, which means that our profits on the new capital should be extremely handsome.

"As some preferred stockholders are dissatisfied, it is impracticable to attain ratification by the stockholders before Dec. 31, and we have decided to recommend that no action be taken upon plan of issuing this 1921 preferred stock at this time. There will be no let-up on the expansion program already worked out, and the company will see that at all times hit has ample capital required.

"On Oct. 31 the cash on hand was $4,894,515 and the inventory $11,204,519. There should be no fear of shrinkage in this inventory as our sales for November and December will be more than the inventory."

Data from Bankers' Circular in Connection with Proposed Financing

Company.—Incorp. in 1912. Has developed from a single store in 1901 into a nation-wide chain of 1,208 stores and 784 agencies engaged in the sale, at retail, of popular brands of cigars, cigarettes and other tobacco products and smokers' articles. The stores are located in 289 cities and the agencies in 766 cities. The magnitude of the company's operations is indicated by the sale in 1920 of over 326,000,000 cigars, 2,720,000,000 cigarettes and 7,000,000 lbs. of smoking and chewing tobacco. The company and its subsidiaries own real estate and leaseholds having a value substantially in excess of the amount at which they are carried on the company's books.

The company does the largest business of its kind in the world. All sales are on a strictly cash basis and it has been the custom of the company to take advantage of all cash discounts in its purchases. The company has never incurred any funded obligation other than real estate mortgages,and upon completion of this financing will have cash substantially in excess of all current liabilities.

Earnings Years ended Dec. 31.

	Gross Sales.	Net Avail. for Divs.		Gross Sales.	Net Avail. for Divs.
1913	$29,575,398	$1,913,154	1917	$42,913,407	$2,873,500
1914	29,902,712	2,180,424	1918	52,037,749	4,010,204
1915	31,038,849	2,207,467	1919	62,058,497	3,860,766
1916	35,822,985	3,059,933	1920	79,628,428	5,029,004

Earnings available for dividends for first 10 months of 1921 were $2,930,000, and it is estimated that the full year should show approximately $4,000,000. Gross sales for 1921 are estimated at about $77,000,000.

Condensed Balance Sheet, Including Subsidiary Cos., Oct. 31 1921.

[Reflected to show the effect of the new $5,000,000 pref. stock (1921 issue) and the additional $473,000 old pref. stock, if the new financing had gone through.]

United Fruit Co.—*Official Denial of Rumors.*—Concerning the resignation of E. W. Ong as Vice-President and General Counsel and other matters, William Newsome, Vice-President, on Dec. 23 said in substance:

All talk of the retirement of Mr. Andrew W. Preston as President of this company is without foundation. The company will continue under his strong, far-sighted and active leadership. Any statement questioning the company's position, financial or otherwise, is ridiculous and not borne out by the facts which are at the disposal of any one taking the trouble to inquire.

The Ong incident is merely a personal matter, having no bearing whatever on the company. In fact, the decision to call for the resignation of Mr. Ong was arrived at several weeks ago.

Mr. Preston has behind him the loyal support of every executive and department head in the organization. We share with him his pride in the great business enterprise which he pioneered twenty years ago. The United Fruit Co. is too great a factor to serve as a cloak for petty jealousies. The successful business policies laid down under Mr. Preston's aggressive leadership will continue to be faithfully carried out.—V. 113, p. 2729.

United Oil Producers' Corp.—*Tenders.*—
The Coal & Iron National Bank, New York, as trustee, will, until Jan. 23, receive bids for the sale to it of 10-year First Lien Gold 8% Participating Sinking Fund Production Bonds, sufficient to exhaust $50,000.—V.113, p. 2626.

U. S. Bobbin & Shuttle Co.—*Extra Dividend.*—
An extra dividend of 3% has been declared on the $850,000 outstanding Common stock (par $100) along with the regular quarterly dividend of 1½%, both payable Dec. 31 to holders of record Dec. 14. Extras of 5% each were paid in June 1920 and in Sept. 1919 and Sept. 1918.—V. 112, p. 2092.

U. S. Playing Card Co.—*To Reduce Par Value.*—
The stockholders will vote Jan. 26 on reducing the par value of the authorized $3,600,000 capital stock from $100 to $20 per share.
At latest accounts the company had $3,335,900 stock outstanding, and it is stated that the unissued stock may be sold after the reduction in the par value.—V. 113, p. 2412.

United States Smelting, Refining & Mining Co.—*Regular Dividend on Preferred—11 Months Net Earnings.*
The regular quarterly dividend of 87½ cents per share has been declared on the Preferred stock, payable Jan. 14 to holders of record Jan. 6.

Digest of Official Statement.

Earnings for 11 Months 1921.—Consolidated earnings for 11 months ending Nov. 30 1921 are estimated at $2,136,000, after providing all interest. After deducting reserves of $979,000 for depreciation and depletion and $104,000 for further exploration work in Mexico, estimated net earnings for the 11 months were $1,053,000, of which $492,000 was earned in the first 8 months of this year.

Deficit for 1921.—In completing the consolidated profit and loss account for the year, these earnings will be increased by further operating profits for the year as well as profits from other sources, which after taking care of further depletion and depreciation charges and Federal taxes, it is estimated, will result in showing a deficiency for the year of from $200,000 to $300,000 after providing Preferred dividends amounting to $1,702,225. After charging this deficiency, the surplus will be about $16,500,000.

Capital Additions.—The capital additions this year will amount to about $1,500,000 represented by construction and improvements in Mexico, additional lands and improvements at the coal properties, additions and betterments to the railroad property and mining claims and construction in Utah and elsewhere.

Operations—Output.—Operations of the metal mines and smelters in the United States continue substantially as previously reported. The coal operations have remained very much curtailed owing to lack of demand and the output this year will be approximately 780,000 tons as against 1,548,222 tons last year.

The Mexican properties have been working steadily throughout the year and the output will be about 870,000 tons as against last year's 996,757 tons, the decrease being due to a shortage of power during the summer months. In view of the low price for silver during the year, the profits have been very satisfactory. The properties are in excellet condition.n —V. 113, p. 1479.

United States Steel Corp.—*Stock for Employees.*—
The company has announced that it will give employees the privilege of subscribing to 100,000 shares of Common stock at $84 per share. The terms of the offering are the same as in preceding years, the employees to be allowed to pay for the stock in monthly installments. This year's subscription price compares with $81 for 1921, $106 for 1920, $92 for 1919 and 1918, $107 for 1917 and $85 for 1916. No Common stock was offered for subscription in 1915, in which year the corporation discontinued its policy of offering to employees its Pref. stock. The number of shares taken in 1921 was the largest on record, totaling 255,325.

The official statement says: "In accordance with the stock subscription plan heretofore adopted, the finance committee has decided to offer to employees of the United States Steel Corp. and its subsidiaries the privilege of subscribing, during the month of January 1922, for 100,000 shares of Common stock at the price of $84 a share."

Thomas Murray, Assistant Secretary and Assistant Treasurer, and a director of the company, died at Sparkill, N. Y., Dec. 27.—V. 113, p. 2626.

Utah Construction Co.—*Bonds Offered.*—E. H. Rollins & Sons and George H. Burr & Co., Los Angeles, New York, &c., are offering at 100 and int. $1,250,000 1st (closed) Mtge. 7½% Serial Gold bonds. A circular shows:

Dated Dec. 1 1921. Due $50,000 annually Dec. 1 1924 to 1926; $100,000 annually Dec. 1 1927 to 1934; $300,000 Dec. 1 1935. Denom. $1,000, $500 and $100 (c*). Callable upon 60 days' notice on any int. date, all or part, at par, and a premium of ¾ of 1% for each year or fraction thereof of unexpired term. Int. payable J. & D. at Mercantile Trust Co., San Francisco, trustee. Company agrees to pay 2% normal Federal income tax.

Security.—An absolute closed first mortgage on approximately 208,000 acres of ranch and range lands in Nevada, Utah and Idaho, appraised at $4,221,400.

Earnings.—Total net earnings after depreciation and all taxes for 10 years ended Dec. 31 1920 have averaged over $554,000 p. a., or more than 5.9 times maximum annual bond interest charges and over 3 times maximum annual bond interest and redemption charges prior to 1935.

Company.—A Utah corporation, incorporated and began business under present management in 1900. Business was at first confined to the performance of grading contracts, but about 1914 it invested directly in a large amount of ranch and farm properties, since which time business has comprised both contracting and ranching and farming operations. For four years prior to 1914 it was indirectly interested in ranching and farming, because of its purchase in 1910 of controlling interests in the Vineyard Land & Stock Co., which it operated as an auxiliary corporation. The assets of this last-named company are to be transferred direct to Utah Construction Co. and will form the basis of this bond issue.

Capital Investment, &c.—From a total invested capital of $50,000 in 1900, the capital and surplus have been increased, almost entirely through earnings, to the present total of $2,438,100 Capital stock and $4,088,216 surplus, Nov. 30 1921. During this same period cash dividends of $3,458,750 have been paid.

Company has handled through its contracting department large volumes of work for the Southern Pacific, Union Pacific, Denver & Rio Grande, San Diego & Arizona, Oregon Short Line, Western Pacific, &c., and the City and County of San Francisco, for which it is now building the Hetch Hetchy Dam.

Purpose.—Proceeds are to be used for funding of floating debt and for other corporate purposes.

Directors.—W. H. Wattis, Pres. & Gen. Mgr.; E. O. Wattis, V.-Pres.; M. S. Browning, V.-Pres.; Warren L. Wattis, Sec'y & Treas.; Marriner S. Eccles, R. B. Porter, Royal Eccles, Joseph Scowcroft, A. H. Christensen.

Ventura Consolidated Oil Fields.—*Extra Dividend.*—
An extra dividend of 50 cents per share has been declared on the outstanding Capital stock, par $100, in addition to the regular quarterly dividend of 50 cents, both payable Feb. 1 to holders of record Jan. 14. This will bring total dividends paid for 1921 to $2.50 per share.—V. 113, p. 1369.

Washington-Idaho Water, Light & Power Co.—*Default—Protective Committee.*—
The company having defaulted on the Nov. 1 1921 interest on the outstanding $754,000 1st Mtge. 6% S. F. Gold bonds due May 1 1941, the following committee has been formed to protect their interests: Lyman Rhoades, Arthur J. Skinner, J. Lothrop Motley, with Equitable Trust Co., New York, depositary.—V. 112, p. 2199.

CURRENT NOTICES.

—Pask & Wallbridge, 14 Wall Street, New York, announce that they are continuing the business in investment securities formerly conducted by A. B. Murray & Co. at this address.

—J. M. Byrne & Co. announce that F. Vernon Foster will retire from membership in their firm on Dec. 31 1921, and Frederic J. McDonald will be admitted.

—Chapman, Carman & Co., 100 Broadway, New York, announce the admission to partnership of A. T. Lawrence.

—Clayton McMichael has become associated with Robert Glendinning & Co., 400 Chestnut St., Philadelphia, in their bond department.

Reports and Documents.

CENTRAL OF GEORGIA RAILWAY COMPANY

TWENTY-SIXTH ANNUAL REPORT—FOR THE YEAR ENDED DECEMBER 31 1920.

Savannah, Ga., April 7 1921.

To the Stockholders:

The Board of Directors submits its report for the year ended December 31 1920.

RELEASE FROM FEDERAL CONTROL.

Federal control continued to midnight of February 29 1920, when your company resumed possession and operation of its transportation properties for its own account. The income account herein shown does not include operating revenues, operating expenses and taxes of the United States Railroad Administration for the months of January and February, but to facilitate comparison we submit tables of operating revenues, operating expenses and taxes, and show comparisons with previous years, which include operations for the two months of Federal control.

ACCOUNTS WITH DIRECTOR-GENERAL.

Settlement with United States Railroad Administration of accounts growing out of Federal control is in progress but not completed. The amounts shown on the balance sheet as due to and from your company are subject to this final settlement.

TRANSPORTATION ACT, 1920.

The Transportation Act, 1920, was approved by the President on February 28 1920. It contains much new legislation and many material changes in laws previously enacted.

GOVERNMENT GUARANTY.

The amount accrued to your company by the Government under the six months' guaranty given by the Transportation Act has not yet been ascertained and certified by the Inter-State Commerce Commission; but, pending final audit and approval of the accounts submitted, substantial advances and partial payments have been collected. Income account as submitted includes an estimated credit of the amount payable under the terms of the guaranty.

MILES OF ROAD OPERATED.

The miles operated as of December 31 1920 were 1,913.63.
The miles operated as of December 31 1919 were 1,918.29.

INCOME.

The income for year 1920, compared with the previous year was as follows:

	1920.	1919.	Increase or Decrease.
	$	$	$
Railway operating revenues	20,676,551 05	----------	+20,676,551 05
Railway operating expenses	21,102,368 50	52,858 97	+21,049,509 53
Net revenue railway operations	(R)425,817 45	(R)52,858 97	—372,958 48
Railway tax accruals	795,151 18	126,929 88	+668,221 30
Uncollectible railway revenues	5,584 69	----------	+5,584 69
Total	800,735 87	126,929 88	+673,805 99
Railway operating income	(R)1,226,553 32	(R)179,788 85	—1,046,764 47

(R)—Red.

OPERATING REVENUES.

(12 Months)

There was an increase of $2,349,183.54, or 17.88%, in freight revenue; $304,343 94, or 4.69%, in passenger revenue; $732,249 87, or 38.22%, in other operating revenues; or $3,385,777 35, or 15.61%, in railway operating revenues.

OPERATING EXPENSES.

(12 Months)

Operating Ratio:

The operating ratio was 102.60, an increase of 13.70 points, or 15.40%.

Maintenance of Way and Structures:

Expenditures for maintenance of way and structures were $4,942,898 33, an increase of $574,157 19, or 13.14%.

Maintenance of Equipment:

Expenditures for maintenance of equipment were $6,163,735 93, an increase of $1,691,962 49, or 37.84%.

Charges for depreciation of equipment were $606,068 42, a decrease of $22,649 82, or 3.60%.

The average miles per serviceable locomotive were 35,729, an increase of 1.925 miles, or 5.69%. The average age of locomotives was 17.3 years, compared with 16.7 years for the preceding year.

Transportation Expenses:

Transportation expenses were $12,908,739 14, an increase of $3,666,619 02, or 39.67%.

TAXES.

(12 Months)

Accrued taxes were $925,198 85, a decrease of $17,453 36, or 1.85%.

FINANCIAL.

The General Balance Sheet, Table 4, shows the financial condition of your company at December 31 1920.

Capital Stock:

There has been no change in capital stock.

Funded Debt:

Since December 31 1919 equipment trust obligations aggregating $100,000 and Greenville & Newman Main Line Bonds and Upper Cahaba Branch Bonds aggregating $60,000 matured and were paid.

Loans and Bills Payable:

Pending collections from the Government under the six months' guaranty, and from the United States Railroad Administration, your company borrowed from banks in December $575,000 for a short period. The notes have been paid since December 31.

Non-Negotiable Debt to Affiliated Companies:

The increase of $553,388 33 in this item is due in part to the same cause, and in part to the purchase of $525,000 of Fourth Liberty Loan Bonds to use as collateral security in connection with an advance made by the United States on account of the six months' guaranty.

Securities Owned:

The increase in Other Investments—Bonds reflects the above noted purchase of Liberty Bonds.

Dividends:

During the year preferred dividends, Nos. 14 and 15 ($900,000), at a stipulated rate of 6% per annum, and common dividends Nos. 9 and 10 ($250,000), at a rate of 5% per annum, were declared and paid.

Dividends Receivable:

During the year Ocean Steamship Company of Savannah paid from accumulated surplus an extra dividend of $40 per share, of which your company received $799,640.

Guaranty of Ocean Steamship Company Bonds:

On July 1 1920 the First Mortgage Twenty-Year Five Per Cent Bonds of Ocean Steamship Company of Savannah, aggregating $1,000,000, matured and were, by arrangement with the holders, and after being unconditionally guaranteed as to principal and interest by this company, extended at 7% for five years, until July 1 1925.

ROAD AND EQUIPMENT.

The expenditures for road and equipment, including additions and betterments on leased railway property, during the twelve months ended December 31 1920 were as follows:

	Corporate.	*Federal.*	*Total.*
	$	$	$
Engineering	9,554 79	3,570 31	13,125 10

(R)—Red.

PHYSICAL CHANGES.

Roadway and Structures:

There were 58.3710 miles of track relaid with 90-pound new steel rail; .0094 miles with 80-pound new steel rail; and .0281 miles with 70-pound new steel rail; making a total of 58.4085 miles of track relaid with new steel rail, which includes 10.0293 miles of track relaid with new steel rail of the same weight. 26.5586 miles of track were relaid with second-hand steel rail, replacing rail of lighter pattern. 4.6206 miles of track were relaid with second-hand steel rail, replacing rail of same pattern. Total mileage of track relaid with new and second-hand steel rail was 89.5877. In addition, 5.6663 miles of track between East Point and Atlanta were laid with 90-pound new steel rail, replacing 80-pound steel rail, for account of the Atlanta & West Point Railroad Company, which track is operated as a second main line by your company, under trackage rights.

$117,367 41 were expended for tie plates, &c., applied to track.

69 new industrial tracks were added, aggregating 2.29 miles in length, while 19 tracks were removed, aggregating 1.67 miles; making net increase of 50 tracks and 62 miles.

37 new company sidings were added, aggregating 6.12 miles in length, while 26 sidings were removed, aggregating 2.63 miles; making net increase of 11 sidings, and 3.49 miles.

There were 14.69 miles of track ballasted with gravel laid to a depth of 4 inches.

$32,000 were expended in the purchase of 2.12 acres of land at Columbus, Georgia.

$165,935 76 were expended in the construction of a new reinforced concrete outbound freight house, transfer platforms and driveways at Macon, Georgia.

$4,045 73 were expended in moving to Dennis, Georgia, and erecting depot formerly located at East Newnan, Georgia.

Standard passenger shed was erected at East Newnan, Georgia.

$2,857 12 were expended in installing train order signals at Bolingbroke, Forsyth, Goggins, Milner and Barnesville, Georgia.

1,014 lineal feet of frame and pile trestles were replaced by embankments and suitable waterways provided.

$25,909 92 were expended in constructing a double 8x10 reinforced concrete box to replace the stone arch near Birmingham, Alabama.

$7,051 14 were expended in widening Elm Street bridge, Macon, Georgia.

$2,394 56 were expended in constructing wagon bridge, Eufaula, Alabama.

$1,172 08 were expended for paving at Andalusia, Ala.

$1,948 92 were expended for paving East Main Street, Statesboro, Georgia.

$916 05 were expended for paving Broad Street, Griffin, Georgia.

$4,175 29 were expended for paving North Street, Albany, Georgia.

$936 72 were expended for paving at Troy, Alabama.

$14,291 06 were expended in the purchase of 51 motor cars for use of supervisors, section foremen and bridge gang foremen.

$48,674 14 were expended in the purchase of 16 electric trucks for handling cotton on Savannah terminals.

$12,744 85 were expended in the purchase of one American Railroad Ditching Machine.

$4,222 06 were expended in the purchase of two rail loading machines.

Contract was let and work commenced on the construction of a reinforced concrete roundhouse and shop at Columbus, Georgia; total expenditure to date of $98,375 40.

$2,317 94 were expended in equipping Macon shops with additional water connections to wash basins.

$2,756 01 were expended in the purchase of one pneumatic flanging machine for Macon shops.

$1,018 60 were expended in the purchase of one electric arc-welding machine for Savannah shops.

$3,955 87 were expended for an electric turntable tractor on turntable at Savannah roundhouse.

Equipment:

Seven new Mountain Type locomotives, built by American Locomotive Company, were used under temporary lease during a portion of the year, and arrangements made for their eventual acquirement by your company under Equipment Trust M. No locomotives were sold or retired. There is an increase over previous year of 314,938 pounds of tractive power in total locomotives.

Arrangements were made for acquiring under Equipment Trust M 17 all-steel passenger train cars, to be built by The Pullman Company.

$15,917 35 were expended in the application of superheaters, valve gear, piston valves and other improvements to locomotives.

$4,974 07 were expended in additions and betterments to passenger train cars.

There were no freight train cars acquired. 434 freight and work cars were sold, destroyed or retired, and 145 freight train cars were converted to work equipment.

The average capacity of freight cars at the close of the year was 38.0 tons, and the total capacity was 336,260 tons.

$19,630 53 were expended in reinforcement of draft gear, application of safety appliances, and other additions and betterments to freight cars.

$39,709 53 were expended in the purchase and converting of Illinois Central sun parlor car into office car.

OPERATIONS.

To maintain the continuity of historical and statistical data, there are included in an appendix the result of operations of your property for the two months under Federal control, six months' guaranty period, the four months solely for corporate account operations; and the twelve months' operation.

GENERAL REMARKS.

The Board takes pleasure in acknowledging the fidelity, efficiency and united efforts displayed by your officers and employees in the discharge of their duties.

By order of the Board of Directors,

CHARLES H. MARKHAM,
Chairman of the Board.

CENTRAL OF GEORGIA RAILWAY COMPANY.

R—Red.

CURRENT NOTICES.

—Since the brisk advance in bond prices in recent weeks, investors have been casting about for securities yielding 7 to 8%, running 10 to 20 years. There are a number of such issues in the foreign government bond field and selection is made easy by the recent publication of a book which clearly shows the investment position of all public securities. This is the new edition of Moody's Rating Book or Analyses of Government and Municipal securities which is just off the press. In addition to describing all foreign government securities and prominent State and city issues throughout the world, this book contains full information regarding American municipals and rates each and every government and municipal bond. This volume is one of four similar rating books on securities, the others covering railroads, public utilities and industrials, and can be obtained from Moody's Investors Service, 35 Nassau St., N. Y. City, for $20, including monthly supplements and carriage charges.

—Announcement has been made of the organization of a new investment house, to be known as F. L. Carlisle & Co., Inc., with offices at 49 Wall St., New York City. The capital of the company will be $500,000 paid in. Mr. Floyd L. Carlisle, head of the Northern New York Trust Co., Watertown, N. Y., will be President of the new organization, as well as a member of the board of directors. The board will also consist of W. H. Stevens, D. C. Middleton, D. M. Anderson and Roy K. Ferguson, all of Watertown. Mr. Ferguson, who for several years has been head of the bond department of the Northern New York Trust Co., will take charge of the management of the new firm. The house plans to specialize in securities of the Northern New York Utilities Co., which is controlled by the Northern New York Trust Co., and other investment issues.

—Dean, Onativia & Co., announce the formation of a partnership for the transaction of a general commission business in stocks, bonds, cotton, grain and provisions, with membership in the New York and Chicago Stock Exchanges, Chicago Board of Trade and New York Cotton Exchange. Offices are located at 71 Broadway, New York, and 332 So. La Salle Street, Chicago. The members of the new firm are: J. Clarke Dean, J. Victor Onativia Jr., E. F. Rosenbaum, E. S. Rosenbaum, and Hart Taylor.

—The firm of A. B. Murray & Co., investment brokers, 14 Wall St., N. Y., announces its dissolution by mutual consent of the partners. Business of the firm will be continued at the same address by two of the partners, Marshall W. Pask and Anton E. Walbridge, under the name of Pask & Walbridge. The third partner, Alexander B. Murray, has formed a co-partnership with Bradford Wickes to handle bond investments under the title of Murray & Wickes, with offices at 120 Broadway.

—Joost, Patrick & Co., 61 Broadway, New York, announce the formation of a partnership composed of Sherman B. Joost, John J. Patrick, Howard Corlies, George N. Patrick, Rufus S. Rowland and James J. Greham, special. The branch office at Troy, N. Y., will be in charge of George N. Patrick, resident partner. Joost, Patrick & Co. will continue the business formerly conducted by Auchincloss, Joost & Patrick, now dissolved.

—E. M. Shear, formerly Manager of Carruthers, Pell & Co.'s railroad bond department; C. F. Barton, formerly Manager of Pynchon & Co.'s railroad bond department, and E. D. Simon, formerly with W. D. Wollman & Co., have formed a co-partnership under the name of Shear, Barton & Co., with offices at 5 Nassau St., New York City, telephone Rect or 6761. They will deal in investment securities, specializing in inactive railroad issues.

—H. F. Bachman & Co. announce that Henry M. Peers has withdrawn from their firm and incidentally that John G. Allen, formerly of Raleigh, North Carolina, has been appointed manager of their cotton department.

—The firm of Shonnard, Mills & Co. will be dissolved Dec. 31 1921, J. H. G. Mills retiring. The business will be continued at 120 Broadway, New York, by Shonnard & Co., composed of Horatio S. Shonnard, F. Clark Thompson, J. A. Campbell Jr., Arthur D. Weeks Jr., Joseph D. Godfrey and J. A. Campbell, special.

—Messrs. Redmond & Co., 33 Pine Street, New York, are advertising in to-day's issue, on the page opposite the first page of reading matter, an attractive list of municipal bonds for January investment, yielding from 3.90 to 4.60%. These bonds are exempt from all Federal income taxes, including the surtax.

—The attention of banks, insurance companies, estates or individual investors, who seek primarily safety and marketability, is called to the page advertisement of Messrs. Remick, Hodges & Co., 14 Wall Street, New York, in to-day's issue, offering a list of municipal bonds exempt from all Federal income taxes, yielding from 3.90 to 5.40%.

—W. H. Goadby & Co. announce the retirement of W. H. Goadby. The business, however, continues under the same firm name and with the exception noted, by the same partners, viz.:Courtlandt D. Barnes, Charles Morgan, member of New York Stock Exchange, and Harry G. Miles.

—William E. Lauer & Co., members of the N. Y. Stock Exchange, 74 Broadway, New York, announce the admission as partners of Edwin D. Blumenthal, member of the N. Y. Stock Exchange, and Morton H. Blumenthal, who formerly comprised the firm of Blumenthal Bros.

—The dissolution of the firm of Sichel & Frankel is announced effective Jan. 1 1922. The business will be continued as J. D. Frankel & Co., 50 Broad St., New York, composed of Joseph D. Frankel and Arthur H. Goetz.

—Messrs. F. J. Lisman & Co., 61 Broadway, New York, members of the New York Stock Exchange, announce by advertisement in to-day's issue that under date of Jan. 3 1922 Mr. Mitchell May and Mr. A. O. Corbin will become members of their firm.

—The attention of investors is called to the list of State and municipal bonds advertised on another page in to-day's issue by Eldredge & Co., 7 Wall Street, yielding from 4.75 to 5%. These bonds are exempt from all Federal income taxes.

—William R. Compton Company are offering by advertisement on another page an attractive list of municipal bonds exempt from all Federal income taxes, yielding from 4.10 to 6%.

—L. D. Stanton & Co. announce the formation of this firm, effective Jan. 3 1922, at 61 Broadway, New York. The members are Louis D. Stanton, Ricardo Cirstiani and Edmund C. Stanton.

—Watkins & Co., 7 Wall St., N. Y., and 40 State St., Boston, is offering a list of State and municipal bonds yielding from 4.00% to 5.00%. They are all exempt from Federal income taxes.

—Robert F. Brown, formerly manager of the New York office of Weil, Farrell & Co., a Boston banking house, is now Treasurer of the Dayton Rubber Manufacturing Co.

—Henry M. Peers & Co., members of N. Y. Cotton Exchange, announce that they have opened an office at 60 Broadway, New York, where they will conduct a general brokerage and commission business in cotton futures.

—Douglas Smyth, former specialist in New York State and city bonds, is now in charge of municipal trading for W. W. Sutton & Co.

The Commercial Times.

COMMERCIAL EPITOME.

New York, Friday Night, Dec. 30 1921.

Trade of late has been quiet almost everywhere. Wholesale trade and the big industries have felt it. There is some reaction after the Christmas trade. That is only natural. Mills and factories are in some cases shutting down for the usual inventories at this time of the year. Lumber is quiet. Among the favored industries have been woolen and cotton goods, furniture and shoe manufactures. The iron and steel trade is still very quiet. Nothing else could be expected at this time, and prices have eased somewhat. The automobile industry is quieter. Shut-downs are reported here and there. Wool has shown less activity. Sugar has continued to decline. Cotton, on the other hand, has advanced, with a better demand both for the raw material and the manufactured goods. Worth Street and Fall River reports have been encouraging; sales have increased and prices have advanced. Even Manchester seems to be waking up. India is buying there somewhat more freely. And there is some talk to the effect that the East Indian boycott of Manchester's goods is dying out. It is not altogether clear that such is the case, but at any rate India has been buying somewhat more freely at Manchester. The coal trade, despite colder weather, is slow, and it is said that Welsh coal is coming here as ballast and selling at below American prices, at tidewater. Retail trade in general is smaller than that of a year ago. Grain prices have declined, although considerable purchases have been made of corn for shipment to Russia in connection with the Russian Relief Committee. The Grain Corporation is to buy 20,000,000 bushels of corn in this country to distribute in the old Moscowvite Empire. The failure of a well-known firm had little effect on the Stock Exchange, or the Cotton Exchange, though it told somewhat on prices of grain at the Chicago Board of Trade. The decline in grain, however, was at least partly due to the fact that the Government has increased its estimate of the wheat crop some 54,000,000 bushels, and that its report on the winter wheat acreage shows a far smaller decrease than some had expected; in fact, the decrease is light. And better weather has recently prevailed for the winter wheat crop. It has been a high record year in building; that is very generally recognized. In the early part of the year prices of merchandise declined with deflation still in operation. In the last three or four months, however, it has seemed that deflation in many lines at least had culminated. But the price of labor is still badly inflated. The cost of transportation also needs to be reduced. The farmer is still confronted with high prices of manufactures, while he is obliged to sell his raw products at comparatively low prices. Such a condition naturally militates against the best interest of American business. But this is nothing new. It is widely understood and has been for months past. Economic law will correct it gradually. Meanwhile, failures have fallen off somewhat. For the holiday week they are 445, against 550 last week, 470 for this week last year, only 82 in 1919, 105 in 1918, and 200 in 1917. Car loadings have been reduced. But on the whole the stock market has acted very well. And net railroad earnings are improving. Bonds are active and strong. Foreign exchange declined for a time, notably lire, coincident with a big bank failure in Rome. But to-day there was quite a general improvement. And as we confront the new year 1922 it can fairly be said that the general feeling is hopeful. The world is facing, it is hoped, a new and better future politically, socially, financially and commercially. The year 1921 saw the beginning of a genuine effort to reduce armaments and to take a real step and a big step towards the ultimate abolition of war. And there is now to be assembled at Cannes, France, an Economic Conference, which in one way or another may serve the interests of business throughout the world. As the war period recedes further and further from view, it is natural to expect that its evil legacy will gradually disappear and humanity return to the normal ways of peace in consonance with genuine civilization.

The failure was announced to-day of E. W. Wagner & Co., members of the New York Stock Exchange, Chicago Board of Trade and the New York Cotton Exchange. A receiver, it is said, has been appointed for the Fidelity Manufacturing Co., Charlotte, N. C., cotton goods. Assets and liabilities are each placed at approximately $300,000. A receiver was appointed for Robert H. Ingersoll & Bro. Company, manufacturers of the Ingersoll watch. A temporary reciever was reported for the firm of Wm. Ayres & Sons, Philadelphia, Pa., manufacturers of horse blankets and cloth. A Chicago dispatch said that the estimated operating loss of Montgomery, Ward & Co. for the year ending Dec. 31 will perhaps approximate $5,000,000. Sears, Roebuck & Co., it is stated, have been making large sales of real estate. The mail order business in 1921 naturally suffered from the sharp decrease in the buying power of the farmers of the United States, after the prices of their products had declined some 50%.

At Bloomington, Ill., the Chicago & Alton shops will be operated but three days a week until further notice, accord-

ing to a bulletin posted. Approximately 1,500 men will be affected.

Fearing the loss of the Easter trade, both sides in the New York cloak and suit trade controversy are seriously considering a settlement. While officially neither side has receded from its position of Nov. 14, when the strike started, it is believed not unlikely that a compromise will be reached, as has been done in Philadelphia and Chicago. Nearly 300 union cloak-makers went on strike Dec. 27 in about 26 manufactories at Baltimore over a wage scale disagreement. The strike of the Philadelphia garment workers ended Dec. 27 with mutual concessions. The strike of Chicago garment workers, lasting a month, has been settled on an efficiency basis of wages above a minimum.

Attorney-General Daugherty has started an investigation of retail and wholesale prices for food supplies, clothing, shoes, fuel and other necessaries, to determine whether Government prosecution is warranted. The Attorney-General will publish production costs of necessities in comparison with what the retailer charges the consumer.

The Cotton Exchange and the Coffee and Sugar Exchanges closed to-night until next Tuesday morning. The New York Produce Exchange, the Chicago Board of Trade and the New York Stock Exchange will be open for business as usual to-morrow.

LARD quiet; prime Western, 9.55@9.65c.; refined to Continent, 11c.; South American, 11.25c.; Brazil, in kegs, 12.35c. Futures advanced slightly with hogs higher. Some packers bought January and sold May. A rise in January pork tended to help lard. To-day prices were irregular, closing 2 to 5 points lower for the week.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January delivery...cts.	8.73	Holi-	8.77	8.77	8.67	8.70
March delivery.....	8.95	day.	8.97	8.97	8.90	8.90
May delivery.....	9.15		9.17	9.17	9.10	9.07

PORK quiet; mess, $24@$25; family, $25@$28; short clear, $21 50@$24 50; January closed at $14 95, an advance for the week of 10 cents. Beef, quiet; mess, $12@$14; packet, $13@$14; family, $15@$16; extra India mess, $24@$25. No 1 canned roast beef, $3 25; No. 2, $5 26; 6 lbs., $15 50. Cut meats dull; pickled hams, 10 to 12 lbs., 16¾@17¼c.; pickled bellies, 10 to 12 lbs., 13@15c. Butter, creamery extras, 41½@42c. Cheese, flats, 16@23½c. Eggs, fresh extras, 51@52c.

COFFEE on the spot in only moderate demand at steady prices; No. 7 Rio, 9⅛@9¼c.; No. 4 Santos, 12¼@12¾c.; fair to good Cucuta, 11¾@12¼c. Futures have been quiet and prices have kept within very narrow limits. Contracts have been rather scarce. Large withdrawals of December coffee have attracted attention. Some now estimate that the bull interests have taken over 350,000 bags this month, cleaning up a large percentage, it is believed, of the available coffee for delivery. Meanwhile the stock in New York is 805,900 bags of Brazil, against 744,770 last year. The stock in Brazil is 4,800,000 bags, of which, it is said, the Government interests control 4,000,000 bags. The statistical position of Brazilian coffee is therefore regarded by not a few as in no bad shape. In fact, not for years, it is argued, has it been to all appearance so impregnable. The Brazilian Government holdings, it is said, will not be sold during the present season. To-day prices declined slightly, ending 10 points lower for the week.

Spot (unofficial)	9¼-⅜c-9¼	May	8.54@8.55	September	8.51@8 52
March	8.70@8.72	July	8.51 Nom.	December	8.57 Nom.

SUGAR has declined with a drop in old Cuban to 1 13-16c., a new "low" last Tuesday. On Wednesday came a further drop to 1.75c. for January shipment, with sales then and later of 60,000 bags. The Committee has made no change in its price of 2.25c. cost and freight on allocated sugars. There has still been talk of a plan to dispose of 500,000 tons of Cuba's surplus by a toll arrangement. Refined here is 4.80 to 4.90c. Receipts at U. S. Atlantic ports for the week ending Dec. 28 were 25,882 tons, compared with 35,673 in the previous week, 28,179 a year ago and 18,288 two years ago. Meltings were 41,000 tons, against 42,000 last week, 32,000 last year and 24,700 two years ago. Total stock is 35,131 tons, against 50,249 in the previous week, 61,776 last year and 14,072 two years ago. To-day futures showed no net change. They are 10 points lower for the week. Spot raw was quoted at 1.75c.

Spot (unofficial)	3.36c	March	2.09@2.10	July	2.43@2.44
December	@	May	2.25@2.26	September	2.55@2.57

OILS—Linseed remains quiet with prices about the same. Offerings of English and other foreign oils were small. Buyers continue to hold off. Importers are inclined to believe that they will be able to do much better after the first of the year. November carloads, 67@68c.; less than carloads, 70@71c.; five bbls. or less, 74@75c. Cocoanut oil, Ceylon, bbls., 8¾@9c.; Cochin, 10@10¼c.; olive, $1 15; soya bean, edible, 10½@11c.; lard strained winter, 87c.; cod, domestic nominal, Newfoundland, 43@45c. Cottonseed oil sales to-day, 22,600 bbls. Crude S. E. 7@7.15c. Prices closed as follows:

Spot	8.23@8.45	March	8.72@8.74	June	9.05@9.15
January	8.24@8.26	April	8.79@8.82	July	9.23@9.24
February	8.40@8.50	May	8.96@8.97	August	9.35@9.50

Spirits of turpentine, 81½c. Rosin, $5 30@$7 30.

PETROLEUM.—Export business has not improved very much. Lubricating oils are in small demand. Spindle oil meets with a better inquiry, however. Gasoline business continues quiet. Fuel oil is weak at $1 50 per bbl., f.a.s. Stocks of that oil are large. Gas oil dull and easy. New York prices, gasoline cargo lots, 33.25c.; United States Navy specifications, bulk, 19c.; export naphtha cargo lots, 20½c.; 63 to 66 deg., 23½c.; 66 to 68 deg., 24½c.; cases New York, 18½c. Refined petroleum, tank wagon to store, 15c.; motor gasoline to garages, steel bbls., 27c. According to figures just announced by the United States Geological Survey, estimated consumption of domestic and imported petroleum in November totaled 46,511,000 bbls., as compared with 45,204,000 bbls. in October. Total consumption or deliveries to consumers for the first 11 months of 1921 amounted to 477,243,000 bbls., as against 483,277,000 bbls. in the same period of 1920. However, owing to heavier imports and greater production of petroleum in November, there was an excess of indicated production (including imports) over estimated consumption (plus exports) amounting to 3,398,540 bbls., or at the rate of approximately 41,000,000 bbls. annually. Domestic production of crude oil in November was 37,780,000 bbls., as against 35,621,000 bbls. in October. Imports of crude oil totaled 12,993,763 bbls. in November and 11,575,410 in October. Daily average imports were 433,125 bbls. in November and 373,400 bbls. in October. Imports for the first 11 months of 1921 amounted to 111,383,572 bbls., as against 93,329,808 bbls. in the corresponding period of 1920. November exports were 864,223 bbls., while exports for October totaled 746,532 bbls. Exports for first 11 months of 1921 have been 8,341,625 bbls., as against 7,355,219 bbls. for the same period last year. Stocks of domestic crude oil at the close of November amounted to 163,805,000 bbls., compared with 163,335,000 bbls. at the close of October. Stocks of Mexican crude oil amounted to 12,201,000 bbls. at the close of November, as against 9,272,000 bbls. at the end of October. The total of net pipe-line and tank-farm stocks east of California, gross pipe-line, tank-farm and producers' stocks in California and stocks of Mexican petroleum held by importers in the United States, amounted to 175,006,000 bbls. at the close of November, compared with 172,607,000 bbls. at the end of October and 119,886,000 bbls. at the close of November. Official reports from Mexico state that in the near future the end of Mexico's light oil supply is indicated. The only known light oil pool, located in the Cerro-Azul Toteco district, with an announced capacity of 100,000,000 bbls., is being exhausted rapidly through overdevelopment. When two pipe lines now under construction are completed this month the field will be drained at the daily average of 2,000,000 bbls., which means that the field's production will last about three months, according to geologists. Other known light oil regions are producing only 1,000,000 bbls. a month, it is said.

Pennsylvania	$4 00	Indiana	$2 28	Electra	$2 25

Lima	2 48	Corsicana, heavy	0 95	Caddo, heavy	1 25

RUBBER quiet but steady. There was some disposition to sell near positions, but sellers were not inclined to make concessions in prices. Ribbed smoked sheets 20¾c. spot and January delivery; 21½c. for January-March; 22½c. for April-June, and 24½c. for July-December, with first latest pale at a discount of ¼c. in all positions. Para quiet but steady; up-river fine 23c.; coarse 15c.; island fine 21c.; coarse 11c.

HIDES have been in less demand but firm. Common hides are said to be selling on River Plate at equal to about 16½c. here. Bogota have been quoted at 15c., though without much, if any, business of late. River Plate stocks are increasing; quoted $60. Reports from the leather trade, however, are more favorable. Later reports from the River Plate section stated that some 1,000 Montevideo steers had sold at 21¾c., a decline of ¼c. Common dry hides are held at around 15½c. for Bogotas in some cases, but sales are not reported at that price.

OCEAN FREIGHTS have been quiet with rates reported steady. It is estimated that approximately 100 American vessels, averaging 6,000 tons each, will be employed in the next three or four months transporting corn to Russia. Bids were opened by the Grain Corporation which are expected to cover the entire food supply to be forwarded by the Relief Commission.

Charters included lumber from Columbia River to Cape Town $23 50; sugar from Cuba to Hong Kong $9 75 Feb.; to one or two ports in Japan $9 50 January; coal from Hampton Roads to River Plate $3 60 January; sugar from Cuba to United Kingdom $6 early January; grain from Atlantic range to West Italy 4s. 7½d. one port, 4s. 9d. two ports-December-January; grain from Atlantic range to West Italy 5s, option of Adriatic, 5s. 3d. early January; to United Kingdom 4s January; grain from New York to Mediterranean ports not east of the west coast of Italy on a basis of 20c. one port; coal from Hampton Roads to Rio Janeiro $3 80 early January—one round trip in West Indies trade $2; grain from Atlantic range to Mediterranean at 4s. 10½d. one port, 5s. two, and 5s. 1½d. three ports, option of Adriatic at 3d. extra Feb. 1-15; logwood from Monte Cristy to Baltimore, Philadelphia or New York, $6 75.

TOBACCO has shown a trifle more life. That is, sales have increased somewhat, it is said, at lower prices. At the South a fair demand is reported. Hereabouts, however, manufacturers have not of late bought much, nor, for that matter, for a long time. But the feeling is more hopeful. Everybody seems to think that 1922 will be an improvement on 1921. Wrappers have attracted a little more attention. Present quotations for all kinds of tobacco,

however, are nominal. On sales of importance it is generally understood that they would be eased.

COPPER dull and unchanged. London has latterly been weaker. Electrolytic, 13⅞c. Tin quiet but firm at 32½c. spot. Lead remains quiet and unchanged; spot here 4.70@4.80c.; St. Louis, 4.40@4.45c. Zinc easier at 5.25c. spot here and 4.85@4.90c. spot St. Louis.

PIG IRON here has been quiet, though rather more active at some other centres. Pig iron sales in Philadelphia in the last two weeks are said to have reached 50,000 tons. Some of it was at as low as $18, but most of it at $19 to $19 50, it is stated. Fair sales were made at Chicago at a drop of 50 cents, or $17 Birmingham. Cleveland prices have also declined. The point is that, although sales have been larger at some points, prices have suffered. The latest Birmingham price is $16 50 base, or $2 50 below the October level. Otherwise there has been no business. Some contracts here for prompt delivery have been deferred until next year. Some foundries have suspended work for the purpose of making repairs. Everybody, of course, hopes for better things in 1922. And it would not be at all surprising if hopes of brighter times should in a measure be realized.

STEEL output declines as sales shrink. It is not believed that the railroads will buy very heavily until wages are reduced. Some believe that better things await the steel business in 1922, chiefly in the matter of construction lines and also in the demand for pipe and tin plate. By the middle of January it is predicted that a change for the better will be plain. Mills will then, it is believed, increase opertaions. There would be nothing surprising in that. Generally they are not running just now at over 30%. There has been little buying of rails. Steel business has been the worst this year, it is said, for 15 years past. Final prices for the year 1921 are the lowest of the year. In fact, they are lower than at any time since January 1916.

WOOL has been in fair demand and medium and fine grades firm. Many mills, however, are buying cautiously. Sydney, New South Wales, cabled that the wool auction there closed firm on Dec. 23 for all descriptions. Prices were equal to highest point of the year, except on crossbred lambs, which were dull. Low burry crossbreds were neglected, a marked preference being shown generally for crossbred cotted fleece. Much of the wool offered was sold. The next sales will be held on Jan. 9, with 50,000 bales offered. At the Dunedin sales Dec. 23 prices closed firm and rather higher. Some 10,800 bales were offered and 90% sold. The new clip promises to be better than last season's. In Boston all grades have been reported very firm. Low quarter and Lincoln seoured wools advanced last week about 5c., to 30@35c., according to grade. Good 64s tops have been sold readily at $1 20. Boston wired that all reports from the country and from the seaboard markets indicate that stocks are getting down to a low level. Some mills have been buying more or less freely for some time past, it is said, in anticipation of the shortage which it is asserted is inevitable before the permanent tariff bill can be enacted. On Dec. 29 cables from Montevideo stated that 60% of the fine crossbreds out of the new clip have been sold already. The United States, England, France and Germany have been buying. All the sales, contrary to recent rumors of speculation among dealers locally, have been, it is said, for export, and the supply of fine crossbreds in the Montevideo market is very small. Advices from Punta Areanas state that the new clip there is in good condition this year, and that shearing is just commencing. Vancouver, B. C., cabled on Dec. 29 that clothes of the finest quality are now being manufactured in Vancouver from cloth woven in British Columbia mills from British Columbia wool. During the past year 21,000 sheep were clipped for this industry alone. In addition to making clothes of fine material a rougher quality of goods is being utilized in making mackintoshes and overalls for lumbermen.

COTTON.

Friday Night, Dec. 30 1921.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 122,036 bales, against 141,588 bales last week and 113,815 bales the previous week, making the total receipts since Aug. 1 1921 3 439 587 bales, against 3,432 216 bales for the same period of 1920, showing an increase since Aug. 1 1921 of 7,371 bales.

Speculation in cotton for future delivery has been moderate, as usual towards the close of the year, but prices have been firm at some further advance. Large interests have been buying March and May and selling July. The feeling is hopeful for 1922. One hears that expression everywhere. Spot markets have been firm, though not active. The idea, however, is that the Southern stocks have been hedged, or so largely so, and that hereafter the market will face hedge buying, rather than hedge selling, with all that that implies as a steadying influence. Japanese interests have been buying March. Liverpool has bought various months from time to time. Wall Street and the West have evidently taken the long side. At least this is the general opinion. Some large operators in Chicago and Wall Street are understood to think well of cotton. Nine men out of ten believe it will be very hard for the South to plant

32,000,000 acres again. It is contended that the banks will discourage it. Agitators will add their voice against it. Already there is talk of measures being taken in one way or another to bring about a reduction in the planted area this spring. The notion of not a few is that the South will have short crops of cotton for some years to come. The great decline from 43.75c in July 1920 to around 10c in July 1921, it is argued, has not been lost on the Southern farmer. "The burnt child dreads the fire." In this case the banks did not escape wholly unscathed. A story was told earlier in the year of a Southern dealer who had borrowed from a bank on cotton. After a time he asked the banker: "What business are you in?" "Why, I am a banker." No you are not," was the quick retort, "you are a cotton merchant." The humor was a little too grim, especially on a declining market, with the borrower's margin exhausted. It conveys its own sharp lesson. In other words, what with the effect of public opinion and the cautiousness of banks it is inferred by some that the next acreage will be smaller than the last one. And the carry-over will not be so large. And the tendency is towards a larger consumption in different parts of the world. Worth Street and Fall River have latterly been more active. This has encouraged the believers in high prices for the raw material. Manchester, it is said, has just shipped 25,000 bales of cloth to India. India has been inquiring more freely for Manchester's goods. Manchester was more cheerful to-day. It bought in Liverpool. Very often, to be sure, India's bids have been too low, but time was when it did not inquire for goods at all. That it is in the market now is taken by some to mean that the East Indian boycott is dying out. Some are not so certain of that. But the hopeful view is apparently the more prevalent one. In any case, the world's consumption of American cotton this season is estimated at 12,000,000 to 12,500,000 bales, against 10,500,000 bales last year. And it is believed that it will be only a question of time when the maximum total of the past, will again be reached. Meanwhile not only is it believed that the Government over-estimated the crop on Dec. 12, when it put it at 8,340,000 bales, but it appears that the East Indian crop estimates have hitherto been too large. The Egyptian crop is also small. Moreover, there seems to be some danger that the Felaheen of Egypt will be stirred to rioting if not to actual rebellion against the British Government. All the schools at Cairo have been closed and the students are going about the country trying to stir up the peasantry. If they succeed it will certainly not make for larger crops of anything, cotton included. And, looking in another direction, there are efforts being made to bring about a resumption of trade relations between the United States and Russia. The last Russian crop of cotton was only 50,000 bales, according to Washington estimates, against over 1,300,000 bales two years ago. If business relations between the two countries are resumed, it may mean a larger market, directly or indirectly, for American cotton. Coming back to the situation here, it has been remarked that the price, despite inconclusive fluctuations during the last few days, has clung to most of the rise of something like 200 points since Dec. 13.

On the other hand, some contend that there is plenty of cotton, that the price is too high, that expectations of great things in the early part of 1922, are not unlikely to be disappointed, and that with cotton not far from $100 a bale, it will be a difficult matter to keep down the acreage at the South this spring, to say nothing of the task should the price rise materially from its present level. Meanwhile, both Egypt and India are in a state of political unrest. Italy is having financial trouble. A big bank suspended at Rome on the 29th instant. The future of German reparations payments seems somewhat cloudy. There is a hitch in the negotiations at Washington for the limitation of armaments, principally on the submarine question. All is not turning out as everybody had hoped it might. Meanwhile, spot markets at the South, as a rule, are slow. Liverpool of late has hesitated. Its spot sales have naturally been small for this time of the year. A recent rise of $10 a bale is believed by some to have discounted anything conceivably bullish at the present time. And the short interest has been considerably reduced. It has not unnaturally been intimidated by such a rise. As the case now stands, some thing that both New York and New Orleans are "long," possibly in some directions rather heavily long. Of late Wall Street and the West have been selling here. And Liverpool, if it bought January, sold March. Speculation has died down. Recently the spinners' takings have been falling off sharply, even though they continue to be larger than last year. To-day prices were irregular, and at one time reacted, owing to the failure of the E. W. Wagner & Co. But their outstanding trades are said to have been not over 10,000 to 15,000 bales, perhaps less. The flurry caused by the announcement of the suspension at a little after 2 o'clock soon subsided. The firm has never been prominent in the cotton trade. A rally came later, which left prices 20 to 25 points higher for the day and 60 points higher for the week. Spot cotton closed at 19.45c for middling, a rise for the week of 145 points.

The following averages of the differences between grades, as figured from the Dec. 28 quotations of the ten markets, designated by the Secretary of Agriculture, are the differences from middling established for deliveries in the New York market on Jan. 6 1922.

Middling fair	2.13 on	*Middling "yellow" tinged	2.33 off
Strict good middling	1.65 on	*Strict low mid. "yellow" tinged	3.48 off
Good middling	1.08 on	*Low middling "yellow" tinged	4.48 off

* Estimated.

Continental imports for past week have been 80,000 bales.

The above figures for 1921 show an increase over last week of 60,283 bales, a loss of 229,404 bales from 1920, an excess of 453,687 bales over 1919 and a gain of 1,555,629 bales over 1918.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week since Aug. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of the previous year—is set out in detail below:

Towns.	Movement to Dec. 30 1921.				Movement to Dec. 31 1920.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.

We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

	1921		1920	
Dec. 30—		Since		Since
Shipped—	Week.	Aug. 1.	Week.	Aug. 1.
Via St. Louis	21,917	478,211	26,655	249,015
Via Mounds, &c	6,450	219,844	5,397	105,045
Via Rock Island	117	5,968	553	7,486
Via Louisville	1,287	42,289	2,163	27,298
Via Virginia points	6,490	120,348	3,794	49,248
Via other routes, &c	14,311	189,661	7,211	104,963
Total gross overland	50,572	1,056,321	45,773	543,055
Deduct Shipments—				
Overland to N. Y., Boston, &c	3,666	88,501	2,664	49,096
Between interior towns	702	13,058	647	9,286
Inland, &c., from South	11,020	205,192	5,781	85,920
Total to be deducted	15,388	306,751	9,092	144,302
Leaving total net overland *	35,184	749,570	36,681	398,753

*Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 35,184 bales, against 36,681 bales for the week last year, and that the season to date the aggregated net overland exhibits an increase over a year ago of 350,817 bales.

	1921		1920	
In Sight and Spinners' Takings.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Receipts at ports to Dec. 30	122,036	3,439,857	143,230	3,432,216
Net overland to Dec. 30	35,184	749,570	36,681	398,753

Charlotte, N. C	----	1.54 in.	high 60	low 30	mean 44

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 a. m. of the dates given:

		Dec. 30 1921.	Dec. 31 1920.
		Feet.	Feet.
New Orleans	Above zero of gauge.	8.1	7.4
Memphis	Above zero of gauge.	25.0	15.5
Nashville	Above zero of gauge.	23.0	17.3
Shreveport	Above zero of gauge.	7.9	20.2
Vicksburg	Above zero of gauge.	21.5	23.8

AGRICULTURAL DEPARTMENT'S COTTON CROP ESTIMATE.

The report on cotton, issued by the Agricultural Department on Dec. 12, is as follows:

The Crop Reporting Board of the Bureau of Crop Estimates of the United States Department of Agriculture estimates, from the reports of the correspondents and agents of the Bureau, that the total production of cotton in the United States for the season 1921-22 will amount to 3,989,403,000 lbs. (not including linters), equivalent to 8,340,000 bales of 500 lbs. gross weight (478.4 lbs. lint and 26.6 lbs. bagging and ties estimated per 500 lbs. gross weight bale). The estimated production for 1921, with comparisons, by States, follows:

	Bales of 500 Lbs. Gross Weight—					
	Lbs. Lint	Bales.		5-yr. Avge.	Price per Lb	
State—	1921.	1921.	1920.	1915-19.	Dec. 1 1921.	1920.
			Census			
Virginia	7,637,000	16,000	21,337	21,824	16.4	15.0

United States	3,989,403,000	8,340,000	13,439,603	11,481,084	16.2	13.9

* Including some grown in Mexico.

The total production in 1920 was 13,439,603 bales (500 lbs. gross) in 1919, 11,420,763 bales; in 1918, 12,040,532 bales; in 1917, 11,302,375 bales; in 1916, 11,449,930 bales; in 1915, 11,191,820 balse; and in 1914 16,134,930 bales.

The average weight per running bale is estimated at 497.8 lbs. gross, compared with 506.4 lbs. in 1920 (as reported by Bureau of the Census, 504.2 lbs. 1919); 505.6 lbs. in 1918; and 505.0 lbs. the average for the preceding five years.

Reports of the Bureau of Markets and Crop Estimates do not include linters, which are a product obtained at mills from the seed. The production of linters is about 8.6% as much as the lint production (average 1915-19).

EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.

Below we give the exports of cotton yarn, goods, &c., from Great Britain for the months of October, and since Aug. 1 1921 and 1920, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

000's omitted.	Yarn & Thread.		Cloth.				Total of All.	
	1921.	1920.	1921.	1920.	1921.	1920.	1921.	1920.
	lbs.	lbs.	yards.	yards.	lbs.	lbs.	lbs.	lbs.
August	16,533	14,517	212,403	366,541	39,702	68,513	56,235	83,030
Sept	16,931	13,084	265,386	382,139	49,605	71,428	66,536	84,512
October	20,201	12,227	342,411	304,912	64,002	56,992	84,203	69,219
1st quar	53,665	39,828	820,199	1,053,592	153,309	196,933	206,974	236,761
Sundry articles							9,127	26,061
Total exports of cotton manufactures							216,101	262,822

The foregoing shows that there was exported from the United Kingdom during the three months 216,101,000 pounds of manufactured cotton, against 262,822,000 pounds last year, a decrease of 46,721,000 pounds.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports:

Week ending	Receipts at Ports.			Stocks at Interior Towns.			Receipts from Plantations		
	1921.	1920.	1919.	1921.	1920.	1919.	1921.	1920.	1919.
Oct. 28	217,589	271,682	316,943	1,380,236	1,217,067	1,089,168	285,136	3 0,968	353,787
Nov. 4	238,187	261,864	321,746	1,433,173	1,296,123	1,138,395	294,124	340,820	370,973
11	184,605	263 684	288 858	1 465,821	1 353 590	1 207 076	214 2 3	321 151	357 570
18	1 0,4 2	214,119	295,147	1,0 0, ' 0	1,423,547	1,238,788	2 4,7 1	284,076	326,859
25	137,225	219,756	269,805	1,542,660	1,483,140	1,274,035	59,6 5	279,349	305,055
Dec. 2	167,931	231,762	256,804	1,546,811	1,543,033	1,325,9 2	172,082	291,675	308,759
9	116,086	210,301	227,143	1,576,304	1,586,723	1,337,311	145,579	253,971	238,361
16	113,815	189,642	228,361	1,593,187	1,640,145	1,347,767	130,692	243,064	238,817
23	141,588	178,079	195,242	1,608,383	1,686,965	1,341,811	156,730	224,898	189,286

The above statement shows: 1. That the total receipts from the plantations since Aug. 1 1921 are 3,813,955 bales; in 1920 were 4,116,010 bales, and in 1919 were 4,127,960 bales. 2. That although the receipts at the outports the past week were 141,588 bales, the actual movement from plantations was 156,790 bales, the balance going to increase stocks at interior towns. Last year receipts from the plantations for the week were 224,898 bales and for 1919 they were 189,286 bales.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amounts gone out of sign, for the like period.

Cotton Takings. Week and Season.	1921.		1920.	
	Week.	Season.	Week.	Season.
Visible supply Dec. 23	6,256,468		6,485,343	
Visible supply Aug. 1		6,111,250		4,956,257
American in sight to Dec. 30	251,646	6,223,988	275,649	6,103,731
Bombay receipts to Dec. 29	86,000	929,000	100,000	566,000
Other India shipm'ts to Dec. 29	5,000	68,000	12,000	121,000
Alexandria receipts to Dec. 28	24,000	421,000	32,000	329,000
Other supply to Dec. 28*	b8,000	b119,000	8,000	112,000
Total supply	6,631,114	13,872,238	6,912,992	12,187,988
Deduct—				
Visible supply Dec. 30	6,316,751	6,316,751	6,546,155	6,546,155
Total takings to Dec. 30.a	314,363	7,555,487	366,837	5,641,833
Of which American	219,363	5,694,487	223,837	4,242,833
Of which other	95,000	1,861,000	143,000	1,399,000

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.
a This total embraces since Aug. 1 the total estimated consumption by Southern mills—1,529,000 bales in 1921 and 1,398,000 bales in 1920—takings not being available—and the aggregate amounts taken by Northern and foreign spinners 6,026,487 bales in 1921 and 4,243,833 bales in 1920, of which 4,165,487 bales and 2,844,833 bales American. *b* Estimated.

BOMBAY COTTON MOVEMENT.—The receipts of India cotton at Bombay for the week ending Jan. 13 and for the season from Aug. 1 for three years have been as follows:

December 29. Receipts at—	1921.		1920.		1919.	
	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Bombay	86,000	929,000	61,000	604,000	78,000	776,000

Exports from—	For the Week.				Since August 1.			
	Great Britain.	Conti nent.	Japan & China.	Total.	Great Britain.	Conti nent.	Japan & China.	Total.
Bombay—								
1921	------	13,000	14,000	27,000	8,000	179,000	566,000	753,000
1920	------	2,000	29,000	31,000	11,000	274,000	166,000	451,000
1919	1,000	8,000	------	9,000	33,000	197,000	573,000	803,000
Other India—								
1921	2,000	3,000	------	5,000	4,000	56,000	8,000	68,000
1920	1,000	9,000	------	10,000	8,000	87,000	26,000	121,000
1919	------	2,000	8,000	10,000	14,000	57,000	85,000	156,000
Total all—								
1921	2,000	16,000	14,000	32,000	12,000	235,000	574,000	821,000
1920	1,000	11,000	29,000	41,000	19,000	361,000	192,000	572,000
1919	1,000	10,000	8,000	19,000	47,000	254,000	658,000	959,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 25,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—The following are the receipts and shipments for the week ending Dec. 28 and for the corresponding week of the two previous years:

Alexandria, Egypt, December 28.	1921.	1920.	1919.
Receipts (cantars)—			
This week	180,000	125,734	233,417
Since Aug. 1	3,150,122	2,139,027	4,066,942

Exports (bales)—	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
To Liverpool	----	82,041	32	44,453	4,706	164,654
To Manchester, &c	----	65,040	----	36,530	----	87,333
To Continent and India	1,000	95,317	3,536	48,943	782	59,864
To America	----	86,276	----	13,528	8,815	128,688
Total exports	1,000	328,674	3,568	143,454	14,473	440,539

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.
This statement shows that the receipts for the week were 180,000 cantars and the foreign shipments 1,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market for both cloth and yarns is quiet. The demand for cloth, however, is improving. We give prices to-day below and leave those for previous weeks of this and last year for comparison:

	1921.			1920.

BREADSTUFFS

Friday Night, Dec. 30 1921.

Flour has been quiet, awaiting further developments, or, in other words, a lead of some sort from somewhere. Whence it is to come is the question. Meanwhile buyers stick to their policy of caution. They are feeling their way until the whole outlook clears up. Both crop and acreage reports were considered as bearish. Meanwhile there is some inquiry for export. But it does not get beyond the inquiry stage. Buyers and sellers in most cases are too far apart for actual business. Reports in circulation say that most of the buying of late has been by England and Scotland. The Continent, including Mediterranean ports, have made inquiries, but their bids are far too low. Besides, there is said to be some misunderstanding as to the grades.

Wheat declined on evening up transactions just before the holidays on increased crop estimate and the failure of J. W. Wagner & Co. The crop was increased by the Government over 50,000,000 bushels, but the edge was taken off this report to some extent by the general belief that the report on the present winter wheat crop condition and acreage to be issued on Dec. 29 would be unfavorable. Germany is said to have been inquiring for wheat in the seaboard markets. Receipts fell off. They are expected to decrease still further in the Southwest. But last week the visible supply increased 1,561,000 bushels and is now 49,431.000 bushels, against 45,171,000 bushels a year ago. The Government report issued on the 28th inst. revised the acreage and yeilds for the past three years based on the Census figures of 1919. The last winter and spring wheat crop was put at 794,893,000 bushels, which is 54,238,000 larger than the preliminary estimate. Last year 833,027,000 bushels. And the 1920 crop was increased 45,899,000 over the previous official figures and the 1919 crop was raised 34,012,000 bushels. The Department of Agriculture announced that the area sown to winter wheat this fall is 44,293,000 acres, which is 1.2% less than the revised estimated area sown in the fall of 1920, which was 44,847,000 acres.

Broomhall says that English stocks of wheat and flour in the port of Liverpool show a further decrease this week of 400,000 bushels and compared with last year have decreased 6,400,000 bushels. Clearances of wheat from the world's exporting countries last week amounted to only 7,250,000 bushels, as compared with a total last week of 9,957,000 bushels. Part of this reduction, however, can be attributed to the fact that the total from America does not include the full week, Saturday having been omitted. Of this total of 7,260,000 bushels, America contributes the major portion, shipping 5,672,000 bushels, whereas the clearances from Australia are only 768,000 bushels, and Argentina 772,000 bushels. While the movement from Australia has fallen off appreciably, that from Argentina is slowly increasing. Clearances from the Argentine after the turn of the year will, some believe, continue to enlarge, although, of course, America will probably still contribute a large percentage of the world's total shipments.

In Rumania it is credibly reported that the Government control of the exportation of cereals will be shortly removed. Stocks of flour in the principal cities of South Africa are ample for present requirements and the market rules weak. Agricultural prospects are regarded as favorable there. Quantities on passage of wheat and flour to Europe continue to decrease and the total now to all countries is 36,352,000 bushels, a decrease of 5,000,000 bushels, compared to this time last month. To-day prices declined, partly owing to the suspension of E. W. Wagner & Co. Prices closed 2 to 2½ cents lower for the week. Some selling was due also to the latest crop report. Both the acreage and the crop reports were regarded inimical to bullish interests. One private estimate puts the winter wheat crop at 520,000,000 bushels this season, or 67,000,000 bushels less than the last crop. Of course estimates at this time of the year are not to be taken too seriously. A Chicago dispatch said of the failed firm of E. W. Wagner & Co. that the grain division of the firm, one of the largest brokerage houses there, will be closed out in the regular way. The firm, it is said, was long 1,000,000 bushels of corn, 3,000,000 bushels of wheat, 2,500,000 bushels of oats, and 230,000 bushels of rye.

Indian corn has declined partly in sympathy with wheat. On Thursday the first cargo of foodstuffs to relieve the Russian famine left Baltimore, including 1,000,000 bushels of corn bought late last week. Some 2,100,000 bushels more is said to have been bought this week. It is expected that 15,000,000 to 18,000,000 bushels more will be bought and shipped to Russia in the next few months. Large elevator interests bought December and sold May, narrowing the differences from 6c. to 5¾c. It was said on Wednesday that the Russian Relief Committee would buy corn on the following day at Gulf and Atlantic ports. But this failed to galvanize the market into new life and snap. Export sales on the 28th inst. were reported to have been 200,000 to 300,000 bushels, including some direct to Germany. The Great Western RR. Co., according to Iowa reports, has already put the reduced freight rates into effect. The Rock Island RR. announces the reduction will be effective at midnight Dec. 31. All roads must reduce rates by Jan. 7 and until they do the movement to terminals is expected to be light. The Government reduced its crop estimate 70,000,000 bushels. To-day prices were 1 cent lower partly in sympathy with other grain and because of the Wagner & Co. failure. That firm was said to be long of 1,000,000 bushels. Closing prices are 1 to 2 cents lower for the week.

Oats have been firmer than might have been expected. The demand was fair at times, and there was more or less covering. Lighter receipts are expected until rail freight rates are reduced. The latest Government report reduced the crop total 17,000,000 bushels. It is now 1,060,737,000 bushels, against 1,496,281,000 last year and 1,184,030,000 two years ago. There have been no striking features, but prices are so low that there is less short selling. To-day prices declined in company with other grain. There was for a time some pressure to sell. Naturally the failure of Wagner & Co. had a more or less depressing effect. Some have argued that the high prices of mill feed are likely to bring about a larger consumption of oats. But this is not a pronounced factor in the market. Prices during the week have fallen, however, only ¾c. on December and May actually closes ⅛c. higher than a week ago. It is believed that with any real encouraging news prices of oats would advance. Wagner & Co. were supposed to be long 2,500,000 bushels.

Rye has advanced on December without much activity, though there has at times been a fair inquiry, enough so to keep prices for a time in a pretty steady position. Later, prices gave way. The Government says the area sown is 5,184,000 acres, which is 22.6% more than the revised estimated area sown in the fall of 1920, which was 4,228,000 acres. The condition on Dec. 1 was 92.2% of a normal, compared with 90.5% a year ago, 89.8% two years ago and 90.9% the 10-year average. To-day prices declined some 3 to 3½ cents. The net loss for the week is 2 to 3 cents. It is said that Wagner & Co. were long 230,000 bushels of rye.

AGRICULTURAL DEPARTMENT'S REPORT ON CEREAL AND OTHER CROPS.—Important farm crops of the United States in 1921, according to a bulletin issued by the Department of Agriculture, had a total value of $6,675,877,000, against $9,075,388,000 in 1920 and $13,689,597,000 in 1919. The total acreage was placed at 348,336,000 acres, against 349,067,000 acres in 1920 and 353,739,000 acres in 1919.

The December estimates of the Crop Reporting Board of the acreage, production and value (based on prices paid to farmers on Dec. 1) of the important farm crops of the United States in 1921, 1920 and 1919, based on the reports of the correspondents and agents of the Bureau, are as follows (revisions based upon Census report for 1919):

Crop—	Acreage.	Production—Per Acre. Bushels.	Production—Total. Bushels.	Farm Value Dec. 1—Per Unit. Cents.	Farm Value Dec. 1—Total. $

AGRICULTURAL DEPARTMENT'S REPORT ON WINTER WHEAT AND RYE DEC. 1.—The Agricultural Department's report on cereal crops Dec. 1 was issued on the 29th inst., as follows:

The condition of winter wheat Dec. 1 was 76.0, against 87.9 on Dec. 1 1920, 85.2 on Dec. 1 1919 and a ten-year average of 89.0.

The area sown this fall was 44,293,000 acres, which is 1.2% less than the revised estimated area sown in the fall of 1920 (viz., 44,847,000 acres).

The condition of rye on Dec. 1 last was placed at 92.2, compared with 90.5 on Dec 1 1920, 89.8 on Dec. 1 1919 and a ten-year average of 90.9.

The area sown this fall is 5,184,000 acres, which is 22.6% more than the revised estimated area sown in the fall of 1920 (viz., 4,228,000 acres).

WINTER WHEAT.

THE DRY GOODS TRADE.

New York, Friday Night, Dec. 30 1921.

Following the holidays business opened at a stronger level on Tuesday of this week than the trade generally had expected. As a rule, there is little active interest displayed in business in the week preceding the first of the year, and final inventory taking, but in this case the strength of the market has proven an agreeable surprise. So far there is little indication that the buyers who are in the market are willing to pay much better prices, but in some cases they are anxious to secure goods, and the competition has caused something like a strengthening in the situation. This has been particularly true in sections of the cotton goods market. All indications point to developments of a constructive nature in both departments of the market during the coming month. The garment strike, which has been such a long-drawn-out affair, must be settled in the very near future if the clothing manufacturers are to take care of the imminent season's work confronting them, and it is thought encouraging that, while no official or permanent settlement of the difficulty has been arrived at, there are numerous manufacturers who have reached an understanding with their workers individually. It is true that many manufacturers are at work again as though there had been no trouble, and they are in a position to handle the orders which they secure. The holiday trade for the retailer as a whole has not been entirely up to expectation. There are numerous advices of heavy sales throughout the country, and the metropolitan district is crowded with price-cutting, which enables the consumer to obtain garments at very attractive figures. Apparently retailers are anxious to secure business, which has not come to them as they had hoped, and are willing to do business on a narrow margin of profit, which they would have hesitated to accept a short time ago. The fact that many retailers are now placed in positions of advantage because of their small commitments for this season is now becoming apparent. The canceled orders and the unbought goods are still in the hands of the manufacturers, and there is business being handled up to the present time in hurry-up calls on particular goods which are in demand.

DOMESTIC COTTON GOODS.—The market opened stronger this week for cotton goods generally, and on some constructions in particular. Buyers are willing to admit that they are anxious to secure goods, but are reluctant to follow the slightest upward advance in price. Generally the market may be characterized as steady, with demand as moderate. The movement last week to place mills under orders at present prices for long-time contracts has failed, owing to the fact that the better and larger mills show a disinclination to go beyond April at present in the matter of contracts. There is an active demand for odd lots and goods that can be picked up for immediate deliveries, and several of the mills have carried on a flourishing business in odds and ends accumulated throughout the year. The export business is being spoken of more frequently, and there are many export people who profess themselves as confident that the turn of the year will see a revival in this trade, giving as a reason the stronger position of some of the heaviest buying countries in a financial way. Converters have been active in search of fine goods. The sheetings have been steady, with a strong demand from bag manufacturers, and there has been a noticeable improvement in the demand for sateens. At present 28-inch print cloths in the 64 x 64's are quoted at 6¼c, and the 64 x 60's at 6c. Thirty-eight and a half inch, 64 x 64 gray goods are selling at 9¼c, and 39-inch, 68 x 72's, at 10c. Three-yard brown sheetings are quoted at 10¾c, and the four-yard at 10¼c, but these prices have been shaded in some instances by mills in favor of particular customers. At present print cloths are in the most favored position.

WOOLEN GOODS.—There is increasing evidence of activity in the woolen goods section. The openings which have been looked forward to as necessary in the very near future to establish a value for the trade have not developed, but are generally expected immediately after the turn of the year. Several companies are displaying goods with tentative prices only, and it would appear that the values will not be noticeably off from those of the current year. It is probable, however, that the true value of materials will be definitely established with the opening of the American Woolen Company, which is expected in the very near future. There is little indication that wool manufacturers will recede from their position that they have reached the lowest level at which they can produce materials. Any change which will be effected must, therefore, come from the manufacturer of garments, aided and abetted by the retailer. The garment strike has dragged on to a time when garment manufacturers are willing to admit that some movement must be made to get under way for their new season. Many of them have effected individual settlements with their strikers, and it is becoming increasingly evident that the garment manufacturing business in the metropolitan district is still alive, despite the rumors that it has been paralyzed. Retailers have reported a business over the holiday which has not pleased them entirely, and, owing to their depleted stocks, it is understood that they are in fairly strong positions. Manufacturers have on hand many canceled orders and are watching the retail situation closely. There is evidence that in some cases retailers will attempt to secure additional requirements for the present season.

FOREIGN DRYGOODS.—There has been a steady tone to the burlap market during the week, but little active trading. Advices from Calcutta, owing to holidays there, show little activity. There are heavy shipments afloat from India to this country, and afloats may be obtained at a concession under the spot market quotation. At present spot lightweights are obtainable at 4.10c, and the spot heavies at 4.80c, and there is little activity in the futures, which are slightly below the market.

Linen importers and dealers have experienced a satisfactory trade over the holiday period, but the current week has been a slack one. Most of the heavy buying was for the account of department stores and hotels, and was transacted some time in the past. Advices from these sources show that the department stores experienced a satisfactory demand for linens. There is still a strong undertone to the situation, with the recently established higher prices still ruling.

State and City Department

STATE AND CITY SECTION.

A new number of our "State and City Section," revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now printed in two parts, Part One containing the New England, Central and Middle States, having been issued last June, while Part Two, embracing the rest of the country, appears to-day. The change is due to the fact that with the growth and multiplication of the municipalities of the United States the demand for additional space has become too heavy to satisfy within the limits of a single number.

NEWS ITEMS.

North Dakota.—*State Officials Consider Court Action to Recover Commission from Toledo Firm.*—A dispatch from Fargo to the Minneapolis "Journal," dated Dec. 24, had the following to say in the matter:

"Suit for the recovery of $74,325 of public funds paid out by members of the State Industrial Commission in the form of commission and rebates on sales of bonds may develop out of the decision of the Supreme Court Thursday (Dec. 22). The bonds were sold to a Toledo, Ohio, firm, and the Court held the contract illegal in that the bonds were sold at less than par. Lynn J. Frazier, former Governor; John N. Hagan, former Commissioner of Agriculture and Labor, and William Lemke, former Attorney-General, members of the Industrial Commission at the time the alleged illegal pay ments were made, authorized the disbursements through the Bank of North Dakota. The contract by which payments were made was signed by F. W. Cathro, as Manager of the bank.

"Inquiry at Bismarck to-day developed that members of the present Industrial Commission have not had opportunity to study the opinion of the Supreme Court, holding the contract illegal. The Court held that North Dakota bonds cannot legally be sold at less than par; that payment of commissions which have the effect of netting the State less than par, when such commissions are paid to the purchaser of the bonds, are unlawful and that the contract under which the delivery of bonds at less than par is proposed, is unlawful.

"The $74,325 paid to Spitzer, Rorick & Co., of Toledo, in form of commission and allowance on bonds sold at less than par, is in addition to $20,000 that the old Industrial Commission paid out of the Bank of North Dakota, to a New York stock broker in form of commission, the bonds involved in that deal being part of the same group of bonds sold to the Toledo house."

Seattle, Wash.—*Sale of Water Bonds Upheld by Superior Court.*—The "Pacific Banker" of Portland, Ore., under date of Dec. 22 had the following to say concerning the action of the Superior Court in dismissing the suit brought by J. F. Allen to restrain the City of Seattle from delivering the $2,000,000 6% water extension bonds sold to a syndicate headed by Carstens & Earles, Inc., of Seattle on Nov. 21 (V. 113, p. 2336):

Upholding in every regard the position of John E. Price & Co., Carstens & Earles, Inc., and R. M. Grant & Co., in the suit brought by J. F. Allen to restrain the City of Seattle from delivery of the $2,000,000 Water Department bonds sold to the syndicate some weeks ago, Judge J. S. Jurey in the Superior Court dismissed the action, the costs being assessed against the complainant.

The Court held that the general accusations against the good faith of the City Council in awarding these bonds had no foundation in fact.

"The bonds were not sold at any secret session, or at any price below their true value," ruled the Court, "and there were no fraudulent representations of any kind." The Court further found that the bonds were sold in the manner followed by the City of Seattle for a long time past and that the sale was in strict accordance with the statutes and provisions of the city charter.

"Said plaintiff having wholly failed to prove a cause of action, the Court finds the issues in favor of the defendants," concluded the decision.

The action was dismissed with prejudice and no appeal will be taken.

BOND CALLS AND REDEMPTIONS.

108,923 82 Drainage District No. 40 bonds. Date Jan. 1 1922.
36,635 08 Drainage District No. 41 bonds. Date Jan. 1 1922.
245,682 70 Drainage District No. 14B bonds. Date Nov. 1 1921.

Due on April 15 as follows: One-seventh in 1924, 1926, 1928, 1930, 1932, 1934 and 1936, optional in 1926 or 1931.

CASS COUNTY SCHOOL DISTRICT (P. O. Eagle), Neb.—*BOND SALE.*—An issue of $40,000 5½% bonds, recently voted, has been purchased by the Peters Trust Co., of Omaha.

CHARDON, Geauga County, Ohio.—*BOND OFFERING.*—Robert S. Parks, Village Clerk, will receive sealed bids until 12 m. Jan. 23 for $7,500 6% water-works-extension bonds. Denom. $500. Date Jan. 1 1922. Due $500 April 1 1938 and $1,000 each six months from Oct. 1 1938 to Oct. 1 1941 incl. Purchaser to pay accrued interest.

CHESTER COUNTY (P. O. Chester), So. Caro.—*BOND OFFERING.*—L. M. Wooten, Chairman County Board of Directors, will receive sealed bids until noon Jan. 21 for all or any part of $125,000 5% coupon highway impt. bonds. Denom. $1,000. Date Jan. 1 1922. Prin. and semi-ann. int. (J. & J.) payable at County Treasurer's office. Due on Jan. 1 as follows: $2,000, 1923 to 1928 incl.; $3,000, 1929 to 1933 incl.; $4,000, 1934 to 1939 incl.; $5,000, 1940 to 1945 incl.; $6,000, 1946 to 1950 incl., and $7,000, in 1951 and 1952. Cert. check for 2% of the amount of bonds bid for, payable to A. T. Henry, County Treasurer, required. Legality approved by R. L. Douglas, Attorney for Chester County.

CHICAGO, Cook County, Ill.—*BOND SALE.*—R. M. Grant & Co. of New York have purchased $8,000,000 5% tax-free general corporate bonds at par and accrued interest. These are the bonds that were publicly offered on Nov. 17 and for which one bid was received but which was withdrawn after the city failed to furnish the bidder with an opinion in favor of the legality of the issue by either Wood & Oakley of Chicago or by John C. Thomson of New York—V. 113 p. 2423. The bonds have now been passed upon by Chapman Cutler & Parker of Chicago.

CHICKASAW COUNTY (P. O. New Hampton), Iowa.—*BOND SALE.*—On Dec. 22 $89,000 5% bridge funding bonds were sold to Schanke & Co. of Mason City, for $93,825 (105.42). Denom. to suit purchaser. Interest semi-annually.

In giving the notice of the offering in V. 113, p. 2424, we incorrectly stated that the amount of the bonds would be $91,000 instead of $89,000.

CHIPPEWA COUNTY (P. O. Montevideo), Minn.—*BOND SALE.*—On Dec. 19 the $40,000 trunk highway reimbursement bonds—V. 113, p. 2637—were sold to the Minnesota Loan & Trust Co. of Minneapolis at 100.90 for 4¾s, a basis of about 4.67%. Date Dec. 1 1921. Due $4,000 yearly on Dec. 1 from 1931 to 1940 incl.

In giving the notice of the offering in V. 113, p. 2637, we incorrectly stated that the bonds would bear 5½% interest.

CINCINNATI, Hamilton County, Ohio.—*BOND OFFERING.*—Sealed bids will be received at the office of the Board of Trustees of the Cincinnati Southern Ry. until 12 m. Jan. 23 for $1,000,000 5% gold coupon bonds. Denom. $1,000. Date Jan. 2 1922. Prin. and semi-ann. int. (J. & J.) payable at the American Exchange National Bank in New York City. Due Jan. 2 1965. Cert. check for 2% of the amount bid for, payable to the order of the Board of Trustees of the Cincinnati Southern Ry., required. These bonds are issued under the provisions of an Act of the General Assembly of the State of Ohio, passed Jan. 15 1920 and approved Feb. 4 1920 (10 S. O. L., Part 2, page 1135), entitled "An Act supplementary to an Act entitled 'An Act relating to cities of the first class, having a population exceeding 150,000 inhabitants passed May 4 1869 (66 O. L., 80)' and to all Acts supplementary to this Act, and authorizing the Board of Trustees appointed under said Act of May 4 1869 to issue additional bonds for permanent betterments upon the line of railway constructed under the provisions of this Act," and under contracts pursuant to said Act made and entered into by and between the Trustees of the Cincinnati Southern Ry. and the Cincinnati New Orleans & Texas Pacific Ry. Co., the lessee of said railway, dated Nov. 15 1921. No bid for less than par and accrued interest will be considered and bonds will be delivered to the purchaser at the Fifth-Third National Bank in Cincinnati on any business day between Feb. 10 and Feb. 25 1922. Bids must be sealed and addressed to Stanley, Ferguson, Secretary of the Board of Trustees of the Cincinnati Southern Ry., at the Ingalls Building in Cincinnati.

CLEARWATER SCHOOL DISTRICT, Pinellas County, Fla.—*BOND SALE.*—The $8,000 6% school bonds offered unsuccessfully on Aug. 15 (V. 113, p. 928), have been awarded to the State Board of Public Instruction at 95.00.

CLEVELAND CITY SCHOOL DISTRICT (P. O. Cleveland), Cuyahoga County, Ohio.—*TEMPORARY LOAN.*—In reference to a temporary loan of $225,000 obtained by the Board of Education the Cleveland "Plain Dealer" of Dec. 24 had the following to say: "Although the Cleveland Board of Education has $8,000,000 in the bank, it yesterday borrowed $225,000 at 6% interest to meet the teachers' pay roll.

"The $8,000,000 is tied up in the building fund and is not available for current expenses. The $225,000 was borrowed of five banks on the notes of E. M. Williams, President, and Sarah E. Hyre, Clerk-Treasurer of the Board, for 10 days. At the expiration of that period the Board expects to have its regular revenue from January tax collections."

COLEMAN COUNTY (P. O. Coleman), Tex.—*BONDS CAN BE PURCHASED.*—We are advised that the following bonds are ready for sale and can be purchased privately or by mailing bid:

$436,000 5% Commissioners' Precinct No. 1 bonds. Date Feb. 1 1920. Int. F. & A. Due yearly on Feb. 1 as follows: $16,000 1925 to 1949, incl., and $36,000 1950. These bonds are part of an issue of $500,000 which was voted by 253 to 107 on Oct. 13 1919. The following bonds of this issue have been sold: $16,000 Feb. 1 1921, sold and retired; $16,000 due Feb. 1 1922 to 1924, incl., amount of certified check required to accompany each bid, is 2% of the amount purchased. Certified check not required in private bid, until price is agreed upon.

387,000 5½% Commissioners' Precinct No. 2 bonds. Date Sept. 1 1920. Int. M. & S. Due yearly on Sept. 1 as follows: $13,000 1922 to 1945, incl., and $15,000 1946 to 1950, incl. These bonds are part of an issue of $400,000 which was voted by 345 to 165 on March 3 1920. The following bonds of this issue have been sold: $13,000 due Sept. 1 1921 sold and retired. Amount of certified check required to accompany bid is 2% of amount purchased. Certified check not required in private bid until a price is agreed upon.

25,000 5½% Road District No. 1 bonds. Date Feb. 1 1920. Int. F. & A. Due on Feb. 1 as follows: $1,000 1923 to 1937, incl., $2,000 1947 to 1949, incl., and $4,000 1950. These bonds are part of an issue of $100,000, which was voted by 111 to 19 on Oct. 25 1919. The following bonds of this issue have been sold $3,000 due Feb. 1 1921, sold and retired: $3,000 Feb. 1 1922, and $2,000 Feb. 1 1923 to 1937, incl., and $3,000 Feb. 1 1938 to 1950, incl. Notice that $70,000 of that amount ($75,000) had been sold was given in V. 113, p. 1174. Amount of certified check required to accompany bid is 2% of the amount purchased, in private bids certified check not required until price is agreed upon.

Denom. $1,000. Prin. and interest payable at the American National Bank, Austin, at County Treasurer's office and National Park Bank, N. Y. Official announcement says: "There is no controversy or litigation pending or threatened affecting corporate existence or boundaries of the precincts or of the road district, or the title of their present officials to their respective office or the validity of the bonds."

COLEMAN, Coleman County, Tex.—*BONDS VOTED.*—The city election for the issuance of bonds to the amount of $160,000 for water purposes resulted, it is stated, overwhelmingly in favor of the bonds. It is also stated that as soon as the bonds are approved and sold, work will commence in the building of a dam on Indian Creek, about 3 miles north of the town, and that when the project has been completed it will furnish water sufficient for a population of 20,000.

COOK COUNTY INDEPENDENT SCHOOL DISTRICT NO. 4 (P. O. Lutsen), Minn.—*BOND SALE.*—On Nov. 30 $25,000 6% building bonds were sold to F. B. Myers of Duluth at par. Denom. $1,000. Interest J. & D.

Wild & Co. of Indianapolis. Date Nov. 1 1921. Due $300 each six months from May 15 1923 to Nov. 15 1932 inclusive.

JACKSON COUNTY DRAINAGE DISTRICT, Wisc.—*BOND SALE.*—The $97,724 65 6% drainage bonds, offered on Aug. 5 (V. 113, p. 440) have been sold to Percival Brooks Coffin, of Chicago.

JEFFERSON COUNTY (P. O. Madison), Ind.—*BOND OFFERING.*—S. G. Bovard, County Treasurer, will receive sealed bids until 10 a. m. Jan. 5 for the following road bonds.

$20,720	5%	W. O. Scott et al. Saluda Township bonds. Denom. $518. Due $1,036 May 15 1922 and $1,036 each six months from Nov. 15 1922 to Nov. 15 1931, incl.
10,100	5%	Isaac Williams et al. Monroe, Lancaster, Smyrna and Madison townships bonds. Denom. $505. Due $505 each six months from May 15 1922 to Nov. 15 1931, incl.
8,540	4½%	William E. Holmes et al. Monroe Township bonds. Denom. $427. Due $427 each six months from May 15 1922 to Nov. 15 1931, incl.

Date Dec. 5 1921. Interest M. & N.

JEFFERSON COUNTY (P. O. Birmingham), Ala.—*FORMAL RESOLUTIONS PROVIDING FOR AN ELECTION TO RE-ISSUE ROAD IMPROVEMENT BONDS CARRYING 6% INTEREST ADOPTED.*—The Birmingham "Age-Herald" on Dec. 28 said:

"Formal resolutions providing for a special election Jan. 30 at which voters of the county will be asked to authorize the Board of Revenue to re-issue $3,000,000 worth of county road improvement bonds carrying 6% interest, proceeds from sale of the bonds to be devoted to construction of highways and the retirement of a floating debt of approximately $760,000, were adopted by the Board yesterday.

"Under the terms of the resolution adopted, if the issue is authorized, $2,000,000 will be applied to the construction of county roads and the remaining $1,000,000 to the retirement of the county's floating debt and to the payment of other county expenses. The $3,000,000 to be reissued, if authorized by the voters, is the remaining portion unsold held in February 1920. Only $2,000,000 of these bonds, which carried 5% interest, have been sold, owing to unfavorable conditions which have existed in the bond market since the issue was authorized, making sale of the remaining $3,000,000 at par impossible.

"The resolution passed by the Board of Revenue yesterday provides that if the reissue called for is authorized, the remaining $3,000,000 worth of bonds under the original 5% issue shall be destroyed in the presence of the Board. If the voters do not authorize the reissue at 6%, the Board will retain the 5% bonds for disposal whenever conditions in the bond market are favorable to such a sale at par.

"The resolution passed by the Board yesterday was simply a formal ratification of the previous action taken by the Board several weeks ago, at which they decided to call the election. Resolutions adopted yesterday were prepared by W. K. Terry, County Attorney, under instructions from the Board to draw the resolution in accordance with the legal requirements in such cases. Adoption of the resolution was on formal motion of Thomas E. Huey, seconded by W. B. Copeland."

JOLIET TOWNSHIP HIGH SCHOOL DISTRICT (P. O. Joliet), Will County, Ill.—*BOND OFFERING.*—Sealed bids will be received until Jan. 10 by the Clerk of the Board of Education for $250,000 5% high school building bonds. Denom. $1,000. Int. J. & J. Due $25,000 yearly on July 1 from 1925 to 1934, incl. Cert. check for $2,000 required. These bonds were voted on Aug. 31 1920 by a majority of 96 votes, the total amount of notes cast was 338.

KELSEYVILLE UNION SCHOOL DISTRICT, Lake County, Calif.—*BOND SALE.*—An issue of $20,000 6% bonds has been sold to Freeman, Smith & Camp Co. of San Francisco.

KING COUNTY SCHOOL DISTRICT NO. 7, Wash.—*BOND OFFERING.*—Wm. Gaines, County Treasurer (P. O. Seattle), will receive sealed bids until 11 a. m. Jan. 7 for the purchase of $60,000 coupon school bonds at not exceeding 6% interest. Denom. $1,000. Prin. and ann. int. payable at the County Treasurer's office. Due $3,000 yearly from 1924 to 1943, incl., optional after 3 years from date of issue. The bonds will be ready for delivery on Feb. 1 1922. All bids excepting from the State of Washington must be accompanied by a certified check or draft made payable to the County Treasurer in the sum of 1% of the par value of the bonds.

KOOTENAI COUNTY HIGHWAY DISTRICT NO. 4, Ida.—*BOND SALE.*—The First National Bank of Coeur d'Alene has purchased $65,000 bonds, it is stated.

LANDER, Fremont County, Wyo.—*BOND ELECTION POSTPONED.*—An election to vote upon the issuance of $140,000 water system impt. bonds has been postponed for 30 days.

LA FOURCHE PARISH ROAD DISTRICT NO. 4 (P. O. Thibodaux), La.—*BOND OFFERING.*—Sealed bids will be received by Charles J. Coulon, Clerk of Police Jury, until 10 a. m. Jan. 11 for $145,000 6% 1-30-year bonds. Int. semi-ann. Cert. check for 2½% required.

LAUDERDALE COUNTY (P. O. Meridian), Miss.—*BOND ISSUE VOTED—LEGALITY OF ELECTION MAY BE QUESTIONED.*—The Birmingham "Age-Herald" of Dec. 24 says: "Official returns on an election for the authorization of a bond issue of $30,000 by the county as the county's part of the cost of a new building for the Matty Hersee State Charity Hospital show that the bonds carried by a majority of 11 votes. The vote of the entire county, including the city, was but 795, the lighetst ever cast. The vote for the issue was 403 and against the issue 382. The question of the legality of the election is expected to be raised because of the failure of the managers of some of the precincts to open and close the election as provided by the election laws. The Ward 1 box in this city, one of the largest in the city, was not opened for voting until about 3 o'clock in the afternoon, and in some county precincts no election was held, while other precincts are said to have been closed to voters about two hours before the legal closing time. The law requires that the polls open at 9 o'clock in the morning and close at 6 in the evening. The City Council will now proceed to fix a date for an election on a bond issue of $70,000 as the city's part for

the erection of a new hospital building for the Matty Hersee, which is maintained with appropriations by the State, Lauderdale County and the city of Meridian.

LAWTON, Comanche County, Okla.—*BONDS VOTED.*—An issue of $600,000 bonds to be used to purchase or construct a municipal light plant carried on Dec. 20 by 990 to 113.

LEON COUNTY (P. O. Centerville), Tex.—*WARRANT SALE.*—J. L. Arlitt of Austin has purchased $12,000 6% general ad valorem warrants dated Sept. 12 1921 and maturing yearly on Sept. 12 as follows $1,000 1922 to 1929 incl. and $2,000 1930 and 1931.

LEVAN, Juab County, Utah.—*BOND SALE.*—On Dec. 23 the State Insurance Fund was awarded $12,000 6% 20-year municipal electric light plant bonds. These bonds are part of an issue of $16,000 which was voted on Feb. 15 1921 (V. 112, p. 959).

LEYDEN, LYONSDALE AND WEST TURIN UNION FREE SCHOOL DISTRICT NO. 5 (P. O. Port Leyden), Lewis County, N. Y.—*BOND OFFERING.*—E. B. Mayhew, Clerk of the Board of Education, will receive sealed bids until 12 m. Jan. 6 for $58,000 coupon or registered bonds not to exceed 6% interest per annum. Denom. $500 and $1,000. Date Oct. 1 1921. Prin. and semi-ann. int. (A. & O.) payable at the Port Leyden National Bank in Port Leyden, or the National Park Bank in New York. Due yearly on Oct. 1 as follows: $1,500 from 1923 to 1936 incl.; $2,000 from 1937 to 1942 incl., and $2,500 from 1943 to 1952 incl. Cert. check for $1,500, payable to the above Clerk, required. Legality approved by Clay & Dillon of New York.

LINCOLN COUNTY CONSOLIDATED SCHOOL DISTRICT NO. 70 (P. O. Arco), Minn.—*BOND OFFERING.*—Sealed bids will be received at the Farmers' State Bank, Arco, until 9 a. m. Jan. 2 by Geo. Christensen, District Clerk, for $20,000 6½% school bonds. Date Dec. 1 1921. Int. J. & D. Due Dec. 1 1936. Cert. check for 10% of bid, payable to the District Treasurer required.

LINCOLN PARISH (P. O. Austin), La.—*ADDITIONAL INFORMATION.*—The $700,000 Road District No. 1 bonds, which were reported sold to Sutherlin, Barry & Co., Inc., of New Orleans, at 91.187, in V. 113, p. 2743, bear 5% interest and have an average life of 18¾ years.

LISLE, Broome County, N. Y.—*BOND SALE.*—An issue of $10,000 6% road bonds offered on Dec. 23 was sold to a local investor at 103. Denom. $100. Due from 1922 to 1931.

LODI TOWNSHIP (P. O. Guysville R. D. No. 2), Athens County, Ohio.—*BONDS NOT SOLD.*—The $8,250 6% bonds offered on Dec. 24—V. 113, p. 2639—were not sold, as no bids were received.

LOUISIANA (State of).—*ADDITIONAL DATA.*—Speaking with reference to the sale of the $2,500,000 canal improvement and $3,500,000 general improvement gold bonds on Dec. 21 to the Interstate Trust & Banking Co., Hibernia Securities Co., Marine Bank & Trust Co., Whitney-Central National Bank, and Canal-Commercial Trust & Savings Bank, all of New Orleans, at par and interest for 5s (they to receive the use of the daily balance remaining from the sale of the bonds without interest), the New Orleans "Times-Picayune" of Dec. 22 had the following to say:

"Six million dollars in navigation canal and general improvement bonds, offered by the Dock Board to finance completion of the Industrial canal and general improvements along the river front, were purchased by a local banking syndicate Wednesday at par and accrued interest. The entire issue will bear interest at 5%.

Local firms included in the syndicate are the Canal-Commercial Trust & Savings Bank, Hibernia Securities Co., Interstate Trust & Banking Co., Whitney-Central Trust & Savings Bank, and Marine Bank & Trust Co. They will receive the use of the daily balances from the sale of the bonds without interest.

"One other bid was submitted, that of Halsey, Stuart & Co., Inc., and the William R. Compton Co. They offered 100.66 for the bonds, and interest at 2% on the daily balances. However, they requested interest at the rate of 5¼% on the $3,500,000 general improvement issue.

"A number of bids were to have been submitted for the two bond issues, but a sudden upset in the bond market Monday and Tuesday, which sent Liberty bonds down nearly 2 points and affected industrial and municipal issues, had a deterring effect. It is not believed, however, that even with a large number of bids a substantially increased offer could have been received on the dock board offering.

"After the two bids were submitted Wednesday they were tabulated by the Finance Committee, which reported back to the Board the following statement:

" 'The Compton-Halsey Stuart bid of 100.66 plus interest on balances at 2% would give a total amount above par of $39,600 on the bonds. Added to this would be the 2% on the balances, which, figured liberally, running a year's time on the entire $6,000,000, gives interest return to the Dock Board of $120,000, or a total premium of $159,600.

" 'The local syndicate offers par, without interest. It agrees, however, to take the general improvement bonds at 5%, instead of 5¼% offered by the Compton-Halsey Stuart syndicate. Figuring the average life of these bonds at 36½ years, the additional ¼ of 1% interest asked by Compton and Halsey-Stuart would amount to $319,375.'

"It was recommended by the Finance Committee that the local bid be accepted as showing a saving of $160,000, and the report was adopted by the Dock Board. President R. S. Hecht, being interested in the local syndicate, refrained from voting.

"Members of the Dock Board expressed satisfaction with the bid accepted. They pointed out the Board had been able to sell both issues at an interest rate of 5%, although a rate of not to exceed 5½% had been authorized for the $3,500,000 general improvement bonds. The sale of of such a large issue at par and 5% interest is a strong indication of the satisfactory condition of the Board's credit, it was explained."

Notice that the bonds had been sold to the above syndicate was given in out last week's issue on page 2743.

LOWNDES COUNTY (P. O. Valdosta), Ga.—*BOND OFFERING.*—The Clerk of Board of County Commissioners will receive sealed bids until Jan. 16 for $300,000 road bonds, it is stated.

OREGON (State of).—*BOND OFFERING.*—Sealed bids will be received until 11 a. m. Jan. 10 by Roy A. Klein, Secretary of the State Highway Commission (P. O. Room 520 Multnomah County Court House, Portland), for the purchase of $1,000,000 5% coupon State highway bonds. Denom. $1,000. Date Jan. 1 1922. Prin. and semi-ann. int. (A. & O.) payable at the office of the State Treasurer or at the office of the fiscal agency of the State of Oregon in New York City. Due $25,000 April 1 and Oct 1 each year from 1927 to 1946, incl. Cert. check for 5%, payable to the State Highway Commission required. The bonds will be printed, executed and ready for delivery about Jan. 30 1922. The bonds are issued under authority of Chapter 383, Laws of Oregon of 1921. Accrued interest from Jan. 1 1922 to date of delivery will be added to the amount of the successful bid. Purchase price to be paid on delivery of bonds at Portland, Ore. The legality of this issue of bonds has been passed upon by Storey, Thorndike, Palmer & Dodge of Boston, and an approving opinion will be furnished the successful bidder.

BOND OFFERING.—H. C. Brumbaugh, Secretary World War Veterans' State Aid Commission (P O Room 312, U. S. National Bank Building, Salem), will receive sealed bids until 11 a. m. Jan. 16 for the purchase of $10,000,000 tax-free gold coup. soldiers' bonus bonds at not exceeding 6% interest. Denom. $1,000. Date Feb. 1 1922. Principal and semi-ann. int. (A. & O.) payable at the State Treasurer's office or at the fiscal agency of the State of Oregon in New York City. Due $250,000 on April 1 and Oct. 1 each year from 1932 to 1951, incl. Cert. check for 2½%, payable to the World War Veterans' State Aid Commission required.

Purchase price to be paid on delivery of bonds at Salem, Ore., in the advertisement. Bonds are issued under authority of Article XI-c of the Constitution of State of Oregon and Chapter 201, General Laws of Oregon, 1921. Opinion by Storey, Thorndike, Palmer & Dodge of Boston, Mass., will be furnished by them to the successful bidder without charge. Constitutionality of amendment and validity of issue approved by Supreme Court of Oregon in a decision rendered Dec. 13 1921—V. 113, p. 2740. Chapter III, Title XXIV, General Laws of Oregon, provides that at the request of the holder of any bond or bonds of the State bearing interest coupons the State Treasurer shall issue in exchange a registered bond or bonds, registered both as to principal and interest and payable only to the registered holder. A fee of 50 cents is charged for each bond so exchanged. Total bonded debt Jan. 1 1922, $41,965,125. The assessed valuation of the State of Oregon for the year ending Dec. 31 1921 was $1,020,804,197 10. This valuation represents about 65% of the wealth of the State. The Constitutional limit for the purpose of the Bonus Act is 3% of the assessed valuation. Population of the State by the Census of 1920 was 783,285.

Mortgage Tr. Co., St. Louis	402,160	First Nat. Tr. Co. Durham	400,750
Prudden & Co., Toledo	401,120	Hanchett Bond Co., Inc., Chi.	392,000
		A. B. Leach & Co., Inc., Chi.	391,500

The bonds were later put up at auction and sold to the First National Trust Co., Durham, at 101.10 and int., for 5½s, a basis of about 5.39%.

ROOSEVELT COUNTY SCHOOL DISTRICT NO. 5 (P. O. Floyd), N. Mex.—*ADDITIONAL DATA*.—The $36,000 6% school bldg. bonds recently reported sold in V. 113, p. 2429, are dated Feb. 17 1921 and mature in 30 years and are optional after 10 years. Bonded debt, this issue only. Assessed value 1920, $619,348.

SAINT LAWRENCE COUNTY (P. O. Canton), N. Y.—*BOND OFFERING*.—R. Porter Johnson, County Treasurer, will receive sealed bids until 1:30 p. m. Jan. 4 for $195,000 5% highway-construction and improvement bonds. Denom. $500 or $1,000 or to suit successful bidder. Date July 1 1921. Prin. and semi-ann. int. (M. & S.) payable to the County Treasurer's office. Due $13,000 yearly on March 1 from 1932 to 1935 incl. Cert. check for $500, payable to the above Treasurer, required. Purchaser must be ready to take the above bonds and pay for them in cash at the office of the above Treasurer on Feb. 1 1922. No bid will be accepted unless it contains a statement that the bidder has satisfied himself as to the legality of the issue. Purchaser to pay accrued interest.

ST. PAUL, Minn.—*BOND SALE*.—An issue of $100,000 4½% 30-year school construction and sewer bonds was sold recently at 106.175, a basis of about 4.14%.

SALEM, Utah County, Utah.—*BOND SALE*.—On Dec. 23 the $21,000 6% 20-year water-works bonds voted on July 15—V. 113, p. 657—were awarded to the State Insurance Fund.

SALIDA SCHOOL DISTRICT, Stanislaus County, Calif.—*BOND SALE*.—The Department of Finance and the State Board of Control have purchased at par the $15,000 6% school bonds, offered unsuccessfully on June 14—V. 113, p. 105.

SEATTLE, Wash.—*BOND OFFERING*.—Sealed bids will be received until 12 m. Jan. 21 by H. W. Carroll, City Comptroller, for $1,005,000 6-20-year serial coupon municipal light and power-plant and system bonds at not exceeding 6% interest. Denom. $1,000. Date March 1 1922. Principal and semi-annual interest payable in gold coin of the United States of the present standard of weight and fineness at places to be designated. The bonds are a lien only upon the gross revenues of the municipal light and power-plant and system of the city of Seattle. Bidders will be required to submit separate bids upon blank forms furnished by the City Comptroller, the bids to be without condition, interlineation, explanation or erasure. The bidders shall be required to submit with their bids a certified check, drawn upon some national bank or trust company, for $20,100, which check will be returned to bidder if the bid be not accepted otherwise, to be applied by the city on the sum bid; or, if the bidder fails to comply with the terms of his bid, the deposit to be forfeited to the city as and for liquidated damages. Any check so deposited will be returned to the successful bidder upon his deposit with the City Comptroller of one or more checks, certified as above described, for 2% of the par value of the bonds awarded to him. The bonds will be delivered in Seattle, New York City, Chicago, Boston or Cincinnati, at the option of the purchaser. No bid for more than the maximum rate of interest which the bonds shall bear will be received, and the right is reserved by the City of Seattle to reject any and all bids. The bonds shall be registerable as to principal or principal and interest at the option of the purchaser. Bidders are required to bid upon the rate of interest that the bonds shall bear. No bid shall be withdrawn after the same shall have been filed with the City Comptroller unless permission so to do be first obtained form the City Council. The bonds will be approved as to legality by C. B. Masslich, bond attorney, of New York City, whose favorable opinion will be delivered to the purchaser free of charge.

SEATTLE, Wash.—*BOND SALE*.—During November the city issued the following 6% bonds at par:

Breed, Elliott & Harrison	154,600		

VERNON, Willbarger County, Tex.—*COMMISSION REFUSES TO CANCEL BOND ELECTION ORDER.*—The Dallas "News" of Dec. 22 says: "In a formal petition presented this morning to the City Commission by the Vernon School Board, the community's governing body was requested to cancel an election to be held in January for the issuance of $100,000 worth of light and ice bonds, and instead order an election for the appropriation of $140,000 with which to construct a new high school building. The request was denied by the Commission."

VIGO COUNTY (P. O. Terre Haute), Ind.—*BOND SALE.*—The $128,000 5% Charles F. Hill, Sugar Creek Township bonds offered on Dec. 23—V. 113, p. 2642—were sold to Breed, Elliott & Harrison at 100.091, a basis of about 4.99%. Date Nov. 15 1921. Due $6,400 each six months from May 15 1923 to Nov. 15 1932, incl.

BOND SALE.—The $13,500 5% John F. Fry et al. Lost Creek Township bonds offered on the same date—V. 113, p. 2642—were also sold to Breed, Elliott & Harrison at 100.074, a basis of about 4.99%. Date Dec. 15 1921. Due $675 each six months from May 15 1923 to Nov. 15 1932, incl.

WALLOWA COUNTY (P. O. Enterprise), Ore.—*BOND SALE.*—E. L. Devereaux & Co. of Portland have purchased $10,000 5½% road bonds. These bonds complete the sale of a $200,000 issue.

WALLOWA VALLEY MUNICIPAL IMPROVEMENT DISTRICT NO. 1, Wallowa County, Ore.—*DESCRIPTION OF BONDS.*—A description of the $125,000 6% tax-free bonds which were purchased by the Lumbermen's Trust Co. of Portland will be found in this department under the caption of "Mountain Sheep Irrigation District, Ore."

WATERTOWN, Jefferson County, N. Y.—*BOND SALE.*—The $20,000 5% coupon Court Street grade-crossing-elimination bonds offered on Dec. 23—V. 113, p. 2643—were sold to Sherwood & Merrifield at 103.83, a basis of about 4.55%. Date Jan. 1 1922. Due $1,000 yearly on Jan. 1 from 1923 to 1942, incl.

WESTWOOD (P. O. Crafton), Allegheny County, Pa.—*BOND SALE.*—The $28,000 5½% coupon street-improvement bonds offered on Dec. 7—V. 113, p. 2338—were sold to Lyon, Singer & Co. at 100.839, a basis of about 5.42%. Date Oct. 1 1921. Due yearly on Oct. 1 as follows: $1,000 from 1933 to 1942, incl., and $2,000 from 1943 to 1951, incl. The following two bids were also received:

J. H. Holmes & Co	100.560	Glovis & MacGregor	100.578

WHITE (P. O. Aurora), Minn.—*BOND OFFERING.*—Joseph Makela, Town Clerk, will receive sealed bids until 1 p. m. Jan. 7 for $150,000 6% coupon refunding bonds. Denom. $1,000. Certified check for $5,000, payable to the Town Treasurer, required.

WHITEVILLE SCHOOL DISTRICT NO. 1 (P. O. Whiteville), Columbus County, No. Caro.—*BOND OFFERING.*—Mrs. A. J. Howell, Secretary Board of School Trustees, will receive bids for $75,000 6% bonds until 10 a. m. Jan. 5. Denom. $1,000. Date Jan. 1 1922. Prin. and semi-ann. int. payable at the National City Bank, N. Y. Due yearly on Jan. 1 as follows: $2,000 1925 to 1934 incl.; $3,000 1935 to 1944 incl., and $5,000 1945 to 1949 incl. Cert. check for $1,500, payable to the District Treasurer, required. The approving opinion of Storey, Thorndike, Palmer & Dodge of Boston will be furnished the purchaser without cost.

WILBARGER COUNTY (P. O. Vernon), Tex.—*BOND SALE.*—With regard to the county selling $505,500 road bonds to Bolger, Mosser & Willaman of Chicago, the Dallas "News" on Dec. 23 said:

"Wilbarger County road bonds amounting to $505,500 have been sold to Bolger, Mosser & Willaman of Chicago for $500,514. The commission was therefore $4,986. This means that the bonds brought better than 99% of their value and 2.27% more than did the recent huge issue at Dallas. Nine bids were received and only those accompanied by a certified check for $25,000 were considered. L. G. Hamilton of Fort Worth served as agent for the Chicago concern. Another bid, the closest, was only $14 below the winner. The bonds will bear accrued interest dating Dec. 15."

WILKINSBURG, Allegheny County, Pa.—*BOND SALE.*—The $100,000 5% coupon bonds offered on Dec. 28 (V. 113, p. 2535) were sold to J. H. Holmes & Co. and Morrison, Dinkey & Todd Co. at their joint bid of 106.51, a basis of about 4.38%.

WILMINGTON CITY SCHOOL DISTRICT (P. O. Wilmington) Clinton County, Ohio.—*BOND SALE.*—The $58,000 5½% bonds offered on Dec. 23—V. 113, p. 2643—were sold to the Davies-Bertram Co. of Cincinnati at 102.87.

WINDSOR TOWNSHIP RURAL SCHOOL DISTRICT (P. O. Stockport), Morgan County, Ohio.—*BOND OFFERING.*—W. E. Medley, Clerk of the Board of Education, will receive sealed bids until 12 m. to-day (Dec. 31) for $6,954 63 6% school bonds. Cert. check for 2% of the amount bid for, payable to the above Clerk, required.

YAKIMA COUNTY (P. O. Yakima), Wash.—*BOND AND WARRANT SALE.*—Of the seven issues of bonds and warrants offered on Dec. 12—V. 113, p. 2535—six issues were sold on that day as follows:

$143,500 15-year Sub-District No. 7 of Drainage Impt. Dist. No. 3 bonds to Ferris & Hardgrove of Seattle at 96.03 for 6½s. Date Jan. 1 1922.

59,800 15-year Sub-District "C" of Drainage Impt. Dist. No. 7 bonds to Blyth, Witter & Co., Union National Bank and Baillargeon, Winslow & Co., all of Seattle, at 96.13 for 6s. Date Jan. 1 1922.

4,656 5-year coupon Sub-District "C" of Drainage Dist. No. 7 warrants to the Dexter Horton National Bank of Seattle at par, plus $51 for 8s. Date Jan. 1 1922.

PORTO RICO.
One of the island possessions of the United States ceded by Spain following the war of 1898. San Juan is the capital.
The borrowing capacity of all municipal corporations in the Island of Porto Rico is now governed by the new municipal law, approved July 31 1919 (Act 85, Laws of 1919) and amended by Act No. 9, approved May 12 1920 (Laws of 1920). The bonded debt of the municipalities of Porto Rico on June 30 1920 aggregated $1,442,000. Of this amount $915,000 belongs to an issue floated by the city of San Juan in March 1917 as part of an authorized issue of $1,700,000 for refunding all existing indebtedness and for public improvements.
There is a sinking fund for the payment of interest and principal created from the proceed of .25 of 1% imposed on all taxable property within the municipality and the net income some of the public improvements planned. On Sept. 30 1920 the total of these funds was $317,650.

WANTED—FOREIGN BOND TRADER

Established firm dealing with banks and brokers in foreign currency will open a department to transact business in Foreign Bonds. Excellent opportunity for young man capable of developing and directing this department. Profit sharing basis. Box P-28, Financial Chronicle, 90 Pine Street, New York.

POSITIONS WANTED

MASTER MECHANIC, now operating power plant, electrical, mechanical, woodworking and box factory for $4,000,000 plant, after designing and supervising same during construction, desires new connection. Experienced marine, auto, tractor, chemical, aircraft, iron foundry and mail-order, all large scale firms and posts. Do own purchasing. $4,500 up. Box P-23 Financial Chronicle, 90 Pine St., N. Y. City.

SECURITIES SALESMAN WANTED

WANTED

Securities Salesman

An old established investment house, specializing in bonds and preferred issues of public utility companies and high-grade industrials, has an opening for an experienced salesman to cover their Connecticut territory. The position offers to the right man a permanent connection and an opportunity for financial independence.

Reply stating qualifications to "Opportunity," P. O. Box 1834, New Haven, Conn.

POSITIONS WANTED.

WANTED

Bond Salesmen

Prominent bond house has opening for two or three experienced bond salesmen who can command substantial salaries.

All replies treated in strictest confidence. Address Box P-16, Chronicle.

BOND TRADER

The advertiser is a successful bond trader whose work especially qualifies him to select securities for a dealer to distrubute to investors and institutions of the highest type. He has keen discrimination as to the relative value of bonds and would assume responsibilities of a trading department with a firm which has a good selling organization. Address Box K-18, Financial Chronicle, 90 Pine Street, New York City.

Railroad Bond Trader

Well-known Railroad Bond Trader desires position. Nominal salary and commission basis acceptable until ability proven. Address Box K-16, Financial Chronicle, 90 Pine Street, New York City.

EXPERIENCED CASHIER

Formerly with large brokerage house, seeks position. Best of references. Address P-1, care of Financial Chronicle, 90 Pine St., N. Y. City.

BOND TRADER, well educated, wishes opportunity with established firm to learn bond business; moderate salary in return for a real opportunity; highest references as to character, integrity, etc. Address K-11, Financial Chronicle, 90 Pine Street, N. Y. City.

SECRETARY desires engagement. Young man exceptional experience as secretary to prominent New York banker past five years. Stenographer. Best references. Reasonable salary. Box P-29, Financial Chronicle, 90 Pine St., N. Y. City.

ECONOMIST-STATISTICIAN now employed in that capacity by Federal Government, desires position, preferably investment banking field or with commercial or industrial organization or trade association. A highly trained specialist with varied experience in the planning and management of both large and small scale economic statistical and cost and profit inquiries, the analysis of material and the preparation of reports thereon. Extensive executive and administrative experience in the supervision and direction of field and office forces, engaged in such inquiries and the preparation of reports. Highest references. Box P-24, Financial Chronicle, 90 Pine Street, New York.

Hang Out a Sign!

If you hung a sign on your building: "I have need for, or I am seeking a position as, a

STATISTICIAN
TRADER
SALESMAN
CASHIER OF A BANK
OR THE LIKE,"

possibly it would attract the attention of someone who could satisfy your wants.

But why not hang that "sign" before everyone in the banking and investment field the world over by inserting an advertisement in the *Financial Chronicle* Classified Department? (opposite inside back cover.)

This will insure your getting an "above the ordinary man."

If you have occasion to "hang out a sign," draw up and send or telephone an appropriate ad to our Classified Department. Do it now.

Safeguards for Municipal Financing

Municipalities preparing to borrow are invited to investigate this Company's plan for the preparation and certification of Municipal Bonds. The safeguards which we provide protect the Municipality and investing public against forgery, over-issue and other frauds, and relieve officials of burdensome details.

Our service has been utilized by over 625 cities, towns and counties in thirty-four States for Bond Issues aggregating over $400,000,000.

Booklets, "Municipal and Corporation Bonds," and "Two Conspicuous Examples of Fraud," will be sent upon request.

WILLIAM B. DANA COMPANY, Publishers,
Front, Pine and Depeyster Streets, New York.

DATE OF ISSUE OF THIS PUBLICATION.

As explained in previous numbers, this periodical, owing to the great pressure for space, is now issued in two parts. The first part, comprising the New England and the Middle and the Central States (the latter embracing Ohio, Indiana, Illinois and Michigan), is published in the first half of the year and appears in June. The second part, comprising the rest of the country, is published towards the close of the year, and is sent to our subscribers to-day.

The change has been forced upon us by the constant addition to the number of municipal bond issues and the inability to compress the information concerning the same within the limits of a single number. Not only are the older and more important civic corporate bodies uninterruptedly putting out further bonded obligations, but many of the minor places, previously free from debt, have also entered the ranks of borrowing communities and are constantly creating new issues. Besides this, in the newer sections of the country, where expansion and development are such noteworthy characteristics of affairs, new civil divisions are all the time springing up. The result is that the demands for additional space have outgrown our ability to provide for them in the customary way, leaving no alternative but to issue the Supplement in two parts and to assign a portion of the country to each part.

United States Debt and the Congressional Acts Authorizing It.

In the following detailed statement of the debt of the United States, we give references to the laws authorizing each of the issues of bonds outstanding to-day. In 1917 the country entered upon an entirely new era in its debt history In the prosecution of the war against the Imperial German Government, new obligations were issued on a scale of unparalleled magnitude. By the Act of April 4 1917 authority was conferred upon the Secretary of the Treasury to issue $5,000,000,000 long-term bonds at not to exceed 3½% interest ($3,000,000,000 of this being for the purpose of establishing credits in the United States for the foreign Governments enlisted in the war against Germany), and $2,000,000,000 certificates of indebtedness, the latter running for periods not exceeding one year. By the further Act of Sept. 24 1917, authority was conferred to issue $7,538,945,460 convertible 4% bonds to retire the $3,000,000,000 non-taxable 3½% issue authorized to cover loans to the Allies, and to provide for new Allied credits of $4,000,000,000, the remaining $538,945,460 to be used for converting certain outstanding bonds, including the Danish West Indies, Alaskan Railway, Panama Canal and naval construction issues. The bill also provided for the issuance of $2,000,000,000 *each* of one-year Treasury certificates of indebtness and five-year war savings certificates. The interest rate on the certificates the Secretary of the Treasury was left to fix. By the further Act of April 4 1918, amending the Act of Sept. 24 1917, authority was conferred to issue $12,000,000,000 of bonds at not exceeding 4¼% interest, the 12 billion dollars, however, to include the bonds issued under the Second Liberty Loan, and $3,638,945,460 being in lieu of corresponding amounts of unissued bonds authorized by previous Acts. Under the same Act the limit upon the amount of certificates of indebtedness that might be outstanding at any one time was raised from $4,000,000,000 to $8,000,000,000, and was further raised to $10,000,000,000 under the Act of March 3 1919. By the further Act of July 9 1918, amending previous Liberty bond enactments, the limit of the bond issue was raised to $20,000,000,000 at not exceeding 4¼%; but including bonds theretofore issued and increasing from $5,500,000,000 to $7,000,000,000 the additional loans or credits that might be extended to the Allies, making $10,000,000,000 altogether that may be loaned to the Allies. By the further Act of March 3 1919 (Victory Liberty Loan Act) amending previous Liberty Loan Acts and the War Finance Corporation Act, the Secretary of the Treasury was authorized to borrow an aggregate not exceeding $7,000,000,000 at such rate or rates of interest as he might prescribe, issuing therefor notes payable in not less than one year nor more than five years. By the Liberty Bond Exemption Bill of Sept. 24 1918, the total of War Savings Certificates that might be issued was raised from $2,000,000,000 to $4,000,000,000.

In June 1917 $2,000,000,000 of 3½% bonds were offered under the Act of April 24 1917. The subscriptions amounted to $3,036,226,850, but only $2,000,000,000 was accepted. In October 1917 an offering of $3,000,000,000 4s under the Act of Sept. 24 1917 was made. Subscriptions reached an aggregate of $4,617,532,300. In accordance with previous announcement, one-half of the over-subscription was accepted, making the total of bonds put out under this offer $3,807,865,000. In April 1918 $3,000,000,000 of 4¼% non-convertible bonds (Third Liberty Loan) were offered under the Act of April 4 1918. The subscriptions amounted to $4,176,516,850, all of which were accepted. In Sept.-Oct. 1918 $6,000,000,000 of 4¼% non-convertible bonds (Fourth Liberty Loan) were offered under the Act of July 9 1918. The subscriptions amounted to $6,964,524,650, all of which were accepted. In April-May 1919, $4,500,000,000 of convertible gold notes were issued in two series, the one bearing interest at 3¾%, the other at 4¼%. The subscriptions amounted to $5,249,908,300, but only $4,500,000,000 was accepted.

Note.—The Act authorizing the First Liberty Loan was given in the "Chronicle" of April 28, page 1649, with further particulars in the issue of May 12 1917, page 1849, and the text of the Treasury circular in the issue of May 19, page 1959; and of the Second Loan the full text of the bill as it became a law in the "Chronicle" of Sept. 29 1917, page 1252, and the text of the Treasury circular in the issue of Oct. 6, page 1355. The Act authorizing the Third Liberty Loan was presented in the "Chronicle" of April 6 1918, page 1404, and the text of the Treasury circular in the issue of April 13, page 1517. The Act authorizing the Fourth Liberty Loan appeared in the "Chronicle" of July 13 1918, page 131, the Treasury circular in the issue of Oct. 5, page 1328, and the text of the Liberty Bond Exemption Bill on Oct. 5, page 1327. The Act authorizing the Fifth (Victory) Liberty Loan was given in the "Chronicle" of March 8 1919, page 919, and the text of the Treasury Circular in the issue of April 26 1919, page 1670. Certificates of indebtedness have been issued from time to time under the Act of April 24 1917 and the amendatory Acts of Sept. 24 1917, April 4 1918, July 9 1918 and March 3 1919, always for short periods.

Consolidation of Liberty Bond Tax Exemptions.—The degree of tax exemption enjoyed by the different issues of Liberty Loan and Victory Liberty Loan bonds is given below in the remarks relating to each issue. In the Revenue Act of 1921 the various provisions appertaining to the several issues were consolidated in Section 1328 of the Act, which we reprint below. The new Revenue Act, complete, was published in the "Financial Chronicle" of Nov. 26 1921, pages 2267 to 2285.

SECTION 1328. That the various Acts authorizing the issues of Liberty bonds are amended and supplemented as follows:

(a) On and after January 1 1921, 4 per centum and 4¼ per centum Liberty bonds shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, corporations, or associations, in respect to the interest on aggregate principal amounts thereof as follows:

Until the expiration of two years after the date of the termination of the war between the United States and the German Government, as fixed by proclamation of the President, on $125,000 aggregate principal amount; and for three years more on $50,000 aggregate principal amount.

(b) The exemptions provided in Subdivision (a) shall be in addition to the exemptions provided in Section 7 of the Second Liberty Bond Act, and in addition to the exemption provided in Subdivision (3) of Section 1 of the Supplement to the Second Liberty Bond Act in respect to bonds issued upon conversion of 3½ per centum bonds, but shall be in lieu of the exemptions provided and free from the conditions and limitations imposed in Subdivisions (1) and (2) of Section 1 of the Supplement to Second Liberty Bond Act and in Section 2 of the Victory Liberty Loan Act.

In the following we present a preliminary detailed statement of the debt of the United States as made up by the Treasurer at the close of business on Nov. 30 1921, this being based on the daily Treasury statements, and, therefore, subject to revision in a minor way.

INTEREST-BEARING DEBT OUTSTANDING NOV. 30 1921.

For date of redemption see below under "Postal Savings Bonds." *l* Thrift Stamps do not bear interest.

The Government debt on Nov. 30 1921 was made up of (1) interest-bearing debt, $23,365,366,526.28 of (2) debt on which interest has ceased, $8,954,260.26; of (3) debt bearing no interest, $244,764,939.33; making total *gross debt* $23,619,085,725.87.

CERTIFICATES OF INDEBTEDNESS UNDER ACT OF SEPT. 24 1917, APR. 4 1918, APR. 23 1918, MAR 3 1919.—(Column 7.)—Sec. 6 of Act of Sept. 24 1917 provides for the issuance of certificates of indebtedness at not less than par and at such rates of interest as the Secretary of the Treasury may prescribe for the purposes of the Act and to meet public expenditures authorized by law, each certificate so issued payable at such time not exceeding one year from the date of its issue, and redeemable before maturity upon such terms and conditions, and the interest accruing thereon payable at such time or times as the Secretary of the Treasury may prescribe. The sum of such certificates outstanding was not at any one time to exceed in the aggregate $4,000,000,000, but this was increased under the Act of April 4 1918 to $8,000,000,000 and further increased to $10,000,000,000 under the Act of March 3 1919. Under the authority thus granted the Secretary has issued varying amounts of these certificates from time to time, through the Federal Reserve banks, all for short periods, the rate of interest being at first fixed at 4%, then raised to 4¼%, to 4½, to 4¾, to 5, to 5¼, to 5½, to 5¾, and finally to 6%. During 1921 the rate of interest again declined and at the close of the year was down to 4¼ and 4½%. There were outstanding Nov. 30 1921 $2,278,689,500 at various rates of interest. In Dec. 1921 the Secretary of the Treasury offered two new series of Treasury Certificates of Indebtedness—Series TJ2-1922 and TD-1922—bearing respectively, 4¼% and 4½% interest, and due June 15 1922 and Dec. 15 1922.

LOANS TO BE REPLACED BY LIBERTY LOAN.—Under the Act of April 24 1917, authorizing the First Liberty Loan bonds, and again under the Act of Sept. 24 1917, authorizing the Second Liberty Loan, as well as under the Third Liberty Loan, all referred to below, the Secretary of the Treasury was authorized to issue Liberty Loan bonds to replace, at his discretion, bonds not already emitted under the following: Act of Aug. 5 1909, Section 39, Panama Canal Loan (Column 9), referred to above; Act of June 3 1916, Section 124, an Act for making further and more effectual provision for the national defense and other purposes, and providing for the expenditure of not more than $20,000,000 for a Government nitrate manufacturing plant; Act of Sept. 7 1916, Section 13, an Act to establish a United States Shipping Board for the purpose of encouraging, developing and creating a naval auxiliary and a naval reserve and a merchant marine to meet the requirements of the commerce of the United States with its territories and possessions, and with foreign countries, to regulate carriers by water engaged in the foreign and inter-State commerce of the United States, and for other purposes; Act of March 3 1917, Section 400, "An Act to provide increased revenue to defray the expenses of the increased appropriations for the Army and Navy, and the extension of fortifications, and for other purposes." (See certificates of indebtedness above), and the Public Resolution of March 4 1917, entitled: "Joint resolution to expedite the delivery of materials, equipment and munitions and to secure more expeditious construction of ships."

LIBERTY LOAN OF 1917, FIRST.—(Column 1.) Authorized by Act of April 24 1917, entitled "An Act to authorize an issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend credit to foreign governments, and for other purposes." Under the Act the Secretary was empowered to borrow, with the approval of the President, up to $5,000,000,000, exclusive of the sums authorized by Section 4 of the Act (see Loans to be Replaced by Liberty Loan above) to meet expenditures authorized for the national security and defense and other public purposes authorized by law and to issue therefor bonds of the United States. The bonds out bear 3½% interest and are payable in United States gold coin of the present standard of value, and exempt both as to principal and interest, from all taxation, except estate or inheritance taxes, imposed by authority of the United States or its possessions or by any State or local taxing authority. The bonds do not bear the circulation privilege. Provision was made by Section 2 of the Act for the establishing of credits to and the purchasing of obligations of foreign governments, $3,000,000,000, or so much thereof as might be necessary being

appropriated for the purpose. Under Section 3 it was provided that payments to the United States on or before maturity by foreign governments for obligations incurred by them under Section 2 must be applied to the redemption or purchase at not more than par and accrued interest of any bonds of the United States issued under authority of the Act; and if such bonds are not available for this purpose the Secretary of the Treasury shall redeem or purchase any other outstanding interest-bearing obligations of the United States which may at such time be subject to call or which may be purchased at not more than par and accrued interest

Section 5 provides that any series of bonds issued under authority of the Act may be convertible into bonds bearing a higher rate of interest than the rate at which the same were issued if any subsequent series of bonds shall be issued at a higher rate of interest before the termination of the war, the date of such termination to be fixed by a proclamation of the President of the United States.

Under the Act $2,000,000,000 gold bonds, running 15-30 years and bearing 3½ interest payable semi-annually June 15 and Dec. 15 were offered for subscription, denominations of coupon bonds being $50, $100, $500 and $1,000, and registered bonds $100, $500, $1,000, $5,000 $10,000, $50,000 and $100,000. Subscriptions were received from over 4,000,000 individual subscribers and aggregated $3,036,226,850. In scaling down the allotments to the total offered, all subscriptions up to and including $10,000 were awarded in full, but on larger amounts the allotments ranged from 60% down to 20.17%. The total of bonds issued was $1,989,455,550, but only about $1,410,024,000 remained outstanding Nov 30 1921 as 3½s with full tax exemption; in addition, some $15,979,100 appear as First Liberty Loan Convertible 4s and $522,652,950, as converted 4¼s and $3,492,150 Second Converted 4¼s.

LIBERTY LOAN OF 1917, SECOND.—(Column 2.)—Authorized by Act of Sept. 24 1917, entitled "An Act to authorize an additional issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend additional credit to foreign governments, and for other purposes."

The Act in its general outlines is similar to that of April 24 1917, but authorizes the issuance of not exceeding $7,538,945,460 bonds, bearing not exceeding 4% interest, in addition to the $2,000,000,000 bonds issued under authority of the Act of April 24 1917. *Provided*, That of this sum $3,063,945,460 shall be in lieu of that amount of the unissued bonds authorized by Sections 1 and 4 of the Act approved April 24 1917, $225,000,000 shall be in lieu of that amount of the unissued bonds authorized by Section 39 of the Act, approved Aug. 5 1909, $150,000,000 shall be in lieu of the unissued bonds authorized by the joint resolution approved March 4 1917, and $100,000,000 shall be in lieu of the unissued bonds authorized by Section 400 of the Act, approved March 3 1917.

Section 2 provides for the appropriation out of any money in the Treasury not otherwise appropriated, of the sum of $4,000,000,000, and in addition thereto the unexpended balance of the appropriations made by Section 2 (the section that authorizes loans to the Allies) of the Act approved April 24 1917 and under the same conditions.

Section 4 provides for the convertibility of the bonds into any issue thereafter bearing a higher rate of interest. Under Section 7 it is provided that none of the bonds shall bear the circulation privilege. The bonds are exempt, both as to principal and interest from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of such bonds and certificates the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, is exempt from the taxes provided for in subdivision (b) of this section.

Section 11, which relates to the conversion privilege of the *first* issue of Liberty Loan Bonds, states that no bonds shall be issued under authority of Sections 1 and 4 of said Act approved April 24 1917, in addition to the $2,000,000,000 already issued or offered for subscription.

Under authority of the Act, the Secretary of the Treasury offered for subscription on Oct. 1 an issue of $3,000,000,000 or more of 4% 10-25-Year bonds of the same denominations as the first Liberty Loan, reserving the right to allot bonds in excess of $3,000,000,000 to the extent of not over one-half of the sum by which the subscriptions received exceeded $3,000,000,000. Subscriptions totaled $4,617,532,300, or $1,617,532,300 more than the minimum sought, and on the basis of 50% of the oversubscriptions, the amount issued was $3,807,865,000; all those up to $50,000 were allotted in full. Total number of subscribers was approximately 9,400,000. On Nov. 30 1921 only about $70,000,000 remained outstanding as 4s; the remaining $3,243,766,000 appear as Second Liberty Loan converted 4¼s.

With the issue of the Second Liberty 4s, dated Nov. 15 1917, a conversion privilege arose with respect to the First Liberty 3½s which continued until May 15 1918. The bonds issued upon conversion retained the date of maturity, the terms of redemption, and the dates of interest payment of the 3½s, but otherwise had the terms of the Second Liberty 4s. When the Third Liberty 4¼s were issued on May 9 1918, the holders of the unconverted First Liberty 3½s had the privilege of conversion into the new 4¼s and so did the holders of First Liberty converted 4s and of Second Liberty 4s. The privilege continued for six months or until Nov. 9 1918. The Third Liberty 4¼s are non-convertible, and hence the 4¼% bonds issued upon conversion of prior issues likewise are non-convertible. With the issuance of the Fourth Liberty Loan on Oct. 24 1918, a new privilege of exchange accrued to the holders of the unconverted First Liberty 3½s; this privilege remained open until April 24 1919. By Sec. 5 of the Victory Liberty Loan Act of March 3 1919, authority was conferred upon the Secretary of the Treasury to extend the privilege of converting the 4% bonds of 1932-47 of the First Liberty Loan converted and the 4% bonds of 1927-42 of the Second Liberty Loan into 4¼% bonds. Accordingly, by circular dated Mar. 7 1919, and published in the "Chronicle" of March 15 1919, page 1021, the Secretary offered a new privilege of conversion. This privilege to be terminated at any time upon six months public notice. The privilege does not apply to the unconverted 3½s of the First Liberty Loan.

LIBERTY LOAN OF 1918, THIRD (Column 3).—Authorized by Act of April 4 1918, amending the Act of Sept. 24 1917. Following the general lines of the Act which it amends, it authorizes the issuance of not exceeding $12,000,000,000 bonds, bearing not exceeding 4¼% interest, in addition to the $2,000,000,000 issued under authority of the Act of April 24 1917, but including the bonds outstanding under the Second Liberty Loan and the $3,063,945,460 reserved for unissued bonds of earlier Acts. Section 2 increased the *additional* loans or credits that might be extended to the Allies from $4,000,000,000 to $5,500,000,000.

Section 3 provides that holders of bonds bearing interest at a higher rate than four per centum per annum, whether issued under Section 1 or upon conversion of three and one half per centum bonds issued under the Act approved April 24 1917, or upon conversion of four per centum bonds issued upon conversion of such three and one half per centum bonds, shall not be entitled to any privilege of conversion under or pursuant to this section or otherwise. Under Section 7 it is provided that none of the bonds shall bear the circulation privilege. The bonds are non-convertible and not subject to redemption before maturity, but are exempt from taxation as indicated above under Second Liberty Loan and receivable for Federal inheritance taxes.

Under authority of the Act, the Secretary of the Treasury offered for subscription on April 6 1918 $3,000,000,000 4¼% 10-year gold bonds with coupon bonds for $5,000 and $10,000 and registered bonds for $50 in addition to the same denominations as the First Liberty Loan, reserving the right to allot additional bonds to the extent of full amount of any oversubscription. Subscriptions totaled $4,176,5 6,850, or $1,176,516,850 more than the minimum sought, and all were allotted. Total number of subscribers was 18,376,815. Outstanding Nov. 30 1921, $3,608,597,250.

LIBERTY LOAN OF 1918, FOURTH (Column 4).—Authorized by Act of July 9 1918, amending previous Liberty Loan enactments. Section 1 increases from $12,000,000,000 to $20,000,000,000 the total of bonds bearing not exceeding 4¼% interest that may be issued under the various Acts. Section 2 increases the loans or credits that may be extended to the Allies from $5,500,000,000 to $7,000,000,000, in addition to the $3,000,000,000 authorized under the First Liberty Loan Act. Section 3 provides that, with the approval of the Secretary of the Treasury, bonds, while beneficially owned by a non-resident alien individual, or by a foreign corporation, partnership or association, not engaged in business in the United States, shall be exempt both as to principal and interest from any and all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority.

Under authority of the Act, the Secretary of the Treasury offered for subscription on Sept. 28 $6,000,000,000 4¼% 10-year gold bonds of the same denomination as those of the Third Loan, reserving the right to allot additional bonds to the extent of full amount of any oversubscription. Subscriptions totaled $6,964,524,650, or $964,524,650 more than the minimum sought, and all were allotted. Total number of subscribers was approximately 21,000,000. The bonds are not available for bank note circulation.

Supplementary to the passage of the above authorizing Act, there was passed and signed by the President on Sept. 24 1918 a bill designed to stimulate sales of Liberty Bonds by exempting from the supertaxes and from war excess profits taxes interest on a certain amount of Liberty bond holdings. The principal provisions of the bill are:

(1) The interest on an amount of bonds of the Fourth Liberty Loan, the principal of which does not exceed $30,000, owned by any individual, partnership, association, or corporation, shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits taxes, now or hereafter imposed, upon the income or profits of individuals, partnerships, associations, or corporations;

(2) The interest received after Jan. 1 1918 on an amount of bonds of the First Liberty Loan converted, dated either Nov. 15 1917 or May 9 1918, the Second Liberty Loan, converted and unconverted, and the Third Liberty Loan, the principal of which does not exceed $45,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from such taxes: *Provided, however*, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate amount of such bonds exceeding 1½ times the principal amount of bonds of the Fourth Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return; and

(3) The interest on an amount of bonds, the principal of which does not exceed $30,000, owned by any individual, partnership, association, or corporation, issued upon conversion of 3½% bonds of the First Liberty Loan in the exercise of any privilege arising as a consequence of the issue of bonds of the Fourth Liberty Loan, shall be exempt from such taxes.

The exemptions provided in this section shall be in addition to the exemption provided in Section 7 of the Second Liberty Bond Act in respect to the interest on an amount of bonds and certificates, authorized by such Act and amendments thereto, the principal of which does not exceed in the aggregate $5,000, and in addition to all other exemptions provided in the Second Liberty Bond Act.

Sec. 2. That Section 6 of the Second Liberty Bond Act is hereby amended by striking out the figures "$2,000,000,000," and inserting in lieu thereof the figures "$4,000,000,000." Such section is further amended by striking out the words "The amount of war savings certificates sold to any one person at any one time shall not exceed $100, and it shall not be lawful for any one person at any one time to hold war savings certificates to an aggregate amount exceeding $1,000," and inserting in lieu thereof the words "It shall not be lawful for any one person at any one time to hold war savings certificates of any one series to an aggregate amount exceeding $1,000."

Amount of Fourth Liberty Loan bonds now outstanding Nov. 30 192!, $6,350 232.100. bearing 4¼% Interest.

FIFTH OR VICTORY LIBERTY LOAN OF 1919 (Column 5).—Authorized by Act of March 3 1919, amending previous Liberty Loan enactments and the War Finance Corporation Act. Under the Act the Second Liberty Bond Act is amended by adding thereto a new section [18] which provides (a) for the issuing of notes to an amount not exceeding $7,000,000,000 in the aggregate, at such rates of interest as the Secretary of the Treasury may prescribe and payable at such time not less than one year nor more than five years as he may prescribe, redeemable before maturity at the option of the United States; (b) the notes to be issued in one or more series as follows: "(1) Exempt, both as to principal and interest, from all taxation (except estate or inheritance taxes) now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority. (2 and 3) Exempt, both as to principal and and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes commonly known as surtaxes and excess profits and war profits taxes now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations, or corporations, except that the interest on an amount of such notes the principal of which does not exceed $30,000 so owned, is exempted. Or, (4) Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) all income, excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations."

Holders have the option of converting their holdings of notes of any series into any other series of same date of issue at par. The notes do not bear the circulating privilege. Under authority of the Act the Secretary of the Treasury on April 21 invited subscriptions for $4,500,000,000 convertible gold notes bearing 3¾% or 4¼% of the same denominations as those of the Fourth Liberty Loan. The notes bearing 3¾% to enjoy exemption as per (1) above and 2, 3 & 4 to apply to the 4¼s. The Secretary announced that allotments would be restricted to the $4,500,000,000 offered, but that applications not in excess of $10,000 would be allotted in full. Subscriptions aggregated $5,249,908,300, or $749,908,300 in excess of the offering. Total number of subscribers was approximately 12,000,000. The receipts by the Treasury up to May 31 1921 on account of the principal of the Victory notes was $4,495,373,000. Notes outstanding Nov. 30 1921, $3,608,308,550 of which about $557,000,000 at 3¾%. In June 1921 the Secretary made a combined offering of 5¼% 3-year notes (exempt from the normal income tax, but not from the surtaxes, the excess profits and the war profits taxes), the notes not being subject to prior redemption, and 5½% one-year Treasury Certificates of Indebtedness, and allotted $311,-191,000 of the former and $314,184,000 of the latter. On Sept. 8 1921 he made a new offering of three-year notes, along with another issue of certificates of indebtedness. These notes were dated Sept. 15 and carried the same exemptions as the others, but bore only 5½% interest. The subscriptions for the notes reached $785,082,900 and the amount allotted was $390,706,100.

The Victory Liberty Loan Act, in addition to providing for the issuance of the $4,500,000,000 notes as above, covered the following changes in the exemption and conversion privileges contained in preceding Acts:

Sec. 2. (a) That until the expiration of five years after the date of the termination of the war between the United States and the German Government, as fixed by proclamation of the President, in addition to the exemptions provided in Section 7 of the Second Liberty Bond Act in respect to the interest on an amount of bonds and certificates, authorized by such Act and amendments thereto, the principal of which does not exceed in the aggregate $5,000, and in addition to all other exemptions provided in the Second Liberty Bond Act or the supplement to Second Liberty Bond Act the interest received on and after Jan. 1 1919 on an amount of bonds of the First Liberty Loan Converted, dated Nov. 15 1917, May 9 1918 or Oct. 24 1918, the Second Liberty Loan, converted and unconverted, the Third Liberty Loan, and the Fourth Liberty Loan, the principal of which does not exceed $30,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations.

(b) In addition to the exemption provided in subdivision (a), and in addition to the other exemptions therein referred to, the interest received on and after Jan. 1 1919 on an amount of the bonds therein specified the principal of which does not exceed $20,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes therein specified: *Provided*, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate principal amount of such bonds exceeding three times the principal amount of notes of the Victory Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return.

Note.—Reference to the statutes governing older issues of bonds and of War Savings and Thrift Stamps will be found in the issue of the "State and City" Section for December 31 1918.

In April 1895 we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year On this occasion we begin our statement with 1878, as that year antedates all of the issues now outstanding. The statement is subjoined.

Note 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest charge on Pacific Railway bonds, but is incorrectly swelled to a small extent by interest on Thrift Stamps which are not separately stated.

Note 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

Note 3.—Under the Act of March 14 1900 the Treasury Department has kept the gold reserve fund as a separate item, and not included it in the available cash balance. In the above statement, however, we have continued to include the item so as not to embarrass comparison with previous years.

a Under the new form of statement issued by the Treasury Department the gold reserve ($152,979,025 63 Nov. 30 1921) is deducted from the total of United States notes outstanding, decreasing to that extent the debt bearing no interest and consequently making a similar reduction in the balance of cash available to pay maturing obligations

‖ Current liabilities exceeded cost by this amount. ‡ Continued at 3½%. ƒ Continued at 3%. ‡ Approximate.

State of Wisconsin.

ITS

DEBT, RESOURCES, ETC.

Organized as a Territory (Act Apr. 20 1836)...July 3d 1836
Admitted as a State (Act Aug. 6 1846).....May 29th1848
Total area of State (square miles).....56,040
State Capital.....Madison
Governor (term exp. 1st Mon. Jan. 1923)..John J. Blaine
Secretary of State (1st Mon. Jan. 1923).....Elmer Hall
Treasurer (1st Monday Jan. 1923).....Henry Johnson
Attorney-General (1st Mon. Jan. 1923).....Wm. J. Morgan

LEGISLATURE meets biennially in odd years on the second Wednesday in January, and there is no limit to length of sessions.

HISTORY OF DEBT.—A brief summary of the early history of the Wisconsin debt will be found in the "State and City Supplement" for April 1895.

The bonded debt of the State, created for war purposes in 1861-63, has all been paid or else converted into certificates of indebtedness, which are held by the various trust funds. The amounts due the several funds in Oct. 1921 were as follows:

Certificates of indebtedness,	School Fund	$1,163,700
" "	Normal School Fund	1,100,291
Total		$2,263,991

ASSESSED VALUATION.—The total assessed valuation of the state as determined by the State Board of Assessment, and the tax rate for State purposes, have been as follows for the years named below:

Year.	Real Estate.	Personal Property.	Total Valuation.	State Tax Rate (per M)	Taxes Raised.
	$	$	$		$
1921	3,670,090,188	924,649,774	4,594,739,962	1.6977	7,801,454
1920	3,565,811,448	1,004,887,082	4,570,698,530	1.6927	7,775,371
1919	3,178,663,175	889,605,359	4,068,268,534	.01895	7,125,865
1918	3,045,683,229	800,500,515	3,846,183,744	.01463	5,087,447
1917	2,929,281,764	678,188,678	3,607,470,442	.01389	4,797,946
1916	2,819,280,345	607,516,875	3,426,797,220	.01317	4,579,758
1915	2,702,982,005	596,749,403	3,299,731,408	.01332	4,430,736
1914	2,592,983,150	580,006,004	3,172,989,154	.01387	5,272,363
1912	2,308,301,611	533,328,805	2,841,630,416	0.9033	2,566,711
1910	2,108,140,021	635,040,383	2,743,180,404	1.3657	3,746,561
1908	1,901,290,225	577,271,561	2,478,561,786	1.1604	2,875,723
1906	1,671,142,204	453,857,796	2,124,800,000	.3029	643,680
1905	1,513,335,382	439,364,618	1,952,700,000	.5977	1,167,03
1901	*1,186,349,139	249,934,861	*1,436,284,000	1.6535	2,257,854
1900	503,690,767	126,309,232	630,000,000	2.1354	1,345,570
1895	482,799,128	120,674,398	603,473,526	2.2746	1,372,713
1890	464,782,237	128,108,482	592,890,719	1.5040	891,660
1879	344,788,721	94,183,030	438,971,751	1.5081	662,059

*The large increase in values for 1901 and since that date is due to the formation of a new State Board of Assessment by Chapter 237, Laws of 1901, which has construed the existing law to be a command to assess at *full value*, whereas former boards did not so construe the Act.

[The 1915 Legislature passed an Act (Chapter 407, Laws 1915) providing for the re-assessment of railroad companies so as to include certain docks and elevators omitted from prior valuations and for the distribution of the taxes collected from such docks and elevators to the cities, towns and villages in which they are located.]

DEBT LIMITATION.—The constitutional provision of Wisconsin restricting debt-making are very rigorous, plain and comprehensive. Since the amendment adopted in 1874, debts of cities, &c., as well as the State, are definitely limited by that instrument. We give the provisions first which relate to the State and, after, those which have reference to cities, &c.

(1) *STATE indebtedness is confined within very close bounds.* The sections which cover the subject are Sections 3, 4, 6, 7, 9 and 10 of Article 8. We give them in full below.

SECTION 3. *Credit of State, for what not given.* The credit of the State shall never be given or loaned in aid of any individual, association or corporation.

SECTION 4. *Contracting Debts.* The State shall never contract any public debt, except in the cases and manner herein provided.

SECTION 6. *Limitation on Public Debt.* For the purpose of defraying extraordinary expenditures, the State may contract public debts (but such debts shall never in the aggregate exceed $100,000). Every such debt shall be authorized by law, for some purpose or purposes to be distinctly specified therein; and the vote of a majority of all the members elected to each House to be taken by yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt, and the principal within five years from the passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest, and such appropriation shall not be repealed, nor the taxes be postponed, or diminished, until the principal and interest of such debt shall have been wholly paid.

SECTION 7. *State may borrow money, when.* The Legislature may also borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized or to the payment of the debt thereby created.

SECTION 9. *Evidences of debt.* No scrip, certificate or other evidence of State debt whatsoever shall be issued, except for such debts as are authorized by the sixth and seventh sections of this article.

SECTION 10. *Internal improvements—avails of grants.* The State shall never contract any debt for works of internal improvement or be a party in carrying on such works; but whenever grants of land or other property shall have been made to the State especially dedicated by the grant to particular works of internal improvement, the State may carry on such particular works and shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion. Provided that the State may appropriate moneys for the purpose of acquiring, preserving and developing the water power and forests of the State; but there shall not be appropriated under the authority of this section in any one year an amount to exceed two tenths of one mill of the taxable property of the State as determined by the last preceding State assessment.

(2) *CITIES, counties, towns, villages, &c.*, were unrestricted except by legislative enactment until 1874. Since that amendment was adopted 5% on the value of the taxable property has been the extreme amount of debt permissible for any municipality. Not only is that the case, but, as will be seen, the municipality is required before, or at the time when it incurs any indebtedness, to make provision for (or according to decisions of the State Supreme Court) *levy*, an annual tax sufficient to pay the interest and also sufficient to pay the principal within twenty years from the time of contracting the debt. The voters in Nov. 1912 adopted an amendment to Section 3 of Article XI. extending the time to fifty years within which cities or counties having a population of 150,000 or over shall pay debts incurred for the acquisition of land. The section referred to now reads as follows:

Section 3, Article XI.—"It shall be the duty of the Legislature, and they are hereby empowered to provide for the organization of cities and incorporated villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent abuses in assessments and taxation, and in contracting debts by such municipal corporations."

"No county, city, town, village, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose, to any amount, including existing indebtedness in the aggregate exceeding 5% on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, town, village, school district or other municipal corporation incurring any indebtedness as aforesaid shall, before or at the time of doing so provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same, except that when such indebtedness is incurred in the acquisition of lands by cities, or by counties having a population of one hundred and fifty thousand or over, for public, municipal purposes or for the permanent improvement thereof, the city or county incurring the same shall, before or at the time of so doing, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within a period not exceeding fifty years from the time of contracting the same."

The Legislature has from time to time passed laws providing for the issuance of bonds for various specified purposes, but these laws are too numerous to be given here. *Such authority is of course subject to the foregoing provisions of the constitution.*

At its 1917 session the Legislature passed an Act (Chapter 18, approved March 20) relative to the validity of bonds issued by cities for any purpose, and providing that: "If the electors of any city, prior to the passage of this Act, shall have voted in favor of issuing bonds for any purpose or purposes, and the vote on such bonds shall be invalid by reason of the failure or neglect of the city to print on the ballot by which the proposition of issuing said bonds was submitted to the electors a statement of the amount of bonds theretofore issued by such city for said purpose or purposes and then outstanding, as required by Section 943e of the statutes, the Common Council of such city may, notwithstanding such failure or neglect, authorize the issuance of said bonds and when issued, they shall be valid, legal and binding, and of

the same force and effect as though said Section 943e of the statutes had been fully complied with." V. 104, p. 1308.

BONDS OF MUNICIPALITIES—WHETHER TAXABLE OR NOT.—By Chapter 516 of the Laws of Wisconsin for 1911, bonds issued by Wisconsin municipalities were made exempt from taxation within the State. V. 93, p. 607. Under date of April 7 1919, however, we were informed in a letter from John H. Leenhouts, Assessor of Incomes, that "under the Wisconsin law all intangible securities were exempt from local assessment as personal property, but in lieu of this exemption the income from such securities is taxable to the recipient. The only bonds or securities which are exempt under our law to-day are the issues of the Federal Government, such as Liberty Loan bonds, and bonds issued under the Federal Farm Loan Act." V. 108, p. 1533.

SAVINGS BANK INVESTMENTS, &c.—DEPOSITS—HOW INVESTED.—The provisions regulating the investments of deposits of any mutual savings bank are contained in Sections 2024, par. 68; 2024, par. 69, and 2024, par. 138, of the Banking Law of Wisconsin, revision of 1915. Section 2024, par. 68, was amended in 1917 so as to permit investments in Federal Farm Loan bonds. The three sections referred to are given in full herewith:

Deposits, how invested.—Sec. 2024, par. 68. Any mutual savings bank organized hereunder may employ not exceeding one-half of its deposits in the purchase of the bonds of the United States or of the States of the United States or of the authorized bonds of any incorporated city, village, town or county, or school district in the aforesaid States of the United States or of first mortgage bond of any railroad company, which has paid annual dividends of not less than 4% regularly on its entire capital stock for a period of at least five years next preceding the investment, and in the consolidated mortgage bonds of any such company issued to retire the entire bonded debt of such company, or in farm loan bonds issued by the Federal Land Bank in the Federal Land Bank District of which the State of Wisconsin is a part in accordance with the provisions of an Act of Congress approved July 17 1916. All other loans, except as provided in section 2024, par. 69, shall be secured by mortgage on unencumbered real estate lying and being in the State of Wisconsin and States immediately adjoining the State of Wisconsin, to wit: Michigan, Illinois, Iowa and Minnesota. No mutual savings bank shall invest any part of its deposits in the stock of any corporation nor loan on, nor invest in any mortgage on real estate, except such real estate as lies in the State of Wisconsin and States immediately adjoining, to wit: Michigan, Illinois, Iowa and Minnesota. No loan shall be made upon real estate to any amount exceeding 60% of the value thereof as determined upon by not less than a majority of the members of the finance committee, who shall duly certify to the value of the premises to be mortgaged, according to the best of their judgment, and such report shall be filed and preserved with the records of the corporation.

Collateral security required. Sec. 2024, par. 69. No such mutual savings bank shall loan any money upon any obligation on which only one person or firm shall be holden, unless the same be secured by collateral in which the bank might invest its funds or on which it might loan its money to the extent authorized by the preceding section.

Legal investment. Sec. 2024, par. 138. The bonds of a land mortgage association shall be a legal investment for savings associations, trust companies or other financial institutions chartered under the laws of this State, and shall also be a legal investment for trustees, executors, administrators, or custodians of public or private funds, or corporations, partnerships or associations. Whenever the taxes upon the real estate subject to the mortgages pledged as security for any bonds of any land mortgagee association shall be payable by either the mortgagee or the mortgagor then such bonds shall be exempt from further taxation in the hands of their holders.

POPULATION of Wisconsin has been as follows:

1920	2,632,067	1890	1,693,330	1860	775,881

Treasurer (1st Monday Jan. 1923)----------Henry Rines
Auditor (1st Monday Jan. 1923)----------Ray P. Chase
Attorney-General ----------Clifford L. Hilton

LEGISLATURE meets biennially in odd years on the Tuesday after the first Monday in January, and sessions are limited to ninety days.

STATE DEBT.—For the early history of Minnesota's debt see "State and City Supplement," April 1893, page 103. The State bonded debt is as follows:

Historical Soc. Bldg. bonds 1917 - 4½s F. & A. Aug. 1 1916-28 $125,000

The State also has outstanding certfs. of indebtedness authorized by the Legislature for various purposes. Many are held by the school and other State funds. They run only a few years. The certificate debt Jan. 1 1919 was as follows: $147,000 prison buildings; $29,000 educational buildings; $171,000 national guard armories; $75,000 Itaska Park and $500,000 Historical Society Building. Of the total ($1,624,000) $563,000 are held by State funds. $20,905,000 soldiers' bonus certificates of indebtedness were sold by the State during the latter part of 1919 and during the years 1920 and 1921. The following are the certificates outstanding:

	$330.000----Feb 1 1922			$$800.000---Feb 1 1926	
	495.000----Aug 1 1922			1,200.000--Aug 1 1926	
	330.000----Feb 1 1923			800.000---Feb 1 1927	
5s '20 F-A	495.000----Aug 1 1923			1,470.000--Aug 1 1927	
	330.000----Feb 1 1924		5s '20 F-A	800.000---Feb 1 1928	
	495.000----Aug 1 1924			1,650.000--Aug 1 1928	
	330.000----Feb 1 1925			985.000---Feb 1 1929	
	1200.000----Aug 1 1925			1,500.000--Aug 1 1929	
				1,000.000--Feb 1 1930	
5s '20 F-A	4,200,000 ----------				

Payment of the above certificates are all provided for by special tax levies.

INTEREST on all certificates is payable at State Treasurer's office.

PERMANENT TRUST FUNDS.—The school fund on June 30 1920 amounted to $30,920,032.97, including $273,825.98 in cash, $5,175,343.33 in land contracts and $25,472,863.66 in bonds. The permanent university fund on June 30 1920 amounted to $1,978,191, including $29,461.46 cash, $213,171.49 in land contracts and $1,735,558.05 in bonds; swamp land fund to $7,157,153.59, including $100,603.28 in cash, $2,977,428.31 in land contracts, $4,079,122 in bonds, and the internal improvement land fund to $373,270, including $2,833.26 in cash, $164,261.99 in land contracts, and $206,175.35 in bonds.

TAXABLE VALUATION.—The taxable valuation, total tax levied, and the rate of State tax have been as follows for the years named:

	Taxable Valuation			*Tot. Taxes*	*State tax*
	Real.	*Personal.*	*Total.*	*Levied.*	*per $1.000*
1920	$1,750,553,177	$333,733,802 x	$2,084,286,979	$115,391,096	$5.67
1919	1,473,792,290	300,815,074	x1,774,607,364	96,938,405	---
1918	1,481,544,677	268,636,274	x1,750,180,951	72,269,340	3.50
1915	1,284,150,906	207,813,642	x1,491,964,548	52,055,180	2.87
1914	1,273,974,156	201,025,452	1,475,999,608	47,637,141	3.52
1912	1,154,269,735	185,489,012	1,339,758,747	38,162,527	2.35
1910	1,013,542,817	181,419,495	1,194,962,312	33,373,921	1.47
1908	898,993,781	166,016,420	1,065,010,201	28,732,636	2.10
1905	708,304,220	144,729,315	853,033,535	22,355,326	1.80
1900	489,213,453	98,803,235	588,016,688	14,963,901	1.60
1895	556,135,887	85,114,394	641,250,281	14,770,864	1.80
1880	203,473,637	54,581,806	258,055,543	4,191,811	1.80
1870	67,221,348	19,957,909	87,179,257	2,619,764	5.00
1861	33,350,057	5,914,683	39,264,740	658,358	4.00

x This is exclusive of moneys and credits, which are assessed at their full cash value. These in 1910 amounted to $115,676,126; in 1912, these amounted to $156,252,274; in 1914 to $197,625,914; 1915, $213,078,632; 1918, $330,270,597; 1919, $358,112,619, and in 1920 these amounted to $443,092,864.

†**The total taxes levied in the above table include the amounts raised not only for State purposes, but also all taxes raised by the various minor divisions of the State. The tax rate, however, is for State purposes, and in 1915 it was $2.87; adding the tax of $1.23 for school and university purposes, the total tax rate was $4.10.**

ASSESSMENTS NOW MADE ON NEW BASIS.—The Legislature in 1913 passed a new law, known as Chapter 483, General Laws, 1913, under which the county assessor assesses platted real estate at 40% of its full value and unplatted at 33 1-3%, where previously it was customary to assess real property at 60% of its full valuation and any improvement thereon at 50%. The personal property under this new law is now being assessed at 33 1-3% and 25% of its full valuation, where formerly about 50% was assessed.

DEBT LIMITATION.—Minnesota has sought to protect the State from excessive debt issues through restrictions in its Constitution, but the action of the State Legislature in 1919 and 1921 in authorizing $20.000.000 Soldiers' Bonus Certificates and the upholding of the law by the State Supreme Court "Chronicle" Dec. 27 1919, page 2456) shows that the restrictions are not as broad as had been supposed. The Constitution fixes the limit of debt at $250,000 "for the purpose of defraying extraordinary expenditures"; and and amendment, ratified in 1877, extended this power to $250.000 additional "for erecting and completing buildings for the insane, a deaf, dumb and blind asylum and State prison." On Nov. 2 1920 the voters approved another amendment, providing for the creation of a State highway system and authorizing the issuance of $10 000,000 bonds per year for that purpose, to a grand aggregate of $75 000,000. Besides the foregoing, it is also provided that the State credit shall not be loaned, &c. With regard to the debt of municipalities there is but one section in the Constitution which relates to that subject, and that has reference to making railroad debt.

FIRST, as to State indebtedness, **the sections which treat of the subject are in article 9, sections 5, 6, 7, 8 and 14.**

SECTION 5.—*(Public Debt May Be Contracted.)*—**For the purpose of defraying extraordinary expenditures, the State may contract public debts, but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars; every such debt shall be authorized by law for some single object, to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the Legislature, to be recorded by the yeas and nays on**

the journals of each House, respectively; and every such law shall levy a tax annually sufficient to pay the annual interest on such debt, and also a tax sufficient to pay the principal of such debt within ten years from the final passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriations and taxes shall not be repealed, postponed, or diminished until the principal and interest of such debt shall have been wholly paid. The State shall never contract any debts for works of internal improvements, or be a party in carrying on such works, except in cases where grants of land or other property shall have been made to the State, especially dedicated by the grant to specific purposes, and in such cases the State shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

SECTION 6.—(*Bonds for Public Debt.*)—All debts authorized by the preceding section shall be contracted by loan on State bonds of amounts not less than five hundred dollars each on interest, payable within ten years after the final passage of the law authorizing such debt; and such bonds shall not be sold by the State under par. A correct registry of all such bonds shall be kept by the Treasurer, in numerical order, so as always to exhibit the number and amount unpaid, and to whom severally made payable.

SECTION 7.—The State shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided in the fifth and sixth sections of this article.

SECTION 8.—(*Application of Loans.*)—The money arising from any loan made, or debt or liability contracted, shall be applied to the object specified in the Act authorizing such debt or liability, or to the repayment of such debt or liability, and to no other purpose whatever.

SECTION 14.—(*Public Debt for State Buildings.*)—For the purpose of erecting and completing buildings for a hospital for the insane, a deaf, dumb and blind asylum, and State prison, the Legislature may, by law, increase the public debt of the State, to an amount not exceeding two hundred and fifty thousand dollars, in addition to the public debt already heretofore authorized by the constitution, and for that purpose may provide by law for issuing and negotiating the bonds of the State, and appropriate the money only for the purpose aforesaid, which bonds shall be payable in not less than ten nor more than thirty years from the date of the same, at the option of the State.

Article 16.

SECTION 1. There is hereby created and established a trunk highway system, which shall be located, constructed, reconstructed, improved and forever maintained as public highways by the State of Minnesota. The said highways shall extend as nearly as may be along the following described routes, the more specific and definite location of which shall be fixed and determined by such boards, officers or tribunals, and in such manner, as shall be prescribed by law, but in fixing such specific and definite route, there shall not be any deviation from these starting points or terminals set forth in this bill, nor shall there be any deviation in fixing such routes from the various villages and cities named herein, through which such routes are to pass.

SECTION 4. The Legislature may provide by law for the issue and sale of the bonds of the State in such amount as may be necessary to carry out the provisions of Section 1 of this article; provided, however, that the amount of bonds which may be issued in any one calendar year shall not exceed, in the aggregate, ten million dollars, par value, and provided, further, the total amount of such bonds issued and unpaid shall not at any time exceed seventy-five million dollars, par value. The proceeds of the sale of such bonds shall be paid into the treasury of the State and credited to the trunk highway fund. Any bonds so issued and sold shall be for a term not exceeding twenty (20) years. They shall not be sold for less than par and accrued interest and shall not bear interest at a greater rate than five per cent per annum. In case the trunk highway sinking fund shall not be adequate to meet the payment of the principal and interest of the bonds authorized by the Legislature as hereinbefore provided, the Legislature may provide by law for the taxation of all taxable property of the State in an amount sufficient to meet the deficiency, or it may, in its discretion, appropriate to such sinking fund moneys in the State treasury not otherwise appropriated.

SECTION 5. Any and all provisions of the Constitution of the State of Minnesota inconsistent with the provisions of this article are hereby repealed, so far, but only so far, as the same prohibit or limit the power of the Legislature to enact laws authorizing or permitting the doing of the things hereinbefore authorized.

SECOND, as to city, county or other municipality, **the only restriction on the debt-making power in the constitution is the following, found in article 9, section 15:**

SECTION 15.—(*Municipal Debts in Aid of Railroads.*)—The Legislature shall not authorize any county, township, city or other municipal corporation to issue bonds, or to become indebted in any manner, to aid in the construction or equipment of any or all railroads to an amount that shall exceed five per centum of the value of the taxable property within such county, township, city, or other municipal corporation; the amount of such taxable property to be ascertained and determined by the last assessment of said property made, for the purpose of State and county taxation, previous to the incurring of such indebtedness.

The foregoing was adopted as an amendment in 1879. Before its adoption the section read so as to authorize municipal corporations to issue bonds in aid of railroads to *ten per cent* of valuation. Hence the amendment consisted in simply changing the word *ten* and making it *five*.

This is all the constitution contains with reference to the debts of municipalities.

The Legislature, however, has made some general provisions governing bond issues which are contained in Sections 1851, 1862, 1903, 1907 and 1932 of the General Statutes, 1913.

Section 1851 provides that "no city of the first class shall hereafter incur or be subject to a net indebtedness in excess of 5% of its assessed value, nor shall any other municipal corporation except school districts become so indebted beyond 10% of such value." It is provided also "that if the net indebtedness of any municipality, at the time when the Revised Laws take effect, shall exceed the limit herein fixed, or if any village thereafter organized as a city under a home rule charter shall be subject to such excess when so organized, either may issue and sell new bonds sufficient in amount to refund all or any part of such existing indebtedness, but the same shall not thereby be increased."

Section 1862 relating to independent school districts situated wholly or in part within any city having a population of more than 50,000, states that "no such school district shall have power to issue bonds or any evidences of indebtedness running more than two years, whenever the aggregate of the outstanding bonds and evidences of indebtedness of such district equals or exceeds 3½% of the assessed value of all taxable property within such school district."

Section 1903 refers to cities having a population of 20,000 or less and provides that bonds may be issued for such purposes as permanent improvement, bridge, shipping terminal, water and light, city hospital, school and general fund, but stipulates that "none of such bonds above described shall be issued whereby the aggregate bonded indebtedness of the city, excluding any funds, bonds or balances held in a sinking fund, shall be made to exceed 10% of the assessed valuation of the taxable property within the city, provided, however, for the purpose of determining the limitation bonds issued for the purpose of acquiring, constructing improving, operating or purchasing water power or lighting plants shall not be included."

No bonds authorized by this Act shall be issued by any city, until the issuance thereof shall have been first authorized by a three-fifths vote of the legal voters of the city voting upon the question, and the question of the issuance of such bonds shall be submitted to the electors of the city proposing to issue the same at a general or special election.

Cities having more than 10,000 and not more than 20,000 inhabitants, in addition to all the powers now possessed by such city, are authorized by Section 1906 to issue bonds for local improvements not exceeding $25,000, and according to Section 1907 "the bonds authorized by Section 1 of this Act (Section 1906) or any portion thereof, may be issued and sold by any such city notwithstanding any limitation contained in the charter of such city or in any law of this State, prescribing or fixing any limit upon the bonded indebtedness of such city, but the full faith and credit of any such city shall at all times be pledged for the payment of any bonds issued under this Act and for the current interest thereon, and the city council and common council of such city shall each year include in the tax levy for such city a sufficient amount to provide for the payment of such interest and for the accumulation of a sinking fund for the redemption of such bonds at their maturity."

Section 1932 provides that villages in Minnesota having a floating indebtedness may issue bonds for the purpose of refunding the same; but no such bonds shall be issued, or sold which, with bonds already issued shall exceed 15% of the assessed valuation of real estate of said village.

SOLDIERS' BONUS CERTIFICATES.—The Legislature passed an Act in 1919 creating a Soldiers' Bonus Board and authorizing the "Board to issue certificates of indebtedness in the aggregate amount not to exceed $20,000,000 at not less than par and not more than 5% interest. The State Supreme Court on Dec. 19 1919 sustained the decision of the Hennepin County District Court, which on Nov. 5 1919 held that the Soldiers' Bonus Law was valid. See "Chronicle" Dec. 27 1919, page 2456.) Owing to the inability of the "Board" to sell all of the certificates at par the 1921 Legislature passed an Act permitting the sale of the remainder ($4,538,000) below their face value. Another Act passed in 1921 provided an additional million of bonus certificates. Up to March 11 1921 $20,985,000 of these certificates were sold.

HIGHWAY BONDS.—The voters of Minnesota on Nov. 2 1920 approved the proposed amendment to the Minnesota Constitution for the creation of a State highway system. Provision is made in Section 4 of the article for the issuance of bonds not to exceed $10,000,000 in any one year, such bonds, issued and unpaid, not at any time to exceed $75,000,000 par value.

COUNTY DITCH BONDS. THEIR SECURITY AND METHOD OF ISSUANCE.—For illustration of method of issuing ditch bonds and the security back of them, see "Chronicle" of Oct. 30 1915, page 1490.

DRAINAGE BONDS DIRECT OBLIGATIONS OF COUNTY.—The State Supreme Court holds that drainage bonds issued under Sec. 18, Chapter 230, of the general laws of 1905 as amended, are direct and general obligations of the county issuing the same. V. 94, p. 365.

SUPREME COURT RULING AFFECTING SCHOOL BONDS.—The State Supreme Court on Dec. 28 1917 ruled that bond issues for the erection of new school buildings must be initiated with the passage of resolutions by boards of education under Minnesota laws, otherwise a vote of a school district to that end is ineffective. V. 106, p. 205.

MORTGAGE TAX LAW.—The Legislature of 1907 enacted a law which became effective April 30 1907, imposing a tax of 50 cents upon each hundred dollars of the principal debt, secured by any mortgage of real property located within the State, recorded or registered on or after April 30 1907. The text of this law was given on page 1194 of the "Chronicle" of May 18 1907. This law was amended in 1913, reducing the tax to 25 cents and now is only 15 cents on mortgages running for no longer than five years and sixty days. The law (with further changes in 1917 and 1921) now reads as follows:

"Sec. 2302. A tax of 15 cents is hereby imposed upon each hundred dollars, or fraction thereof, of the principal debt or obligation which is, or in any contingency may be, secured by any mortgage of real property situate within the State executed and delivered after the passage and approval hereof and recorded or registered hereafter; provided that any such mortgage heretofore executed and delivered shall not be recorded or registered without payment of the tax originally stipulated in section 2 hereof as originally enacted; provided further, that if any such mortgage shall describe any real estate situate outside of this State, such tax shall be imposed upon such proportion of the whole debt secured thereby as the value of the real estate therein described situate in this State bears to the value of the whole of the real estate described therein, as such value shall be determined by the State Auditor upon application of the mortgagee; and provided further, that if the maturity of any portion of said debt secured by the said mortgage, as therein stipulated, shall be fixed at a date more than five years and sixty days after the date of said mortgage, then and in that case the tax to be paid on such portion shall be at the rate of 25 cents on each hundred dollars or fraction thereof."

TAXATION OF MONEY AND CREDITS.—In 1911 the Legislature passed a bill (Chapter 285) levying a tax of 3 mills on each dollar of the "fair cash value" of "money" and "credits" as the same were defined in Sec. 798, General Statutes of 1905, now Sec. 1975, General Statutes of 1913. It is provided, however, that nothing in the Act shall apply to money or credits belonging to any incorporated bank in Minnesota nor to any debt on which the tax is paid under Chap. 328, Gen. Laws of 1907 (mortgage tax law, referred to above) Section 1975 of the General Statutes defines moneys and credits as follows:

1. "Money" or "moneys" shall mean gold and silver coin, treasury notes, bank notes, and other forms of currency in common use, and every deposit which any person owning he same, or holding in trust and resid ng in this State, is entitled to withdraw in money on demand.

2. "Credits" shall mean and include every claim and demand for money or other valuable thing, and every annuity or sum of money receivable at stated periods, due or to become due, and all claims and demands secured by deed or mortgage, due to or become due.

SAVINGS BANK INVESTMENTS.—The law relating to the investment of savings banks in the State of Minnesota is contained in Section 6393 of the General Statutes of 1913. This section was amended in 1917 so as to provide that investments may be made in Federal Farm Loan bonds and in 1919 so as to allow of the purchase of bankers' acceptances. Section 6393 now reads:

Section 6393. The trustees of any savings bank shall invest the moneys deposited therein only as follows:

1. In the bonds or other interest-bearing obligations of the United States, or in securities for the payment of which and interest thereon the faith of the Government is pledged.

2. In the bonds of any State which has not defaulted in the payment of any bonded debt within 10 years prior to the making of such investment.

3. In the bonds of any county, city, town, village, school, drainage or other district created pursuant to law for public purposes in Minnesota, or in any warrant, order or interest-bearing obligation issued by this State, or by any city, city board, town or county therein, provided that the net indebtedness of any such municipality or district, as net indebtedness is defined by Revised Laws 1905, Section 777 (1848), and its amendments, shall not exceed 10% of its assessed valuation, or in the bonds of any county, city, town, village, school, drainage or other district created pursuant to law for public purposes, in Iowa, Wisconsin and North and South Dakota, or in the bonds of any city, county, town, village, school district, drainage or other district created pursuant to law for public purposes, in the United States, containing at least 3,500 inhabitants; provided that the total bonded indebtedness of any such municipality or district shall not exceed 10% of its assessed valuation.

4. In notes or bonds secured by mortgages or trust deeds on unencumbered real estate in Minnesota, Wisconsin, Iowa, North Dakota, South Dakota and Montana worth when improved at least twice and when unimproved at least three times the amount loaned thereon. But not more than 70% of the whole amount of the moneys of the bank shall be so loaned and such investment shall be made only on report of a committee directed to investigate the same and report its value, according to the judgment of its members, and its report shall be preserved among the bank's records.

5. In notes secured by such bonds or mortgages, as the bank under this section is authorized to invest in, but no such bond or mortgage shall be taken as collateral security for more than its par value, nor shall the aggregate amount of securities taken be less than the full amount loaned thereon, and no such loan shall be made for a longer time than one year, nor to a greater amount to any one person than 3% of the total deposits of the bank. No such bank shall loan in the aggregate, on the security specified in this paragraph, more than ¼ of its deposits.

6. In the bonds of any railroad company, or the successor of any railroad company, which has received a land grant from the Government and whose bonds are secured by first lien upon its railroad.

7. In the bonds of any other railroad company, which are secured by first lien upon a railroad within the United States, or in the mortgage bonds of any such company, of an issue to retire all prior mortgage indebtedness thereof, or in the bonds of any railroad company in the United States which are guaranteed or assumed by another railroad company within the United States; provided, that the railroad company, except one whose bonds are so guaranteed or assumed, either issuing, guaranteeing, or assuming any of such bonds, has not within five years prior to such investment failed in the payment of a dividend upon its entire capital stock outstanding of not less than 4% per annum each fiscal year, and has not within such time defaulted in the payment of any part of the principal or interest of any debt incurred by it and secured by trust deed or mortgage upon its road or any part thereof, or in the payment of any part of the principal or interest of any bonds guaranteed or assumed by it. But no such bank shall loan upon or invest in railroad bonds to an amount exceeding in the aggregate 20% of its deposits, nor exceeding 5% of its deposits in the bonds issued, guaranteed or assumed by any one railroad company.

8. In the debenture stock of any railroad company owning and operating a line of road in whole or in part within the State, provided that such stock shall bear interest at the rate of at least 4% per annum, and shall be secured by trust deed as a first lien upon such line of railway, and that not more than 5% of its deposits shall be invested in such stock.

9. In farm loan bonds issued by the Federal Land Bank in the Federal Land Bank District of which the State of Minnesota is a part, in accordance with the provisions of an Act of Congress of the United States of July 17 1916, known and designated as "The Federal Farm Loan Act."

10. In bankers' acceptances of the kind and character following:

a. Bankers' acceptances of the kind and maturities made eligible by law for rediscount with or purchase by Federal Reserve bank, providing the same are accepted or endorsed by a bank or trust company incorporated under the laws of this State; or, by any bank or trust company in the United States which is a member of the Federal Reserve System.

b. Not more than 20% of the assets of any savings bank shall be invested in such acceptances. Nor more than 7% of the aggregate amount credited to the depositors of any savings bank shall be invested in the acceptances of or deposited with a trust and banking company or with a national bank of which a trustee of such savings bank is a director.

The term "authorized securities" whenever used in the Revised Law shall be understood as referring to the securities specified in this section.

BONDS TAX-FREE.—The 1911 Legislature passed a bill exempting all future State, county, school and municipal bonds from tax. V.92,p.1263.

INT. is payable at the United States Mtge. & Trust Co. N. Y. City.

	Sept. 25'19.	Nov. 1'21.
	$	$
Bond. debt	30,827,756	39,382,526
Sinking funds	2,532,470	2,313,555
Net debt	28,295,286	37,068,971
Water dt. incl.	2,100,000	1,750,000

The bonded debt as given above includes the new City Hall and Court-House certificates, for the payment of which a special tax is levied each year. These on Nov. 1 1921 amounted to $400,000.
There was also included in the bonded debt for Nov. 1 1921 serial street improvement bonds amounting to $7,438,325.96
SINKING FUND.—It is provided by the city's charter that in addition to raising a tax sufficient to pay the interest on all its bonds, the city shall levy a tax of one mill on each dollar of the assessed valuation to provide for the principal of the bonds when due. The maintenance of this sinking fund for the payment of the principal of the bonds is "declared to be part of the contract with the holder of any bonds of the city that may hereafter be issued and shall be kept inviolate." In accordance with this provision there was raised by taxation for the sinking fund in 1920 (to be collected in 1921) $784,500. The sinking fund is largely invested in city bonds.
The city of Minneapolis is restricted in its debt-making power to 5% of the assessed valuation after deducting the sinking fund from the debt; but debt created for waterworks shall be considered outside of the 5% limit, and also an additional 5% debt may be created for certain purposes, provided the same be authorized by a two-thirds vote of the people.
WATER RECEIPTS.—The revenue from water rents, &c., in 1920 was $738,403.58; current expenses for water works in 1920 was $481,874.13.
VALUATION AND TAX RATE.—The city's assessed valuation and tax rate have been:

Years—	Tax Valuation.	Tax Rate per $1,000
Dec. 31 1921	$261,486,000	$64.35
Dec. 31 1920	262,335,341	61.86
Dec. 31 1919	227,033,695	64.40
Dec. 31 1918	222,940,924	45.91
Dec. 31 1917	216,061,339	48.48
Dec. 31 1916	206,493,563	39.43
Dec. 31 1915	201,434,378	39.36
Dec. 31 1914	196,303,280	35.77
Dec. 31 1912	213,398,439	32.19
Dec. 31 1905	138,690,490	29.75
Dec. 31 1900	99,492,054	27.40
Dec. 31 1890	136,944,372	19.30
Dec. 31 1885	77,468,267	19.60
Dec. 31 1879	23,415,733	14.50

For 1921 valuation of real estate (40% actual) was $209,013,220, and of personal property (25, 33⅓ and 40% actual), $53,322,121. In addition to these the valuation of moneys and credits in 1921, which are assessed at full value, was $98,884,795.
The tax rate for 1921 on which taxes are collected for the year 1922 was $64.35, and includes city tax $53.40; State tax, $4.20; county tax $6.77, and aver. ward fund tax, $2.21.
POPULATION.—In 1920 (Census), 380,582; in 1910 (Census), 301,408; in 1900 (Census), 202,718 in 1890, 164,738.

Special assessment bonds (revolving fund)..... 1,900,000
Special assess. certificates..... 1,591,316
Tax-levy ctfs. of indebt.. 673,600
Total city debt..... $18,791,016
Deductions—
Water bonds..... $2,457,000
Tax-levy certificates..... 673,600
Sk. fds., cash & securities 429,475
Net indebtedness..... $11,936,625
Debt limit on Sept 1 1921 was..... $23,382,966

INT. on special assess. bonds paid and bonds redeemed out of assessment collections. The tax-levy certificates are issued in anticipation of the taxes for the year in which they bear date, and are a first lien against the taxes for that year. The charter limits the amount to 80% of the tax levy. (See "Chronicle," V. 63, p. 847.)

The local improvement certificates are issued against deferred installments of local-improvement assessments and are a first lien upon the collections from said assessments. The general credit of the city is pledged to pay all deficiencies in case the collections are insufficient to pay the certificates in full.

CITY PROPERTY.—The waterworks owned by St. Paul are self-sustaining and cost $8,000,000. The value of all property owned by the city, including the water works, Dec. 1 1921, was estimated at $30,000,000.

ASSESSED VALUATION (40% of actual value):

	1920.	1921.
	$	$
Real estate	113,760,625	116,850,800
Personal	39,809,546	34,300,200
Total	153,570,171	151,151,000

§ In addition to the total assessed valuation figures given for 1921, there is also $82,678,660 which represents the valuation placed on money and credits in accordance with a new method of taxation adopted by the Legislature.

Treasurer (2d day Jan. 1923).....Wm. J. Burbank
Auditor (2d day Jan. 1923).....Glenn C. Haynes
Attorney-General.....Ben J. Gibson

Under the "biennial election" amendment adopted in 1904, the General Assembly meets biennially in odd years on the second Monday in January. There is no limit to length of session.

HISTORY OF DEBT.—For the early history of Iowa's debt see "State and City Supplement" of April 1893, page 108.

FINANCIAL CONDITION.—Iowa has no bonded debt. On June 30 1921 there were $1,037,703.96 warrants outstanding and the State had cash in the general revenue fund amounting to $5,662,288.24. The Permanent School Fund on June 30 1921 aggregated $4,818,734.21.

During 1913, 1914, 1915 and 1916 up to 1921 the State issued and disposed of $1,085,000 5% certificates, the proceeds of which have been applied to the extension of the capitol grounds. Up to June 30 1921 $750,000 of these certificates had been redeemed, leaving $335,000 outstanding on that date.

SOLDIERS' BONUS PROPOSED.—The 1921 Legislature passed an Act authorizing the State to become indebted in the amount of $22,000,000 and providing for the issue and sale of soldiers' bonus bonds for that amount. This proposition will be submitted to the voters of the State in November 1922. (V. 112, p. 1779.)

EQUALIZED VALUATION.—The equalized assessed valuation (¼ appraised value) has been as follows in the years named:

	Lands & Town Lots.	*Personal Property.*	*Railroads.*	*Express, Teleph. & Teleg. Cos.*	*Total.*
1920	$856 832 462	$158 071 185	$81,196,454	$7 249 895	$1107 349 996

1906	454,347,436	114,097,752	63,144,987	2,640,995	634,231,170
1905	452,353,218	108,666,055	58,888,776	2,408,133	622,316,182
1902	410,189,783	109,168,678	51,570,242	1,911,688	572,840,391
1900	393,250,888	98,856,185	46,194,727	1,451,959	539,753,759
1890	374,753,112	105,543,264	42,909,608	663,874	523,862,858
1880	303,381,498	82,638,655	23,64c,161	152,706	409,819,020

The value of moneys and credits amounting to $627,587,503 are not included in the valuation figures for 1920, as they are now taxed as a separate item at a flat rate of 5 mills on the dollar of actual value. See following item.

TAXATION OF MONEYS AND CREDITS.—The Legislature in 1911 passed an Act (Chapter 53) requiring that moneys and credits be taxed at full value with a flat levy of 5 mills. Previously moneys and credits were assessed at full value and taxed at 25% of this value the same as other property.

TAX RATE.—The State tax (per $1,000) for 1920 was $7.50; this included $7.35 general tax and 15 cents for Capitol Ground extension.

DEBT LIMITATION.—Iowa's Constitution restricts the creating of debt, both State and municipal debt.

FIRST, as to State debt, the limitation made is not absolute, for it permits other debt if authorized by some law for some single specified work. But this permission is very safely guarded—(1) the law must provide for the collection of a direct annual tax sufficient to pay the interest regularly and discharge the debt in twenty years; and (2) the law cannot take effect until it has been submitted to the people at a general election, and has received a majority of the votes cast. All the debt provisions relating to the State we give below:

ARTICLE 7 Section 1. [*Limitation of State indebtedness.*] The credit of the State shall not in any manner be given or loaned to, or in aid of, any individual, association or corporation; and the State shall never assume or become responsible for the debts or liabilities of any individual, association or corporation, unless incurred in time of war for the benefit of the State.

Section 2. [*Same.*] The State may contract debts to supply casual deficits or failures in revenues, or to meet expenses otherwise provided for; but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more Acts of the General Assembly or at different periods of time, shall never exceed the sum of $250,000; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

Section 4. [*For what other purposes State may contract debt.*] In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection or defend the State in war; but the money arising from the debts so contracted shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Section 5. [*Other debts to be authorized.*] Except the debts herein before specified in this article, no debt shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by some law for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within twenty years from the time of contracting thereof; but no such law shall take effect until at a general election it shall have been submitted to the people and have received a majority of all the votes cast for and against it at such election; and all money raised by authority of such law shall be applied only to the specific object therein stated, or to the payment of the debt created thereby; and such law shall be published in at least one newspaper in each county, if one is published therein, throughout the State for three months preceding the election at which it is submitted to the people.

ARTICLE VIII, Section 3. [*State not to be a stockholder.*] The State shall not become a stockholder in any corporation, nor shall it assume or pay the debt or liability of any corporation, unless incurred in time of war for the benefit of the State.

SECOND, as to municipal indebtedness, the limit is fixed absolutely in the Constitution. The provisions covering the subject are as follows:

ARTICLE VIII, Section 4. [*Corporation not to be a stockholder.*] No political or municipal corporation shall become a stockholder in any banking corporation, directly or indirectly.

ARTICLE XI, Section 3. [*To what amount county or other corporations may become indebted.*] No county or other political or municipal corporation shall be allowed to become indebted in any manner, or for any purpose, to an amount in the aggregate exceeding 5% on the value of the taxable property within such county or corporation—to be ascertained by the last State and county tax list previous to the incurring of such indebtedness. The Legislature, however, has fixed a lower limit, as stated below.

The above (Section 3, Article XI) covers cities, counties, towns and every other kind of political or municipal corporation. The Supreme Court of Iowa has decided that even a school district is such a corporation and subject to same limit. The Legislature of 1900 passed a bill (Chapter 41, Laws of 1900) fixing the limit of indebtedness of counties or other political or municipal corporations at only 1¼% of the actual value of property therein as returned by the last tax list. This change was made because, under a revision of the Revenue Law which went into effect in 1898, property is now appraised for taxation on a much higher basis than formerly. In 1904 and again in 1906 the Act was amended, the important sections now reading as follows:

Section 1. That section thirteen hundred and six-b (1306-b) of the supplement to the code and chapter forty-three (43) of the Acts of the 30th General Assembly be and the same are hereby repealed, and the following enacted in lieu thereof:

"No county or other political or municipal corporation shall be allowed to become indebted in any manner or for any purpose to an amount exceeding in the aggregate the amount of one and one-fourth per centum of the actual value of the taxable property within such county or corporation, except that cities and incorporated towns may, for the purpose of purchasing, erecting or maintaining and operating waterworks, electric light and power plants, gas works and heating plants, or of building and constructing sewers, incur an indebtedness not exceeding in the aggregate, added to all other indebtedness, five per centum of the actual value of the taxable property within such city or incorporated town. The amount of such taxable property shall be ascertained by the last State and county tax list previous to the incurring of such indebtedness.

Section 2. Provided that before such indebtedness can be contracted in excess of one and one-quarter per centum of the actual value of the taxable property ascertained as above provided in this Act, a petition signed by a majority of the qualified electors of such city or town shall be filed with the Council of such city or town, asking that an election shall be called, stating the purposes for which the money is to be used and that the necessary waterworks, electric light and power plants, gas works heating plants or sewers, cannot be purchased, erected, built or furnished within the limit of one and one-quarter per centum of the valuation. And provided that in cities having a population of more than ten thousand, the petition need not be signed by more than two hundred qualified electors.

Sections 3, 4, 5 and 6 prescribe manner of holding elections, issuance of bonds, &c.

In 1904 an Act passed the Legislature, approved Mar. 30, 1904, which permits independent school districts containing or contained in any incorporated town or city of the second class of 3,000, or less, population to become indebted for the purpose of building and furnishing school houses and procuring sites, to an amount not exceeding 2½% of the actual value of taxable property. It is provided, however, that any excess above the 1¼% limit must be authorized by a vote of the people. See V. 78, p. 1408.

The 1913 Legislature passed an Act authorizing cities of the first-class to issue flood protection bonds up to 5% of the actual value of the taxable property as shown by the last preceding assessment roll. This Act is to be construed as granting additional power without limiting the power already existing in cities of the first class, including cities acting under the commission plan of government. See V. 96, p. 1241.

The Supreme Court of Iowa has held that city bonds payable from a specific fund provided for by a tax levy, and not from the general revenue of the city, are not to be considered as debts within the meaning of the constitutional provision. (Swanson vs. Ottumwa, 118 Iowa, 161). The court has also held that State bonds payable from a like tax levy rather than from the general funds of the State are not State debts within the meaning of the constitutional provision. (Rowley vs. Clark, 162 Iowa, 132.)

A constitutional amendment was adopted by the voters in November 1908 providing for an additional section to Article I to be known as Section 18, and providing for the construction of drains, ditches and levees, as well as the organization of drainage districts. V. 87, p. 1556.

DECISION REGARDING DEBT LIMIT.—Judge Smith McPherson of the U. S. Circuit Court on Oct. 22 1909, in a case involving the right of the City of Council Bluffs to issue bonds for a municipal water system, sustained the city's contention that it could issue bonds up to 5% of the *actual* value of the property of the city and was not limited to 5% of the *taxable* value. Judge McPherson construed "taxable" to mean the actual value of property subject to taxation, and not the assessed value, which, by the State code, is fixed at only 25% of the actual value. In taking this position Judge McPherson referred to the opinion of the State Supreme Court handed down in 1905, in the case of Halsey vs. City of Belle Plaine (128 Iowa 467), which, he said, puts at rest the question raised. V. 89, p. 1176.

OPINION REGARDING MUNICIPAL IMPROV'T BONDS.—The Department of Justice in Nov. 1911 rendered an opinion to the effect that municipal improvement bonds or certificates issued in anticipation of the collection of taxes need not be considered in determining the constitutional limit of indebtedness as fixed by Section 74-v of the Supplement to the Code, 1907. V. 94, p. 385.

BONDS TAX FREE.—The 1909 Legislature passed an Act providing for the exemption from taxation of municipal, school and drainage bonds or certificates hereafter issued. It is expressly provided, however, that banks or trust companies holding such bonds or certificates shall not be permitted to make any deduction from the assessment of their shares by reason of that fact. V. 88, p. 1329.

SAVINGS BANKS' INVESTMENTS.—Investments of funds of State and savings banks in Iowa are governed by Section 1850 of the Supplement to Code, 1913, as amended in 1917 and 1921, which reads as follows:

Sec. 1850. *Investment of funds.* Each savings bank shall invest its funds or capital, all moneys deposited therein and all its gains and profits only as follows—

1. In bonds or interest-bearing notes or credits of the United States
2. In bonds or evidence of debts of this State, bearing interest;
3. In bonds or warrants of any city, town, county, school district, or drainage district of this State, issued pursuant to the authority of law; but not exceeding 25% of the assets of the bank shall consist of such bonds or warrants.
4. In notes or bonds secured by mortgage or deed of trust upon unencumbered real estate located in Iowa or upon unencumbered farm land in adjoining States, worth at least twice the amount loaned thereon; provided, however, that no such loan shall be made upon any real estate located west of the one-hundredth meridian line.
5. An amount not exceeding ten per cent 10%) of their capital stock and surplus in the capital stock of corporations chartered or incorporated under the provisions of Section Twenty-five-a (25-a) of the Federal Reserve Act, approved Dec. 24 1919, and a like amount in the capital stock of corporations organized under the laws of this State for the purpose of extending credit to those engaged in agriculture and to agricultural organizations, subject, however, to the approval of the Superintendent of Banking; provided that said investments by savings banks shall in no event exceed in the aggregate 20% of the capital stock and surplus of said bank.
6. It may discount, purchase, sell and make loans upon commercial paper, notes, bills of exchange, drafts, or any other personal or public security, but shall not purchase, hold or make loans upon the shares of its capital stock;
7. In all cases of loans upon real estate, all the expenses of searches examination and certificates of title, or the inspection of property and praisals of value, and of drawing, perfecting and recording papers, shall be paid by such borrowers; if buildings are included in the valuation of real estate upon which a loan shall be made, they shall be insured by the mortgagor for at least two-thirds of their value, in some solvent company, and the loss, if any, under the policy of insurance shall be made payable to the bank or it assigns, as its interests may appear. When the mortgagor may procure the same in the mortgagor's name for its benefit, and the premium so paid therefor shall be added to the mortgage debt

INVESTMENT OF TRUST FUNDS (*In What to Be Made*) was regulated by Section 364 of the Code of 1897, as amended by Laws of 1913. In 1921 this section was repealed and an Act known as Chapter 126, Laws of 1921, substituted, which we give in full below.

Chapter 126—*Investments—In What to Be Made.*—Where investments or funds are to be made, including those to be made by executors, administrators, trustees and guardians, and no mode of investment is pointed out by statute, they may under order of court be made in the bonds of this State, or of those of the United States, or Federal Farm Loan bonds issued under the provisions of the Act of Congress approved July 17 1916, or in bond or mortgage upon real property of the clear, unencumbered value of twice the investment or in bonds, issued by or under the direction of cities, towns, counties, school or drainage districts of this State.

Att'y-Gen'l (term expires Jan. 1925)..... Jesse W. Barrett

LEGISLATURE meets biennially in odd years on the first Wednesday after the first day of January, and there is no limit to length of sessions; but after the first seventy days members can draw only a dollar a day for their services, except every tenth year, when the statutes are revised, at which session members are allowed $5.00 per day for 120 days. A session of this kind was held in 1919.

The State of Missouri contains 114 counties and the City of St. Louis, the latter being a separate civil division subject to a dual government with a full set of both county and city officers.

HISTORY OF DEBT.—The interesting details of Missouri's eventful history in debt-making and debt-paying will be found on page 111 of the "State and City Supplement" for April 1893. The total debt, including accrued interest, &c., on Jan. 1 1865 was $36,094,908. The indebtedness of the State at present is as follows:

5s '18	J-J	6,000	July 1 1938		
Total Jan. 1 1921		$1,239,839			

INTEREST on the State Capitol refunding bonds is payable at State Treasurer's office or at Mercantile Trust Co., St. Louis; on the State school and seminary certificates at State Treasury.

TOTAL DEBT, &c.—On Jan. 1 1921 the total debt of the State was $5,898,839. The total cash held in the treasury to the credit of all of the State funds on Jan. 1 1921 amounted to $12,449,031. These school and seminary fund certificates are registered and are non-negotiable and non-transferable. They are held in trust by the State Board of Education for the benefit of the State Public School fund and the State Seminary University fund.

The voters on Nov. 2 1920 approved an issue of $60,000,000 highway bonds and $1,000,000 soldiers' settlement fund bonds.

ASSESSED VALUATION.—The State's assessed valuation for taxes (about one-fourth actual value) and tax rate have been as follows. This valuation does not include valuation of railroads, bridges, telephones and telegraphs, which amounted in 1920 to $232,985,952, or of machinery, tools, merchandise, &c., as taxed on "merchants and manufacturers' tax books," which amounted in 1920 to $225,508,897.

Years.	*Assessed Valuation.*	*Tax Rate per $1,000.*	*Years.*	*Assessed Valuation.*	*Tax Rate per $1,000*
1920	$2,478,579,709	$1.80	1910	$1,761,664,366	$1.70
1919	2,299,280,167	1.80	1908	1,377,360,692	1.70
1918	1,909,536,707	1.80	1904	1,153,152,419	1.70
1917	1,758,880,010	1.80	1902	1,046,469,144	2.50
1916	1,701,937,523	1.80	1900	1,001,766,464	2.50
1915	1,658,587,414	1.80	1895	938,202,003	2.50
1914	1,946,950,547	1.80	1890	805,668,844	3.00
1912	1,857,676,174	1.90	1880	532,692,043	4.00

The large increase in values for 1919 was due to an increase in valuations made by the State Board of Equalization for the benefit of the public schools of the State.

Of the tax rate per $1,000 for 1920 ($1 80) 10 cents was to pay interest on the school and seminary fund certificates, 20 cents for the State Capitol bonds and $1.50 for the support of the State Government. This latter includes the higher institutions of learning, the eleemosynary institutions and salaries, criminal costs and all other expenses of the State Government.

DEBT LIMITATION.—Missouri has made provision in its constitution restricting the creation of debt both on behalf of the State and of its municipalities. That part relating to the State is found in Article 4, Sections 44 44 (a), 45 and 46. These sections provide that the General Assembly cannot contract debts except (1) to renew existing bonds, (2) to meet an unforeseen emergency or casual deficiency. The State is prohibited from lending its credit to any person, association or corporation or to pledge its credit for the payment of liabilities of any individual, association or corporation.

An amendment to Section 44 of Article 4 voted on Nov. 2 1920 provides for the issuance of State bonds in an amount not to exceed $1,000,000 for a soldiers' settlement fund. Another amendment voted on Nov. 2 1920 (Section 44a) provides for the issue of $60,000,000 bonds for highway purposes.

The sections relating to the indebtedness of cities and other municipalities are found in Article 4, Section 47; Article 9, Section 6, and Article 10, Sections 12 and 12a. These sections make clear (1) that a municipality cannot loan its credit; (2) that it cannot subscribe to the capital stock of corporations; (3) that it cannot get into debt unless two-thirds of the voters voting at an election favor it, and then only to an aggregate of 5% of valuation, except, as per amendment of 1920, that cities of 75,000 or more inhabitants may by a two-thirds vote exceed the limit by an additional 10%; *except* also that with such assent any county may be allowed to become indebted in a larger amount for the erection of a court house or jail, "or (as per amendment of 1906) for the grading, constructing, paving or maintaining of paved, graveled, macadamized or rock roads and necessary bridges and culverts therein; and, as per an amendment of 1920, that cities of 75,000 or more inhabitants may exceed the limit by an additional 20% for the purchase or construction of public utilities; and except, also, per the amendment of 1902 (Section 12a—see V. 75, p. 1165) and amendment of 1920, *cities* of 30,000 inhabitants may, by a two-thirds vote, exceed the limit, by an additional 10% (as per amendment of 1920), for the purchase or construction for water and light purposes; finally (4), that before or at the time of getting the assent of the voters an annual tax must be provided sufficient to pay interest and form a sinking fund to pay the debt within 20 years. We publish below the full text of the sections referred to above, showing the parts added in 1920 in italics:

Sec. 44. *General Assembly Not to Contract Debts Except as Herein.*—The General Assembly shall have no power to contract or to authorize the contracting of any debt or liability on behalf of the State, or to issue bonds or other evidences of indebtedness thereof, except in the following cases:

First. In renewal of existing bonds, when they cannot be paid at maturity, out of the sinking fund or other resources.

Second. On the occurring of an unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred, upon the recommendation of the Governor first had, shall not exceed the sum of $250,000 for any one year, to be paid in not more than two years from and after its creation.

Third. On the occurring of any unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred or to be incurred shall exceed the sum of $250,000 for any one year, the General Assembly may submit an Act providing for the loan, or for the contracting of the liability, and containing a provision for levying a tax sufficient to pay the interest and principal when they become due (the latter in not more than thirteen years from the date of its creation), to the qualified voters of the State, and when the Act so submitted shall have been ratified by a two-thirds majority, at an election held for that purpose, due publication having been made of the provisions of the Act for at least three months before such election, the Act thus ratified shall be irrepealable until the debt thereby incurred shall be paid, principal and interest.

Fourth (Amendment of 1920). *The object of this amendment is, in recognition of military service, to provide employment and rural homes for soldiers, sailors, marines and others who have served with the armed forces of the United States in the European war or other wars of the United States, including former American citizens who served in allied armies against the Central Powers and have been repatriated, and who have been honorably discharged, hereafter referred to as "soldiers"; and to accomplish such purposes by co-operation with the agencies of the United States engaged in work of a similar character. To provide the necessary funds for the State of Missouri to co-operate with the agencies of the United States, the contracting of the liability of the State of Missouri by the issuance of its bonds in an aggregate sum, not to exceed one million dollars, is hereby authorized and directed, said bonds to be in the denomination of one thousand or five hundred dollars each, or of both denominations (as the State Board of Fund Commissioners may determine) and be payable thirteen years from the issuance thereof; shall be payable to bearer in lawful money of the United States, and shall bear interest at a rate not to exceed four and one-half per centum a year (as the State Board of Fund Commissioners may determine), payable semi-annually on the first days of January and July of each year, and to that end suitable coupons shall be attached to each bond for the payment of said interest; each coupon shall have a facsimile of the signature of the State Treasurer engraved thereon. Said bonds shall be redeemable at the option of the State after eight years from date; shall be signed by the Governor, and be countersigned by the Secretary of the State, with the great seal of the State attached; and shall be registered by the State Auditor to which he shall certify on each bond, and authenticate such registration by his signature and his official seal attached; said bonds, when so prepared and executed, under the supervision of the State Board of Fund Commissioners, shall be sold to the best advantage by said Board, but for not less than par. The Proceeds of said sales or sale shall constitute a fund to be designated as the Soldiers' Settlement Fund, and shall be used exclusively as a revolving fund by the Soldier Settlement Board or department for such period of time as it may designate, and for such projects of soldier settlement and at such costs as are approved by the Governor, and requisitions upon the Soldiers' Settlement Fund shall bear the Governor's approval, after which this fund with its accrued earnings shall be returned to the general revenue fund of the State. Contract or contracts for expenditures or loans to carry out the purpose of this Act in excess of said one million dollars, with interest collected thereon, shall, to the amount of said excess, be illegal and void and forever non-payable.*

Sec. 2. Levy authorized for interest and sinking fund.—*That the General Assembly shall, and does hereby levy an annual tax of one cent on the one hundred dollars valuation of the taxable property of the State for the payment of the accruing interest on the said bonds, and for the creation of a sinking fund for the payment thereof, said taxes, beginning with the year 1920, to be levied and collected annually as in case of other State taxes in this State, until said bonds are fully paid.*

Sec. 44a. *In addition to the exceptions made and created in Section 44, the General Assembly shall have the power, from time to time, for the purpose of constructing hard surfaced public roads, in each county of the State, to contract or to authorize the contracting of a debt or liability on behalf of the State, and to issue bonds or other evidences of indebtedness thereof not exceeding, in the aggregate, sixty millions of dollars, such bonds to bear interest at a rate not exceeding five per centum per annum, payable semi-annually, and maturing not later than thirty years from the date they bear. The said bonds and the interest that will accrue thereon shall be paid out of a fund to be provided by the levy and collection of a direct annual tax upon all taxable property in the State. Any motor vehicle registration fees or license fees or taxes, authorized by law, except the property tax thereon, less the cost and expense of collection and the cost of maintaining any State highway department or commission, authorized by law, shall, after the issuance of such bonds, and so long as any bonds herein authorized are unpaid, be and stand appropriated without legislative action for and to the payment of the principal of the said bonds, and shall be credited to a sinking fund to be provided for by law. It shall be the duty of the State Auditor, annually, on or before the first day of July, to determine the rate of taxation necessary to raise the amount of money needed for that year to pay the principal and interest maturing in the next succeeding year, taking into consideration available funds, delinquencies and the cost of collection. The Auditor shall annually certify the rate of taxation so determined to the clerk of the county court of each county and to the assessor or other officer in the city of St. Louis, whose duty it may be to make up and certify the tax books wherein are extended the State taxes. It will be the duty of said clerks and the said assessor or other proper officer in the city of St. Louis to extend upon the tax books the taxes to be collected and certify the same to the collector of the revenue of their respective counties, and the city of St. Louis, who shall collect such taxes at the same time and in the same manner and by the same manner and by the same means as are now or may hereafter be provided by law for the collection of State and county taxes, and pay the same into the State treasury. The Legislature shall enact such laws as may be necessary to carry into effect this amendment.*

Sec. 45. *State's Credit Not to be Loaned.*—The General Assembly shall have no power to give or to lend, or to authorize the giving or lending of the credit of the State in aid of or to any person, association or corporatoin, whether municipal or other, or to pledge the credit of the State in any manner whatsoever, for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever: *Provided*, That the General Assembly shall have the power to appropriate from funds in the State sinking fund, being the proceeds of the tax authorized under Section 14 of Article X of the Constitution, to an amount not exceeding $1,000,000 for the exhibition of the resources, products and industries of the State in the centennial celebration of the Louisiana purchase in the city of St. Louis.

Sec. 46. *Public Money, Grant of, Prohibited.*—The General Assembly shall have no power to make any grant, or to authorize the making of any grant of public money or thing of public money or thing of value to any individuals, municipal or other corporation whatsoever: *Provided*, That this shall not be so construed as to prevent the grant of aid in a case of public calamity.

Sec. 47. *Municipalities Not to Lend Credit or Grant Public Money—Firemen's Fund Permitted.*—The General Assembly shall have no power to authorize any county, city, town or township, or other political corporation or subdivision of the State now existing, or that may be hereafter established, to lend its credit, or to grant public money or thing of value in aid of or to any individual, association or corporation whatsoever, or to become a stockholder in such corporation, association or company: *Provided*, That this shall not be construed as to prohibit the General Assembly from providing by law for authorizing the creation, maintenance and management of a fund for the pensioning of crippled and disabled firemen, and for the relief of the widows and minor children of deceased firemen, by such cities, villages or incorporated towns as may have an organized fire department—said fund to be taken from the municipal revenue of such cities, villages or incorporated towns.

Sec. 6. *Municipalities Not to Subscribe to Capital Stock nor Aid Corporations or Institutions.*—No county, township, city or other municipality shall hereafter become a subscriber to the capital stock of any railroad or other corporation or association, or make appropriation or donation, or loan its credit to or in aid of any such corporation or association, or to or in aid of any college or institution of learning or other institution, whether created for or to be controlled by the State or others. All authority heretofore conferred for any of the purposes aforesaid by the General Assembly, or by the charter of any corporation, is hereby repealed: *Provided, however*, That nothing in this Constitution contained shall affect the right of any such municipality to make such subscription, where the same has been authorized under existing laws by a vote of the people of such municipality prior to its adoption, or to prevent the issue of renewal bonds, or the use of such other means as are or may be prescribed by law for the liquidation or payment of such subscription, or of any existing indebtedness.

Sec. 12. *Municipal Indebtedness, Limit of—How Increased—Exceptions.*—No county, city, town, township, school district or other political corporation or subdivision of the State shall be allowd to become indebted in any manner or for any purpose to an amount exceeding in any year the income ane revenue provided for such year, without the *consent* of two-thirds of the voters thereof voting *on such proposition* at an election to be held for that purpose; nor in cases requiring such assent shall any indebtedness be

allowed to be incurred to an amount including existing indebtedness, in the aggregate exceeding 5% on the value of the taxable property therein, to be ascertained by the assessment next before the last assessment for State and county purposes, previous to the incurring of such indebtedness, *except that cities having a population of seventy-five thousand inhabitants or more may, with the assent of two-thirds of the voters thereof voting on such proposition at an election to be held for that purpose, incur an indebtedness not exceeding ten per centum on the value of the taxable property therein, to be ascertained by the assessment next before the last assessment for State and county purposes previous to the incurring of such indebtedness; such propositions may be submitted at any election, general or special: Provided*, That with such assent any county may be allowed to become indebted to a larger amount for the erection of a court house or jail, or for the grading, construction, paving or maintaining of paved, graveled, macadamized or rock roads and necessary bridges and culverts therein; *and provided further*, That any county, city, town, township, school district or other political corporation or subdivision of the State, incurring any indebtedness requiring the assent of the voters as aforesaid, shall, before or at the time of doing so, provide for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof, within twenty years from the time of contracting the same: *And provided further*, That the corporate authorities of the city of St. Louis are hereby authorized to issue interest-bearing bonds of said city in the amount of $5,000,000 at a rate of interest not to exceed 4% per annum, the principal payable within thirty years from the date of their issue, and the proceeds thereof shall be paid to the corporation organized for the celebration of the Louisiana purchase centennial in said city, to be used by said corporation for said celebration, holding a world's fair or exposition in said city. And said corporate authorities of St. Louis shall be repaid as large a proportionate amount of the said gifts by them as shall be repaid to the stockholders of said corporation on the sum subscribed and paid by them, and any surplus remaining from the assets of said corporation, after said stockholders and said city shall have been paid in full, shall be divided between said stockholders and said city in proportion to the aggregate amount of said stock so paid in and the amount so loaned by said city; and any amount so received by said city from said corporation shall be paid into the sinking fund of said city for the redemption of its outstanding bonds: *Provided*, That if, at the election for the adoption of this amendment to the Constitution, a majority of the votes cast within the limits of said city of St. Louis voting for and against this amendment shall be against its adoption, then no bonds shall be issued under this amendment; *and provided further*, That no such indebtedness so created shall be in any part thereof paid by the State or from any State revenue, tax or fund, but the same shall be paid by the city of St. Louis alone. *Provided*, That in the city of St. Louis the amount of bonds now aggregating $6,111,000, that being the amount assumed by said city in the scheme of separation from the county of St. Louis and the sum of $5,808,000 heretofore prior to Jan. 1 1901 expended in the construction of water works for the city of St. Louis, and any bonds which may be hereafter issued by said city in the construction and improvement of water works, the payment of the interest thereon and the principal whereof shall be provided from the revenues of said water works; that is to say, the amount of said bonds which shall be outstanding at any time shall not be included in the computation of the existing bonded indebtedness in determining the amount of bonds authorized to be issued by said city with the assent of two-thirds of the voters under the provisions of this article, but said city shall be authorized at any time to issue bonds with the assent aforesaid, to an amount, including outstanding indebtedness, other than that above named, to the amount of *ten per cent* of the value of the taxable property in said city, to be ascertained as above provided, and said city shall have power, with such assent of the voters, to issue bonds for the construction and improvement of water works, the interest whereon and the principal whereof shall be provided for from the income of said water works. Said city shall establish a sinking fund for the payment of the bonds so authorized according to the times fixed for the maturity of the same: *Provided, further*, that every city *which now has or may hereafter attain a population of seventy-five thousand or more inhabitants may acquire, by purchase, condemnation or construction, water works, gas works, electric light works, street railways, telegraph and telephone systems, heating plants, ice or refrigeration plants, or any other plant, system or public service institution, within or outside of the limits of such city, for the use of the city or its citizens, and for the purpose of paying therefor, in whole or in part, may issue public utilities bonds, which public utilities bonds shall not be included in the liabilities or indebtedness of the city limited by the prior provisions of this section; but the total amount of such public utilities bonds to be issued by such city shall not exceed twenty per centum of the value of the taxable property in said city, to be ascertained as above specified. The principal of said public utilities bonds shall not constitute an obligation of the city enforcible out of the funds raised by taxation. Such city may also issue its bonds, other than public utilities bonds, for the payment, in whole or in part, for such public utilities, and such bonds, other than public utilities bonds, shall constitute a direct obligation of the city, but the total amount of such bonds, other than public utilities bonds, shall not exceed in the aggregate ten per centum of the taxable property therein, as hereinbefore provided, but such bonds, other than public utilities bonds, shall require the assent of two-thirds of all the legal votes cast on that proposition. The ordinance authorizing the purchase, condemnation or construction of such public service plant or system shall provide what portion, if any, of the cost thereof shall be paid by issue of public utilities bonds, and what portion, if any, shall be paid by issue of general bonds of the city, other than public utilities bonds. The principal and the interest of such public utilities bonds shall be paid out of the earnings or sale of the utilities plant or system for the acquisition of which said issue was made, but the city may thereafter provide, by ordinance, for the payment in any year of any part of the interest or principal of said bonds due in that year, out of the general revenue of that year raised by general taxation. Such city shall have power to execute its mortgage or mortgages on any such utility, or any addition thereto, or extension thereof, to secure the payment of such public utilities bonds, and in case of default in the payment of such public utilities bonds, and the interest thereon or interest thereon, said bondholders, or their representatives, may appeal to any court of competent jurisdiction, sitting in the county or city in which such city is located, and said court may, in its discretion, if said default continue, appoint a receiver to take charge of such property, and such receiver shall operate said property pending such proceeding in such court, and until a final decree of foreclosure in such proceeding, and for a period of one year thereafter, during which period the city may, upon payment to the bondholders of all indebtedness past due, and court costs, and receivers's obligations, retake said property, subject to its unmatured obligations. If said property is not thus retaken by the city in said period of redemption, said receiver shall deliver said property to such party, as the court in such action may order, and thereupon all liability of the city on said bonds shall cease and determine and its rights as owner of said utility or plant shall cease and determine, and thereafter said utility or plant shall be operated by the party named in said order of courts, or his successors or assigns, in conformity with and subject to the provisions of the ordinance authorizing the acquisition or purchase or construction of said public utility or plant, and the issuance of bonds therefor; but such city shall not issue any such public utilities bonds without the assent of four-sevenths of the voters thereof, voting on that proposition, at an election to be held for that purpose, and such proposition may be submitted at a special election or at a general election, in either of which events if four-sevenths of all of the legal votes cast on such proposition are in favor of the issue of said bonds, the city shall have authority to issue the same. Such utility may be acquired by condemnation proceedings in the same manner that such city may acquire real estate for public purposes, or in such other manner as may be provided by law. Such city may, by a vote of the people in the manner herein provided, take up any public utilities bonds and issue its general bonds in lieu thereof, and may take up any general bonds issued on account of any public utility and issue public utilities bonds in lieu thereof, whenever there exists such debt-making power of the city as will authorize the issue of such new bonds, but no substitution shall be made without the consent of the holders of such bonds.*

Sec. 12a. *Certain Cities Allowed to Incur Additional Indebtedness for Water Works and Light Plants.*—Any city in this State containing not more than 30,000 inhabitants may, with the assent of two-thirds of the voters thereof, voting at an election to be held for that purpose, be allowed to become indebted in a larger amount than specified in Section 12 of Article X of the Constitution of this State, not exceeding an additional *ten per centum* on the value of the taxable property therein, for the purpose of purchasing or constructing water works, electric or other light plants, to be owned exclusively by the city so purchasing or constructing the same: *Provided*, That any such city incurring any such indebtedness, requiring the assent of the voters as aforesaid shall have the power to provide for, and before or at the time of incurring such indebtedness, shall provide for the collection of an annual tax in addition to the other taxes provided for by this Constitution, sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof within twenty years from the time of *contracting* the same, any provision in this Constitution to the contrary notwithstanding.

[See V. 104, p. 2258, for reference to decision handed down by the State Supreme Court on May 22 1917, ruling that county highways may be constructed through cities.]

TAXATION OF MUNICIPAL BONDS.—In reply to our inquiry as to whether or not bonds or notes or other evidences of indebtedness issued by the State or any of its municipalities were exempt from taxation, we were advised under date of December 8 1911 by the Secretary of State that "bonds or notes or other evidences of indebtedness issued by this State are subject to taxation under the State constitution. There has been no legislation enacted exempting such papers from taxation."

SECURED DEBT TAX LAW VOID.—The Supreme Court of Missouri on July 8 1921 held the secured debt tax law, passed by the 1917 Legislature, invalid.

SAVINGS BANK INVESTMENTS—PURPOSES FOR WHICH CORPORATION MAY BE CREATED—INVESTMENT OF DEPOSITS.—The law regulating the investments by Missouri savings banks is governed by Section 1147 of Article 4 of the Banking Laws of that State, revision of 1915, which read as follows:

Sec. 1147. Purposes for which corporation may be created—Investment of deposits.—Corporation may be created under this article: First, for the purpose of receiving, for accumulation and safe-keeping, any deposit of money, from any person, corporation or society, and investing, holding and repaying the same crediting and paying interest thereon, as in this article authorized and provided, and not otherwise; and secondly, also, at its option, in connection therewith, or the purpose of taking and receiving as bailee for safe-keeping and storage only, jewelry, plate, money, specie, bullion, stocks, bonds, securities and valuable papers of any kind, and other valuables, and guaranteeing their safety, upon such terms and for such compensation as may be agreed upon; and to let out vaults, safes and other receptacles for the uses, purposes and benefits of such corporation. All sums so received, except those held as bailee for safe-keeping and storage only, and the income derived therefrom, and all moneys entrusted to any such corporation, by order of the court or other lawful authority, shall be invested only as follows:

First—In bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged for the payment of the interest and principal.

Second—In bonds of this State bearing interest.

Third—In bonds of any State in the Union that has not, within five years previous to making such investments by such corporation, defaulted in the payment of any part of either principal or interest thereof.

Fourth—In bonds of any city, county, town, township or school district of this State that has not defaulted in the payment of any part of either principal or interest thereof, within five years previous to making such investment; *and provided*, such bonded debt does not exceed 5%.

Fifth—In the bonds of any city, town or county which had, in each case, at the time of the investment, more than 20,000 inhabitants, as ascertained by the United States or State census made next preceding such investment in States of Illinois, Ohio, Indiana, Michigan, Iowa, Kansas, Nebraska, Wisconsin, Colorado or Texas, issued pursuant to the authority of any law of such States: *Provided*, the entire bonded indebtedness of such city or county shall not exceed 5% of the assessed value of the taxable property therein, including the issue of bonds in which said investment is made, as shown by the last assessment preceding the investment; *and provided further*, that such city, town or county, or State in which it is situated, has not defaulted in the payment of any part of either principal or interest thereof within five years previous to making such investment. It shall not be lawful for any savings institution organized under this article to invest more than 25% of its assets in the bonds of cities, towns or counties situated outside of this State, nor to invest more than 3% of its assets in the bonds of any one of such cities, towns or counties, nor to invest in more than 10% of all the bonds issued by any such city, town or county, nor to make any investment in the bonds of any city, town or county situated out of this State, which has been or shall be issued to aid in the construction of any railroad.

Sixth—In the first mortgage bonds of any steam railway, the income of which is sufficient to pay all operating expenses and fixed charges, and which is completed and operated, wholly or in part, in the following States: Missouri, Indiana, Iowa, Minnesota, Kansas, Nebraska, Colorado, Michigan, Illinois, Wisconsin, Arkansas, Texas and Ohio, and which has paid the interest as it became due on its bonds for three years next preceding such investment, or in the first mortgage bonds of the Central Pacific, Northern Pacific, Union Pacific, New York Central, West Shore and Pennsylvania railway companies.

Seventh—In bonds or notes secured by first mortgages or deeds of trust on unencumbered real estate, worth at least twice the amount loaned thereon: but in case the loan is on unimproved and unproductive real estate, the amount loaned shall not be more than 40% of its actual value; but not to exceed 60% of the whole amount of the funds of the corporation shall be so loaned or invested: and no investment in any bond or note so secured shall be made, except upon the report of a committee charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged, according to their best judgment, and such report shall be filed and preserved among the records of the institution.

Eighth—In real estate, subject to the provisions of Section 1148 of this article.—It shall be the duty of the directors of any such corporation, as soon as practicable, to invest such fund of money, by purchase or otherwise, in the securities named in Sections 1147 and 1148 of this article, with power from time to time to sell and reinvest the proceeds of such investment: but for the purpose of meeting current payments and expenses in excess of the receipts, any of the securities may be sold or pledged: and there shall be kept an available cash fund of not less than 15% of the whole amount of its assets, and the same, or any part thereof, together with the current receipts, over the payments, may be kept on hand or on deposit, payable on demand, in any bank or banking association in the State of Missouri, organized under any law of this State or of the United States, or with any safe deposit company or trust company incorporated under the laws of this State. The deposits in any one bank, safe deposit or trust company shall not exceed 20% of the total deposits, capital and surplus of the depositing bank. (R. S. 1899, Sec. 1445, amended Laws 1907, p. 124.)

Sec. 1148. May purchase and sell real estate, when.—It shall be lawful for such corporation to purchase, hold, sell and convey real estate, as follows:

First—A plot whereon is erected or to be erected a building or buildings requisite for the convenient transaction of its business, and from portions of which, not required for its own use, a revenue may be derived, the cost not to exceed the sum of $100,000, except in cities of over 300,000 inhabitants, when the cost shall not exceed $250,000.

Second—Such as shall be purchased by it at sales upon the foreclosure of mortgages or deeds of trust owned by such corporation, or upon judgments or decrees rendered for debts due to it, or purchased or taken in settlements to secure such debts; and all such real estate mentioned in this clause shall be sold by such corporation within five years after the same shall be vested in it, unless the bank commissioner shall extend the time within which such sale shall be made. No such corporation, nor any person acting in its behalf, shall negotiate, take or receive a fee, brokerage, commission or gift, or other consideration, for or on account of a loan made by and in behalf of such corporation other than appears on the face of the note or contract by which such loan purports to be made; but nothing contained herein shall apply to any reasonable charge for services in the examination of titles and the preparation of conveyance to such corporation as security for its loans. All sums paid for services, fees or otherwise, to a member of the board of directors shall be reported in detail at such regular meeting of the directors. All applications for loans shall be made in writing through the treasurer of the corporation, who shall keep a record thereof, showing the date, name of applicant, amount asked for and the security offered, and shall cause the same to be presented to the board of directors. (R. S. 1899, Sec. 1446, amended, Laws 1907, p. 124.)

FEDERAL FARM LOAN BONDS.—In 1921 the State Legislature passed an Act—in effect March 31 1921—providing "that trustees, guardians, curators, banks, savings banks, trust companies, insurance companies, assurance, casualty, fidelity and guaranty companies, and building and loan associations may invest any funds held by them in bonds issued under the provisions of the Act of Congress, approved July 17 1916, and known as the Federal Farm Loan Act, and that such bonds shall be accepted as security for all public deposits and in all cases where bonds are required by law to be deposited with any department or public official of this State."

POPULATION OF STATE.—

1920	3,404,055	1880	2,168,380	1840	383,702
1910	3,293,335	1870	1,721,295	1830	140,455
1900	3,106,665	1860	1,182,012	1820	66,557
1890	2,679,185	1850	682,044	1810	19,783

The proportion of the colored population was 6.70% in 1880, 5.70% in 1890, 5.2% in 1900, 4.8% in 1910 and 5.2% in 1920. In number, blacks were 90,405 in 1850, 118,503 in 1860, 118,071 in 1870, 145,350 in 1880, 154,131 in 1890, 161,234 in 1900, 157,452 in 1910 and 178,241 in 1920.
